a. WEIGHT RESTRICTIONS

The Detachment Commander serving an accompanied tour is authorized full JTR. Unaccompanied military members are authorized the unaccompanied weight allowance as prescribed in the JTR.

b. CONTAINER/CRATING REQUIREMENTS

All unaccompanied baggage shipments via the DPM method only. All Household Good shipments must be routed through the OTO system. Block 18 on the GBL must show member's name with actual destination.Do not show Roosevelt Roads information.

c. HARD LIFT AREA

No restrictions identified.

d. UNACCOMPANIED BAGGAGE

The transit time for HHE shipments from the U.S. to Argentina can take four to six weeks. Transit for UAB shipments should only take a week. UAB & HHE clearance is normally processed within two to three weeks once it arrives in Argentina. Administrative & Technical employees should note that their diplomatic accreditations do not allow for supplemental shipments, including layettes, later than six months after arrival.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. Argentine customs require full accreditation before releasing your shipments (i.e., UAB, HHE, POV).¿ The accreditation process generally takes ten working days after the receipt of your documents upon arrival.¿ For shipping questions, contact the Customs & Shipping Team at BUEGSO-Customs-Shipping@state.gov < Caution-mailto:BUEGSO-Customs-Shipping@state.gov >. b. Personnel on the diplomatic list may import duty free UB and HHG in reasonable quantities for their own use at any time during their assignment to Argentina. Military personnel of the Military Group (MilGroup) are accorded the same import privileges as Diplomatic Officers by terms of special agreement. Nondiplomatic personnel may import more than one personal property shipment free of customs duties provided shipments arrive within 180 days of member's arrival in Argentina. c. All shipments are subject to customs inspection. Argentina requires original copy of commercial bill of lading to initiate customs clearance. When the original bills of lading and/or airway bills have been received, it will take about 2 weeks to process the free entry permits. The Argentine Foreign Office will not initiate clearance for the importation of personal property or POVs before the owner has arrived. d. Contact Embassy Administrative Office or sponsor for any additional information regarding POVs or HHG shipment. e. In Order to obtain import permits fro the Argentine Ministry of Foreign Affairs, fax a copy of the Bill of Lading and packing list to GSO/Customs and Shipping Office, phone No 54-11-5777-4200 or send an email to the Shipping Assistance: Maria Fernanda Lamazares, email address: lamazaresmf@state.gov or Maria Jose RIvero y Hornos, email address: riveromj@state.gov Original shipping documentations are required to clear the shipment through customs. Send this documentation via air courier (Buenos AIres is served by DHL / UPS / Fed EX) as soon as possible

Dogs and cats require certificate of good health issued within 10 days before departure and rabies vaccination issued no more than 30 days and less then one year before departure, issued by a Federal Veterinary Officer in the country from which arriving, duly validated by the nearest Argentine Consul. Failure to meet these requirements could result in longer periods of quarantine for pets. Boarding facilities for pets are limited and are located in the suburbs.

7. PRIVATELY OWNED FIREARMS (POF)

Firearms and Ammunition: Based on Argentine law and Post Policy employees are permitted to import a maximum of two personally owned weapons at any one time while in country (i.e. any combination or rifled, shotguns or handguns). Subject to prior specific approval of the Chief of Mission, U.S. Government personnel may bring no more than three non-automatic only weapons (pistols, rifles, or shotguns) for sporting purposes only and 1,000 rounds of ammunition, approved in advance by the COM, may be shipped to post without a U.S. firearms export license, provided they are consigned to U.S. personnel for their personal use and not for resale. Argentine Government regulations require a free-entry permit signed by the Chief of Mission for import which GSO will arrange. In addition, all firearms imported must be registered with the Argentine National Arms Registry (RENAR). GSO will arrange this for the member. b. Requests for shipments of firearms and ammunition must be made through the Regional Security Office to the Chief of Mission before such weapons can be shipped. In the request please include identifying data of the firearms,

plus its intended purpose and statement of your qualifications to use safely each of the weapons for which approval to ship to post is requested.Any employee wishing to import a firearm must send a cable to post¿s Admin Officer at least 30 days prior to pack-out from the losing post, requesting permission to import the firearm (s). A form will be provided in accordance with the Post firearms policy. This must be returned prior to arrival for approval by the Ambassador.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

No Restrictions Identified.

8. PRIVATELY OWNED VEHICLES (POVs)

No Restrictions Identified.

a. POVs (includes data on prohibited vehicles, colors, etc.)

The Government of Argentina imposes many restrictions on POV importations. Vehicles can be difficult to sell at the end of your tour. Please review this information thoroughly and contact GSO before purchasing a new vehicle or exporting your current one. We strongly encourage you to contact GSO Shipping (BUEGSO-Customs-Shipping@state.gov < Caution-mailto:BUEGSO-Customs-Shipping@state.gov >) early in your transition planning. There is no restriction to the age of the POV; however, other restrictions may apply: * Sports cars are prohibited * Brand new cars are prohibited * Convertibles are prohibited Vehicles must be used. If the vehicle is within the current or most recent model year, you must either be at least the second owner, or the vehicle must have more than 100 miles on the odometer.¿ Contact GSO Shipping with the details of your vehicle before committing to shipping a current model year vehicle.

Preauthorization for POV import is required.¿ The shipping company cannot initiate the vehicle shipment until they receive this authorization. Post recommends that transferring employees initiate their request as soon as they have identified the POV they wish to send to post. The preauthorization can be processed up to six months prior to the employee’s arrival with the following documentation: * Title of vehicle in the employee’s name * Bill of sale

* Copy of passport All imported vehicles must be re-exported or sold to another diplomat.¿ Employees granted a diplomatic title may import two vehicles; administrative and technical staff can bring or have only one vehicle.¿If you are a student or an Administrative & Technical employee, you only have six months from the date of your arrival to import a car. Motorcycles are considered and

treated by the Argentine MFA as POVs and may not be included in the HHE shipment. Motorcycles require the same preauthorization to be imported.¿ The U.S. government pays for the transportation of one POV; employees choosing to ship a second vehicle, or a motorcycle are responsible for those shipping charges.¿¿ Employees may also purchase a POV from another diplomat (duty free), local dealership, or private individual.¿ Locally purchased vehicles carry heavy importation tariffs that cannot be waived, except for value-added tax. If you intend to purchase a used POV from another diplomat, you are still required to secure authorization from the MFA. Post will not authorize the purchase of a POV that cannot be subsequently exported into the United States. A vehicle purchased locally (e.g., from a dealer) can be freely sold on the local economy. Please note that purchasing a vehicle from another diplomat or in the local market includes a broker's fees of around USD350 which must be paid by the employee. Be aware that the sale of your POV upon departure from post is extremely difficult. Argentine regulations require all departing employees to either sell or dispose of their POV before releasing other shipments departing the country. This specifically means that POV sales must be completed or the vehicle sold before UAB or HHE shipments can leave Argentina. Sale to another diplomat is the best option for local disposal. However, this transaction must occur between credentialed diplomats in Argentina within a month after the departure of the officer and the first month of the incoming one. After this period, the transfer cannot be completed. Please check with Customs and Shipping before purchasing a second vehicle locally as many vehicles do not meet U.S specifications and cannot be imported into the United States. POV Processing Timeline Shipping time for POVs can vary, but it normally takes six weeks or more, and you must be accredited prior to registration, which can take up to four weeks. Below are the general timelines for processing your POV upon arrival: * Imported POV, upon arrival in country, and after accreditation o Customs clearance and receipt of license plates and registration: eight weeks. To receive the plates, the officer will have to pay for the insurance and bring the receipt, directly to GSO/Shipping the receipt.

* Purchased locally from another diplomat, who is concurrently accredited o Transfer of ownership and receipt of license plates and registration:¿ six weeks * Purchased locally from a dealership or private individual o Transfer of ownership and receipt of license plates and registration:¿ six weeks Vehicle Value Limits Argentina imposes value limits on imported cars depending on your diplomatic rank as follows: * Chief of Mission:¿ No limit

* Deputy Chief of Mission, Minister Counselor, Minister, Consul General, Principal Attachés of the Armed Forces (with minimum rank of Colonel):¿ USD 65,000 * Counselor, Deputy Consul General (with rank of Counselor):¿ USD 55,000 * First and Second Secretaries, Consuls with equivalent rank of First and Second Secretaries and Assistant Military Attachés (with rank lower than Colonel): USD 45,000 * Third Secretaries and Consuls of equivalent rank: USD 35,000 * Attachés, Vice Consuls, Special Mission members (MILGP), and Administrative & Technical employees: USD 30,000

b. MOTOR CYCLES/MOPEDS

Motorcycles/mopeds are considered POVs. They may be shipped with HHG but must be individually manifested. MOTORCYLCE CAN BE SHIPPED IN HHE SHIPMENTSEMPLOYEE CAN SHIP POV AND MOTORCYCLEMOTORCYCLE HAS TO BE PREVIOUSLY APPROVED. REQUEST MUST HAVE THE FOLLOWING: MOTORCYCLE TITLE IN OFFICER'S NAME, BRAND, MODE YEAR,TYPE, VIN#, ENGINGE #, DATE PURCHASED, COPY OF THE BILL OF SALE, PASSPORT#, DATE OF ARRIVAL IN COUNTRY

Motorcycles, as well as second POVs, must be shipped out of Argentina upon completion of individual's tour. Ship via sea containers.

c. GASOLINE/CATALYTIC CONVERTERS

No restrictions identified.

d. INSURANCE AND SAFETY REQUIREMENTS

The MFA requires all diplomats with POVs to obtain local third-party liability insurances for their entire stay in Argentina.C&S personnel can assist you in obtaining insurance coverage through the company used for the embassy's official vehicles. The estimated price is generally ARS 8,000. Officers that wish to get comprehensive or full-coverage insurance should maintain their foreign policies, as local insurers do not provide these services to diplomatic vehicles. In addition, when travelling to a neighboring country, an insurance extension policy is required. Please contact C&S for assistance.

6. PETS/QUARANTINE

Extended period of quarantine (6-9 months) is required for pets shipped to Australia. Shorter periods of quarantine may occur if requirements for pet import is initiated earlier. Member should contact the nearest Australian Consulate for details.Australia- Pet Information*** For the most current information, refer to Australia's Department of Agriculture, Fisheries, and Forestry site at https://www.agriculture.gov.au/biosecurity-trade/cats-dogs/how-to-import/step-by-step-guides/category-3-step-by-step-guide-for-dogs#group-3-countries. ***Limitations to consider before travel:Pets can only be imported into Australia if they are traveling from an approved country. Visit https://www.agriculture.gov.au/biosecurity-trade/cats-dogs/how-to-import/step-by-step-guides#group-1-country-cats-and-dogs to see a list of "approved" countries and determine the country-of-origin Group. The pet must be living in an approved country for at least 180 days before leaving that country.Allow at least 6 months to complete health checks, tests and paperwork.All procedures must be completed by a credentialed veterinarian in an approved country (including once the animal is received in Australia, which limits destination locations and dates of travel).It is very expensive to import an animal into Australia (plus the additional cost of the flight).There are several breed restrictions of dogs (hybrids- Czechoslovakian wolfdog or Czechoslovakian Vlcak, Saarloos wolfdog or Saarloos wolfhound, Lupo Italiano or Italian wolfdog, Kunming wolfdog or Kunming dog; pure breeds- dogo Argentino, fila Brasileiro, Japanese tosa, American pit bull terrier or pit bull terrior, Perro de Presa Canaria or Presa Canario).There are several cat breed restrictions, which include any mixed or hybrid of the following: Savannah cats, serval cat, Safari cats, Geoffrey cat (Oncifelis geoffroyi), Chausie cats, Jungle cat (Felis chaus), Bengal cats, or Asian leopard cat (Prionailurus bengalensis).Old or sick animals requiring extensive medications are discouraged from traveling due to stress and inability to receive medications during transit and quarantine.All dogs must travel as manifested cargo (not in the cabin) and arrive in an IATA-compliant crate.Transportation Considerations:The pet must arrive in Australia before their import permit expires (when the RNATT expires).Pet must travel in an IATA-approved crate. The pet will be transported to Mickleham post entry quarantine facility where it will be examined and determined to be free from disease and ensure appropriate paperwork. Pets will remain quarantined at this facility for 30 days (unless they are eligible for the 10-day stay).Should you choose to bring your pet to Australia, despite the extensive work and expense on the front-end, the following are required:Vaccination Requirements:1. Dogs:a. Rabies. Dogs over 12 weeks of age must present certification that the dog has been vaccinated by a U.S. veterinarian. 3 years are acceptable.b. Leptospira canicola (or test negative)c. Canine influenzad. Optional: distemper, hepatitis, parvovirus, para-influenza, bordetella bronchiseptica2. Cats:a. Rabies. Cats over 12 weeks of age must present certification the cat has been vaccinated by a U.S. veterinarian.b. Optional: feline enteritis (panleukopenia or feline distemper), rhinotracheitis, calicivirusAdditional Requirements:1. Pet must be microchipped or tattooed. The microchip must be a 15-digit ISO Standard. This must be placed prior to receiving their first Rabies vaccine and be listed on any pre-export blood sampling documents. If two microchips are placed, both must be placed on the import permit, lab reports, and health certificate.2. To reduce the quarantine to a minimum of 10 days: Your pet's identity must be confirmed at least 180 days before export by a competent authority in an approved country before any pre-export preparations (even bloodwork); this must be a separate appointment from bloodwork and vaccines.3. A passing rabies neutralising antibody titre test (RNATTA) is required between 12 months and 180 days before the date of export. Blood must be taken at least 3-4 weeks after the rabies vaccine is administered. A passing rabies titer test (FAVN) counts. The microchip must be verified before blood is collected. A copy of the report must be presented. Once the blood is received in the laboratory, it starts the 180-day waiting period before the pet can be exported.4. Apply and pay for the import permit as soon as the RNATT results are finalized. Most permits are issued 20-40 business days, but can take up to 123 business days. Must provide a copy of the RNATT lab report, rabies documents, and corresponding RNATT declaration,

endorsed by the veterinarian. For more information on how to apply for the permit, refer to https://www.agriculture.gov.au/biosecurity-trade/cats-dogs/how-to-import/permit5. A USDA-APHIS endorsed health certificate (APHIS Form 7001) must be completed within 10 days of travel.6. Original rabies certificate.7. Book your pet's post-entry quarantine stay at Mickleham post entry quarantine facility. For booking and additional questions, visit https://www.agriculture.gov.au/biosecurity-trade/cats-dogs/quarantine-facilities-and-fees/our-facility8. (Dogs) Additional blood tests for Leptospira interrogans (if unvaccinated), Brucella canis (if intact), and Leishmania infantum.9. An ectoparasite treatment effective against ticks to be administered within 30 days of travel and last until date of export.10. An anthelmintic treatment effective against tapeworms to be administered twice within 45 days before export and spaced 14 days apart, but the second dose must be given within 5 days before the export date.Ensure your pet is registered in Australia upon arrival.End of tour, return to CONUSAustralia is considered a low-risk rabies country. Follow CDC procedures at https://www.cdc.gov/importation/dogs/rabies-free-low-risk-countries.html(CH USTC/J9, 13MAY25, TF)_____

7. PRIVATELY OWNED FIREARMS (POF)

a. Due to stringent Australian gun laws and costs involved, members are strongly advised not to import a firearm. Members will be responsible to meet all requirements for possessing guns, to include, being an active member of an Australian gun club and firing the weapon at least once a month. The Government of Australia has prohibited entry of the following firearms: - self-loading (automatic or semi-automatic) rim fire rifles, - self-loading center fire rifles, - self-loading shotguns, - pump shotguns, - air-soft guns (CH 16-Nov-2020 TCJ9-OH-Pac RB) Unapproved weapons shipped to Australia will be required to be exported at the member's expense. For all other firearms, (any weapon capable of firing a projectile), approval must be obtained by the member through the destination TMO, Chief of Mission, and Australian Government before shipping firearms in HHG or UB. All firearms will be put in the number one container to facilitate clearance. b. Shipment of ammunition/explosives to all areas is prohibited.

a. HAND GUNS

See restrictions above.

b. RIFLES/SHOT GUNS

See restrictions above

c. TOY RELATED GUNS

No Restrictions Identified.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

Weapons including, but not limited to: firearms or parts (including air pistols and air rifles), ammunition, replica firearms, spring-bladed knives, daggers, knuckle dusters or martial arts equipment, and body armor are STRICTLY PROHIBITED in Australia. If a customer ships any of the above listed items in their HHG or UB, those items will be confiscated by the Australian Government

and the customer will be responsible for paying any and all fees associated with the confiscation. BODY ARMOR is ONLY allowed to be imported into Australia if required to perform official duties while assigned in Australia, and MUST be cleared by the gaining Commander in Australia prior to departure from origin. (CH 21-AUG-2018 TCJ4-HB RB)

8. PRIVATELY OWNED VEHICLES (POVs)

(CH Entire Section USTC-Pacific J9, 02JUL25, TF) POVs imported into Australia (AU) must undergo a rigorous customs and quarantine process which can take up to 8-10 weeks. This process is NOT controlled by the DoD or the US Government. DoD Personnel should expect to be without their POV for a MINIMUM of 3 months after arrival into Australia. Car-rental prices in Australia vary, roughly $25-30 AUD per day. This is an out-of-pocket expense for DoD Personnel, so shipping your POV as early as possible is recommended to avoid potential hardship. Personnel in Diplomatic status are STRICTLY PROHIBITED from importing POVs into Australia. For more info, contact your State Department representative. US Forces personnel under the Status of Forces Agreement (SOFA) are entitled to import ONE duty-free POV/motorcycle. 1. As of 14-Oct-2021, the Director of the Legislation and Regulatory Policy Section for the Australian Department of Infrastructure has verified DoD personnel covered by the SOFA are NO LONGER required to obtain a Vehicle Import Approval (VIA) prior to importing a POV into Australia. (CH 15-Oct-2021 TCJ9-OH-PAC RB) 2. All POVs imported into Australia are required to have an asbestos inspection performed at an approved testing facility which can be found at www.ilac.org/. Once the inspection is completed, the testing facility will provide the member with the documentation outlining the testing and sampling results and specifying the POV has no evidence of asbestos. Members are also required to provide a copy of the testing and sampling results to the origin VPC prior to POV turn-in. 3. Also, all vehicles to include motorcycles/mopeds are still subject to testing upon arrival in Australia at the discretion of the Australian Government. Australia has a ZERO TOLERANCE policy for asbestos. If vehicles are inspected and found to contain any amount of asbestos, customers are subject to asbestos border criminal offense which could result in a fine of not more than 1,000 penalty units ($160,000) and/or imprisonment for up to five years and the vehicle will be declined entry into Australia.4. Military customers who are assigned to Australia are advised that they could incur costs associated with required modifications and road worthiness prior to registering the POV. Modification requirements may cost more than $1,000 USD. Customers should ensure their POV has good tires as inadequate tire tread is a common trend among imports. Purchasing tires within Australia can be a costly expense. Some POVs require a replacement/realignment of headlights and installation of amber turn signals.5. Due to lengthy transit times and registration requirements, personnel assigned to Australia for one-year tours should contact the destination transportation office for additional information. 6. Right Hand Hrive (RHD) POVs from countries other than Australia are NOT recommended. These POVs DO NOT meet Australian Design requirements, ARE NOT fitted with an Australia Compliance Plate, and ARE NOT authorized to convert to Australia specifications. It is not recommended to import this type POV into Australia as it must be exported, sold to a SOFA customer or destroyed at the completion of tour. Also, a RHD POV cannot be imported to CONUS unless it is converted to meet U.S. safety and emission standards, which may cause major expenses to the owner.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(CONTINUED FROM PARAGRAPH ABOVE)(CH Entire Section USTC-Pacific J9, 02JUL25, TF)

7. Importation of a second POV, such as a motorcycle or moped in a personal property shipment, is solely at customer expense. Customers need to work directly with Australian authorities on potential costs, importation fees, etc. PPSOs in Australia are not able to provide assistance with the importation of a second POV. 8. Inbound POVs destined to Northern Territory (including Alice Springs) and South Australia must be routed to Port of Adelaide, South Australia (VB1). POVs of Personnel assigned to units in Western Australia, route to Port of Fremantle (VA2). POVs of Personnel assigned to units in New South Wales and the Australian Capital Territory, route to Port of Sydney (VC1). POVs of Personnel assigned to units in Queensland, route to Port of Brisbane (VC3). POVs of Personnel assigned to units in Victoria, route to Port of Melbourne (VB2). CONSIGN ALL POVS TO THE FOLLOWING CONTRACTORS BASED ON THE FINAL DESTINATION: a. Personnel assigned to Alice Springs, Northern Territory consign to: Joint Defense Facility Pine Gap P.O. Box 2477 Alice Springs, NT Australia 0871. Telephone: 011-61-8-8951-2047. b. Personnel assigned to all other areas except Alice Springs, Northern Territory consign POV to: 337th Air Support Flight/LGT, U.S. Embassy Moonah Place Yarralumla, ACT 2600. Telephone: 011-61-2-6214-5879/5610. 9. Trailers for jet skis, motorcycles, mopeds, etc. Members must notify the origin transportation office if trailers for jet skis, motorcycles, mopeds, etc. are being shipped in HHGs. The size of trailers may result in the shipment being routed as an OTO.10. POVs destined to Australia and built prior to 1995 must NOT contain one of the following refrigerants for the air conditioning system: R11, R12, R113, R114, R500 and R502. POVs manufactured after 1996 should meet the requirements, however it is highly recommended to check your individual POV. If your POV contains any of the above refrigerant gases, you MUST modify your air conditioning system to operate on a hydrochlorofluorocarbon based refrigerant. Failure to comply will result in AU Customs Service seizing your POV. Hand-carry all modification documentations. 11. Personnel assigned to the state of Victoria (Melbourne/Puckapunyal) and Queensland territory must ensure the POV has a current CONUS registration and license plate(s) with their POV. Personnel will continue to use their current CONUS registration and license plate for the duration of their tour. No Australian registration or license plate will be issued from the Australian government. For personnel arriving from locations other than CONUS that do not have a current CONUS registration and license plate(s), the state of Victoria and Queensland will issue an Unregistered Permit. This will entitle you to operate your POV, however POV will not be issued an Australian license plate(s). It is highly recommended that you obtain a CONUS registration and license plate(s) prior to arriving in Australia. Failure to obtain a CONUS registration/license plate(s) will cause unnecessary hardship with the registration process. 12. Navy Military Personnel assigned to Australia are authorized to store their POV in place of shipping due to the strict importation requirements and shipping transit times for importing a POV to Australia. (CH USTC Pacific J9, 17APR25, TF)

b. MOTOR CYCLES/MOPEDS

(CH Entire Section USTC-Pacific J9, 02JUL25, TF) 1. See paragraph 1 under POVs. SOFA members are authorized ONE duty-free vehicle.2. If your motorcycle or moped is your one duty-free POV, it may be included in your personal property shipment. 3. All motorcycles or mopeds imported into Australia are required to have an asbestos inspection performed at an approved testing facility which can be found at www.ilac.org/ Once the inspection is completed, the testing facility will provide the member with the documentation outlining the testing and sampling results and specifying the motorcycle or moped has no evidence of asbestos. Members are also required to provide the Transportation Service Provider (TSP) with testing and sampling results prior to HHGs

being picked up from the origin location.4. All vehicles to include motorcycles/mopeds are still subject to testing upon arrival in Australia at the discretion of the Australian Government. Australia has a ZERO TOLERANCE policy for asbestos. If vehicles are inspected and found to contain any amount of asbestos, customers are subject to asbestos border criminal offense which could result in a fine of not more than 1,000 penalty units ($160,000) and/or imprisonment for up to five years and the vehicle will be declined entry into Australia.

c. GASOLINE/CATALYTIC CONVERTERS

Vehicles being imported into Australia are exempt from the removal of catalytic converters.

d. INSURANCE AND SAFETY REQUIREMENTS

(1) There are no restrictions on importing a left hand drive vehicle. Vehicles manufactured outside Australia and registered to a SOFA status member is not required to be converted to right hand drive. Sale of a SOFA vehicle that has been imported into Australia can be sold to another SOFA member who has not already imported a POV under the SOFA. Members must plan to export the vehicle they import, sell to another SOFA member, or have the POV destroyed upon their departure.(CH 16-Nov-2020 TCJ9-OH-Pac RB) (2) Vehicles must be in good condition prior to shipment. (3) Alterations to the normal specifications of vehicle are not recommended and must be brought to the attention of the destination TMO prior to shipment. Certain alterations (changes to the chassis, oversize tires, small steering wheels etc.) will prevent registration for normal road use.

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

Prohibited.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

Pay close attention to the customs restrictions in paragraph 2 above.

11. TRANSMITTING EQUIPMENT

No Restrictions Identified.

a. CBS

An individual importing CB or Ham radio equipment must obtain an operator's license from local Australian authorities. Individuals presenting a current US operator's license and registering with the local communication agency can obtain a license. If the member does not have a current US license, one will not be issued. Equipment must be tested prior to operation to ensure it complies with Australian standards. There are 35 worldwide manufacturers of this equipment which have been tested and approved for operation in Australia. If the equipment being imported is not listed as approved, it must be released to the local communication agency for testing. If modification is required, parts and cost of labor will be the member's responsibility. Parts and labor are expensive.

b. AMATEUR/HAM RADIOS

An individual importing CB or Ham radio equipment must obtain an operator's license from local Australian authorities. Individuals presenting a current US operator's license and registering with the local communication agency can obtain a license. If the member does not have a current US license, one will not be issued. Equipment must be tested prior to operation to ensure it complies with Australian standards. There are 35 worldwide manufacturers of this equipment which have been tested and approved for operation in Australia. If the equipment being imported is not listed as approved, it must be released to the local communication agency for testing. If modification is required, parts and cost of labor will be the member's responsibility. Parts and labor are expensive.

c. MARS EQUIPMENT

MARS frequencies are not approved for operation in Australia.

d. DISH ANTENNAS

Satellite dishes are authorized, however, they may not be compatible with Australian systems. Members import satellite dishes at their own risk.

e. CORDLESS PHONES

Cordless phones may be imported, but may not operate properly in Australia.

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

a. DD Form 1299 must identify point of contact, address, and phone number within Australia. b. Retired/separated members should be advised a contact point in Australia is critical. Customs/quarantine clearance of their goods cannot be accomplished without the necessary documentations, Australian Customs Form B-534e and all pages of their passport. Member should also be advised the PPGBL will not cover the cost of Australian customs/quarantine clearance and all costs will be borne by the member. The member must make arrangements through their agent or customs broker for the clearance of all personal property shipments. Retired or separated personnel, who wish to ship a POV into Australia, should contact the nearest Australian Consulate for the Australian federal and state requirements for importing a foreign vehicle. All costs for Australian customs/quarantine clearance and required modification of POV are the member's responsibility. The Australian Customs Form B-534e is available at http://www.border.gov.au. (CH 03-Mar-2016 SDDC-PAC RB) c. Shipments of HHG for Early Return of Dependents (ERD): ERD shipments are not covered under the Status of Forces Agreement(SOFA). Dependents on ERD orders are not entitled to duty free entry of their personal property (HHG or POV). Completion of the Australian Customs Form B-534e is required, along with a copy of all pages of their passport. The dependent acting as the receiving agent will be required to make arrangements to clear the shipment through customs and pay any duty. Customs/quarantine clearance of dependents personal property cannot be accomplished without the Australian Customs Form B-534e and photo copies of all pages of their passport. The Australian Customs Form B-534e is available at http://www.border.gov.au. Contact the nearest Australian Consulate for Australian federal and state requirements for importation requirements. All costs for Australian custom/quarantine clearance and required modifications are the members responsibility.

13. OTHER

a. HHG and POV entitlements for personnel in diplomatic status differ from those under the SOFA. Personnel in diplomatic status should contact the destination at GSO_Canberra@state.gov. Personnel in SOFA status should contact TMO at 337asuf.lgt@us.af.mil for further information prior to shipment. (CH SDDC-PAC 10-Apr-2014 RB)b. Boats: Members must be briefed on the excess costs for shipping boats or canoes that are 14 feet or longer.c. Members are encouraged to read the General Instructions for Australia from the PPCIG and obtain a copy of the welcome package from their respective gaining unit/PEP administrator. Any questions regarding shipment of HHG or POV to Australia should be directed to the destination TMO prior to shipment via email at: 337.asuf.lgt@us.af.mil for SOFA personnel. Personnel in diplomatic status should contact GSO_Canberra@state.gov. (CH SDDC-PAC 14-Apr-2014 RB)d. YEARLY RAAF RICHMOND CLOSUREThe 735th Air Mobility Squadron Detachment 1, will be unable to support any DoD military or contracted aircraft arriving or departing the Richmond Royal Australian Air Force (RAAF) Base, Australia, during the week of the Christmas (December 25) Holiday and the week of the New Year's (January 1) Holiday. Alice Springs has a stand-down of inbound flights from mid-December through mid-January every year. Therefore, refrain from shipping personal property shipments (Codes T, J, and DPM-air) to/from the Richmond RAAF Base during this period. Detachment 1 is still able to support trucks delivering personal property shipments to/from the Richmond RAAF Base, but on a very limited basis due to reduced manning. (CH 16-Nov-2020 TCJ9-OH-Pac RB)e. MAILING SYSTEMS DPO MAILING SYSTEMMost U.S. Postal services in Australia have transitioned from APO to DPO services. The main impact this switch has on inbound personnel is that HHG and HHE are no longer authorized for mailing to DPO addresses. Please be advised that any HHG or HHE items mailed to a DPO address will be rejected and may be returned to the sender. The only locations authorized to mail HHG and HHE are Sydney AMT (assigned under Det 4 or 735 AMS) and Alice Springs, as these posts remain under the APO system. Only inbound personnel assigned to Det 4, 735 AMS and Alice Springs are authorized to ship HHG or HHE through the APO system. APO MAILING SYSTEM (Sydney AMT-Det 4 or 735 AMS and Alice Springs)The size of the APO office is very small and not able to accommodate long-term storage of inbound personal property. With this being said, we request that you limit the number of boxes mailed to the items in which you will ACTUALLY NEED upon arrival into Australia. We also request that boxes are not shipped until you are within 30 days of arrival. If you need to ship items earlier, coordinate with your sponsor to have the items mailed to the sponsor's APO address (your sponsor will have to store the items until your arrival). Lastly, you may be able to claim the basic postage (not insurance, premium shipping or packing costs) on any boxes you mail. The TMO section will provide further information on submitting these claims. (CH SDDCPAC 17-Sep-2013 RAB)f. ID CARDS. The 337th Air Support Flight has a DEERS machine to issue ID cards. Unless you and/or your dependents' ID cards will be expiring prior to your arrival, we will be able to assist you with all DEERS- and ID card-related activities. (CH SDDC-PAC 17-Sep-2013 RB)

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Customs clearance will be made to the Austrian Foreign Ministry upon arrival in Vienna. A copy of the PPGBL is required prior to receipt of shipment in order to initiate customs clearance.

3. CONSUMABLES

"No restrictions identified."

a. ALCOHOLIC BEVERAGES

Only personnel on Austria's accredited diplomatic list may import alcoholic beverages into Austria. Having a diplomatic passport does not authorize importation. There is no limitation; however, they must be listed separately on the inventory list. The Embassy will prepare a diplomatic note to the Ministry of Finance requesting duty-free importation and a statement these alcoholic beverages are solely intended for the use and consumption and/or for representational purposes.

b. CIGARETTES/TOBACCO PRODUCTS

Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. COSMETICS

"No restrictions identified."

d. FOOD STUFFS AND MEATS

Import permit needs to be obtained prior to importation into Austria. Meat and meat products (frozen, fresh or cooled) might be subject to occasional quarantine and require certificates issued by an officially approved veterinarian and an official inspection certificate.

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

Importation of medication/pharmaceuticals requires the approval from GOA prior to the importation and a statement from the Embassy's Ph.D.

4. ELECTRICAL EQUIPMENT

Cats and Dogs: A veterinarian's certificate must be furnished with a statement there has been no rabies among domestic or wild animals in the original municipality of the animals or in the neighboring municipalities within the last 14 days before shipment. Inoculation against rabies must have taken place at least 30 days before and no longer than 1 year before entry. It is suggested an "International Certificate of Health and Vaccination for Cats and Dogs" be obtained. Members should check with the Embassy General Services Office in Vienna prior to departure for Austria with any kind of animal.

7. PRIVATELY OWNED FIREARMS (POF)

Only the following firearms may be brought into Austria without a US export license and/or specific quthorization from the Chief of Misson (the Ambassador).

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

Special license required; please contact Embassy's Regional Security Office (RSO) prior to shipment.

8. PRIVATELY OWNED VEHICLES (POVs)

"No restrictions identified."

a. POVs (includes data on prohibited vehicles, colors, etc.)

The following changes may be necessary (in accordance with the applicable Austrian Motor Vehicle Law) if the POV should be registered in Austria.(1) Low beam headlights may have to be replaced (not all US models are equipped with low beam headlights that meet Austrian safety standards).(2) All turn signals must be orange.(3) The illuminating lights for the rear license plates may have to be relocated (in order to fit the larger Austrian license plates, the distance between the illuminating lights must be wider).(4) If your POV is considered a station

wagon (hatchback models are considered as station wagons in Austria) you are required to have side mirrors on both sides of the car.(5) All cars are required to have a headlight flashing capability, which enables you to give warning by flashing the headlights.(6) A "Data Sheet", i.e., a statement regarding the technical specifications of the vehicle from the manufacturer's Austrian Representative, might be necessary. This statement, however, is only required if the model is not being sold or is otherwise unknown on the local market. The prices for subject statements range between US $200.00 to US $1,000.00. (7) You can expect to pay $200.00 to $800.00 depending on the type, model and age of your motor vehicle to bring it into conformity. This figure does not include any possible repairs which may become necessary in the course of the safety inspection. The above listed modifications can usually be done by local repair shops or by the local dealer or representative handling your type of vehicle. We strongly recommend you get an estimate for the modifications costs prior to authorizing the work.(8) Motor vehicles that are less than a year old upon importation must be equipped with turn signals on the front fenders and rear fog lights.

b. MOTOR CYCLES/MOPEDS

Motorcycles and mopeds are considered motor vehicles in Austria. They may be shipped in personal property shipments but must be declared and cleared through Austrian Customs separately. There is no restriction on the number of vehicles a diplomatically accredited individual can import.

c. GASOLINE/CATALYTIC CONVERTERS

Most importantly, your car must meet the Austrian Safety and Emission Regulations. The "catalytic converter" requirements which is mandatory in the US became mandatory in Austria in 1986. A statement about subject conformity can usually be obtained through the local vehicle representative in Vienna.

5. FURTNITURE, OVERSIZED

a. FOR AMERICAN EMBASSY NASSAU: Housing generally lacks storage space and is commonly furnished by the landlord, restricting space for personal furniture/furnishings. Members of the Marine Security Guard(MSG) Detachment at the US Embassy are provided fully-furnished accommodations. Contact the Detachment Commander at GSO/Customs and Shipping, US Embassy Nassau, PO Box 9009, Miami, FL 33159, commercial (242) 322-1181, fax (242) 328-7838 for more

information. All members should contact their parent office in Nassau well in advance of arrival for additional instructions/details. b. b.FOR NUWC DET AUTEC ANDROS ISLAND: Detachment housing is extremely limited and when available consists of Multiple Bedroom Units (MBU), Single Bedroom Units (SBU) Suites, and Concrete Block Housing (CBH). Personnel must confirm availability of housing prior to arrival. Each unit comes equipped with washer, dryer, refrigerator, stove, dishwasher, and central air conditioning except CBH's. Adequate furniture is provided including, in most cases, queen size beds are provided in all rooms.

6. PETS/QUARANTINE

a. FOR AMERICAN EMBASSY NASSAU: Importation of pets requires special permit. Contact GSO/Customs and Shipping, US Embassy, Nassau, PO Box 9009, Miami, FL 33159 by fax/email for instructions no less than 45 days prior to estimated time of arrival(ETA) in Nassau.b. . 8. PRIVATELY OWNED VEHICLES (POVs)

No Restrictions Identified.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) For customs clearance and registration of the POV, the original title or bill of sale must be presented. POV's should be shipped and consigned as follows: American Ambassador; American Embassy; Queen Street; Nassau, Bahamas; FOR: (Member's Name and Agency or Office); Telephone: 1-242-322-1181; FAX: 1-242-328-7838. Prior to shipping, contact either Cleveland Goddard/Shipping Assistant at or. Upon arrival, the shipping company can contact the Embassy

shipping office at 322-1181 EXT 286 or 279. (2) Name of owner, VIN or engine number, engine size, year, color, make, and model must be described on the original bill of lading. (3) Driving in Nassau and Andros Island is on the left side of the road like England. However, 95 percent of vehicles are US specification where the driver sits on the left of the car. (4) Modification of headlights are required to pass inspection. (5) FOR AMERICAN EMBASSY NASSAU: Spare parts for POVs are expensive, and auto service is generally of a lower quality yet higher cost than found in CONUS. It is recommended POVs be in excellent running condition prior to shipment to the Bahamas. Pack/send common replacement parts, i.e., oil/air/fuel filters, spark plugs, etc. All US brands as well as common Asian makes (Honda/Toyota/ Daewoo/ KIA/ASIA) are serviced.
(6) FOR NAVUNSEAWARCEN DET AUTEC ANDROS ISLAND: Spare parts for POVs are expensive. Commercial facilities for auto parts and car repairs are practically non-existent on Andros. So if you have your own tools, bring them along with any repair manuals, parts, etc. There is a car repair/maintenance shop set up at the hobby shop and there are people who work on cars during their off-duty hours. Most members leave their nice car at WPB and purchase a vehicle less than 10 years old to use on the island. Vehicles are usually 10 years or newer model cars, jeeps, or trucks, which are in low demand stateside. All military members are assigned a parking spot located at WPB for a fee. Many people manage on the island without a car since there is a free taxi service from 0600-2200 seven days a week and a bicycle will get you around when the taxi is not in operation

(7) Roads are generally of poor quality.

b. MOTOR CYCLES/MOPEDS

No restrictions indentified.

c. GASOLINE/CATALYTIC CONVERTERS

Unleaded gas is available on Andros Island. Both unleaded and leaded gas is available off-base in limited quantity and at much higher cost. EPA testing procedures are not required and therefore not available.

6. PETS/QUARANTINE

Update 7 May 2025:Per: HQ AMC/A4TPBahrain - Pet information***Members assigned to Bahrain may bring their family pets. For most up to date information, visit https://www.navsea.navy.mil/Home/RMC/FDRMC/Bahrain/MovingToBahrain/Prepping/YourPets/. You can also contact the NSA Bahrain Veterinary Treatment Facility (VTF) at nsabarain.vetclinic@gmail.com.Limitations to Consider Before Travel:Pets are defined as dogs and cats only. Pets will be "home quarantined" for 30 days upon arrival. It is recommended to start preparing for PCS 3-4 months prior to arrival.Transportation Considerations:For AMC travel, contact PSD or the AMC terminal directly to verify that your pet(s) have a space reserved. For commercial travel, please note that pets are required to arrive as manifested cargo. This incurs more cost and requires the use of a pet shipping company. In addition, there may be travel restrictions based on time of year and/or heat index, which in Bahrain generally runs mid-April through October.Vaccination Requirements:1. Dogs:a. Rabies. Only a one-year rabies accepted.b. Canine distemper, Parvo, Hepatitis (DA2PP). Only a one-year accepted.c. Leptospirosis.d. Must present certification the dog has been vaccinated twice at least 2-3 weeks apart, with the last vaccination given within 12 months of arrival.2. Cats:a. Rabies. Only a one-year rabies accepted.b. Feline Viral Rhinotracheitis, Calicivirus, and Panleukopenia virus (FVRCP). Only a one-year accepted.c. Must present certification that the cat has been vaccinated twice within 12 months of arrival.Additional Requirements:1. Pet must be microchipped with a 15-digit ISO Standard microchip. This must be placed prior to receiving a Rabies vaccine.2. A passing rabies titer test (FAVN) is required within 1 year of entry into Bahrain (pet is exempt from this requirement if traveling from Japan, but it is advised ALL PETS have a FAVN completed to alleviate any issues with the Bahrain Ministry). If applicable, rabies vaccinations may be administered after the passing FAVN without issue. A copy of the report must be presented. Any incurred costs are the pet owner's

responsibility. In addition, the FAVN will be required if there is an evacuation through Germany.3. An APHIS endorsed health certificate (APHIS Form 7001) must be completed within 10 days of travel. A U.S. Army veterinarian CAN endorse the APHIS 7001 Health Certificate in place of the USDA veterinarian.4. Original rabies certificate with signature in blue ink.5. Animal Import Permit from the Bahrain Veterinary Quarantine (valid for 30 days).a. Once your pet's vaccination and microchip information have been verified, contact the NSA Bahrain Veterinary Treatment Facility (VTF) at nsabarain.vetclinic@gmail.com. Please include the vaccination record, orders, and the checklist.b. The Bahrain VTF will prepare an import memorandum when you are within 30 days of travel.c. Sponsor duties. Your sponsor must pick this up during regular business hours. Your sponsor must bring the Import Memorandum and the required fee to the Ministry, Kingdom of Bahrain Animal Health Directorate, Veterinary Quarantine Office. The fee is 2 Bahraini Dinars per pet (approximately $5.34 US); cash is the only form of payment accepted. The ministry will issue your Animal Import Certificate (only valid for 30 days). This office is open from Sunday-Thursday, 0730-1300. Your sponsor must meet you at the airport with the original import permit which is required for you to clear customs6. Pets must arrive via AMC flights. Commercial transportation will not be authorized based on the lack of pet space. If pets cannot be accommodated on AMC, member will be responsible for arranging onward transportation.End of Tour/ Return to CONUS:Bahrain is considered a low-risk rabies country. Follow CDC procedures at https://www.cdc.gov/importation/dogs/rabies-free-low-risk-countries.html

7. PRIVATELY OWNED FIREARMS (POF)

“Importation is PROHIBITED.”Any type of weapon to include Uniformed Swords is prohibited from being shipped to Bahrain. Examples of confiscated items include, Sex toys, nudity magazines, DVDs, ammunition, empty casings, plaques with knives incased, knives, body armor, holsters, magazines, remote control helicopters, handcuffs, poker chips, gaming devices, toy guns, starter pistols, paint guns. Any other items, whose importation is prohibited under Kingdom of Bahrain Customs laws, or any other laws of the Country. It is highly recommended to place questionable item in Non temporary Storage. Items confiscated by host nation customs, members employees will receive a custody confiscation receipt from the local delivery agent. If the member employee would like to retrieve the confiscated item s it is their responsibility to contact the Ministry of Interior to determine if the item will be released.Prohibited items include, but not limited to WEAPONS and PARTS OF WEAPONS, IMITATIONS OF WEAPONS, MILITARY WIRELESS DEVICES, UNIFORM SWORDS, PONOGRAPHIC MATERIALS EQUIPMENTS etc. Please refer the below given web site for further information on Bahrain Customs Regulations (https://www.bahraincustoms.gov.bh/en/prohibited-and-declared)

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

"Importation is PROHIBITED."Sharp knives other than kitchen knives and swords are also prohibited.

8. PRIVATELY OWNED VEHICLES (POVs)

PROHIBITED VEHICLES: Electric Vehicles (EV) ARE allowed to be shipped to the KINGDOM OF BAHRAIN. NOTE: There are only 2 charging Stations located on the Island, (SAAR and SEEF AREA), members should consider locations of charging stations in reference to where they may reside before shipping. Members/Employees are highly encouraged to contact their sponsor regarding the overall cost of installation of Home Charging Ports into rented properties, to include monthly electric fee. Willy jeeps are prohibited from importation in Bahrain, all other jeeps are allowed. LICENSE PLATES: NO LICENSE PLATES are allowed on or in the POV to Bahrain, because foreign license plates are prohibited completely in Bahrain. Local Bahraini Customs Agents are confiscating all foreign license plates from inbound POVs at the Port of Khalifa, Bahrain. All license plates should be returned to service members prior to shipping a POV to the Kingdom of Bahrain. Packing license plates in the vehicle accessory box is prohibited. FUEL: The Island of Bahrain does not have Ultra Low Sulfur Diesel, Diesel fuel in Bahrain is 500ppm. VISA and CPR CARD: All POVs are required to be registered with the government of Bahrain prior to being picked up from the VPC. Before members employees can register their vehicles they must obtain their VISA and CPR Card. Country VISAs are applied for once the member employee arrives in country and requires a GOVERNMENT PASSPORT, NOT THE TOURIST. Once the VISA is received the member employee will then apply for their CPR Card. A CPR Card is a personal identification number issued by the Kingdom of Bahrain to all personnel assigned to NSA Bahrain. It will take approximately one month to receive both VISA and CPR. Both documents are processed by the Base Immigration Office, therefore It is imperative that members employees apply for their VISA as soon as they arrive on Station. Vehicles left at the VPC for more than 20 days are subject to storage fees borne by the member. After market fitting or additional fitting is prohibited

a. POVs (includes data on prohibited vehicles, colors, etc.)

a. Authorized DOD personnel may import free of duty no more than one privately-owned vehicle for the personal use of the member. However, you may import a second or third vehicle, but member is liable to pay the 20 percent import tax and local port handling. The legwork to complete the customs processing is the members responsibility. The local Ministry of the Interior defines a motor vehicle as either automobile or motorcycle with engine power exceeding 1.5 HP and engine size exceeding 50 cc. Personnel must be 18 years old and possess a valid permit to operate automobiles and motorcycles. POV will be inspected by local traffic directorate for compliance and thus requires registration according to Bahrain traffic law.(1) Tinted windows: Local motor law allows the importation of vehicles with FACTORY TINTED windows. Vehicles cannot be registered unless the windshield and front side windows allow at least 70% of light to pass through. The front windshield may have a sun strip as long as it is the original manufactured windshield. All windows behind the front driver and passenger side windows can be tinted as long as it is the FACTORY TINTED windows. The amount of tinting for windows behind the driver and passenger side windows was not address by the Kingdom of Bahrain with the exception of them needing to be FACTORY TINTED. Vehicles already imported will be allowed until November 2005 to change their windows shouldthey not comply. Vehicles that are in transit at this time with non-conforming tinted windows may not be allowed to be registered. After market tinting is not allowed.(2) Right Hand Drive: NOT

Authorized.(3) Paint scratches dents: Vehicles with badly faded paint, dents, widely visible scratches, rust, or any other damage will not pass the inspection. Normal dings and scratches are acceptable. Loose or hanging body parts are not acceptable. Major body damage or twisted and bent frame is not acceptable. Cars and motorbikes decorated with flat matt paint or matt vinyl wrapping will no longer be allowed on Bahrains roads due to safety concerns. Part of a GCC-wide ban on non-glossy paint jobs, agreed at an Interior Ministers summit held in Kuwait in November 2015, the move will see owners of vehicles decorated in such a fashion unable to renew their vehicle registrations at the General Directorate of Traffic.Owners should maintain the original appearance of the car and refrain from matt painting their vehicles, said a source from the General Directorate of Traffic. All car and motorcycle importers must refrain from importing matt-colored vehicles, the matt ban decision was made before Bahrain's tough new traffic law, which dramatically increased fines and jail terms for various offences.(4) Tires: All tires will be in good condition. Tires extending partially beyond the fender are prohibited.(5) Lights: All installed lights must be operational. Headlights cannot be modified. The taillight or a separate light must illuminate the rear license plate. Backup lights must function when the transmission is engaged in reverse gear. Vehicles must be equipped with directional signals. Roof rack light systems are prohibited.(6) Windshield Wipers: Must be operational.(7) Brakes: Vehicle must have two separate means of applying brakes. The failure of one braking system will fail registration.(8) Color: There are no restrictions as to color. However, no weird painting or art on vehicle is permitted.(9) Exhaust System: Faulty or excessively loud exhaust systems are prohibited.(10)Salvaged vehicles as stated on the certificate of title are not permitted.(11) After market hydraulic systems are prohibited. Department of Ministry WILL NOT pass a vehicle for safety inspection if replacement or modification on engines has been performed.(Example:if there was a V8 engine in a V6 car)(12) Other: Vehicles must meet operational and safety standards. Missing fenders, broken windows, missing side view mirrors, and improper wheel alignment (wheels that cannot be turned from full right to left without jamming or rubbing part of the vehicle) will not be accepted. Stickers, drawings, advertisements, or writing on the vehicle are not allowed.(13) Effective 1 May 2016, all vehicles shipped to Bahrain older than 5 years cannot be sold to a Local/Foreign National. Furthermore, members can sell their Privately Owned Vehicle (POV) to another U.S. Military/Civilian member.

b. MOTOR CYCLES/MOPEDS

Mopeds and motorcycles require registration according to Bahrain traffic law.

c. GASOLINE/CATALYTIC CONVERTERS

(1) Unleaded gasoline is available throughout Bahrain, removal of catalytic converters is no longer required.(2) Diesel fuel in Bahrain is 500ppm.(3) Bahrain does not have Ultra Low Sulfur Diesel (ULSD), member must check with the manufacturer to determine if ULSD is mandatory for their POV. If mandatory, members are authorized to store the vehicle at government expense. The manufacturer should issue a letter stating that the usage of any other type of diesel will cause permanent damage.

d. INSURANCE AND SAFETY REQUIREMENTS

(1)Insurance and traffic registration expiration dates must coincide with one another, (i.e., last day of the month). Insurance and registration must be renewed annually; failure to comply will preclude operation of vehicle and may subject the owner to a penalty in accordance with Bahrain law.(2) Automobile insurance for the Bahrain area is reasonable. Cost depends on make, model, year of

vehicle and the total value (what is it worth at present) you declare on the vehicle. Insurance is compulsory, and POV cannot be released, registered, and used without proof of insurance. Once insurance is issued on a vehicle, coverage includes anyone who drives the vehicle. Not necessary to have each individual driver insured. There are two types of insurance policies available: (a) Third party (without collision) will run about $125 160 per annum. (b) Comprehensive (full cover) will run $300 and above per annum.

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

The importation of pornographic material is a strict violation of Bahrain law. Those items determined to be pornographic will be confiscated, destroyed and the importer will be prosecuted.

Cordless phones are permitted; however, high range cordless phones are prohibited. High range equipment will be detained by customs and a custody receipt will be issued. Upon final departure from Bahrain, arrangements can be made with customs, once you produce the custody receipt, the phone will be returned at the airport upon departure. Members should contact their sponsors before deciding disposition of cordless phones.

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

Personnel contemplating retirement, separation or relocating dependents to Bahrain should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Bahrain. When processing application and GBL, shipment must be consigned to member and residence in country or to the destination agent facility. DO NOT CONSIGN PROPERTY TO AMERICAN EMBASSY OR AMERICAN CONSULATE.

In accordance with governing regulations.

b. CONTAINER/CRATING REQUIREMENTS

No restrictions identified.Packages should be substantially waterproofed; no single package should weigh more than 200 lbs gross.

c. HARD LIFT AREA

Hard lift area for all military services. Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. UNACCOMPANIED BAGGAGE

No restrictions identified.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. All DOD military personnel should contact US Defense Attache Office (USDAO), Dhaka, Bangladesh, upon notification of assignment to the US Embassy. The US Embassy arranges for all customs clearances from port of entry to Dhaka. All personal property shipments are cleared through Bangladesh customs duty free allowing a minimum 2-3 weeks for HHG; 3-4 weeks for POV. Non-diplomatically assigned personnel are not authorized importation of duty free shipment after 6 months of arrival. Personal property shipments cannot be cleared prior to the arrival of the employee at post and thus will incur significant demurrage charges until your arrival. b. Provide USDAO and American Embassy via message ASAP carrier's name, flight number, airway bill number, and RDD. Ensure the American Embassy, Dhaka, receives info copy of all correspondence concerning shipments as Bangladesh requires the original commercial bill of lading/airway bill and/or PPGBL in order to initiate customs clearance. Customs clearance will not be initiated until member's arrival. c. All personnel, diplomatic and non-diplomatic, must provide the Embassy with a detailed packing list/inventory of their personal property shipped so customs declarations can be provided to the appropriate Bangladesh agencies within 10 days of member's arrival. Personnel must ensure all items of household goods, furniture, appliances, kitchenware, hobby equipment, clothing, furnishings, etc., are accurately identified indicating complete description, quantity and value per item. All items such as electrical equipment, video, household appliances, lenses, cameras, stereo equipment, radios, musical instruments, bicycles, etc., must be listed by model and serial number on import inventory. This detailed inventory is verified during customs inspections/examinations for all non-diplomatically accredited personnel at the point of entry and again when HHG are exported to confirm the items leave Bangladesh. All imported items are customs controlled and require recording on the official Bangladesh "passbook". d. Upon departure from Bangladesh, all declared items must be accounted for through export or indicated otherwise on passbook. Non-diplomatically assigned personnel are not authorized to sell items/material importedduty free.What is the required documentation for Customs Clearance at post?OBL, AWB, Invoice, Packing List

3. CONSUMABLES

Dhaka not consumable postPlease refer to the JTR, AP-CG-01, to determine customer eligibility if the destination Country -AND- City is an Authorized Consumable Goods Allowance Location.(CH 05-May-2021 TCJ9-OH-PAC RB)

a. ALCOHOLIC BEVERAGES

The importation of alcohol is prohibited, even in small quantities for personal consumption. Check with the GSO Customs & Shipping Office (dhakaship@state.gov) for more detailed information.

(CH 03-JUN-2019 TCJ4-HB RB)

b. CIGARETTES/TOBACCO PRODUCTS

Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by email (dhakaship@state.gov) from the responsible transportation authority at destination. However, all tobacco/alcohol quotas are usually surrendered to the US Commissary at Post. (CH 16-MAR-2016 SDDC-PAC RB)

c. COSMETICS

No restrictions identified.

d. FOOD STUFFS AND MEATS

The Post DOES NOT encourage importation of foodstuffs individually as these items are available from the Post commissary. (CH 16-MAR-2016 SDDC-PAC RB)

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

No restrictions identified.

4. ELECTRICAL EQUIPMENT

Bangladesh Government limits importation of the following electronic equipment to two(2) each. Exceptions to this limit may be requested in advance by contacting GSO.

a. HOME COMPUTERS

Limited to two.

b. TVs/VCRs

Importation limited to two (2) each.

c. OTHER (i.e. COMPATIBILITY, ETC)

No Restrictions Identified.

5. FURTNITURE, OVERSIZED

No restrictions identified.

6. PETS/QUARANTINE

a. All pets must have a valid rabies certificate and health certificate. There is no quarantine period upon arrival into Bangladesh; however, there is a quarantine inspection station at the airport upon arrival. There are limited veterinarian facilities available. If pets are shipped unaccompanied/Cargo, please notify Embassy 45-60 days prior to arrival at dhakaship@state.gov. Charges required for obtaining local permits, airport customs formalities and delivery at residence are around $300 USD, which can be paid upon arrival at Post. b. Recommended pets be brought with arriving personnel as accompanied baggage to preclude delays that may be encountered in follow-on shipment. If pets are shipped accompanied, please notify Embassy 45-60 days prior to arrival at dhakaship@state.gov. Charges required for obtaining local permits are around $60 USD, which can be paid upon arrival.(CH 16-MAR-2016 SDDC-PAC RB) c. REQUIRED DOCUMENTATION:
Health Certificate, Shot Records, photo of pet, and Bangladeshi VISA copy of Employee.(CH 03-Jun-2019 TCJ4-HB RB)

7. PRIVATELY OWNED FIREARMS (POF)

Notification to GSO Customs & Shipping Office (dhakaship@state.gov) prior to shipping is required to import any firearm. (CH 16-MAR-2016 SDDC-PAC RB)

a. HAND GUNS

An Import Permit from local authority is REQUIRED prior to shipping. (CH 16-MAR-2016 SDDC-PAC RB)

b. RIFLES/SHOT GUNS

Only smooth bore shotguns and shotgun parts can be imported. For customs clearance, the Bangladesh Ministry of Foreign Affairs will need a description of the weapon and the serial number in order to issue a license. Permission MUST be obtained PRIOR TO shipping firearms. This information must be furnished to the GSO, American Embassy, Dhaka at dhakaship@state.gov. An Import Permit from local authority is REQUIRED prior to shipping. (CH 16-MAR-2016 SDDC-PAC RB)

c. TOY RELATED GUNS

No restriction identified.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

DoD regulations prohibit the transportation of live ammunition, explosives, etc. in personal property shipments. (CH 16-MAR-2016 SDDC-PAC RB)

8. PRIVATELY OWNED VEHICLES (POVs)

Please don't ship without prior approval of the gaining post.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) Diplomatically assigned personnel are authorized to ship one POV per family duty free. POVs MORE THAN FIVE (5) YEARS OLD AT THE TIME OF SHIPMENT CANNOT BE IMPORTED. If the POV is imported from the country in which it was manufactured, the POV -MUST- arrive within five (5) years of its manufacturing date. THERE ARE NO EXCEPTIONS TO THESE RULES. "Admin & Technical" staff must have their POV arrive within six (6) months of their arrival to Post. (CH 16-MAR-2016 SDDC-PAC RB) (2) POV must arrive within 6 months of member's arrival. Shipping from vehicle POE Chittagong to Dhaka is arranged through American Embassy GSO. (3) Vehicle must be in good operating condition as there are severely limited repair facilities in Bangladesh. A supply of basic spare parts should be shipped. POVs best suited for Bangladesh are small, late model cars due to narrow roads and spare parts availability. Local factory garages include Honda, Hyundai, Mercedes, Mitsubishi, Nissan, and Toyota. (CH SDDC-PAC 14-APR-2014 RB) Air conditioning is highly recommended. (4) Diplomatically assigned personnel should consider buying a vehicle upon arrival rather than shipping due to left side driving (steering wheel on the right is best), absence of attention to driving regulations/laws, and to preclude delays in shipping. (5) Ship in sea container via port of Chittagong.

b. MOTOR CYCLES/MOPEDS

Mopeds and motorcycles are considered POVs and only one (1) POV can be shipped or registered.

(CH 16-MAR-2016 SDDC-PAC RB)

c. GASOLINE/CATALYTIC CONVERTERS

New U.S.-specification POVs may encounter challenges as the quality of gasoline is not up to U.S. standards. (CH 16-MAR-2016 SDDC-PAC RB)

d. INSURANCE AND SAFETY REQUIREMENTS

Liability insurance must be purchased locally. Supplemental coverage may be obtained locally or through any other insurer. (CH 16-MAR-2016 SDDC-PAC RB)

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

Photographs, magazines, cassettes, etc., containing nudity, etc., are prohibited.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

An Import Permit from the Department of Live Stock Services is recommended prior to shipping as Post may be unaware of all restrictions. (CH 16-MAR-2016 SDDC-PAC RB)

11. TRANSMITTING EQUIPMENT

GSO Customs & Shipping must receive prior notification (dhakaship@state.gov) for this equipment (not limited to CB radios, walkie talkies and MARS equipment). (CH 16-MAR-2016 SDDC-PAC RB)

a. WEIGHT RESTRICTIONS

DOD arranged shipments: "In accordance with the Joint Travel Regulations." (1) Army, Navy, & Air Force personnel assigned to all locations within Belgium(a) Accompanied tours: Full JTR weight allowance for all areas. (b) Unaccompanied tours: Weight allowance for E-6 single and below/unaccompanied personnel is limited to HHG transportation of 2,500 lbs. (net) or 25% (net) of the weight allowance in par. 5202.D, whichever is greater. This weight includes UB Transportation and is regardless of tour length. (c) Full JFTR weight allowance is authorized for unaccompanied E-7 and above. (d) Requests for exception may be submitted to the PPPO Installation Transportation Office identified in Special Instructions, Note 6. Soldiers will attach a copy of their orders to their individual request. Soldier's requests must show that they have confirmed the type of housing they will be assigned at their European PDS. Government quarters in Europe are small, and generally cannot accommodate HHG greater than the administrative weight allows (See Paragraph 5, Furniture Oversized, of General Instructions). Prior to requesting an individual increase to the administrative weight restriction, Soldiers should contact their gaining Garrison's housing office through their sponsor to request information related to the type of housing the community has to offer. DOS arranged shipments: Contact DOS.

b. CONTAINER/CRATING REQUIREMENTS

"No restrictions identified."

c. HARD LIFT AREA

"No restrictions identified."

d. UNACCOMPANIED BAGGAGE

"No restrictions identified."

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

"No restrictions identified."

3. CONSUMABLES

"No restrictions identified."

a. ALCOHOLIC BEVERAGES

Alcoholic beverages are considered combustible and flammable material and may not be shipped with international household goods or unaccompanied baggage. If wine cellar or liquors are shipped, it is recommended to ship commercially. The shipment will be subject to Belgian importation taxes. Arrangements are the sole responsibility of the member.

b. CIGARETTES/TOBACCO PRODUCTS

Limited to seven(7) cartons duty free in personal property shipment.

c. COSMETICS

"No restrictions identified."

d. FOOD STUFFS AND MEATS

"No restrictions identified."

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

"No restrictions identified."

4. ELECTRICAL EQUIPMENT

RADIOS AND STEREO EQUIPMENT: Are not restricted. There is an annual radio tax for each radio owned, including the car radio.

a. HOME COMPUTERS

"No restrictions identified."

b. TVs/VCRs

Televisions made for use in the US will not receive European signals. Armed Forces Network(AFN) broadcasts around Brussels and SHAPE may be received by US television sets, but access is limited to certain areas. Multi system, or European consoles are required for local cable and satellite reception. There is an annual TV tax for every TV in the household, approximate annual cost depends on black/white or color. US consoles receiving AFN only, are not taxed.

c. OTHER (i.e. COMPATIBILITY, ETC)

All electrical sources are 220-240 volt, 50 Hz. Ensure electrical appliances conform, or are dual voltage/frequency. Transformers are readily available on the economy and thrift shops on station. Microwave ovens must be able to switch to 50Hz if connected to a voltage transformer. Plug adapters are readily available for converting lamps and other items to Belgian wall outlets, 220 volt bulbs are readily available.

5. FURTNITURE, OVERSIZED

Government and Economy living quarters are generally smaller than those in CONUS. Economy housing in Germany may accommodate more HHG than government quarters, but are still smaller than homes and apartments in the United States. Many have narrow doorways and tight stairwells that cannot accommodate furniture that would fit easily into an American home. Service members shipping large items such as king and/or queen size box springs and mattresses, oversized sofas, or other large furniture items that cannot be disassembled, may encounter problems when residing in government or economy housing due to narrow stairwells. Washers, dryers, ranges, refrigerators, kitchen cabinets, and wardrobes are furnished for Government and Economy quarters. There is no Non-temporary storage in Europe authorized for HHG shipped in excess of what will fit, or is too large to be placed in,the Soldiers living quarters. Excess property shipped will not be stored at Government expense. Storage will be at the Soldiers expense.

6. PETS/QUARANTINE

Standards laid out in the following document address requirements for shipping dogs, cats, and ferrets from the United States. PLEASE NOTE: Ferrets are not accepted as pets for movement on AMC military or commercially contracted aircraft. If you require information on shipments for ferrets or other exotic pets please contact your local USDA field office. NOTE: For the remainder of this document the term pet or pets refers to dogs and cats only. ATTENTION: An examination fee of 55 Euro per pet will be implemented February 1, 2013, for all non-EU citizens who import a pet into the country. A. Quarantine Period - There is no quarantine period for pets entering Germany. B. Identification (Via standard electronic identification system with a read-only passive radio frequency identification device known commonly as a transponder Microchip): (1) Complies with ISO standard 11784 and 11785 (2) Where the microchip does not comply with ISO standard 11784 or 11785, the owner or the natural person responsible for the pet on behalf of the owner must provide the means necessary (Microchip Reader/Wand) for reading the non-ISO compliant microchip at the time of inspection (3) The microchip must be implanted before the primary rabies vaccination or valid rabies booster is given to the pet before traveling: a) Primary Rabies Vaccine - This is the first rabies vaccination a pet ever receives; for EU countries this also applies to the first rabies vaccine given after the microchip was implanted; that is, rabies vaccinations received prior to the pet being microchipped are NOT recognized by the EU. b) Valid Rabies Booster - This is a rabies booster that was given to the pet before the previous (Either the primary rabies vaccine or another rabies booster) rabies vaccination expired

C. Rabies Immunization: (1) Please refer to "http://www.aphis.usda.gov/regulations/vs/iregs/animals/ (Enter the destination country you will be residing in under "Search APHIS") (2) Pets less than three months of age coming from the United States may not always require the rabies vaccination IF: (a) These pets have pre-authorization from the EU member state BEFORE entering the country (3) Any one year dose or three year dose rabies vaccine is valid as long as it is a U.S. approved vaccine, and was administered according to the manufacturer's specifications (for instance, a vaccine labeled for 1 year use cannot be utilized as a 3 year vaccine) (4) A valid rabies vaccine must occur after the animal has been microchipped to be valid for entry into an EU member state (5) At least 21 days must have elapsed between the completion of the primary rabies vaccination (as specified above) and before the pet enters the EU member state. (a) However, if the animal received a valid rabies booster - - 21 days does not have to elapse before travel. (6) If a pet has received a non-ISO compliant microchip and then received a valid rabies vaccination with 21 days having elapsed since that vaccination and entering the EU member state; they: (a) Do not require implantation of another ISO compatible microchip, but are required to carry with them a microchip reader/wand capable of reading the non-ISO compatible microchip implanted in their pet (b) Do not require administration of another rabies vaccination before traveling as long as the rabies vaccination received is still valid (c) Can have an ISO compatible microchip implanted in their pet so they do not have to carry the reader/wand with them 1. If they get this ISO compatible microchip implanted, they do not have to receive another rabies vaccination following this second microchip implantation. They are only required to document both chips on the required forms with their implantation dates D. Documentation (Verify the correct required documentation with your local USDA office): (1) APHIS Form 7001 (Nov 2010) Acquired from any Army veterinarian, local veterinarian or USDA office (a) Valid for only 30 days after issuance

1. Timeframe the form is valid can be shortened per the requirements of the Airline the service member is traveling on (b) Requires certification by a USDA Accredited Veterinarian, Army Veterinarian, or GS 0701 Veterinarian before travel (c) This form is not required to enter the European Union (EU) 1. However, it's highly recommended that service members acquire this form before travel from their on-base Army veterinarian to preclude the following: a. If a member flies on a commercial carrier they may be required to have this form b. If a member is scheduled to fly Patriot Express and somehow has to divert to a commercial carrier, having this form in advance alleviates last minute costs ($200) or delays 2. This form is not required to travel on Patriot Express (2) EU Non-Commercial Pet Form (Bilingual Health Certificate) (a) For "Pets Dog, Cats, and Ferrets" destined to Germany, see link Under Pets heading Pets Dog, Cats, and Ferrets) Please refer to "http://www.aphis.usda.gov/regulations/vs/iregs/animals/ (Enter the destination country you will be residing in under "Search APHIS") (b) Valid for 10 days to enter European Union and 4 months once inside the European Union 1. Timeframe the form is valid can be shortened per the requirements of the Airline the service member is traveling on

(c) Requires certification by a USDA Accredited Veterinarian, Army Veterinarian, or GS 0701 Veterinarian before travel E. Helpful Hints: (1) As soon as you know you are going to travel and no later than 22 days prior to travel, get your pet microchipped first and then vaccinated for rabies if you have not already done so. Remember: A VALID RABIES VACCINE MUST OCCUR AFTER THE MICROCHIP IS IMPLANTED (a) This will ensure the required 21 days has elapsed

post vaccination prior to travel (2) When completing your required documentation (before you mail the forms or travel to your local USDA office to get them certified, if not using your on base Army veterinarian), fax or over-night ship them to your local USDA office to ensure they are filled out correctly before traveling to their office (a) This will ensure you do not waste travel time or postage only to have to redo the paperwork (3) Many overseas bases have a full-time veterinarian on staff as well as commercial veterinarians available on the economy (a) Most bases require pets to be registered with the base veterinarian after arrival. Check with base veterinarian for details (4) The pet cage or carrier (See carrier shipping rules for correct cage dimensions based on pet size) used for shipping the pet must be labeled with the owner's name, pet's name, owners (or nominated persons) address, contact number and contact number at the final destination. (5) Since 21 Apr 2001, Germany has had a law in place prohibiting importation of certain dog breeds regarded as dangerous. For more information consult http://www1.zoll.de/english_version/a0_passenger_traffic/e0_vub/h0_dangerous_dogs/index.html. You may also contact the base veterinarian at your destination. F. Unauthorized Pets: The import of Pit bull Terriers, American Staffordshire Terriers, Staffordshire Bull Terriers and their crossbreeding is prohibited. G. Fees: (1) The USDA form certification fee (approximately $70+, plus any shipping and handling if by mail) (2) Transporting pets to and from the PCS destination is at the member's expense and cost is based on the size of the pet being transported. Connecting flights may have fees in addition to AMC fees from BWI. (3) EFFECTIVE 1 February 2013, The fee for the import examination is 55 EURO. (4) All pet requirements are at the member's expense.(5) Shipping pets back to the U.S. or out of Brussels, Belgium International Airport is expensive. This should be considered when bringing pets to Belgium or acquiring pets while stationed here.

8. PRIVATELY OWNED VEHICLES (POVs)

“No restrictions identified.”

a. POVs (includes data on prohibited vehicles, colors, etc.)

Diesel POV Owners/Shippers: Environmental Emissions Restrictions on Diesel POVs operated within various German/Belgium/The Netherlands city limits are changing "daily". BEFORE SHIPPPING A DIESEL POV, Personnel should email USTRANSCOM-Europe Personal Property Office at <usarmy.sembach.598-trans-bde.mbx.ppd@mail.mil> and provide Make, Model, Year, and VIN #. USTRANSCOM-Europe will call their local RMV and obtain the most current information. Check back often, once we receive more concrete advice, this note will be updated.(1) All personnel are authorized one tax-free registered vehicle. Registration is annual and cost is based on the engine size. Estimated initial registration for a two(2) liter engine is 90 US dollars, subsequent annual registrations are approximately 15 US dollars. All additional vehicles must be registered if driven on the public roads, and the cost is commensurate with engine size. For example, the estimated cost for 4.0 liter engine vehicle is approximately 1,400 US dollars Trailers and all wheeled vehicle equipment must also be registered, if used on the public roads. Fines for failure to register are high. (2) All vehicles older than four(4) years must go through an annual technical control, for emissions and road worthiness. Estimated cost is 30 US dollars per year. (3) Belgian law requires POV having tinted glass to be equally transparent from either side. Tinted windows must not exceed a 30 percent reduction in light. Manufacturer tinted or self-adhesive film is permitted. Manufacturer tinted windows must have manufacturer's seal/mark. Windows may not be tinted and also be covered with self-adhesive film. Tinted film may not be mirror-type film. (4) Strongly recommend new and/or unregistered cars be shipped commercially, at member's expense, to Antwerp, Belgium, then seek reimbursement upon arrival. Shipment to Antwerp will avoid delays, facilitate clearing Belgium customs, simplify registration at the International Vehicle Registration Office. Registration and license plates are required to be with vehicle (Do not put plates in HHG). POVs arriving at Port Rotterdam without registration and plates will need to be trucked from the port to the duty station in Belgium at owner's expense.

b. MOTOR CYCLES/MOPEDS

"No restrictions identified." These should be shipped as part of the household good shipment. Must meet Belgian technical control requirements and be registered annually. Registration and road tax depends on engine size.

a. WEIGHT RESTRICTIONS

DOD arranged shipments: “In accordance with the Joint Travel Regulations.” (1) ARMY PERSONNEL: (a) Accompanied tours: Full JFTR weight allowance for all areas. (b) Unaccompanied tours: Weight allowance for single/unaccompanied personnel is limited to HHG transportation of 2,500 lbs. (net) or 25% (net) of the weight allowance in par. U5310-B, whichever is greater, including UB Transportation. Requests for exception may be submitted to the PPPO Installation Transportation Office identified in Special Instructions, Note 6, Record 43-4, IMCOM-E EURO Theater CPPSO. Soldiers will attach a copy of their orders to their individual request. Soldier's requests must show that they have confirmed the type of housing they will be assigned at their European PDS. Government quarters in Europe are small, and generally cannot accommodate HHG greater than the administrative weight allows (See Paragraph 5, Furniture Oversized, of General Instructions). Prior to requesting an individual increase to the administrative weight restriction, Soldiers should contact their gaining Garrison's housing office through their sponsor to request information related to the type of housing the community has to offer. Soldiers may obtain a sponsor through the USAREUR Sponsorship Gateway to Europe (S-GATE) at: http://www.1perscom.army.mil/S-Gate/S-Gate%20Web%20Page/Default.htm (c) Single/unaccompanied officers and personnel in grades of E7 through E9: Assigned to the following APO numbers in the Kaiserslautern area are authorized full JFTR weight allowance: 09009, 09012, 09021, 09054, 09180,09227 and 09263.(2) Air Force Personnel: None.(3) Navy and Marine Personnel: None.DOS arranged shipments: Contact DOS.

8. PRIVATELY OWNED VEHICLES (POVs)

SPECIAL REQUIREMENTS: Name of owner, VIN number or engine number, color, make, and model must be described on the original bill of lading.Copy of Certificate of Title and Passport is required. The US Embassy GSO Customs & Shipping Section provides service for the US Mission in Bolivia. No importation of diesel vehicles or vehicles where model year not to exceed 2yr from current year, (ie: for 2015, not older than 2013)(strictly enforced). There are also severe value restrictions on imported vehicles based on diplomatic rank. Shipments must be addressed directly to the consignee at the US Embassy in La Paz via the port of Arica, Chile. *Do not send shipments via Iquique or any other port* Post recommends that small shipments (crates smaller than an individual lift-van) be consolidated in Miami at Seaboard Marine. Contact LA_PAZ_CUSTOMS_AND_SHIPPING@state.gov for more detailed information.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) All PCS military are authorized duty-free Import of one POV. Shipment of military POVs should be to La Paz, Bolivia via, Arica (EE2), Chile. Vehicles should be consigned to COMUSMILGP - Bolivia, American Embassy, La Paz, ATTN: ATO. Vehicles must be crated and securely tied down inside containers, as they are shipped overland across the Andes to Bolivia; major damage has occurred when vehicles have broken loose from mountings inside containers. Vehicles must not be ostentatious. Removable POV accessories (i.e., radios, tape decks, extra mirrors, lighters, extra tools) should be shipped as HHG as they have a tendency to disappear in transit. Specific and up to date information should be obtained from the sponsoring country prior to shipment of POV. (2) If you plan to ship a POV to post, be advised that the Bolivian government has established limitations on the value of POVs imported by diplomatic personnel. The value limits shown below include $3,500 for shipping charges and the actual cost of insurance or two (2) percent of value of the POV if insurance is not purchased. This should be taken into account when determining the maximum purchase price of our vehicle. (a) VALUE LIMITS BY POSITION ARE AS FOLLOWS: 1. First Category: Chief of Mission - No value limit. 2. Second Category: Charge D'Affaires - US Dollars, $36,000. 3. Third Category: Counselors, First Secretaries, Vice-Counsuls, Army, Navy, and Assistant Attaches - US Dollars $31,200. 4. Fourth Category: Second and Third Secretaries, Vice Consuls, Army, Navy, and Assistant Attaches - US Dollars $28,800. 5. Fifth Category: Cultural and Commercial Attaches, Civil Assistant Attaches, International Mission Experts - US Dollars $27,600. Sixth category: Administrative and Technical staff - $22,900 USDFor vehicles that exceed these values, the employees will be personally responsible for importation taxes on the excess.The GOB does not permit the importation of diesel engine vehicles. (b) Post recommends that POVs sent to Bolivia have at least six(6) Cylinders, mountain gearing, and manual transmission because of hills and altitude. Four wheel drive vehicles are very popular and recommended by many employees, especially if you plan to travel outside of the city. Manual transmissions often have better resale value. The resale market for POVs is generally good. (3) In order to clear customs, the Embassy requires a commercial invoice and original bill of lading. Original bill of lading should be mailed by international courier (D.H.L.,FEDEX, or UPS) to: USMILGP - Bolivia, American Embassy La Paz, ATTN: General Service Officer prior to the arrival of vehicle at the port. POV should be consigned to: American Embassy La Paz, No. 2780 Ave Arce, La Paz, Bolivia, (591) 243-30251 (telephone)/(591 243-3047 Fax number. b. MOTOR CYCLES/MOPEDS

Not considered POVs; ship as HHG. If imported, must pay heavy import tax.

c. GASOLINE/CATALYTIC CONVERTERS

Only leaded or diesel fuel are available in Bolivia, so you may wish to have your catalytic converter removed in the U.S. prior to shipment.

d. INSURANCE AND SAFETY REQUIREMENTS

The government of Bolivia requires third party liability insurance for all vehicles, which can be purchased locally. The Embassy also recommends that you have coverage for comprehensive and collision. Do not forget to insure POV en route to post. Make sure insurance company covers Bolivia.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

No shipments can be cleared through BH customs office prior to the member's arrival at post. To avoid unnecessary demurrage charges, past strongly suggests shipments be timed to coincide with the employee's arrival at Sarajevo.

3. CONSUMABLES

DOD arranged shipments: A. Uniformed Service Member1. A member is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.).2. Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized.B. Civilian Employee1. A civilian employee, is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.).2. Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized.DOS arranged shipments:

4. ELECTRICAL EQUIPMENT

Primary power in Bosnia is 220V/50HZ. Voltage regulators and/or uninterruptible power supplies should be brought for sensitive electronic equipment, i.e., computers, stereos. Post issues two step-down transformers per housing unit for use with 110 volt appliances. A complete welcome kit is supplied for use until an employee's HHE shipment arrives. This kit includes kitchenware, a coffeemaker and toaster, china, glassware, flatware, iron, ironing board, bedding and towels.

5. FURTNITURE, OVERSIZED

Permanent housing in Sarajevo consists of short-term leased government-furnished quarters. The Embassy's Interagency Housing Board (IAHB) assigns housing in accordance with the space standards in 6 FAM 720. Housing assignments are usually finalized two months prior to the employee's arrival, provided that post has accurate arrival information. The IAHB makes assignments based on the units available at the time of the employee's arrival, considering employee preferences and special circumstances when possible. The embassy housing pool includes apartments, townhouses and some single family homes. The quality of available housing in Sarajevo has improved in recent years, but units with a lot of storage space continue to be hard to find. Some employees detailed or seconded to international organizations are on a living quarters allowance (LQA) and do not receive embassy-leased housing. Employees must keep lack of storage in mind when planning shipments; post cannot provide warehouse space for employees' personal effects. Garages here tend to be smaller than in the United States and larger vehicles such as SUVs are sometimes a tight fit. Post provides major appliances, including, two-room air conditioners, refrigerator/freezer, washer and dryer and a microwave oven. Optional items such as portable fans and space heaters are available on request. The Post housing handbook gives a full listing of household furnishings and appliances provided by post. New arrivals are provided with a welcome kit, which includes flatware, silverware, basic kitchen appliances, vacuum cleaner, pots and pans, and bedding and bath linens until household effects arrive.

6. PETS/QUARANTINE

There is no prohibition on bringing pets into Bosnia. A recent vaccination record is required to import animals. Most hotels do not accept pets and most embassy residences do not have yards for larger animals. Procedures for shipping animals vary from airline to airline - check carefully when planning to bring in a pet. Employees are responsible for any pet damage to embassy housing or furnishings.. Good veterinary care is available in Sarajevo.

7. PRIVATELY OWNED FIREARMS (POF)

8. PRIVATELY OWNED VEHICLES (POVs)

“No restrictions identified.”

a. POVs (includes data on prohibited vehicles, colors, etc.)

Employees assigned to Sarajevo may ship a POV no older than seven years to Post. Accredited diplomats may register their vehicles free of charge, there is a fee of about $100. per year for registering a vehicle for those with administrative and technical status. Employees should hold a valid US driver's license to operate a vehicle in Bosnia. Cars older than seven years at the time of import must be exported upon the end of the employee's tour in Bosnia - they cannot be sold in Bosnia. For this reason post strongly recommends that personnel avoid importing cars older than seven years. Dealer service of US Spec vehicles is unavailable here, but local mechanics can fix many problems. Audis, Renaults, and Volkswagens are sold and serviced in the Sarajevo area. Four wheel drive vehicles are highly recommended as roads in Bosnia are rough and icy in winter.

b. MOTOR CYCLES/MOPEDS

Motorcycles can be shipped to post with HHE, but be aware operating a motorcycle in Bosnia cannot be considered safe given local traffic conditions and rough roads.

c. GASOLINE/CATALYTIC CONVERTERS

Lead-free gasoline is readily available.

d. INSURANCE AND SAFETY REQUIREMENTS

Bosnian law requires purchase of third party liability insurance from a local company. This insurance is available at a discount through an embassy contract.

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

Personnel contemplating retirement, separation or relocating dependents to Bosnia-Herzgovina should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Bosnia-Herzgovina. When processing application and gbl, shipment must be consigned to member's residence in country or to the destination agent facility. DO NOT CONSIGN PROPERTY TO AMERICAN EMBASSY OR AMERICAN CONSULATE.

b. CONTAINER/CRATING REQUIREMENTS

DO NOT SEND PALLETS OR CRATES OF UNMARKED OR UNTREATED WOOD. All shipments should come with clear, durable, indelible ISPM 15 markings, which are not yellow or orange nor made by hand, on at least two opposite sides. Lift vans/Crates are considered a single unit (integrated components), and need to be marked on at least 2 sides, (3 is preferred) in a visible location. Dunnage, pallets, anchors, or small support pieces used to hold vehicles or products in place should be marked with complete markings and are treated as separate pieces. EACH PIECE MUST BE MARKED. Freight forwarders and shippers are required to insert clarification on wood treatment into the shipping instructions: wooden package (y/n), Wooden package (Not treated/not Certified), Wooden Package (treated and Certified). This should appear on the BOL and AWB. If wood was treated, the shipper is to indicate how in the instructions. UAB shipments should consist of cardboard boxes ONLY, and be shipped on plastic pallets ONLY. Condemned wooden will be returned to the origin at shipper’s expenses and will delay cargo importation. Also,tires or any other vehicle parts CANNOT be shipped in the HHE.

c. HARD LIFT AREA

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

A clear scanned copy is required in advance, please send: Invoice, AWB/BL, UAB, HHE and POV Inventories, Car Engine number (mandatory) and bill of sale/title TOCUSTOMS AND SHIPPING SECTION. LOCAL TIME LIMIT FOR IMPORTATION IS 6 MONTHS AFTER ARRIVAL OF EMPLOYEE not required- COMMERCIAL SHIPMENT AFTER THATEMPLOYEE REQUIRED TO BE IN COUNTRY PRIOR TO THE ARRIVAL OF THEIR SHIPMENTa. DD Form 1299 for shipment of unaccompanied baggage or household goods must be annotated to reflect the value of the property for consular invoice purposes. b. HHG and UB may arrive at post prior to employee's arrival since they can be held at the airport cargo terminal. However, documents for their customs clearance can only be processed after the employee arrives at post, is accredited by Government of Brazil and receives his/her Brazilian identification card, which may take from 3 to 5 weeks. The ID card is issued by the Foreign Ministry and not by the personal office at post. After the employee receives his/her identification card the HHG and UB should be cleared customs in approx. 3 weeks. c. In Brazil, there is a period of installation for the shipment of HHG and UB, which corresponds to the first 6 months after the employee's arrival at post. The Government of Brazil allows that, during the period of installation, the member ships to post as many HHG and UB he/she desires under the travel orders. It is important that the weight allowance is not exceeded. NOTE: After the period of installation, the Government of Brazil will not authorize importation for any HHG, UB, POV or any other item to Brazil under the members name.

3. CONSUMABLES

RIO DE JANEIRO POST DOES NOT RECEIVE CONSUMABLES SHIPMENT

6. PETS/QUARANTINE

Dogs and cats are permitted entry. Advance notification (at least 10 working days in advance of arrival) to the US military agency assigned is required in order to arrange for clearance and free entry. Notification should include the type of animal, name of carrier and expected arrival date/flight. Dogs and cats require a public health certificate of vaccination against rabies. The vaccination must have been no less than 30 days but no more than a year before arrival. The certificate of vaccination must be validated by the US Department of Agriculture and submitted to a Brazilian Embassy or Consulate within which the USDA district office is located for authentication to receive a visa for the pet. Attach the certificate of vaccination with visa notations to the airway bill if you are not accompanying the pet. If the pet arrives with you, keep the vaccination certificate with you to facilitate clearance. Heartworm (filaria) is not prevalent in Brasilia, but is endemic in Rio de Janeiro and Sao Paulo.Important – PET AS CARGO: If your pet comes asCARGO, we strongly recommend the use of a broker service. Please, advise Customs & Shipping at the Embassy/Consulatesso they can recommend a broker to you. The clearance usually takes 3-4 hours. All pets arriving at the international airport as cargo are sent from the arrival terminal to the cargo terminal to where the pet owner should proceed to clear them through customs. Customs & Shipping assistance to pets is very limited: the expeditor will accompany you to the cargo terminal; introduce you to the broker who will proceed with the clearance of the pet in your presence. The clearance service involves an extra cost of approximately US$ 500.00, including: broker's services, documents fee and storage at the cargo terminal.The broker service should be paid by the pet's owner, in reais (R$). The admittance of species other than dogs and cats, including pet birds, requires prior approval by the Ministry of Agriculture. The traveler must request an import permit from the Ministry of Agriculture in Brazil. In order to request import authorization or for further information, please contact the Ministry of Agriculture atctqa@agricultura.gov.br < Caution-mailto:ctqa@agricultura.gov.br >

7. PRIVATELY OWNED FIREARMS (POF)

a. If application for importation is made before arrival, the following information should be furnished to USMLO Brazilia (with info copy to organization assigned), purpose (hunting, target practice, self defense, etc.), caliber, make, number of barrels, type of barrels, telescopic sights (range), and serial number. Upon receipt of this information and approval by the Ambassador, permission is requested from the Ministry of War through the Ministry of Foreign Affairs for entry of the firearms. This approval takes at least 2 months, and no arms are cleared through customs without this permission. b. Importation of firearms requires prior authorization by the Ambassador in Brazilia and must be for personal use only. Only the following weapons have been approved by the Embassy and the Brazilian Government for importation:

a. HAND GUNS

2 Pistols, .38 caliber or smaller.

b. RIFLES/SHOT GUNS

2 rifles, .44 caliber or smaller.

The American Embassy neither encourages nor discourages purchase of a Brazilian manufactured automobile in lieu of shipment of a POV to duty station in Brazil but suggests personnel consider the following factors: 1. All US employees/Armed personnel assigned to Brazil may either import a car duty-free or purchase a Brazilian-manufactured car, exempt from manufacturer's tax. The car purchase value or local market price (Blue Book) cannot exceed $28,000 US dollars (for entitled with an administrative title) or $45,000 US dollars for those entitled with a consular or diplomatic title. 2. The employee or agency must e-mail the Embassy / Consulates stating the owner's name and rank, estimated time of arrival, and vehicle specification: year, make, model, VIN number AND engine number, color, purchased price, PHOTOS, title, type of fuel. 3. Customs clearance can only commerce after employee received his/her accreditation (ID) from the Ministry of Foreign Affairs and CPF#, issued by Receita Federal. 4. The employee MUST contact the Embassy/Consulates before shipping the vehicle. 5.Vehicles belonging to two or more employees MUST NOT be shipped under the same Bill of Lading (BL). Each vehicle must be shipped under an individual BL. Repeat, vehicle MUST BE shipped separately under separate BLs. 6. Vehicles MUST BE shipped to the port of the corresponding Consulate/Embassy. 7. Once authorization for shipment is granted, to expedite the customs process, a copy of the BL MUST BE e-mailed to the post receiving the vehicle.OBL must have FULL NAME of owner, CPF#, EMBASSY/CONSULATE INFORMATION, complete description of vehicle to include year of manufacture, color, make model, VIN number. The accuracy of this information is vital to ensure POV shipment is not delayed. 8. A vehicle imported duty-free may be sold locally after it has been in Brazil at least 12 months (from date of customs clearance), provided the owner is transferred permanently from Brazil and required local import duties and taxes are paid. These duties and taxes gradually reduce until the vehicle has been in the country 3 years; then it can be sold locally duty free. Duties and related taxes can total 160 percent of the minimum value. Therefore, import duty tax will probably exceed the value of the imported vehicle until it has been in Brazil for the required 3 years. A POV SALE takes approximately 4 months. A vehicle imported duty-free must be exported from the country within 30 days after owner's departure. 12. If a car is not importedRestrictions to importing vehicles to Brazil, 1.Window tinting (other than factory installed tint) must be removed before importation.2.Right-hand drive vehicles cannot be imported.3.Diesel powered vehicles cannot be imported.4.Vehicles with tires whose size extends beyond the wheel wells are prohibited – except for ATV (all-terrain vehicles) such as Hummer, Wrangler, Suzuki Jimmy, and similar.

a. POVs (includes data on prohibited vehicles, colors, etc.)

The American Embassy neither encourages nor discourages purchase of a Brazilian manfactured automobile in lieu of shipment of a privately-owned motor vehicle to duty station in Brazil but suggests personnel consider the following factors:1. All US employees/Armed personnel assigned to Brazil may either import a car duty-free or purshase a Brazilian-manufactured car, exempt from manfacturer's tax. The car purchase value or local market price (Blue Book) cannot exceed $28,000 US dollars (for entitled with an administrative title) or $45,000 US dollars for those entitled with a consular or diplomatic title.2. Authorization for importation/shipment of vehicles muct be granted by the Embassy. The employee or agency must cable or preferably e-mail or fax (55-61-226-8470), to the Embassy stating the owner's name and rank, estimatedtime of arrival, and vehicle specification: year, make, model, VIN or engine number, color, purshase price, type of fuel, statement of no tinted windows (unless factory manfactured), etc.3. Vehicle should arrive at the port of Rio de Janero close to the employee's arrival at post. Customs clearnace

can only commerce after employee received his/her accreditation (carteira) from the Ministry of Foreign Affairs and CPF, issued by Receita Federal (Customs).4. The government of Brazil does not allow the importation of two vehicles. If an employee decides to ship a second, other than the one authorized duty-free by the GOB, this second vehicle must br brand new and the employee wil have to pay full duties on it. The employee MUST contact the Embassy BEFORE the vehicle .5. Vehicles belonging to two or more employees MUST NOT be shipped under the same Bill of Lading (BL). Each vehicle must be shipped under an indivual BL, even if vehicles belong to officers at the same post. Repeat, vehicle MUST BE shipped separtely under separate BLs. If vehicles are shipped in the same container, customs process takes additional weeks which substantially increases the storage charges.6. Vehicles MUST BE shipped to the port of Rio de Janeiro. Our broker's office can move customs documents more rapidly through the port of Rio than in Santos. Customs processes at the port of Santos are lenghthy. Besides, Santos is a more expensive port.7. Once authorization for shipment is granted, the shipper overseas MUST cable shipping details to post once vehicle is issued with the BL. To expedite the customs process, a copy of the BL MUST BE faxed to the post receiving the vehicle. The original Bill of Lading (OBL) must be forwarded by FedEx to post immediately after its issuance by the shipping line. OBL must have name of owner, complete description of vehicle to include year of manfacture, color, make model, VIN and/oe engine number, purchase price, type of fuel, etc. The accuracy of this information is vital to ensure POV shipment is not delayed. Original copy of OBL must be mailed at earliest date to the American Embassy, Av. Das Nacoes, Quadra 801, Lote 3, 70400-00, Brasilia D.F., Brazil. The address for the Consulate in Rio de Janeiro is Av. Presidente Wilson 147B, Castelo, 20030-020, Rio de Janeiro, Brazil.8. The consignee block on the Bill of Lading MUST show the following sequence of information:MICHAEL MARSHALLFULL NAME OF EMPLOYEE (ABBREVIATION OF NAMES WILL SLOW DOWN CUSTOMS PROCESS)AMERICAN EMBASSYBRASILIA, BRAZILVIA PORT OF RIO DE JANEIROTEL: 55-321-7272 X2156MICHAEL MARSHALLFULL NAME OF EMPLOYEE (ABBREVIATION OF NAMES WILL SLOW DOWN CUSTOMS PROCESS)AMREICAN CONSULATE GENERALRIO DE JANEIRO, RJ - BRAZILVIA PORT OF RIO DE JANEIROTELL: 55-21-292-7117 X2618 9. Upon arrival at post, the employee must provide a copy of the POC's bill of sale and title to Embassy/consulate GSO Shipping and Customs Section.NOTE: Some damages occur to car tires received in containers at posts. Even though the vehicle may be strapped down inside of the container, the vessel's movement while at sea causes these vehicles to move, rubbing the tires against the wood. For all military Dispatches sending containerized vehicles to the states, suggest that when blocking and bracing these vehicles inside of container, protection be placed between the tires and the wood used for blocking. Place three pieces of cardboard, rags, or thick pieces of foam rubber between the rubber tires and the blocks of wood to prevent tires from rubbing against the wood blocks.10. Brazilian law prohibits the importation of diesel-powered passenger's vehicles by foreign personnel. Use of reflective or colored solar tinting, other than factory installed tinted glass, is also prohibited.11. A vehicle imported duty-free may be sold locally after it has been in Brazil at least 6 months (from date of customs clearance), provided the owner is transferred permanently from Brazil and required local import duties and taxes are paid. these duties and taxes gradually reduce until the vehicle has been in the country 3 years; then it can be sold locally duty-free. Duties and related taxes can total 160 percent of the minimum value (currently US $17,000 for automobiles over 2,400 pounds established by the customs authorities. Therefore, import duty tax will probably exceed the value of the imported vehicle until it has been in Brazil for the required 3 years. Even after 3 years, the market for imported vehicles may be limited as local citizens must pay a high yearly road tax on imported vehicles (currently us $2,000). A vehicle imported duty-free must either be sold or exported from the country within 30 days after owner's departure.12. Ford, GM, Chrysler, Fiat, Alfa Romeo, Audi, Renault, Peugeot, Honda, and VW manufacture vehicles in Brazil. If a car is not imported, a new vehicle can be purchased with a tax exemption at a price about

40 percent lower than the normal Brazilian market. Most Brazilian car manufacturers offer both gasoline and alcohol powered models. Delivery may require 45-60 days, since the car must be ordered direct from the factory after receiving approval from the Brazilian Foreign Office. The car may be sold locally without tax payments provided it has been owned for at least 1 full year from the date the car left the factory. Prior to that, the car may only be sold to another individual with tax-free privileges who did not import a car. Brazilian automobiles do not generally meet US safety/environmental standards so it can not usually be imported into the US.Restrictions to importing vehicles to Brazil, 1.Window tinting (other than factory installed tint) must be removed before importation.2.Right-hand drive vehicles cannot be imported.3.Diesel powered vehicles cannot be imported.4.Vehicles with tires whose size extends beyond the wheel wells are prohibited – except for ATV (all-terrain vehicles) such as Hummer, Wrangler, Suzuki Jimmy, and similar.

b. MOTOR CYCLES/MOPEDS

For Brazilian importation purposes, a motorcycle or a motorboat is considered a "vehicle". As such, they cannot be included in the HHG or UB shipments. The employee interested in this type of importation must follow the same procedures outlined in paragraph 8(a)(2) above.

c. GASOLINE/CATALYTIC CONVERTERS

The prices of gasoline and alcohol fuel are government influenced. Gasoline is expensive. Currently, more than $US3.00/gal. Alcohol slightly less. Unleaded and premium gasoline are not available; however, both have approximately 25% alcohol content. This gasohol mixture may affect engine performance. CATALYTIC CONVERTERS: No restrictions identified.

d. INSURANCE AND SAFETY REQUIREMENTS

Your VALID driver's license is all you need to drive in Brazil. The Brazilian Government requires that allcars registered through the Consulate carry 02 types of insurance:1) Additional Excess Liability Insurance (American Company) that covers a minimum of US$300,000 for personal injury/US$100,000 for property damages. And forMotorcycles minimum of US$300,000 for personal injury/ U$ 50,000 for property damages;2) Third party liability Insurance(Brazilian Mandatory Insurance/DPVAT) provided by Customs and Shipping before installing plates, cost for cars around R$ 122.23 and motorcycles R$ 140.17. The Excess Liability coverage goes beyond the limits of the DPVAT coverage.Per previous experiences, NO American companies sell Excess liability insurance for Motorcycles in Brazil. Please check with your insurance company before coming to Rio de Janeiro.You will need the Additional Excess liability coverage in order to request license plates. Companies providing Additional Excess liability insurance on your vehicle will ask for proof of the DPVAT insurance here in Brazil before paying any claim.Registration is paid by the POV owner and the cost is around R$ 511.00.Insurance policies are valid for one year. Therefore, when expired, the renewal of the both policies must be made, as this is a condition for official vehicles and those of functionaries' holders of privileges and immunities to remain in a regular situation (MFA POV taxes and charges < Caution-http://www.cgpi.itamaraty.gov.br/en-us/taxes_and_charges.xml >). Without endorsing any firm or service, most employees at Post have presented car insurance policies issued by: Clements and Company (Caution-http://www.clements.com < Caution-http://www.clements.com >).

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. To facilitate prompt customs clearance in Greece, it is important the words "Transit Cargo" appear on shipping documents and as part of the address on shipping containers. The Embassy normally arranges for transportation of the shipment by truck from ship side to Sofia. b. To ensure customs clearance, employees should provide to GSO/customs on arrival the make, model, serial numbers of POVs, radio, TV sets, computer equipment, audio equipment, VCR, typewriter, and major electrical appliances, optical and musical instruments and works of art (valued at 100 dollars or more). c. Member must be in the country, register with the Ministry of Foreign Affairs (MFA), and obtain diplomatic card in order to have personal shipments cleared. UAB and HHG should not be sent to post prior to the arrival of the member in the country. d. Administrative and Technical Staff (A&T staff) are limited to 6 months duty free entry of personal shipments. Please check with General Services Office, Shipping Section before leaving for post for any changes on this issue.

3. CONSUMABLES

DOD arranged shipments: “In accordance with the Joint Travel Regulations.” The JFTR/JTR identifies Sofia, Bulgaria as having a consumable goods allowance authorized. Recommend validating consumables allowance authorization within the JFTR/JTR Appendix F during counseling. (CH PPP-POP 3-11-2010) A. Uniformed Service Member1. A member is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.).2. Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized.B. Civilian Employee1. A civilian employee is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.).2. The Government of Burkina Faso allows duty-free entry of HHE for all diplomatic personnel for the full length of their assignments. Nondiplomatic personnel receive duty-free entry of effects for up to 6 months after arrival. Duty-free privileges for contractors vary, depending upon agreement reached between the Burkinabe Government and the particular project. Each accredited member of Mission is allowed one POV duty-free. If a second vehicle (including motorcycles and mopeds) is imported at the owners expense or purchased locally, the vehicle must be registered locally and will not be assigned diplomatic plates. GSO arranges customs clearance for HHE, consumables, and vehicle shipments. No restrictions exist on bringing foreign currency into Burkina Faso. 6. PETS/QUARANTINE

No quarantine is required to enter Burkina Faso. However, pets must be accompanied by an up-to-date rabies vaccination certificate that is at least one week, but not more than one year, old and a veterinary certificate attesting to the good health of your pet issued not more than 5 days before arrival. Dogs and cats are also required to have yearly rabies shots.While Burkina's rules for pet importation are generally less stringent than many other countries, your pet will almost certainly have to transit Europe to/from Burkina Faso. As a result, Post recommends that you ensure that your pet meets all of the stringent standards for importation into the European Union. If you choose not to follow the European requirements (spelled out in some detail below), you will almost certainly encounter headaches and heartaches trying to get your beloved Fido to/from Burkina.The European Union is implementing a continent-wide set of pet importation regulations that also affect animals that are transiting Paris via CDG airport. If you are transiting Paris, you must get a specific waiver of these regulations. To obtain a waiver, you must fax to the onsite veterinary official at CDG in advance a veterinary certificate attesting to the good health of your pet along with your flight numbers/itinerary. You should obtain your certificate of good health not more than 5 days and not less than 3 days prior to your departure. If your pets rabies vaccination is more than one year old, you will also need to update this vaccination no less than 30 days prior to your departure. Fax your certificate and itinerary to:Services vtrinaires Roissy CDGrue du Plican zone de fret 1 BP10111 95701 Roissy CDG cedexTel: (33)1.48.62.23.22 Fax: (33)1.48.64.69.36The veterinary official at CDG will fax you confirmation of your waiver. Hand-carry this confirmation (or the fax confirmation sheet indicating that your original fax was successfully transmitted to the CDG veterinary service if you never received a response), along with the original certificate of good health and proof of an up-to-date rabies vaccination, with you when you board the flight. While it is possible that French officials will not insist on seeing this paperwork for hand-carried animals, we strongly advise that you complete all the necessary paperwork in advance of your arrival in Paris.Should your pet be traveling as accompanied baggage, you will need to personally collect your pet upon arrival in Paris and then recheck your pet prior to your departure. We strongly advise anyone traveling with pets not to schedule any extended layover in Paris, as you may be forced to demonstrate compliance with the full set of pet importation requirements.While the shipment of pets is not reimbursable by government agencies, it may be tax-deductible as a moving expense. When shipping pets, start to plan early as many airlines now have embargoes on shipping animals during hot summer months. Please advise GSO ahead of time if you intend to ship a pet.Veterinary services are available in Ouagadougou, but they are not up to western standards. You are encouraged to bring with you or ship any medications or treatments, as well as specialized food, your pet may need.

7. PRIVATELY OWNED FIREARMS (POF)

You must request permission from the Ambassador to bring personal firearms to post. The Burkina government restricts ownership of 9mm firearms, and firearm permits are expensive. If you intend to ship personal firearms please send all pertinent information (weapons technical characteristics, copies of purchase documents and copy of your diplomatic passport data page,etc) to GSO, well in advance of your arrival. Under no circumstances should weapons be placed in your accompanied baggage.

a. HHG and UB shipments should be shipped timed to arrive THREE WEEKS AFTER arrival of the customer at post. This will reduce demurrage charges and the possibility of mold growth, particularly during the rainy season, May to October. HHG and UB cannot arrive or be cleared through customs prior to arrival of the customer (no exceptions granted). (CH 29-OCT-2020 TCJ9-OH-Pac RB) b. Burmese customs officials strictly enforce import regulations. Firearms (including

air powered and toy guns); CB radios; certain books, photographs, and magazines which display nudity; and MARS equipment are prohibited for importation into Burma. Modems and routers may also be rejected for import. HHG and UB shipments will be examined upon arrival and prohibited items will be confiscated. (CH 29-Oct-2020 TCJ9-OH-Pac RB) c. To expedite customs clearance in Burma, it is important to furnish the Embassy GSO, with an information copy to the DAO, as soon as possible a copy of the inventory indicating the number of outside containers and estimate of the total value of the property shipped under each PPGBL. d. Express released bill of lading or a copy of Air Waybill are required for all personal property shipments (HHG/UB/POV) prior to obtaining customs clearance. Instruct carriers to forward original bills of lading as soon as possible to the Embassy GSO, with an information copy to DAO. (CH 29-OCT-2020 TCJ9-OH-Pac RB)

ENSURE DD FORM 1299 IS ACCOMPLISHED FOR EACH SHIPMENT AND CONTAINS THEFOLLOWING STATEMENT IN THE REMARKS BLOCK "DEPARTMENT OF STATE MANAGEDSHIPMENT". NOTE: THIS CAN BE ACCOMPLISHED BY USING THE ADDITIONAL INFORMATION FIELD(SEE DPS SMARTBOOK ON WWW.MOVE.MIL (PPSO TAB)). c. SUBMIT DD FORM 1299, DD FORM 1797 AND A COPY THE MEMBER/EMPLOYEES ORDERS VIAFAX/EMAILED TO U.S. DEPARTMENT OF STATE TRANSPORTATION AND TRAVEL MANAGEMENTDIVISION, PHONE: 1-800-424-2947 OR 202-663-0891/0892, FAX: (202) 663-3209, EMAIL:DODPP@STATE.GOV. d. AFTER SUBMISSION OF REQUIRED DOCUMENTS TO DOS, PLACE THE DPS SHIPMENT RECORDIN A "CANCELLED" STATUS.FOR TDY OVER 90 DAYS: The Embassy HR Office cannot request the Cambodian Ministry of Foreign Affairs issue a diplomatic ID card, so the customer has no Duty Free import privileges. In this case, if the customer has any UB/HHG shipped to Post, Customs clearance will be completed via a private channel subject to Duties and Taxes. Furthermore, the Embassy can only use the customer’s tourist passport to complete Customs clearance, not a diplomatic passport. Embassy STRONGLY RECOMMENDS long-term TDY customers to consult with the Embassy PRIOR to shipping UB/HHG to Post.(CH 10-Jun-2019 TCJ4-HB RB)NOTE: DoD Agencies supported by the US Embassy Phnom Penh include: - Defense Attache Office - Office of Defense Cooperation - Naval Medical Research Unit 2 - US Marine Security Guards(CH 13-MAR-2019 TCJ4-HB RB)

a. WEIGHT RESTRICTIONS

In accordance with governing regulations.

b. CONTAINER/CRATING REQUIREMENTS

Containers used should be standard dimension (1X20' or 1X40').

c. HARD LIFT AREA

Hard lift area for Marine Corps. Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. UNACCOMPANIED BAGGAGE

No restrictions identified.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. ROUTING TO CAMBODIA: The fastest route for sea freight is via Singapore and airfreight is via Doha or Hong Kong. There is no size limitation at post for air shipments. However, due to previous experience, post suggests that the shipper should check with the Airlines for size restriction because at some transit points, some airlines use small aircraft to fly to Phnom Penh so some larger shipments cannot be loaded from those transit points to Phnom Penh at all. Post recommends using Cathay Pacific and Qatar Airlines for large or heavy shipments. Using Cathay Pacific Airline, the shipment will transit via Hong Kong to Phnom Penh. Qatar shipments will travel directly from Doha. DO NOT send HHG, POV, or CONS (Consumable) shipments through Vietnam. The port of discharge and port of delivery is Sihanoukville. The Embassy will arrange onward movement from Sihanoukville to Phnom Penh.(CH 12-NOV-2020 TCJ9-OH-Pac RB)b. FOR CUSTOMS CLEARANCES: The Ministry concerned requires a complete and legible inventory list, declared value of household goods, unaccompanied baggage, privately owned vehicle and consumables and the telex-released bill of lading for surface shipments. The OTO carrier must ensure the airway bills and ocean bills of lading shows: American Embassy, Phnom Penh, Cambodia, (name of owner) so the owner can be easily identified. When completed, send one copy of each document to post as soon as possible. Failure to provide documents will result in customs clearance delays. Packing list and a declaration of the value for shipments are important.c. DOCUMENTATION: Please send the airway bill/telex-released bill of lading and packing list and all documentation concerning transportation as soon as possible by email to: GSO_Phnom_Penh@state.gov.Lack of these documents will result in clearance delays. Due to lengthy customs clearance process in Cambodia, Post recommends personnel to ship UB six to eight weeks prior to arrival, and HHG and POV from two to three months prior to their scheduled arrival at Post. (see storage in para 13)(CH 12-Nov-2020 TCJ9-OH-Pac RB)d. MARKINGS: Household goods, unaccompanied baggage and privately owned vehicles to Phnom Penh are to be marked as follows:AMERICAN EMBASSYOwners Name#1, Street 96Sangkat Wat PhnomKhan Daun PenhPhnom Penh, CambodiaPhone-855-23-728000(CH 15-MAR-2016 SDDC-PAC RB)ADDITIONAL INSTRUCTIONS: Once the customer provides the US Embassy copies of the diplomatic passport (signature page and photo page in one frame), Cambodian VISA, and firm ETA to Post, Embassy personnel will be able to provide the greenlight to have shipments arrive at Post prior to the customer's arrival. However, without the three pieces of specific information, shipments will be put on HOLD until the customer arrives into Cambodia.(CH 10-JUN-2019 TCJ4-HB RB)

3. CONSUMABLES

Please refer to the JTR, AP-CG-01, to determine customer eligibility if the destination Country -AND- City is an Authorized Consumable Goods Allowance Location.(CH 05-May-2021 TCJ9-OH-PAC RB)

a. ALCOHOLIC BEVERAGES

There are no restrictions. However, the Embassy STRONGLY ADVISES alcoholic beverages NOT be declared on the Ocean Bill of Lading.(CH 10-JUN-2019 TCJ4-HB RB)

b. CIGARETTES/TOBACCO PRODUCTS

Post has no restrictions, but cigarettes/tobacco products SHOULD NOT be declared on the AWB/BOL.(CH 05-DEC-2017 USTCJ4-HB-PAC RB)

c. COSMETICS

No restrictions identified.

d. FOOD STUFFS AND MEATS

No restrictions identified, however, raw meat or perishable requiring refreezing should not be shipped since post cannot guarantee shipping duration.

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

No restrictions identified.

4. ELECTRICAL EQUIPMENT

.

a. HOME COMPUTERS

No restrictions.

b. TVs/VCRs

No restrictions identified. However, it should be noted that American formatted TVs will not be able to receive Cambodian cable or standard broadcasts, as Cambodian cable/standard broadcasts are in PAL BG format.(CH 15-MAR-2016 SDDC-PAC RB)

.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) Importation of US manufactured vehicles by US military personnel permanently stationed in Cambodia is authorized. (2) The Cambodian Royal Government prohibits importing right hand drive vehicles into Cambodia. (3) If there is no Engine Number on any document/certificate of title, the Engine Number can be noted as "N/A".(CH 12-Nov-2020 TCJ9-OH-Pac RB)

b. MOTOR CYCLES/MOPEDS

No restrictions. However, the customer and the OTO TSP must ensure the master Ocean Bill of Lading (OBL) contains the following information: - model year - make - model - color - engine capacity in Cubic Centimeter (CC) - vin and/or chassis numbers - Engine # (NOTE: The Cambodian Customs Office REQUIRES the Engine Number) The above information is to ensure Post will be able to import the motorcycle/moped Duty free and legally register it in the country. Without declaring the above information on the OBL, the customer will have to pay import taxes to generate registration documentation drive it legally on the road. (CH 12-NOV-2020 TCJ9-OH-Pac RB)

c. GASOLINE/CATALYTIC CONVERTERS

Unleaded fuel is widely available in Cambodia.(CH 15-MAR-2016 SDDC-PAC RB)

d. INSURANCE AND SAFETY REQUIREMENTS

Third-party insurance, procured locally, is required for POVs and motorcycles/mopeds. Local third-party insurance costs 41.00 US Dollars per year for POVs and 22 US Dollars per year for motorcycles/mopeds.(CH 12-NOV-2020 TCJ9-OH-Pac RB)

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

Pornographic materials and other sensitive items which could be considered offensive to the host nation government are not authorized.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

Importation procedures are VERY complicated, so US Embassy strongly recommends customers NOT importing these into the Cambodia.(CH 10-JUN-2019 TCJ4-HB RB)

11. TRANSMITTING EQUIPMENT

Cambodia does not have any restrictions on the import of transmitting equipment since those items are imported as Household Goods. HOWEVER, Post cannot guarantee whether any personal transmitting equipment can be installed and used as there are no clear rules and regulations from the Cambodian Government.(CH 05-DEC-2017 TCJ4-HB-PAC RB)

7. PRIVATELY OWNED FIREARMS (POF)

All POFs being imported into Canada should have a U.S. Customs Form 4455 (Certificate of Registration) accomplished before leaving the United States. The Form 4455 is required for return of the POF to the U.S. Do not ship other restricted weapons. Gun laws are constantly changing in Ontario. Read the firearms rules carefully for each area of responsibility. It is highly recommended to call the destination office for current laws before shipment is considered. An Authorization To Transfer(ATT) a restricted weapon must be obtained through the North Bay Traffic Management Office one month prior to the actual movement of the weapon into Ontario, Canada. Attempting to bring restricted weapons across the border is illegal and the member can be arrested along with having the weapon(s) confiscated. Do not attempt to ship or hand-carry a prohibited weapon into Ontario! Upon arrival, Canadian Customs permits must be obtained through the North Bay office for all guns. Members should contact the North Bay office for the determination on non-restricted, restricted, and prohibited firearms.

a. HAND GUNS

Hand guns are strictly prohibited from shipment in HHG or UB. They must be hand-carried with trigger locks and in a lockable case if possible. An Authorization To Transfer(ATT) must be obtained for handguns.

b. RIFLES/SHOT GUNS

Long guns (rifles and shotguns) may be sent with HHG or UB as long as trigger locks are installed. Rifles and shotguns must be licensed and registered with the Canadian Government before they will be released by Canadian Customs.

c. TOY RELATED GUNS

BB/pellet guns, 500 feet per second(FPS) or more are restricted.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

Member must receive permit from Government of Canada prior to shipping ammunition and explosives. Questions may be directed to GSO.

8. PRIVATELY OWNED VEHICLES (POVs)

Personnel under official travel orders to Canada are exempt from theRegistrar of Imported Vehicles (RIV) registration requirements for theduration of their assignment. A vehicle imported under these conditionscannot be sold or otherwise disposed of while in Canada, and cannot remainlonger than the duration of the assignment. POV's not manufactured to U.S. or Canadian Specifications are not admissible into Canada. Additional information can be found on the Canadian

Registrar of Imported Vehicles (RIV) at 1-888-848-8240 or visit their Web site at www.riv.ca

Before You Import - Explanations on Mandatory ComplianceDocument CL9203(E) May/13/2016 EditionDisclaimer: This list is compiled by Transport Canada for the Registrar of Imported Vehicles (RIV)program using information provided by vehicle manufacturers on a voluntary basis.Its accuracy cannot be guaranteed and its content is subject to change without notice.There are also no guaranties that a vehicle deemed admissible on the list can be successfullymodified to meet Canadian requirements.For detailed information about the entire procedure to follow when importing a vehicle purchased inthe United States, please contact the RIV at 1-888-848-8240 or visit their Web site at www.riv.ca.1. A U.S. specification vehicle is a vehicle designed, built, tested and certified by the originalequipment manufacturer (OEM) to meet all applicable U.S. Federal Motor Vehicle SafetyStandards (FMVSSs). Where a U.S. specification vehicle is listed as ADMISSIBLE, and requiresmodifications, it may be extensive and expensive. Importers should determine the cost and extent ofany required modifications before importing a vehicle into Canada. Vehicles that cannot be modified,for whatever reason, must not remain in Canada and must be exported. Where there is no informationin this list concerning a U.S. specification vehicle, you must contact the manufacturer to determine itsadmissibility or inadmissibility. Manufacturers of U.S. vehicles are not legally obligated to respond toTransport Canada's requests for information on admissibility status or required to explain the reasonsfor inadmissibility, although some do. Transport Canada is not legally responsible for the accuracyand safety or cost implications of the information provided by OEMs.2. Admissible vehicles, except competition vehicles, snowmobile cutters and all terrain vehicles(ATVs), must be certified by OEMs to all applicable U.S. Federal Motor Vehicle Safety Standards(FMVSSs). Two criteria can be used to determine this:a. a compliance label affixed to the vehicle at the time of main assembly with one of the followingstatements,"This vehicle conforms to the applicable federal motor vehicle safety, bumper and theftprevention standards in effect on the date of manufacture shown above"; or"This vehicle conforms to all applicable U.S. federal motor vehicle safety standards ineffect on the date of manufacture shown above";orb. a letter from the original manufacturer and the final stage manufacturer (if applicable)containing the same information as would appear on the compliance label when the vehicle wasoriginally certified at assembly.

Import Regulations:ImportsIt is the importer’s responsibility in law to enter all goods (whether dutiable or not) with the Customs and Border Control Service within seven days of their arrival in the Cayman Islands, by completing the appropriate entry form and lodging it with the Customs and Border Control Service. The forms to be used for ordinary merchandise vary according to the type of transaction involved, as follows:C1-CBC form No.1: Entry For Home Use - is to be used for goods to be cleared outright on payment of any duty (and package tax / warehouse fees,

where applicable) legally due on them.C2-CBC Form No.2: Export Entry - is used for exports.C3-CBC form No.3: Entry For Goods To Be Warehoused - is to be used when the goods are to be stored in a bonded warehouse, where permissible, without the immediate payment of any import duty legally due, pending re-export or later clearance for home use on payment of duty.C4-CBC form No.4: Entry For Transit Or Transhipment - is to be used when imported goods are to be immediately re-exported on another vessel or aircraft, without payment of duty.C5-CBC form No.5: Declaration of Unaccompanied Personal Effects - This form is to be completed when persons taking up residence in the Cayman Islands have additional personal effects that are not arriving with them as baggage but will arrive as cargoAll forms are available online, at any Customs and Border Control location including Cayman Brac at the District Administration Customs and Border Control office in Stake Bay.The forms are self-explanatory and the notes on the reverse of each form will be of assistance in completing them. It is the importer's responsibility to complete the entry forms and he must not expect a Customs and Border Control Officer to do this for him, nor to assist him to do so. If an importer cannot complete the documentation himself, he should seek the assistance of a Customs Broker.In the case of regular importers of large consignments (Such as container loads of goods of many different descriptions), the Customs and Border Control Service is prepared to make special arrangements. The importer may present a summarized entry, provided that it is accompanied by a computerized (or similarly prepared) invoice or other commercial document from his supplier, giving all the details required for Customs purposes. Eligible importers who wish to avail themselves of such special arrangements should make application to the Director of Customs and Border Control.When the appropriate entry has been presented to Customs and checked and accepted by the, and the duty (if any) paid, the Department has the right to require the goods to be opened for physical examination to ensure that they have been correctly declared. Such examinations must normally take place at the transit shed at the dock or airport where they have been landed, or at an approved clearance depot inland. In certain circumstances however, it may be possible for the goods to be removed under bond to the importer's premises for examination there by Customs. In such cases outside of Customs and Border Control's normal working hours, the importer may be required to pay for the attendance of the Customs and Border Control Officers involved.Cargo Clearances & Duty Payments42 Owen Roberts Dr. (1st floor)George TownPH: (345) 244-4964 / 244-4945

a. WEIGHT RESTRICTIONS

In accordance with governing regulations.

b. CONTAINER/CRATING REQUIREMENTS

Due to the use of commercial narrow-body aircraft, external shipping containers for Code T shipments moving to from South and Central America in accordance with PPP-B-601, style A or B, are required, not to exceed 60 inches in height. In accordance with Item 508, international Personal Property Rate Solicitation, special packing arrangements will be authorized by the PPSO for oversize items which will not fit into the restricted height container.

c. HARD LIFT AREA

Hard lift area for all military services. Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. UNACCOMPANIED BAGGAGE

No restrictions identified.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. Household Goods Documentation: All manifests, bills of lading, and other pertinent invoices covering household goods and POVs destined into Chile must be in the individual full name, activity consigned to, i.e., USMILGP, DAO, IAGS, etc. No initials may be used in preparation of the PPGBL. Due to new Chilean customs legislation, shipments cannot remain in customs awaiting clearance for more than 60 days. After this period items are auctioned off. Therefore, personal property may be shipped from previous post prior to employee aposs arrival in Chile, but should be timed so that the property arrives shortly after the employee arrival. However, it is imperative that the Employee forward to the Embassy a copy of the passport and a copy of the packing list for the goods, so that it can commence the customs clearance process while the goods are in bonded storage. Otherwise the clearance process can only begin after the employee arrives.

3. CONSUMABLES

None.

a. ALCOHOLIC BEVERAGES

May be imported into Chile, subject to quantity limitations that are greater for Diplomatic Staff than for Admin Technical Staff. Alcoholic beverages may consist only of whiskey, cognac, and liquor.

b. CIGARETTES/TOBACCO PRODUCTS

The number of individual cigars and or cigarettes is limited to 10,000 per year (Admin Technical Staff) and 20,000-35,000 per year, depending on diplomatic rank (Diplomatic Staff).

6. PETS/QUARANTINE

a. Pets may be imported into Chile only after they recieve vaccination against rabies between 30 days and 12 months before entry into Chile. A veterinarian health certificate must be issued no more than seven days prior to the pet entry into Chile. This certificate should state that the animal

is clinically healthy, has been vaccinated for rabies and has no contagious diseases. For personnel coming from a country other than the U.S., an exportation certificate must be obtained from that country animal health department and subsequently legalized by the Chilean Embassy or Consulate in that country (or region). b. For personnel coming from the United States, the veterinarian health certificate should be approved by U.S. Department of Agriculture APHIS (Animal Plant Health Inspection Service), which will provide an exportation certificate. In this case, legalization by a Chilean consulate is not required. The nearest APHIS office to Washington, D.C. is in Annapolis,Md. and the certificate costs four dollars. Personnel importing a pet other than cats or dogs should contact GSO for information well before shipping.

7. PRIVATELY OWNED FIREARMS (POF)

Prior approval of the overseas command is required for shipment of privately owned weapons. The Embassy Regional Security Officer must approve importation of weapons (limited to those for sporting use.) To obtain approval, a message cable must be sent to the following GENSER address: AMEMBASSY SANTIAGO RSO . To ensure request is received, e-mail message cable to Santiago-RSO@state.gov and Santiago-MIL-CC@state.gov. The Chilean Ministry of Defense also must approve importation of weapons; the Embassy can help to facilitate this. Approved privately-owned weapons may be included in the employee&aposs UAB when entering Chile, but not when departing Chile.

8. PRIVATELY OWNED VEHICLES (POVs)

Model year up to 5 years are acceptable

a. POVs (includes data on prohibited vehicles, colors, etc.)

1.) US Embassy, Santiago will not accept HHG, UAB or POV shipments arriving by US Military Aircraft (CODE T shipment).2) PERSONALLY-OWNED VEHICLES (AUTOMOBILES): Please see Embassy Management Notice 2010-061, Subject: Procedures for Importing, Purchasing or Selling a New or Used Vehicle in Chile, for additional information.;It is absolutely essential that employees assigned to Santiago consult with Post management or GSO Shipping before shipping a personally-owned automobile (POV) to Chile. Eligible employees (Diplomatic and A T personnel) have two options

under which automobiles may be imported:--Temporary Import Permit: The temporary import permit allows the importation of all model year vehicles. The limitation (see below) governing model years does not apply to vehicles imported under a temporary import permit. The temporary import permit must be renewed annually and prohibits the employee from selling the automobile in Chile. The cost of the renewal permit is approximately $200 USD. Please note that the initial entry permit cost is covered by your travel orders but subsequent permits are the owner amp;amp;aposs responsibility. The employee must export the vehicle upon departure from Post. There are no exceptions. The temporary import permit must be renewed every year. Post will assist and process Temporary Import Permit renewals, at the vehicle owner expense. The process to obtain a TIP and diplomatic license plates takes about 45 days because pre-approvals from the MFA and Customs are not required. Additionally, a safety and emissions inspection is not necessary because the vehicle, as considered by the GOC, is temporarily imported and must be shipped upon the departure of the employee.--In-Bond Status Import Permit: This option allows the sale of the vehicle prior to final departure from Chile. To import an automobile (POV) under in-bond status, the vehicle must be a current year model or a next year model automobile upon the vehicles arrival in country. (Thus, if an employees automobile arrives in country between January and December 2010, it must be a 2010 or 2011 year model.) According to recent Chilean Government POV Import Policy, A T staff cannot import a new car valued at over $30,000 USD. IMPORTANT: New model vehicles will have to undergo a Homology test (safety and emissions check) at a local testing site. The cost of the test (approx. $300 $700 USD) depends on the make and model of the POV and is the owners responsibility. Also, a vehicle imported under this method may take up to 110 days to obtain the final import permit and diplomatic license plates because the employee must obtain a Chilean ID card (RUT) and GSO must receive several clearances from the MFA, Customs, and the Ministry of Transportation. PERSONALLY-OWNED VEHICLES (MOTORCYCLES, SCOOTERS, MOPEDS AND OTHER VEHICLES): The age model year restriction strictly applies to motorcycles, scooters, mopeds and other two or three-wheel vehicles. (Even if the vehicle is available in the Chilean market, an additional and very costly Homological testing, at POV owner amp;amp;aposs expense, may be required prior to clearance of late model automobiles, motorcycles and other similar vehicles.) The Government of Chile will not grant waivers to any vehicles that do not meet this strict age model year requirement. Non-complying vehicles will not be cleared and will be shipped back to the point of origin, at the employee expense, if the additional expense is not contemplated in the travel orders. Given the strictness of the rules which govern the importation of POVs to Chile, it is absolutely essential that employees contact GSO Shipping as soon as possible following their assignment to Santiago. PERSONALLY-OWNED VEHICLES (POVs), IMPORTANT: Prior to shipping any vehicle, employees must submit to Post the following complete information, of the POV that is intended to be shipped to post: 1)Copy of the Title2)PCS Orders3)Copy of the Bill of Sale4)Make and Model5)Model year6)Color7)Vehicle Identification Number (VIN)8)Engine number (normally located on the Engine Block)9)Number of doors (a rear hatchback on a van or SUV is considered a door)10) Gross weight in kilos11) Number of cylinders12) Number of valves13) Number of seats14) Type of gas (leaded or unleaded)The vehicle title documents must show the employee name, as owner (not spouse). If the vehicle is registered to both employee and spouse, please advise GSO Shipping. Under no circumstances should any vehicle be shipped prior to receiving formal clearance from GSO Shipping. As pointed out above, if shipment of a personally-owned automobile is contemplated, please advise Post which import option you wish to exercise. (a) Be prepared to wait an extended period for your vehicle to clear Chilean import procedures. In short, assuming that everything runs smoothly, the vehicle meets all the requirements, all documents are correct and were promptly submitted to GSO Shipping, in addition to the time it takes to complete the employee amp;amp;aposs accreditation, followed by time taken for the vehicle amp;amp;aposs delivery to the shipping dispatch agent at origin, booking space on a ship and MFA amp;amp;aposs issuance of pre-

approval and final import authorization, the employee can estimate to be driving his her POV between 16-24 weeks after the arrival of the employee in Santiago and submission of all correct POV documentation to GSO Shipping. Please note that even this lengthy wait may be a amp;amp;quot;best case scenario amp;amp;quot;. Vacation periods and holidays, lack or incomplete submission of requested information documents, or even the slightest deviation from GOC documentation or procedure will slow down the Chilean clearance and approval process considerably. (b) To import an automobile into Chile, it must be equipped with a catalytic converter, stop brake light on the upper back part of the vehicle, in addition to meeting international safety and emissions standards. Unleaded gasoline and Diesel are readily available throughout Chile. The GOC restricts the duty free importation of privately owned automobiles to Diplomatic and AT personnel. (c) If you elect to exercise the in-bond status import permit option (para. 15 above) or the local purchase option (para. 16d below), note that the GOC imposes duties and taxes upon sale of imported duty-free POVs at the end of an employee tour. As a result, you should anticipate that the resale value of your imported duty-free vehicle at the end of the tour will be less than what it will be in the U.S. Imported vehicles that are not common to the Chilean market may be difficult to sell locally. (d) Given the rules governing the importation of POVs and the lengthy process required prior to receiving and driving the vehicle, a fair number of employees opt to purchase a used or new car in Chile. The Post weekly newsletter, Santiago Scene, often contains advertisements for used cars for sale, especially during the mid-year transfer season. ;In addition, employees may also consider purchasing a new duty-free vehicle from a local dealer. Prices of new cars in the local market are somewhat higher than those bought in the U.S., but they retain a better resale value, especially when all applicable taxes have been included in the original purchase price. If the car has been purchased duty-free, you may sell the vehicle in the local market at the end of your tour provided that the pro-rated amount as determined by the GOC of the previously waived value added tax is paid by either seller or purchaser. If the sale is made to a person with diplomatic privileges, this tax will not be waived. In order to purchase a vehicle in the local market, new or used, the employee must have completed the accreditation process and have the Chilean ID (RUT) in his her possession. Keep in mind that locally purchased vehicles cannot be imported into the US, because they do not meet U.S. safety and emissions standards. As a result, we strongly recommend selling your locally purchased POV, prior to your final departure from post. Purchasing a vehicle in the local market also has its risks, especially when purchasing a POV from an unknown or unreliable source. Before the buyer completes the purchase of the vehicle, the employee should obtain the vehicle background certificate, which can be purchased from a nearby municipality office. The certificate will show if the vehicle has a lien or any outstanding traffic or parking violations. Unfortunately, municipalities are not bound to promptly register such infractions, hence you may be obtaining an inaccurate certificate and the new owner would be responsible for any outstanding tickets incurred up to four years, prior to the date when you purchase the vehicle. As a result, post recommends purchasing new vehicles or used vehicles from a reliable source. (e) If you decide to ship your POV (automobile) to Chile, Post recommends you ship only vehicles already available on the local market so that, service and parts will not a problem. Post strongly discourages employees from shipping unique automobiles including biofuel-only and hybrid vehicles, except for the Honda Civic Hybrid, which is, currently, the only vehicle of its kind available in Chile.

b. MOTOR CYCLES/MOPEDS

The Government of Chile considers motorcycles to be motor vehicles. (Current-model-year stipulation of para 8(1) applies for motorcycles as well as cars.) Thus, if the employee is in status and importing a car, or in diplomatic status and importing two cars, he or she may not also import a

motorcycle. Contact Embassy GSO Shipping @ 011-56-2-330-3338.

c. GASOLINE/CATALYTIC CONVERTERS

No restrictions identified.

d. INSURANCE AND SAFETY REQUIREMENTS

AUTO INSURANCE: By Chilean law, all vehicles must have basic, mandatory liability insurance (cost is app. USD 15 annually). Since the coverage provided by this policy is negligible for damage to other vehicles, public property or medical costs for other parties injured in an accident, all USG personnel must carry additional third party liability insurance. Additional local liability insurance against damage injury to others costs about USD 200 a year from a local insurance company. Two widely used U.S. firms that can also provide this coverage are Clements and Co. (Washington D.C.) and Harry J. Jannette Jr. (Dallas, TX). Many employees also buy collision theft comprehensive coverage from those companies. Please note that USAA does not write automobile insurance coverage in Chile. Post would be glad to provide information on the process of obtaining supplemental local automobile insurance coverage.

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

Personnel contemplating retirement, separation or relocating dependents to Chile should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Chile.

13. OTHER

a. WEATHER: In Santiago (the capital), the June-September winter season is cold and rainy; the temperature rarely drops to freezing but dampness and fog give the cold air a penetrating quality. Be aware the climates of other areas in Chile differ greatly from the capital. The Great Northern Desert, constituting one-fourth of the country, is one of the driest and most barren areas on earth. The Archipelago South of Puerto Montt, with its forested fjords and glaciers, bears resemblance to Southern Alaska. b. POLLUTION: All areas of Santiago are affected by a high index of pollution which appears as a heavy smog in the winter and dust in the summer. Pollution levels rise to unacceptable levels (PM-10 levels of 240 MCG. M3) on an average of five to six times per year. The major health effects include difficulties with breathing, respirator problems and aggravation of existing respiratory, cardiovascular, allergic and asthmatic diseases. This is particularly true for the elderly and children, and those with confirmed asthmatic and allergic symptoms. The most severe pollution occurs during the months of May to October. c. HOUSING: (1) Embassy houses and apartments have 24-hour roving security patrol and, in most cases, secure off-street parking. They are in an area convenient for shipping, restaurants, etc., and within walking distance of the Embassy. (2) Most USG-leased or owned houses in Santiago are located in eastern suburbs that are reasonable close to the two international schools most often selected by Mission personnel for their children. Houses may have swimming pools and most have lawns gardens; it is the occupant responsibility to maintain both. Professional pool maintenance costs approximately USD 60 or more per month (depending on the exchange rate. If you are assigned to a house with a pool and intend to maintain it yourself, bring vacuum house and equipment, brushes, etc. These items are more expensive in Chile. Pool chiemicals are hazardous materials and may not be shipped in HHE. Gardening services are available, but they too can be expensive (USD 100 per month.) If you chooose to do your own gardening, consider shipping a lawnmower and garden tools to Post to avoid the high cost of purchasing these items in Santiago; Post does not provide them.

a. WEIGHT RESTRICTIONS

Commercial storage facilities are unavailable. NTS should be utilized for excess HHG for the duration of the overseas tour. As outlined in the JTR, service members are authorized a limited shipment of household effects. A partial shipment of household goods, or an unaccompanied (hold) baggage shipment, may be shipped by air freight directly to Beijing. ARMY PERSONNEL: (a) Accompanied & Unaccompanied tour: 25 percent of full JTR weight allowance or 2,500 pounds, whichever is greater. (b) UB shipments via expedited mode (commercial air), maximum of 1,000 net pounds including PBP&E is authorized (see JTR, par. 5210-B). (c) The administrative weight restriction does not apply to the Defense Attache Officer (DAO). The DAO is authorized to ship full JTR weight allowance. (see JTR, par. 5202-E1c) (d) Shipment of POVs are only authorized for DoD personnel with tour lengths greater than 15 months. Refer to Section 8. PRIVATELY OWNED VEHICLES (POVs) for additional information and restrictions. (CH SDDC-PAC 16-Sep-2015 RB)

b. CONTAINER/CRATING REQUIREMENTS

Due to the use of commercial narrow-body aircraft, external shipping containers for Code T shipments moving to/from South and Central America in accordance with PPP-B-601, style A or B, are required, not to exceed 60 inches in height. In accordance with Item 508, international Personal Property Rate Solicitation, special packing arrangements will be authorized by the PPSO for oversize items which will not fit into the restricted height container.Only non-coniferous wood products are permitted in the packing and shipment of goods. Examples of coniferous trees include pines, spruces, and firs. Fumigation: Shipments (air and surface) originating or transiting from the United States or Japan with unfumigated coniferous wood packing materials are prohibited. Failure to comply will result in long delays as shipments will have to be repacked. Without the proper certificates, shipments will be turned back or destroyed upon arrival in China. 1)Provide official fumigation certificates for shipments with coniferous wood packing materials.2)Provide non-coniferous wood packing certificates by exporters for shipments with non-coniferous wood packing materials.3)Provide non-wood packing certificates by exporters for shipments without wood packing.(CH 19-SEP-2014 SDDC-PAC RB)

Department of Defense (DoD) personnel not on diplomatic assignment (i.e. Scholars, FAO-ICT, etc) are required to obtain a local residence permit as soon as arrival in China. Without the local residence permit, shipments cannot clear Chinese customs. The local residence permit is issued by the local security office. Obtaining a local residence permit is a lengthy process that takes 10 or more working days. Therefore, household goods and unaccompanied baggage shipments should arrive AFTER THE PERMIT IS GRANTED. (CH 22-Mar-2016 SDDC-PAC RB) SHANGHAI: DoD personnel e.g. Olmsted Scholars attending a school or college MUST get a confirmation in writing from the local school or college prior to shipping HHG or UB to Shanghai. The local school or college may not be willing to stamp Chinese Importation Customs Forms once the shipment arrives without that prior written confirmation. Without stamped Chinese

Importation Customs Forms, an Import Permit cannot be obtained. (CH 19-Nov-2020 TCJ9-OH-PAac RB)d. Shipments for personnel who are not in diplomatic status are consigned to the member in care of the local household goods agent. DO NOT consign household effects and unaccompanied baggage shipments to the American Embassy Beijing or to U.S. Consulate General Shanghai. (CH 19-Nov-2020 TCJ9-OH-PAac RB)e. Shipments for personnel who are not in diplomatic status will be assessed a customs tax of 20% for electronic items, 10% for furniture items, and 10% for food items shipped into China. Electronic items subject to the 20% custom tax include computer, VCR, DVD, TV, and refrigerators. Furniture items subject to the 10% custom tax include desk, cabinet, chair, sofa, mattress and table. (ch 1 29 10)f. QUARANTINE RESTRICTIONS - FUMIGATION: All shipments originating from the United States or Japan MUST have a certificate of fumigation. (CH)g. CHINESE CULTURAL RELICS: Importation is restricted. Anyone bringing in Chinese antiques should have an itemized list to avoid custom difficulties upon departure. (CH)SHIPPING RESTRICTIONS FOR THE SHANGHAI POST: 1. The following items may not be imported into China: firearms, bullets, Chinese cultural relics, motorcycles, and radio transmitters (i.e., CB, ham, and radio telephones). 2. Antiques, Chinese or otherwise, purchased outside the country (including Taiwan and Hong Kong) may be re-exported. To facilitate re-export upon departure, ensure that all antiques are listed on an incoming packing list, insurance documents, and customs declaration. 3. Chinese quarantine regulations prohibit the clearance of food and food products shipped with personal effects. If the Customs and Quarantine Office discovers food items on your packing list, this will delay clearance of your shipment and may result in inspection of your entire shipment and confiscation of prohibited items. Enforcement of these regulations is inconsistent. When packing out from your current post, carefully review your packing list before signing it. 4. Per local quarantine regulation, the following items may not enter China either by shipment or hand carried: a. Animals Products: (including mayonnaise); fat and grease, hides, hairs, hooves, bones and horns; animal-derived items (including feedstuffs, Chinese medicinal materials or fertilizer). b. 6. PETS/QUARANTINE

Do not ship pets unless authorized by the USDAO and Embassy Consulates GSO. Dogs and cats are strictly forbidden in hotels in China and should not be shipped to Beijing unless arrangements are first made for the pets to be cared for. Dogs and cats must have a recent rabies vaccination and Certificate of Good Health from US APHIS official veterinarian (APHIS form 7001 with APHIS vets signature and embossed stamp) dated less than 12 months prior to shipment.GUANGZHOU-The General Administration of Customs changed quarantine requirements. New regulation on Quarantine of Pets Carried by Entry Passengers effective on May 1, 2019. To avoid having pet quarantined at the airport for 30 days after May 1, 2019, Guangzhou Airport Customs requires the following 5 documents, and applies to ALL personnel, including Diplomats. 1. An International Certificate of Health Examination for Small Animals (APHIS- International Health Certificate) should be completed by a USDA-Accredited veterinarian at the time of vet examination, then endorsed at a USDA Veterinary Services Office. If the pet is from/transits the U.S, or you are unable to obtain the APHIS international health certificate, the equivalent health and rabies certificates should be obtained from the appropriate animal health organization in the country or region of departure. 2. A valid rabies vaccination certificate. 3. Passport. Chinese regulations allow for only one pet to be imported per passport holder per entry. All pet documentation should be under the traveler's name which name must match exactly with the same in the passport. 4. Pets MUST be implanted with valid electronic microchips. The implanted microchip must conform to international standards ISO 11784 and 11785. The 15-bit microchip code contains only numbers and ensures it can be read by the reader. If the chip does not meet the above criteria, it should have its own reader that can read the implanted chip. 5. Pets from non-designated countries and regions (excludes New Zealand, Australia, Fiji, French Polynesia, Hawaii, Guam, Jamaica, Iceland, United Kingdom, Ireland, Liechtenstein, Cyprus, Portugal, Sweden, Switzerland, Japan, Singapore, China Hong Kong, China Macao.) shall provide rabies antibody test reports issued by designated laboratories (antibody titers or immune antibody doses shall be above 0.5 IU/ml). The blood collection date of the rabies antibody titer test should be no earlier than the second rabies vaccination (may be the same day or later). The rabies antibody titer test is valid for ONE year from the date of blood collection (Note: the rabies antibody titer test results continue to be effective if the pet is vaccinated again within the validity period) The pet owner's name on the International Health Certificate MUST match exactly with the name in their passport. Guangzhou Quarantine Bureau requires rabies vaccinations be received at least one month but not more than twelve months prior to arrival. Guangzhou Animals and Plants Bureau requests the certifying examination be conducted less than 12 days prior to the arrival of the pet. Do not consign pets to post as cargo but accompanied luggage instead. 8. PRIVATELY OWNED VEHICLES (POVs)

a. Incoming PCS Personnel assigned to SCO/USMILGP Colombia as of 01 OCT 2015 are authorized to ship POVs to Colombia. Defense Attaché Office (DAO) personnel assigned to GBLOC ZFDK (Bogota) have retained this privilege since 2010. Personnel are required to obtain prior approval from the SCO and the US Embassy General Services Office (GSO) before shipping any POV. Refer to the SCO Colombia Consignment guide for more detailed instructions. It is vital when orders to Colombia are issued that the Member contact the SCO/MILGP Colombia and most importantly, the Embassy GSO. The member will be sent a detailed ¿POV Handbook¿ which provides comprehensive instructions and guidance on every aspect of owning, registering, shipping and insuring your POV in Colombia. Additionally, US Transportation Command (USTRANSCOM) has put together a comprehensive ¿Shipping your POV¿ guide as attachment K3 in the Defense Transportation Regulation(DTR) ¿ Part IV Personal Property found here: http://www.ustranscom.mil/dtr/part-iv/dtr_part_iv_app_k_3.pdfb. Prior to shipment of POVs to post, the employee must request approval of the American Embassy, Bogota, Colombia, GSO Customs and Shipping Unit, Libia Junco, juncoal@state.gov, (011 571) 275 2290, or Francisco Navarrete, navarretefj@state.gov, Phone # (011 571) 275 2353. Do not ship to post without post¿s approval to avoid confiscation of POVs by the GOC. All shipments will go door to door (ITGBL). The US Embassy Bogota GSO will require an advance copy of the Bill of Sale for prior approval in order for the Department Of State (DOS) to pick up your POV at the Vehicle Processing Center (VPC) c. The Member will need to turn in all required documents to the VPC transportation personnel to avoid shipping delays. It is recommended that each Member review all required documents in the SCO Colombia POV Handbook and contact them directly using the POC information below as you navigate the process. Additionally, you can contact U.S. DEPARTMENT OF STATE TRANSPORTATION AND TRAVEL MANAGEMENT DIVISION, PHONE: 1-800-424-2947 OR 202-663-0891/0892, FAX: (202) 663-3209, EMAIL: DODPP@STATE.GOV for complete information to start the process. The DOS Transportation Office at the number listed, will request you to turn over the vehicle to the nearest VPC and they (DOS) will work directly with the VPC to move the POV to post in Colombia. Please remove all items (Boxes, papers, glass, and/or plastic containers) from the vehicle except the tool box and spare tire. This is a restriction above what the USTRANSCOMs ¿Shipping your POV attachment K ¿states in paragraph M for normal DOD PCS moves. DO NOT ship portable cribs, children¿s car seats, strollers, luggage racks or small items such as thermos bottles, bottle warmers, car cushions, speakers, audio/video equipment and any type of catalytic converters components in your POV. Keep it to the minimum of a tool box and a spare tire. These are DOS ¿requirements¿ to move POVs thru the Department of State channels. d. a. WEIGHT RESTRICTIONS

DOD arranged shipments: "In accordance with the Joint Travel Regulations." DOS arranged shipments: Contact DOS.

b. CONTAINER/CRATING REQUIREMENTS

Due to the use of commercial narrow-body aircraft, external shipping containers for Code T shipments moving to/from South and Central America in accordance with PPP-B-601, style A or B, are required, not to exceed 60 inches in height. In accordance with Item 508, International Personal Property Rate Solicitation, special packing arrangements will be authorized by the PPSO for oversize items which will not fit into the restricted height container.

c. HARD LIFT AREA

"No restrictions identified."

d. UNACCOMPANIED BAGGAGE

DOD arranged shipments: "In accordance with the Joint Travel Regulations." DOS arranged shipments: Contact DOS.Declared value should not exceed 1,499.00 USD. UAB with a declared value in excess of 1,500.00 USD will take 3 months to clear customs. UAB with a declared value less than 1,500.00 USD will normally clear customs in 1 to 2 weeks.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Please do NOT consign shipments to specific customs clearing agents. Some agents do not actually clear shipments, but must use third-party agents which slows the process. Only certain agents work with the AmEmbassy on a special clearing process we have in place with the customs officials. If the shipment is consigned to the American Embassy or he American Ambassador this will facilitate the speedy clearance of shipments.

8. PRIVATELY OWNED VEHICLES (POVs)

ONLY Left-hand drive vehicles permitted to be shipped to DR Congo.Electric Vehicles and Hybrid Vehicles are not permitted at post at this time. DO NOT allow the importation of vehicles over 20 years old from the date of manufacture to the date of customs clearance in the DRC. We strongly caution personnel, therefore, about shipping a POV that is close to the 20-year mark since a delay in shipping could result in the vehicle reaching the 20 year age limit before it clears customs which means that the GDRC could require you to ship the vehicle out of the DRC at your own expense. GDRC additionally will NOT allow vehicles painted in military-style colors. So please plan accordingly as shipping and clearing times are long and delays are not uncommon. The lack of adequate and safe public transportation means that every effort is made by the embassy to

clear POVs and turn them over to the owners as quickly as possible, but the process can take 5 weeks.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) A private vehicle is essential in Kinshasa, as there is no public transport or taxis available, air conditioning is recommended. Late model automobiles with high ground clearance are preferred, since most roads are in poor condition. A low slung vehicle will avoid damage only if you drive very carefully. Spare parts shipments should include at least two new tires, as they are expensive here and likely to be damaged. Putting an American flag decal on your front and rear windows can sometimes save you from hassles by the local authorities, bring some along just in case.(2) POVs should be containerized when feasible to prevent unavoidable abuse upon arrival. Embassy-hired local contractor will provide transportation of containerized POV from the Port of Matadi to the city of Kinshasa. Ship to Port of Matadi, Democratic Republic of the Congo. Forward original bill of lading and any documentation to (member) c/o USDAO Kinshasa, APO AE 09828-0006.

6. PETS/QUARANTINE

No difficulties exist in importing a dog or cat into Congo as long as the inoculation and a certificate of good health stating the animal is free from ticks and has not been exposed to contagious diseases. The rabies certificate must state that the pet has been vaccinated against rabies with an inactivated vaccine for more than one month and less than 12 months before departure. This certificate must be issued not more than 10 days before departure. You should bring duplicate copies of these documents in case a copy is misplaced. Please check carefully with the airline several weeks before your pet's departure for Kinshasa. New rules apply to pets arriving at or transiting European Community airports that require advance preparation, including an implanted microchip identifier, and possibly blood tests. Please be aware that Avian Flu restrictions in most European countries have made it impossible to import or re-export birds from the DRC, even with all the necessary documentation. Please advise post if you are bringing an animal.

Entry permits must be obtained before their arrival in Costa Rica. The following information must be submitted to the Embassy (GSO) prior to arrival of the pet: Species, color, age, name, sex, date of arrival, and means of transportation. To preclude quarantine by the Costa Rican Government, the following documents, certified by a Costa Rican Consul prior to the pet's departure, must be forwarded to the US Embassy (GSO) and a copy of each must accompany the pet: (a) Original copy Certificate of good health. (b) Original copy Certificate of recent anti-rabies vaccination and no rabies has existed in the area for the past 5 years. Distemper, hepatitis, and leptospirosis vaccination certificates are also required. (c) Original copy Certificate stating the pet is free of Taenia Equinococus.

7. PRIVATELY OWNED FIREARMS (POF)

Personnel transferring to Costa Rica must request authority to import any firearms ASAP after notification of assignment instructions. Address request to the US Embassy, San Jose, Costa Rica, APO AA 34020, ATTN: Admin Officer. All requests will include at a minimum: make, model, serial number, caliber or gauge, and number of shipper's passport. The Costa Rican Government limits importation of one firearm per individual over 18 years per family unit. However, in certain instances, exemption may be obtained for a limited number of additional firearms. All firearms must be registered with the Government of Costa Rica. Firearms must be listed on packing lists or other shipping document. The Embassy limits firearms to be imported by its staff to not more than the following:

a. HAND GUNS

1 pistol.

b. RIFLES/SHOT GUNS

1 rifle and 2 shotguns.

c. TOY RELATED GUNS

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) POVs destined for US Office of Defense Representative, San Jose, Costa Rica, from Atlantic PODs will be shipped to Limon, Costa Rica, POD: CS2. Pacific POVs will be shipped to Puntarenas, Costa Rica, POD: DE1. POVs can be driven to San Jose from either port. Vehicles should be unpretentious in appearance. Importation of cars in the luxury class, i.e., Cadillac, Lincoln, Chrysler New Yorker, and Oldsmobile 98, will not be authorized by the US Embassy. US Embassy allows only one

duty free automobile in country. POVs can be sold duty free after 2 years with approval of US Embassy. Specific and up to date information should be obtained from the sponsoring country prior to shipment of POV. We recommend POV's be shipped to Pt. Limon where US Embassy San Jose will arrange for pick-up at the port. They have a contractor to effect these duties that is less expensive than inland truckage. (2) If clarification is needed on procedures for shipping a POV to Costa Rica, you may contact the US Embassy Customs Officer at 506-220-3939, EXT 2397. In order to complete customs procedures for importing a vehicle, American Embassy Costa Rica must have an original bill of sale or dealer's invoice listing all options and giving the total value of the vehicle. This invoice, along with the Certificate of Origin and Bill of Lading (B/L) must be submitted to: U.S. Office of the Defense RepresentativeATTN: Transportation OfficerUnit 2500APO AA 34020FAX: (506) 290-0348 (3) Employees should specify that vehicles be shipped and consigned to: (NOTE: DO NOT USE THE FOLLOWING ADDRESS TO MAIL DOCUMENTS, USE THIS ADDRESS ONLY TO SHIP VEHICLE) Name of ownerU.S. Embassy (ODR)ATTN: Transportation OfficerPHONE: (506) 220-2463FAX: (506) 290-0348 (4) SPECIAL REQUIREMENTS: Name of Owner, VIN number or engine number, color, make, and model must be described on the original Bill of Lading(B/L). Copies of the B/L should be provided by faxed to post USMILGRP. Original of B/L should be mailed to address on subparagraph "(2)" above.

b. MOTOR CYCLES/MOPEDS

c. GASOLINE/CATALYTIC CONVERTERS

(New or used vehicles) Owners must submit vehicle emission test certificates, as established by Executive Decree No. 28280-MOPT-S published in the supplement to the Government's Journal "La Gaceta" No. 236 of Monday, December 6, 1999. Effective June 7, 2000, the following requirements must be fulfilled: (1) Submit an emission test certificate verifying that the vehicle complies with gas, smoke, and pollution particles regulation. (2) The certificate must be official, legally valid in the country of issuance and must be written in Spanish. Otherwise, an official translation must be attached, authenticated by the competent authority in any Costa Rican Consulate in the country of origin. The same must be countersigned by the Ministry of Foreign Relations and Worship. (3) In the case of used vehicles, the certificate must guarantee that the maximum emission standards established in clauses b) and c) of Article 34, in clauses a),b),c), and d) of Article 35 are compiled with, as well as the provisions of emission control systems established in the Traffic Law and it Regulations. (4) Emission tests of used vehicles must be performed as a maximum within two(2) months prior to the date indicated in the Bill of Lading. (5) Emission certificates must be submitted to MOPT's Inspection and Control Department of the Council of Public Transportation, with a sworn statement providing the vehicle's adequate characteristics, for the corresponding validation of the certificate. This is a prerequisite for Customs General Administration to authorize the importation of the vehicle.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

UB/HHG/POV customs clearance may be completed before owner's arrival in the Czech Republic, but a shipment inventory/packing list and POV title must be available for customs clearance. POV registration requires the owner's presence at the post and the owner's registration with the Ministry of Foreign Affairs of the Czech Republic. Shipments should be marked: American Embassy Prague,

for (owner's name), Trziste 15, Praha 1, Czech Republic. UAB can be shipped directly to the airport in Prague. HHG, POV delivery to Prague should be performed by an international company (a destination agent) which has its office and warehouse in Prague (e.g. AGS, Allied Pickfords, Corstjens, Interdean). If the destination agent does not have its office and warehouse in Prague, the precise date/time of arrival must be coordinated with posts GSO well in advance. The shipment may not be delivered to Prague until the delivery date is approved by the Embassy. The delivery agent must also provide a team for destination services in such case.

6. PETS/QUARANTINE

There is not pet quarantine. NOTE: Changes effective 4 July 2004. a. Effective until 3 July 2004. Pets are admitted into the country without problem as long as they have the necessary shots, i.e. rabies for dogs and parvovirosis for cats. An international certificate with proof of current vaccinations is needed. The pet must also have a vet's statement, not older than 3 days before leaving the country of dispatch, confirming the good health condition of the pet. For pets arriving at the Prague Airport, the exact dates of arrival and flight number and (AWB# if transported separately from their owner) should be supplied prior to arrival so that necessary veterinary inspection can be secured immediately upon arrival at the airport. If pets are delivered prior to their owner's arrival, the Embassy must be informed several weeks in advance to ensure an animal shelter is available. Appropriate money amounts to cover the costs must be sent to the Embassy. b. Each pet must be identified either with a clearly readable tattoo or a microchip placed under the skin. Both systems must contain information that identifies the name and address of the animal's owner. The owner or the person responsible for the pet must provide the means necessary for reading the microchip if it does not comly with the required ISO standard 11784 or Annex A to ISO Standard 11785. Pets must be accompanied by a passport issued by a veterinarian and certifying that the animal has a valid rabies vaccination; and have an antibody blood test at least 30 days after vaccination and three months before the move. (This does not apply in cases of re-vaccination.) Pet must be accompanied by a certificate issued by a licensed veterinarian or upon re-entry, by a passport certifying presence of the tattoo or microchip and of valid vaccinations.

7. PRIVATELY OWNED FIREARMS (POF)

No restrictions on importation of small firearms, but firearms must be either registered at the Police Presidium of the Czech Republic and the Examination of the Professional Capacity must be passed also at the Police Presidium if the owner wants to use their weapons. If the owner does not want to use them, they must be deposited/stored at the Police Presidium of the Czech Republic. Before weapons can be exported from the Czech Republic, the Police Presidium must be asked for a special export permit. During pack out, the weapons must be checked/compared with the Export permit and sealed by a Customs Officer.

8. PRIVATELY OWNED VEHICLES (POVs)

"No restrictions identified."

a. POVs (includes data on prohibited vehicles, colors, etc.)

The Czech Republic places some limitations on the importation of automobiles. A car can be imported into the country without being registered in the Czech Republic by making sure that the vehicle continues to be registered and properly insured (green card is needed) in a foreign country and maintains that country's license plates. If a vehicle needs to be registered in the Czech Republic, as is customary for DoD personnel, a car cannot be more than 8 years old when it is imported. It is the owners responsibility to prove that the vehicle meets the EURO II emission standard. This can be problematic for a US-MADE CAR. A US-MANUFACTURED VEHICLE MAY NEED TO BE TESTED. If the technical inspection service does not find an identical engine in their computer database, a test must be conducted to see if it meets the standard. This test can cost as much as CZK 9,000. There may be a minimal charge for vehicles whose engine data is already stored in the lab's computer. If a vehicle does not meet the EURO II standard, then NO waiver may be granted and vehicles may not be registered. CONTACT SPONSOR FOR FURTHER INFORMATION ABOUT REGISTRATION AND DRIVING YOU POV.

b. MOTOR CYCLES/MOPEDS

Motorcycles/mopeds can be shipped in personal property. They are not considered POVs and can be imported duty free.

c. GASOLINE/CATALYTIC CONVERTERS

Vehicles must meet at least the EURO II emission standard. Please not that no waiver for emissions can be granted at all!

d. INSURANCE AND SAFETY REQUIREMENTS

Vehicles not registered in the Czech must carry liability insurance. If the owner does not have a green card (proof of liability insurance) when registering the car and operating it within the Czech Republic, the owner must purchase a valid liability insurance policy from a licensed insurance vendor. The liability insurance that is customary only covers damage incurred in the Czech Republic. Premium rate for liability insurance currently costs CK 4,700 month. Vehicles registered in the Czech Republic and driving with Czech license plates must purchase liability insurance through local company. CONTACT SPONSOR FOR FURTHER INFORMATION ABOUT LIABILITY INSURANCE.

6. PETS/QUARANTINE

Persons planning to bring pets with them to Denmark should notify Judy Eriksson in the GSO Customs & Shipping Office (e-mail: ErikssonJA(at)state.gov) as soon as possible, including information on what type of animal is being brought. Failure to follow the proper procedures for bringing animals into Denmark can result in having the animal returned to its country of origin, or quarantined in a Danish facility, at the employee's expense.1. All dogs and cats must have an ISO microchip or tattoo. (Tattoos will be phased out by July 2011). 2. When accompanied by a person, dogs and cats may be brought into Denmark from rabies-free countries, i.e. Iceland, Norway, Sweden, Ireland, United Kingdom, Japan, New Zealand, and Australia.From other "favorable" third countries (i.e. outside the EU), including the United States, dogs and cats older than four months may be brought into Denmark provided they have been vaccinated against rabies not later than 30 days and not earlier than 12 months prior to the import. A health certificate is required for this purpose, demonstrating that the vaccine was administered and showing the date of that occurrence.3. Dogs and cats between three and four months old must be vaccinated against rabies in the same manner. If less than 30 days have elapsed between the vaccination and the importation, a health certificate issued by a veterinarian is required. The health certificate must be issued not earlier than 10 days before the importation.Dogs and cats less than three months old may be imported without rabies vaccination, but must have a health certificate.When not accompanied by a person, a health examination by a border veterinary officer is needed immediately after arrival.4. From other third countries (i.e., those not listed in Annex II to EU Regulation 998/2003/EEC) dogs and cats must comply with the requirements mentioned above and, in addition, a test for the rabies antibody level must be made.The requirements are:- Microchip or tattoo - Veterinary certificate or Pet Passport that certifies the requirements - Valid rabies vaccination in accordance with the recommendations of the manufacture of the vaccine - A blood sample testing the rabies antibody level - must be drawn at least 30 days after vaccination - The blood sample must be examined by an EU authorized laboratories - The result of the rabies antibody level test must be at least 0.5 IE/ml - The animal cannot enter Denmark (the EU) until three months after the date when the blood sample was taken and only if the result is in accordance with the requirements.5. Dogs have to be registered in Denmark, so please contact a local veterinarian soon after arrival of your dog. All dogs must have local liability insurance. Judy Eriksson can assist you with an insurance company contact.6. Entry of other pets is generally subject to permission granted by the Veterinary Directorate. This concerns parrot-like birds, pigeons, rabbits, hares, minks, horses, etc. Application for permission to import these animals must state the address in Denmark for approval for private quarantine.There are no restrictions on the import of tropical birds (except parrot-like birds), hamsters and guinea pigs, but provisions governing endangered species may cover several exotic animals. Persons who are planning to bring pets and are unsure of what procedures need to be followed in advance of their arrival in Denmark should contact Judy Eriksson at GSO as soon as possible.

7. PRIVATELY OWNED FIREARMS (POF)

It is the responsibility of each employee to consult with the post report and/or the post management officer to determine the restrictions and limitations, if any, that are placed upon the shipment of personally owned firearms or ammunition into the country of assignment. The post report will include the prescribed procedures that must be complied with under host-country regulations when firearms and ammunition may be imported (see 2 FAM 170). When post reports are not available, the employee, before initiating shipment of firearms or ammunition, must secure in writing authorization and approval from the chief of the diplomatic mission, or designated representative.

a. HAND GUNS

It is the responsibility of each employee to consult with the post report and/or the post management officer to determine the restrictions and limitations, if any, that are placed upon the shipment of personally owned firearms or ammunition into the country of assignment. The post report will include the prescribed procedures that must be complied with under host-country regulations when firearms and ammunition may be imported (see 2 FAM 170). When post reports are not available, the employee, before initiating shipment of firearms or ammunition, must secure in writing authorization and approval from the chief of the diplomatic mission, or designated representative.

b. RIFLES/SHOT GUNS

It is the responsibility of each employee to consult with the post report and/or the post management officer to determine the restrictions and limitations, if any, that are placed upon the shipment of personally owned firearms or ammunition into the country of assignment. The post report will include the prescribed procedures that must be complied with under host-country regulations when firearms and ammunition may be imported (see 2 FAM 170). When post reports are not available, the employee, before initiating shipment of firearms or ammunition, must secure in writing authorization and approval from the chief of the diplomatic mission, or designated representative.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

“Importation is PROHIBITED.”

8. PRIVATELY OWNED VEHICLES (POVs)

Denmark requires that all vehicles brought into the country meet the following specifications:a) Parking lights can only be white in color (not yellow), and they cannot also serve as turn indicators.b) Yellow turn indicators (blinkers) are mandatory on the front left and right fenders and have to be visible at an angle of 45 degrees when standing in line with the back of the vehicle.c) The VIN number has to be stamped into a solid part of the body (firewall, turret, or on the frame).d) The rear-end turn indicators have to be yellow (not red or white as is sometimes found in US-spec cars).e) The exhaust pipe must exit from the rear of the vehicle pointing straight backwards or to the left, never out via the right-hand side of the car.f) Windshield and front-seat windows cannot be tinted with any kind of foil or paint. The rest of the windows can only be tinted to a maximum of 70 percent.g)

When presenting the vehicle for customs clearance, inspection and registration, the original repeat original - title must be presented. However, please bring along your most recent registration certificate as it might offer additional information which could speed up the registration process. Some U.S. vehicle types are unknown to the Danish Department of Motor Vehicles (DMV). It is therefore important to bring to post documentation showing vehicle specifications such as weight, engine size, horsepower, miles per gallon, load capacity, etc., as non-availability of this information can significantly delay the registration process. If you have questions about this issue or any other concerning motor vehicles, please contact the GSO before you ship your vehicle.

a. POVs (includes data on prohibited vehicles, colors, etc.)

Commercial bills of lading should show Copenhagen, Denmark, as final POD even if transshipment at European continental or Danish port is involved; include sponsor's name, SSN, and ultimate duty station to ensure proper placement of shipment. POVs can be shipped unboxed. Difficulties and high costs are often encountered in modifying POV to meet stringent Danish safety requirements. Customs entry of HHG and POV of nondiplomatic staff members must be made within validity of funds cited on member's orders. Enlisted personnel or nondiplomatic personnel should be briefed on the following POVs restrictions: applicable import and custom tax will have to be paid by enlisted or nondiplomatic personnel on all new vehicles purchased in Denmark. There are two instances under which these persons may import automobiles without payment of customs and tax (both instances apply to their original assignment to Denmark): (1) The owner was in legal and physical possession of the automobile prior to his initial entry into Denmark. (2) On subsequent assignments to Denmark, the owner must have resided outside of Denmark for not less than 1 year and the vehicle must have been registered abroad in the owner's name for not less than 6 months prior to member's return date into Denmark and must have been used by member in the country of residence during those 6 months. Officers with diplomatic privileges including diplomatic titles and diplomatic passports may import and register automobiles in Denmark at any time without payment of tax and duty. Shipment of automobiles should be made to the Transportation Officer, US Embassy Copenhagen, Denmark. Marked for the owner and the section of the Embassy to which the owner is assigned (i.e., Army Attache or MAAC). (3) For POVs shipped to Aarhus, Denmark, the following statement must be included in the remarks section of the PCS orders: "Please charge all local POV expenses (storage/container/transport fees) to the PCs fund cite code." If this statement is not included, then POVs must be shipped to Bremerhaven, Germany.

8. PRIVATELY OWNED VEHICLES (POVs)

PRIVATELY OWNED VEHICLES (POVs)(CH USTC Pacific J9, 17JUN24, TF) The Dominican RepublicIn order to import a vehicle under the US Mission to the Dominican Republic, the following details should be taken into consideration:1. The Government of Dominican Republic (GODR) waives almost all restrictions, including the 5-year-old age import restriction for vehicles (one only) for diplomats/technical and administrative staff coming to the Dominican Republic. Therefore, post can only clear and register one (1) vehicle for each Mission Member in the Dominican Republic regardless of the age.2. *Employees with diplomatic accreditation and Under the Chief of Mission’s umbrella do not have limits on the value of the vehicle being imported for the one (1) POV. a. The vehicle should be in good condition physical and internally.b. There is only unleaded gasoline in the Dominican Republic.c. Right-hand-drive vehicles are prohibited to enter the Dominican Republic. No exemption.d. Also, employees must make sure by checking on CARFAX or any other website that their vehicle is not salvage or declared totaled since those types of vehicles are not, repeat are not, allowed to be cleared and registered in the Dominican Republic under no circumstances. No exemption for these cases either.*Note: See your welcome to Santo Domingo cable for details.3. Your vehicle can arrive before you do (within 30 days). So, it can be sent to arrive ahead of time, and it will be cleared from customs once you arrive at the post.4. Motorcycles, scooters, and jet-skis including trailers are considered vehicles in the Dominican Republic and since a 2nd POV is not exempt, you can import a 2nd POV, such as a motorcycle, scooter, jet-skis, or trailer) as part of your Household Goods (HHE) allowance; understanding that all restrictions apply (including but not limited to the 5-year-old age restriction). The diplomatic waive does not apply to the importation of a 2nd vehicle, for tax/duty exonerations. Taxes for importation of a 2nd vehicle can be up to 53% of the purchase value when new or more. Before shipping a 2nd vehicle to post, the employee should be provided a written statement that taxes/duties and registration fees are going to be covered by the employee. Otherwise, motorcycles, scooters, and jet-skis as well as trailers, will not be allowed into the country and the employee will

have to reship the item at their own expense. 5. In order to release your vehicle from customs the GSO/Customs & Shipping Section at the Post needs the following documentation:- Copy of the Title or Copy of Certificate of Origin (it does not need to be on your name)- Copy of the Bill of Sale or any invoice stating how much was your POV purchased for.- Copy of the front page of your passport.These documents can be scanned and sent to us by e-mail to: santodomingoshipping@state.gov .6. The Dominican Republic requires, by law, that your vehicle be locally insured with a third-party liability, and this insurance must be purchased locally. The employee can always purchase comprehensive through an American company or as they desire.

To get a temporary plate the employee needs to provide proof of insurance to the GSO/C&S office at the post before the vehicle is delivered to the employee's residence or hotel.7. a. POVs (includes data on prohibited vehicles, colors, etc.)

US Embassy Assigned Personnel: (1) Two POVs can be shipped to the Dominican Republic duty/tax free. - POV #1: USG (PCS orders) will pay transportation and port processing charges for one POV. - POV #2" Second POV may be shipped by Embassy personnel with prior Embassy approval. Sponsor should assist with the approval process. Member is responsible for transportation and port for the second vehicle; however, taxes and duties will be exonerated.

(2) Original Bill of Lading(BL) must be mailed to: USMAAG/DOMINICAN REPUBLIC, UNIT 5539, APO 34041. Original BL must show name of owner, VIN and/or engine number, make, model, year, and color. Member must have registration or title of vehicle for Dominican Diplomatic tags and registration processing. (3) POVs should be shipped and consigned to: US Embassy, RNC: 401-50936-9, For: (owner), USMAAG/DAO/MSG (as applicable), Santo Domingo, Dominican Republic. Commercial from the US (1-809)-731-4279 USMAAG Operations e-mail: milgrp_santo_domingo_ops@santodmingo.mg.southcom.mil. (4) For inbound Embassy personnel, the US Embassy General Services Office, Customs and Shipping Section, will process all required paperwork to clear shipments through Dominican customs. b. The following applies to Retirees and NON-Embassy Assigned Personnel: (1) All shipments (POV and HHG) should be consigned (shipped) to the member at a local Dominican address. The US Embassy does not have a transportation office that services retirees. The USMAAG Logistics NCO can provide a courtesy letter addressed to the Dominican Customs Director indicating that the retiree is a Dominican citizen returning to reside in the Dominican Republic and any assistance that can be provided is greatly appreciated. A power of attorney is required if a person other than the member is to receive the POV. Retirees must also ensure they know Dominican law with respect to Dominican citizens returning from the United States to permanently reside in the Dominican Republic. This information can be obtained through the Dominican Embassy in Washington, DC or Dominican Consulates in the US. (2) The original Bill of Lading must be mailed to:

USMAAG/DOMINICAN REPUBLIC, UNIT 5539, APO 34041. Original BL must show name of owner, VIN and/or engine number, make, model, year, and color. (3) POV/HHG Dominican taxes are high. If you have owned the POV for less than a year, the assessed taxes are even higher.
c. The following applies to both US Embassy Assigned Personnel, Non-Embassy Assigned Personnel, and Retirees: MOTOR VEHICLES In order to import a vehicle to the Dominican Republic there are some details to take into consideration: *The GODR waives the five (5) years old restriction to the vehicle (one only) to diplomats coming to the Dominican Republic; therefore post can only clear/register One (1) vehicle for each Mission's Member in the Dominican Republic. *The vehicle should be in good condition physical and internally. *There is only unleaded gas in the D.R. *There are limits on the value of your vehicle (See your welcome to Santo Domingo cable for details) Your vehicle can arrive before you do (within 30 days). So it can be sent ahead of time and it will be cleared from customs once you get to post. Motorcycles, scooters and jet-skis including trailers are considered vehicles here and since 2nd POV is not exempt, you can import them as part of your HHE allowance understanding that all restrictions apply (including but not limited to the 5 year old restriction), but they do not apply for tax/duty exonerations and taxes are @ 50% of the depreciated value. Before shipping those to post, employee should provide written statement that taxes/duties and registration fees are going to be covered by them; otherwise motorcycles, scooters and jet-skis as well as trailers will not be allowed into the country and you'll have to reship them on your own. The Customs and Shipping Section needs the following documentation in order to release your vehicle from customs -Copy of the Title or Copy of Certificate of Origin -Copy of the Bill of Sale or any invoice stating how much was your POV purchased for. -Copy of the front page of your passport. Those can be scanned and sent to us by e-mail to santodomingoshipping@state.gov. The Dominican Republic requires by law that your vehicle be locally insured by third party liability, it can be purchase locally or through an American company. You need to provide proof of insurance to GSO/Cs before your vehicle is delivered to you.

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

Personnel contemplating retirement, separation or relocating dependents to Dominican Republic should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Dominican Republic. a. Retirees must contact their nearest Dominican Republic Consulate to obtain guidance and all required Consular letters before arriving in country. This action is recommended to keep costs to a minimum. b. US military members returning to retire in the Dominican Republic are treated as returning Dominican citizens and are subject to all local laws and taxes. They will be required to personally work with the assigned HHG Dominican moving company. c. Know when your HHG/POV is expected to arrive, date, company, ship name, voyage number, etc. Do not wait to be contacted. Personally search, call the shipper (be active). Obtain copies of GBLs and all paperwork pertaining to your shipments. d. POVs are not assigned a company and members will be required to perform all actions to clear the POV thru the port or contract a company at personal expense. POVs cause the greatest problems and taxes are extremely high. e. Port charges accrue after 14 days of the HHG/POV arriving in country at a rate of 15 US dollars daily and are the member's responsibility. Members are required to be present in country to receive their shipments. f. Retirees/separatees are subject to local laws regarding weapons. POFs are subject to be impounded by local authorities until proper permits are obtained. Do not ship ammunition. Contact the nearest Dominican Consulate regarding permits for importation.

a. WEIGHT RESTRICTIONS

Since all residences are Government furnished, paragraph U5315 B. of the JFTR applies to service members in Ethiopia. Members weight allowance is 25 percent or 2,000 lbs (whichever is greater) of the amount authorized in paragraph U5310 of theJTR.

b. CONTAINER/CRATING REQUIREMENTS

Due to multiple airlines and aircraft involved in the shipment of personal effects, the boxes must be no larger than the dimensions acceptable by the smallest cargo plane. Boxes should be no more than 205 cm long, 145 cm wide, and 155 cm high. In the past, boxes have been broken down to meet these requirements, with resultant delay of delivery and loss of items.

c. HARD LIFT AREA

Ethiopia is designated as a hard lift area for all service members. All HHG/UB shipments are sent via commercial air. There is no scheduled AMC access to Ethiopia. All shipments should be routed through London, UK or Frankfurt, Germany, as these are the only European airports with service to Addis Ababa.

d. UNACCOMPANIED BAGGAGE

"No restrictions identified."

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. Personnel on the Diplomatic list (Attaches) are eligible for the exemption of customs and excise tax for their entire tour. Staff members (Administrative and Technical Staff members, non-Attaches) are only entitled to duty-free entry for the first six months of their tour. Shipment of personal property and POV must be scheduled to arrive in Ethiopia within the first six months. b. Customs clearance is handled by the General Service Office (GSO) at the Embassy. In order to track shipments, initiate customs clearance, and ensure the promptest delivery of the containers to the Embassy, the member must provide the GSO with the airway bill number of the shipment prior to arrival (either by telegraphic means or by FAX). Additional information needed by the GSO is; number of pieces, weight, packing list, and flight number (if known by member).

3. CONSUMABLES

DOD and DOSJTR, par. 052002-F for Service members; par. 054310 for DoD civilian employees; App A definitionThe JTR identifies Addis Ababa, Ethiopia as having a consumable goods allowance authorized. Recommend validating consumables allowance authorization within the JTR

A. Uniformed Service Member 1.A member is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.). 2.Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized. B. Civilian Employee 1.A civilian employee is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.). 2.Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized.

a. ALCOHOLIC BEVERAGES

“Importation is PROHIBITED.”

b. CIGARETTES/TOBACCO PRODUCTS

Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

c. COSMETICS

“No restrictions identified.”

d. FOOD STUFFS AND MEATS

Consumable items/foodstuffs should be listed as household effects and not be marked in any way as to indicate contents as foodstuffs.

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

“No restrictions identified.”

4. ELECTRICAL EQUIPMENT

"No restrictions identified."

a. HOME COMPUTERS

"No restrictions identified." Due to pouch size limitation, computer must be sent as part of HHG or UB shipment. They should not be accompanied baggage upon arrival in Addis Ababa.

b. TVs/VCRs

"No restrictions identified."

c. OTHER (i.e. COMPATIBILITY, ETC)

"No restrictions identified."

5. FURTNITURE, OVERSIZED

Residences of all service members are furnished. This includes beds, dressers, couches, reclining chairs, coffee tables, entertainment centers, dining room tables, all major appliances, and micro-wave ovens. Upon arrival, a welcome kit is provided to be turned back in to GSO upon arrival of HHG/UB shipments. The kit includes linen, towels, dishes, and pots/pans. Voltage in Ethiopia is 240 volt 50 megahertz and is subject to extreme fluctuations and frequent power outages. Transformers are provided.

6. PETS/QUARANTINE

Currently, Ethiopian customs regulations governing the importation of pets are not stringent. However, regulations in Ethiopia change with little or no advance notice. Therefore, individuals wishing to ship a pet should contact the General Services Office immediately upon notification of assignment. Pertinent information needed includes: country where pet will be shipped from, type of pet, sex, age, and record of inoculations.

7. PRIVATELY OWNED FIREARMS (POF)

"Importation is PROHIBITED." (applies to Diplomatic Staff and to Administrative and Technical Staff).

a. HAND GUNS

"Importation is PROHIBITED."

b. RIFLES/SHOT GUNS

"Importation is PROHIBITED."

c. TOY RELATED GUNS

"Importation is PROHIBITED."

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

"Importation is PROHIBITED."

8. PRIVATELY OWNED VEHICLES (POVs)

The Government of Ethiopia implemented a ban on the import of all gas-engine vehicles into Ethiopia earlier this year. While diplomats were supposed to be exempt from this ban, the GOE is no longer issuing any import permits for any gas-engine vehicles (POVs or GOVs, regular or diesel). This ban affects all diplomatic missions, NGOs, businesses, etc. operating in Ethiopia. Post is working with Washington and other embassies in Ethiopia to attempt to resolve this issue with the GOE, however, we do not know if or when this situation will be resolved, and we have not received any import permits in several months.

a. POVs (includes data on prohibited vehicles, colors, etc.)

All incoming officers should work with GTM to have their orders amended for emergency storage rather than shipping to post. However, the GOE is issuing permits for hybrid and electric vehicles, so if you have a hybrid, you may ship it. However, we strongly discourage shipping an EV as there is no EV charging infrastructure in Addis.

b. MOTOR CYCLES/MOPEDS

"No restrictions identified."

c. GASOLINE/CATALYTIC CONVERTERS

Note that unleaded gasoline is available in Ethiopia, thus there is no need to remove the catalytic converter from the vehicle

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. Personnel MUST be in country and present a valid diplomatic or official passport to receive their household goods and unaccompanied baggage shipment. Because you must personally be in country to sign necessary documentation and receive diplomatic accreditation, your shipments (UB, HHG and Consummables) cannot arrive to Post nor be cleared through Fiji customs prior to your arrival. Please plan to be in country for 2-3 months without your personal effects, including UB. If you will not arrive for several months, your shipment should be consigned to the U.S. Despatch Agent in Seattle, WA with instructions to hold your shipment in temporary storage until after your arrival in Suva. If you have any questions, please send your inquiry to the GSO Suva Mailbox at GSO_Suva@state.gov. The Government of the Republic of Fiji (GORF) will not release household goods or unaccompanied baggage shipment until member is present to sign all required documents. HHG and UB shipments should be scheduled to arrive as close as possible to members arrival date in Fiji. Firearms, pornographic materials, drugs, knives, untreated/unpolished/unvarnished cane furniture, certain dried fruits, certain nuts, meats, eggs, and dairy products and by-products, are all subject to import restrictions. Pet foods/treats may also be confiscated. The GORF Agriculture Department requires animal skins, rugs, and feathers be dry cleaned and fumigated before shipping to Fiji. A receipt/certificate showing fumigation this has been done will facilitate entry of these items. A Quarantine Officer will be present during the delivery/unpacking of your shipment(s). Ensure outdoor gear and sporting equipment is shipped clean of dirt and debris. The Quarantine Officer will watch for restricted items and any indication of insects in your shipment; if they are found, items may be sent for fumigation (at your expense) or in some cases confiscated. For up-to-date information on import restrictions, please check the following Biosecurity Authority of Fiji websites:For plant products: http://www.baf.com.fj/cooperations/plant-and-plant-productsFor animal products: http://www.baf.com.fj/cooperations/animals-and-animal-products b. Failure to comply with these packing instructions can result in considerable shipping delays because the shipment will have to be re-crated in order to be surface freighted to Suva. Fiji law requires that all inbound shipments for fourth schedule diplomatic personnel pass through customs within six months of the customers arrival in country; this includes any supplemental HHG/Consummable shipments an customer may be authorized by State or their employing agency. Third schedule diplomatic personnel are exempt from this six month limit. Please check with Post HR department to determine whether you will be listed as a third or fourth schedule officer. Due to geography, local customs restrictions and shipping delays, customers will experience a lengthy wait for delivery of their personal effects (UB,HHG, CONS, and POV). The usual time for effects coming from the U.S. is 2-3 months. However, shipments coming from Europe or from Africa can take 4 months or longer. Occasionally, even airfreight (UB) may be quite delayed. Post GSO supplies a Welcome Kit to new arrivals pending receipt of their personal effects. The kit includes commonly needed items such as bedding, towels, pots, pans, dishes, flatware, kitchen utensils, a TV, and vacuum cleaner. You are required to return all of the welcome kit items to GSO Supply two weeks after receiving your HHG. You will not be allowed to keep nor borrow any welcome kit items after the receipt of your HHG. For singles and couples, we provide dishes and flatware for four people; for larger families, we provide dishes and flatware for six, eight, or more, depending on family size. You may wish to supplement the kit with such items as games, books, etc. -- all of which can be hand-carried or mailed through the Diplomatic Pouch in advance of your arrival. The following shipping information is keyed to 14 FAM 614.2-Obtaining Information:

3. CONSUMABLES

Importation of meat and dairy products are prohibited. For further details, visit www.biosecurityfiji.com (CH 29-Feb-2016 SDDC-PAC RB) Also see Paragraph 2 above: CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS.1. Please refer to the JTR and JTR Supplement AP-CG-01, to determine the service member or employee eligibility for a consumable allowance and weight and if the destination Country and/or City is an Authorized Consumable Goods Allowance Location. 2. Authorized Consumable Goods Allowance Locations. The JTR Supplement AP-CG-01 identifies locations for DOD or DOS. Locations established by DoD apply to Service members only, locations established by both DoD and Department of State (DOS) apply to Service members and DoD civilian employees. 3. References: a. Military Service Member: JTR paragraph 052002-F and JTR Supplement AP-CG-01 for country and/or city locations.b. d. FOOD STUFFS AND MEATS

Importation of meat and dairy products are prohibited. For further details, visit www.biosecurityfiji.com (CH 29-Feb-2016 SDDC-PAC RB) Also see Paragraph 2 above: CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS.

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

No restrictions on prescription drugs.

4. ELECTRICAL EQUIPMENT

U.S. Government-leased residences in Suva are equipped with 220-240v/50HZ electricity. The electrical plug for Fiji is the same as Australia, with a single grounding pin and two flat pins forming an upside down V-shape. A picture of the plug can be viewed at: http://en.wikipedia.org/wiki/AS_3112. If you plan on shipping audio, video and computer equipment, power protection devices are recommended, such as 220-240v power strips and Uninterrupted Power Supply (UPS). Each house is issued three transformers. Be advised that appliances with clocks and timers designed to run on 60HZ electricity will not function properly and similarly motors designed to run on 60HZ may not function well.(CH 05-DEC-2017 TCJ4-HB-PAC RB)

a. HOME COMPUTERS

No restrictions however, recommend use of power protection devices such as 220 volts power strips

and universal power sources (UPS). Good quality power strips are not available locally.(CH 05-DEC-2017 TCJ4-HB-PAC RB)

b. TVs/VCRs

No restrictions however, recommend use of power protection devices such as 220 volts power strips

and universal power sources (UPS). Good quality power strips are not available locally.(CH 05-DEC-2017 TCJ4-HB-PAC RB)

c. OTHER (i.e. COMPATIBILITY, ETC)

Electric current is 240 volts, 50 cycles. Fiji experiences frequent power fluctuations. Post provides 3 transformers to each household. Good quality transformers are not available locally. (CH 05-DEC-2017 TCJ4-HB-PAC RB)

5. FURTNITURE, OVERSIZED

No restriction on shipping furniture. However, Suva provides furnished quarters, therefore shipment of furniture is not necessary. All agencies except SAO are provided furnished houses. All homes are air-conditioned and furnished with standard furniture determined under the post Furniture and Appliance Pool (FAP), including a queen sized bed for the master bedroom, twin beds for the other occupied bedrooms, tables, chairs, desks, night stands, lamps, rugs, and bookshelves. A microwave oven, refrigerator, freezer, transformers, washer and dryer, brush cutter, and dehumidifier are also included. Post does not provide residential gardening equipment. Due to limited warehouse storage space to take back otherwise assigned FAP furnishings, and the potential risk of importing wood-based furniture, incoming customers should consider not bringing significant pieces of personal furniture; said furniture should be stored in Non-Temporary Storage (NTS) at origin.

Some Embassy housing does not come equipped with a dishwasher. If you are not a State Department Employee, be sure to check with your agency to determine if your permanent quarters in Suva will be unfurnished or the level to which it will be furnished. (CH 05-DEC-2017 TCJ4-HB-PAC RB)

6. PETS/QUARANTINE

The application/approval process for bringing a pet into Fiji remains lengthy, cumbersome and expensive. It should also be noted moving may be a stressful and emotional experience for pets and owners alike. In some cases it may be impossible. If you wish to import a small animal/s, i.e. dogs and cats, into Fiji, the first step is to review the guidelines and obtain and complete an APPLICATION TO IMPORT LIVE ANIMALS INTO FIJI. This information and paperwork is available at the Biosecurity Authority of Fiji website: http://www.baf.com.fj/cooperations/animals-and-animal-products. Please contact the CLO at CLOSuva@state.gov for further details as soon as possible and no less than six (6) months prior to your arrival in country. Importation of birds into Fiji is not permitted. If the application is approved, a process that may take 21 working days, an Import Permit will be issued together with the conditions of importation and other relevant information detailing required tests,

vaccinations, treatments and documentation. Quarantine of pets: Only dogs and cats brought in from New Zealand and Australia can enter Fiji with minimum 7-day quarantine. Pets may enter via Hawaii if they meet all Hawaii entry/quarantine requirements. This may or may not include quarantine in Hawaii. Pets entering from Hawaii will be subject to minimum 30 day quarantine in Fiji. Fiji is beginning to allow pets to enter the country directly from the continental United States, but this is a nearly untested route and these requests are reviewed by the Fiji authorities on a case-by-case basis. Again, pets arriving from the CONUS will be subject to minimum 30 day quarantine. In addition, there will be mandatory rabies inspections at your home every ten days for the six months following the 30 day quarantine and inspections every 30 days for the following six months. Home quarantine is not permitted to be substituted for the initial, required 30 day quarantine. Veterinary, testing, vaccination, shipping, import/handling and quarantine fees are the responsibility of the pet owner. Travel Bans: Many American carriers and some international airlines have temperature-related travel bans for pets during warm/extremely cold weather periods. Many airlines, both US and international carriers, also prohibit the shipment of certain breeds of dogs; some examples are: American Pit Bull Terrier; American Staffordshire Terrier; Bull Terrier; Doberman Pinscher; and Rottweiler. Additionally some carriers restrict or limit shipments of snub-nosed breeds; some examples are: Boston Terrier, Boxer, English/French Bulldog, King Charles Spaniel, Lhasa Apso, Pug, Shar-Pei, Shih Tzu. Contact airlines directly to confirm specific policies. Be sure to verify with the airline the cost, container specifications, veterinary requirements, and check-in procedures. These requirements can vary between airlines. Also be aware that if there is a change in airlines during travel, the pet owner may need to transfer the pet from one airline to another. The transfer can be a lengthy process. -----The need to ship a pet via a foreign flag carrier does NOT/NOT exempt customers from the Fly America Act and the requirement to use US Flag Carrier for travel between the United States and Fiji.

7. PRIVATELY OWNED FIREARMS (POF)

IMPORTATION OF ANY/ALL FIREARMS IS PROHIBITED.(CH 05-DEC-2017 TCJ4-HB-PAC RB)

a. HAND GUNS

See paragraph 7 above.

b. RIFLES/SHOT GUNS

See paragraph 7 above.

c. TOY RELATED GUNS

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

Importation PROHIBITED.

8. PRIVATELY OWNED VEHICLES (POVs)

POVs should be containerized. GORF allows both 20 ft and 40 ft containers. (CH 05-DEC-2017 TCJ4-HB-PAC RB)

a. POVs (includes data on prohibited vehicles, colors, etc.)

Driving is on the left side of the road in Fiji. Many people find it easier to drive a right-hand drive POV in Fiji. Accredited Diplomats may import a left-hand drive POV to Fiji. Importation of a left-hand drive POV for Non-Diplomats is PROHIBITED by the Government of Fiji. (CH 09-Nov-2021 TCJ9-OH-PAC RB) Any POV more than 5 years old upon importation, will only be allowed into Fiji if the customer agrees to export the POV at the end of tour. POVs over 5 years old upon importation CANNOT be sold in Fiji. The Fiji Government has granted an exception for Electric/Hybrid POVs to less than 8 years. POV SELECTION: Both unleaded and diesel fuels are available. While there are some benefits to driving a Full-size SUV they are not absolutely necessary for use in Fiji. Sedans, minivans or mini-SUVs are adequate for travel. SHIPPING A POV: Be advised POVs MUST be thoroughly and professionally cleaned, including the undercarriage, prior to shipping. POV registration requires POVs be equipped with amber turn signal lights and red brake lights. Some US POVs have the brake and turn signal lights as one unit. This lighting system WILL NOT pass inspection in Fiji. Detailed information can be found on the Land Transport Authority of Fiji website: www.lta.com.fj. If purchasing a POV from Japan, personnel must obtain an appraisal and approval from the Japan Export POV Inspection Center (JEVIC) before shipping the POV. The JEVIC appraisal includes proper documentation of POV ownership, structural and environmental integrity, and biosecurity contamination tests (radiation).More information can be found at www.jevic.com. US car parts are not readily available in Suva, so Post urges you to make any adaptations to your POV prior to its arrival in Fiji. To register your POV, Post will need your driver's license, original title, commercial invoice, and proof of de-registration of the POV from the POV's last location. Customers who do not receive full diplomatic privileges (e.g. those customers considered to be "Administrative and Technical Staff") will be required to pay between US$200 to US$450 to register the POV. The actual amount will depend on engine size. SHIPPING INSTRUCTIONS: Please refer to the instructions above regarding sea freight. Locally-purchased POV customers should be aware if they decide to purchase a POV while in Fiji, they have two options:(1) buy a POV on the local market, or(2) buy a POV from abroad (usually Japan or Singapore), then import that POV into Fiji. Generally, used POVs on the local market are more expensive than POVs of similar make, model, age, and condition in the U.S. POVs purchased from abroad (e.g. from Japan) can be imported Duty Free when received in Fiji within 6 months of the customer's arrival. All age restrictions mentioned above apply to POV imports, as do the importation requirements also specified above. POV SECURITY: Anti-theft alarms, locking wheel hubs and other anti-theft devices are recommended for POVs. SELLING A POV AT THE END OF TOUR: All POV sales require pre-approval of the Ministry of Foreign Affairs (MFA), Fiji Customs and the Management Officer. Left-hand drive POVs, less than 5 years old at the time of importation into Fiji, may only be sold to another diplomat and will incur no VAT or Duty charges.

POVs sold on the local market will incur a prorated VAT (currently 9%) and Duty, which is calculated based on engine size (60 months minus the months the POV was used in Fiji). If the POV is over 5 years/60 months old at the time of sale, these charges will not apply. The age for Duty calculation is taken from the time a POV is first registered in Fiji. Upon transfer of ownership, 3 percent stamp Duty from the sale price of the POV is also collected; the buyer and seller agrees who pays. The Suva Embassy does NOT authorize self-drive of USG POVs while awaiting arrival of POV or rent official USG POVs to newcomers or other mission members. Rental POVs are locally available but rates are high.(CH 05-DEC-2017 TCJ4-HB-PAC RB)

b. MOTOR CYCLES/MOPEDS

Shipment of motorcycles and mopeds are allowed. RSO and GSO caution on the use of motorcycles and mopeds in country due to the poor road conditions in Fiji. They are not conducive for these types of vehicles. Drivers in Fiji are not used to sharing the road with mopeds or motorcycles.(CH 05-DEC-2017 TCJ4-HB-PAC RB)

c. GASOLINE/CATALYTIC CONVERTERS

Both leaded and unleaded gasoline is available.

d. INSURANCE AND SAFETY REQUIREMENTS

Third party insurance is required and can be obtained locally. The Government of Fiji requires third-party liability insurance for all vehicles. Currently costs range between US$100-US$200 per year and must be purchased locally. The Embassy also recommends that you maintain both collision and comprehensive coverage; both available locally for most vehicles although some imported POVs may be difficult to insure with a local provider. Do not forget to insure your POV for the transit to Post and, if you plan to maintain US based collision and comprehensive coverage, please ensure that your insurance company will provide coverage for your vehicle while in Fiji.(CH 05-DEC-2017 USTCJ4-HB-PAC RB)

One of these requirements is for the completion of a form called a 'Certificat Sanitaire-Annexe 7,' to be completed in French by a veterinarian at the shipping point of origin. Form can be obtained by contacting the Embassy. Since few vets in the USA or in other non-French speaking countries can be expected to read French, GSO/Paris has done an informal translation of the document for you to provide to your vet to enable him/her to understand the questions. Be sure to have the answers completed on the original French form. Dogs and cats entering France are subject to the following regulation: - Less than 3 months old prohibited. - A certificate of good health issued between 3 and 5 days before entry into France. - They must be identified with a microchip or an official tattoo. - They must be vaccinated with an inactivated rabies vaccine (test results required.) - The must be antibody tested through an official laboratory at least 30 days after the vaccination and 3 months prior to arrival. The test must be at least 0.5 international unit per milliliter. - Form required: 'CERTIFICAT SANITAIRE' duly filled in and signed by an official veterinary at place of origin. b. OTHER ANIMALS: Prohibited except on special authorization with special import permit obtained from the Ministry of Agriculture.

7. PRIVATELY OWNED FIREARMS (POF)

Military members must be registered first through the Ministry of Foreign Affairs before requesting the authorization to import firearms into country. Depending on the Classificatino of the firearm, member must obtain either special authorization from the Police Department or be registered with an official gun association for at least 6 months before a request can be made for importation into France. A French hunting/gun license is required. For further information contact the French Ministry, Director Generale Des Douanes et Droits, Indirects, 23 bis rue de Universite 75700 Paris RP, ATTN: Bureau E/2, tele: (33) 1-44-74-46-80 or FAX (33) 1 44-74-45-85.

8. PRIVATELY OWNED VEHICLES (POVs)

EFFECTIVE 1 JULY 2012: Breathalyzer kits in all motor vehicles, this includes Electrical vehicles are mandatory. Fines begin on November 1st. Check this site www.ethylotest-alcotest.com/ DoD EM Status Vehicle Procedures DoD members not assigned to France in a diplomatic status will be categorized in the Employs en Mission (EM) status. This includes all PEP personnel and students. The French government has established the following restrictions for importing vehicles. A. Vehicles over 4 years old (and then every 2 years) are required to have the standard inspection (controlee technique). The inspection through a commercial garage cost approximately 85 Euros. If required, there may be some technical maintenance/body work required to pass the inspection requirements. As of August 2010, all non-conforming vehicles (vehicles not manufactured in Europe) will be required to clear a more thorough inspection. The process requires that you get a statement from the manufacturer, also known as the certificate de conformit, reporting all of the modifications required on the vehicle to meet French standards. Depending on the manufacturer, the costs for this report are usually between 100 and 150 Euros. The costs of the modifications could be expensive in both parts and labor. After the modifications are completed, the French Administration, DRIRE, will inspect the vehicle for approval. The cost of this inspection is approximately 70 Euros. The entire process could take up to one year to complete. The final registration for the vehicle will be 75.50 Euros and license plates are 34 Euros. The Defense Attaché Office strongly discourages PEP personnel, students, or any other non-diplomatically titled personnel PCSing to France from shipping a personal vehicle due to the lengthy, costly and complicated bureaucratic registration process. You should request Non-Temp Vehicle storage Questions may be directed to Jacques Ple at plejm@state.gov or Marc Piffeteau at piffeteauml@state.gov The EM status assigned by the Ministry of Foreign Affairs (MFA) does not permit diplomaticregistration.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) Depending on status, members are entitled to import and register one or two vehicles duty-free in France, however, only one POV can be shipped at Government expense. (2) Members registered on the diplomatic list with at least one dependent (non French) over 18 years old can register two cars in the Diplomatic series. (3) Members on the administrative and technical list can register one vehicle only. (4) Automobiles must be owned by members prior to importation, and a current ownership title and registration certificate (in the name of the employee assigned to France) are required.

b. MOTOR CYCLES/MOPEDS

EFFECTIVE 1 JULY 2012: Breathalyzer kits in all motorcycles and mopeds. Only mopeds (not exceeding 50 cc and 45 km/h) are exempt from this requirement. Fines begin on November 1st. Check this site www.ethylotest-alcotest.com/ Motorcycles and mopeds are considered POVs. Motorcycles/mopeds may be shipped as part of the HHG's shipment. Title and valid registration must be provided in order to register the motorcycle/moped. (Depend on assigned status)

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Due to a local peculiarity of customs procedures all personal effects and POV's are highly recommended to be scheduled to arrive in Tbilisi after employee's accreditation at the post is completed. Service member/civilian employee must report to the Administrative Assistant immediately upon arrival to start accreditation formalities. It usually takes two weeks to obtain Diplomatic or Service card issued by MFA of Georgia, a copy of which is strictly required by local customs for shipment clearance. Absence of Diplomatic/Service card causes major difficulties and delays with customs clearance of personal belongings, and delay delivery of property.

3. CONSUMABLES

DOD and DOS For: Tbilisi GeorgiaJTR, par. 052002-F for Service members; par. 054310 for DoD civilian employees; App A definition.The JTR identifies Tbilisi Georgia as having a consumable goods allowance authorized. Recommend validating consumables allowance authorization within the JTR A. Uniformed Service Member 1.A member is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.). 2.Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized. B. Civilian Employee 1.A civilian employee is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.). 2.Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized.

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

Import of medicines/medical supplies into Georgia requires obtaining of license and certificate, or separate permission from the local Ministry of Health, which is difficult to obtain. Recommend medicines be sent through the diplomatic pouch. If diplomatic pouch shipment is impossible, fax to GSO Shipping section a list with detailed description of medicines/medical supplies including manufacturer information, and copy of the commercial invoice with total value of the shipment. Two weeks advance notification is required for medicines/medical supplies destined for the Embassy/USG employees internal use.

6. PETS/QUARANTINE

Pets may be brought to Georgia. They must have a current health certificate verifying completion of required vaccinations, specifically rabies, not less than 30 days prior to travel date. Pet's will be inspected at the airport by the Georgia Veterinary Control Service. Expect to pay 40 GEL (about $20.00) per animal for inspection and registration. Pet's without valid shots must be exported back on the same flight or animal will be placed into quarantine and a penalty of 130 GEL will be charged.

7. PRIVATELY OWNED FIREARMS (POF)

Shipment of firearms is prohibited except in the case of military necessity. Contact sponsor for further information.

8. PRIVATELY OWNED VEHICLES (POVs)

a. POV shipping/alternative transport: Many Americans ship a POV to post.ITGBL shipping has reduced transit time from the United States to just over 45 days (vehicles that transit ELSO may take as long as three months--check with GSO shipping before you ship your vehicle). Roads in Tbilisi have improved recently, but many remain in bad condition, especially outside the capital. Some personnel have sedans. When choosing a vehicle you may wish to bear in mind that driving conditions in Georgia can be somewhat chaotic, creating higher frequency of vehicle accidents.b. European and Japanese vehicles are widely available at prices somewhathigher than in the United States. Some US made cars are also available forpurchase. It is also possible to hire a car and driver for approximately$650 a month (though due to inflation these rates are subject to change).Less expensive new and used local (mostly Russian) vehicles, suited to theroads and conditions in Georgia, are also available.c. An increasing number of major international auto companies are openinglocal dealerships in Tbilisi. Most repair parts and local dealer mechanicsare now available for Audi, BMW, Ford, General Motors (Opel), Honda,Hyundai, KIA, Mercedes-Benz, Mitsubishi, Renault, Toyota, Nissan,Volkswagen, Ford, Jeep, and Volvo. Keep in mind that some

models of thesemanufacturers that are sold in the United States may not be available inGeorgia, and parts often have to be imported for them (which could require several weeks). Please ask GSO if you have any questions about a particular model. d. If you decide to ship a POV, you may also want to include some filters,motor oil, belts, wiper blades, and similar parts in your HHE. These arealso available locally, but generally at higher prices than in the UnitedStates. Also, Dunlop, Goodyear, Pirelli, Michelin, and Bridgestone tires in common sizes are easily available locally at higher prices than in theUnited States. Anti-theft devices such as the club and/or an alarm (this can also be purchased and installed locally) are recommended.e. When importing a vehicle into Georgia, please send, ahead of yourarrival, a scanned copy of your vehicle's title or certificate of origin.Post cannot clear your POV without it, and if the vehicle arrives ahead ofthe employee, the vehicle may incur unnecessary demurrage charges.

a. POVs (includes data on prohibited vehicles, colors, etc.)

The new Georgian law taking effect January 1st, 2024. With only a couple exceptions, effective from January 1st, it will be impossible to import vehicles manufactured before 2013. The only exceptions are to a few vehicles manufactured in Australia, Singapore, Russia, and the United Arab Emirates. If vehicle fits one of these rare circumstances, please contact us at tblshipping@state.gov and we will try to verify that the vehicle qualifies for the exception.

b. MOTOR CYCLES/MOPEDS

Motorcycles can be shipped as part of HHE only if the unit model and VIN will be clearly indicated on the shipping documents. They are classified as a transport facility in Georgia and require documentation and registration same as a car.

c. GASOLINE/CATALYTIC CONVERTERS

Lead-free gasoline is readily available.

d. INSURANCE AND SAFETY REQUIREMENTS

POV owners must purchase third party liability (TPL) insurance providing at least $75,000 in coverage. GSO motor pool can assist you in purchasing TPL insurance through a local insurance company. In order to ensure that all USG employees meet this requirement, you will need to provide proof of excess third party liability insurance valid in Georgia for a minimum of $75,000 before GSO will issue your license plates and turn your POV over to you. It is strongly recommended that you obtain comprehensive insurance on your own vehicle and supplementary liability coverage to ensure that you and whoever else may drive your vehicle are adequately covered. GSO motor pool can help you purchase such insurance locally, or you can choose to use an international insurance company based in the U.S.

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

”Importation is prohibited."

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

“No restrictions identified.”

11. TRANSMITTING EQUIPMENT

High frequency radio communications equipment requires registration/permission for import by Georgian National Communications Commission. GSO Shipping section requires two weeks advance notification. Provide GSO Shipping section two weeks advance notification of shipment by providing copy of the packing list of the shipment, copy of the invoice, and a memo specifying required frequency range, radio equipment use purpose and area, manufacturer data, and exact installation location of transmitters, antennas, satellite dishes, and related devices. Contact GSO for additional information.

a. WEIGHT RESTRICTIONS

DOD arranged shipments: “In accordance with the Joint Travel Regulations.” OS arranged shipments: Contact DOS.1) AIR FORCE PERSONNEL:(a) Accompanied tours: Full JTR weight allowance for all areas.(b) Unaccompanied tours: Enlisted E-5 and above, and officers are authorized full JTR. E-4 and below are normally authorized only UB allowance or 10 percent of full JTR. Exceptions to this policy may be authorized under AFI 24-501/JTR, APP W. Also refer to Attachment 2, Table A2.1, Rule 1, Item D, and Table A3.1 for reference to the Overseas Furnishings and Quarters Availability listing and procedures to request additional weight if applicable. (c)

Unaccompanied tours where Air Force personnel will be living on Army operated installations: The Orders issuing officials (AFPC) should contact each gaining Army installation prior to placing orders to confirm current installation policy for assignment by rank and whether a barrack non availability statement will be issued when the inbound Air Force members arrives. Based on this info, orders shall specify household weight shipment authority. For more information AF members are encouraged to refer to the Army Web https://www.housing.army.mil/. This Army web page will also reference information in the Army Handbook. These individual checks will be in Air Force member¿s best interest to ensure the member knows that most E-1 through E-6 will be placed into the barracks and this is applicable to all services stationed to an Army operated installation.(d) For those individuals assigned to/or living on an Air Force Installation, please refer to AFI 32-6001 for additional pet restrictions. (2) ARMY PERSONNEL: (a) Accompanied tours: Full JFTR weight allowance for all areas. b) Unaccompanied Tours: Full JTR weight allowance is authorized for all areas; however, it is STRONGLY recommended that single/unaccompanied personnel ship no more than 25% (net) of their authorized weight allowance, including UB Transportation. Unaccompanied housing, including barracks rooms, are small and generally cannot accommodate HHG greater than 25% of the authorized weight allowance. Soldiers should be briefed that NTS government facilities are not available in Europe and excess HHG should be stored at a CONUS NTS facility prior to their arrival. Soldiers are financially responsible for storing all excess HHG that cannot fit into their assigned government quarters. Excess HHG will not be shipped back to CONUS. Soldiers should contact the housing office at their gaining duty station or their sponsor to request information on unaccompanied housing prior to making arrangements to ship HHG. (c) Single/unaccompanied officers and personnel in grades of E7 through E9: Assigned to the following APO numbers in the Kaiserslautern area are authorized full JFTR weight allowance: 09009, 09012, 09021, 09054, 09180,09227 and 09263.DOS arranged shipments: Contact DOS.

5. FURTNITURE, OVERSIZED

Government and economy living quarters are generally smaller than those in CONUS. Economy housing in Germany, Italy or Belgium may accommodate more HHG than government quarters, but are still smaller than homes and apartments in the United States. Many have narrow doorways and tight stairwells that cannot accommodate furniture that would fit easily into an American home. Service members/Civilians shipping large items such as king and/or queen size box springs and mattresses, oversized sofas, or other large furniture items that cannot be disassembled, may encounter problems when residing in government or economy housing due to narrow stairwells. Washers, dryers, ranges, refrigerators, kitchen cabinets, and wardrobes are furnished for government and economy quarters so these items should be placed in Non-temporary storage (NTS) in CONUS and not shipped to Germany, Italy or Belgium. There is no NTS in Europe. Therefore, HHG shipped in excess of what will fit, or is too large to be placed in the Soldiers/Civilians living quarters cannot be stored at government expense. Storage will be at the Soldiers/Civilians expense as the Joint Travel Regulation does not allow reshipment back to CONUS for placement into NTS.

In addition, refer to https://www.aphis.usda.gov/pet-travel/us-to-another-country-export/pet-travel-us-germany.***Limitations to Consider Before Travel:Ensure your pet is healthy enough for air travel. Airlines may apply restrictions for travel (ie. Brachycephalic dogs)Transportation Considerations:If flying a pet as cargo, it must travel in an IATA-approved crate.Vaccination Requirements:1. Dogs:a. Rabies. If a primary vaccine, it might be administered at least 21 days before leaving the country. Germany does accept 3-year rabies vaccines, but there cannot be more than a 1-year gap between the primary vaccine and second vaccine.3. Cats:a. Rabies. If a primary vaccine, it might be administered at least 21 days before leaving the country. Germany does accept 3-year rabies vaccines, but there cannot be more than a 1-year gap between the primary vaccine and second vaccine.Additional Requirements:1. Pet must have a 15-digit ISO Standard microchip. This must be placed prior to receiving their Rabies vaccine.2. An APHIS endorsed EU health certificate must be completed no greater than 10-days prior to travel. A U.S. Army veterinarian CAN endorse the EU Health Certificate in place of the USDA veterinarian.3. Original rabies certificate signed in blue ink.4. Optional (external and internal parasitic treatments).5. A passing rabies titer test (FAVN) from an approved laboratory may be required. Follow CDC procedures at https://www.cdc.gov/importation/dogs/rabies-free-low-risk-countries.htmlBe aware that the Patriot Express rotator has limited space for pets. Certain commercial airlines do not transport pets, and some have had restrictions since the CDC changes. Lufthansa only flies to airports in the United States with a CDC facility, however, exceptions for military members leaving Germany can be made.Standards laid out in the following document address requirements for shipping dogs, cats, and ferrets from the United States. PLEASE NOTE: Ferrets are not accepted as pets for movement on AMC military or commercially contracted aircraft. If you require information on shipments for ferrets or other exotic pets, please contact your local USDA field office. 1. Importing dog and cat food that includes animal products (such as meat, milk, cheese, or yoghurt) is prohibited. Food [containing animal products] that is brought into the EU will be confiscated and disposed of.2. Pit bull terriers, American Staffordshire terriers, Staffordshire bullterriers and

bull terriers, or crossbreeds among them or with other breedsmust not be brought into Germany regardless of any provisions established by individual German Federal States.a) The decision of whether or not a dog belongs to one of the breeds listed will be exclusively based on the appearance of the dog.b) Bringing a dog of the above-mentioned breeds or crossbreeds among themand with other breeds into Germany may be punished with imprisonment of upto 2 years or a fine.c) The different German Federal States have established additionalprovisions. Therefore, [the person responsible for the dog] must also review whether or not keeping a dog of a certain breed will be allowed in the respective German Federal State. NOTE: For the remainder of this document the term pet or pets refers to dogs and cats only. ATTENTION: An examination fee of 55 Euro per pet will be implemented February 1, 2013, for all non-EU citizens who import a pet into the country.A. Quarantine Period - There is no quarantine period for pets entering Germany.B. Identification (Via standard electronic identification system with a read-only passive radio frequency identification device known commonly as a transponder Microchip):

(1) Complies with ISO standard 11784 and 11785 (2) Where the microchip does not comply with ISO standard 11784 or 11785, the owner or the natural person responsible for the pet on behalf of the owner must provide the means necessary (Microchip Reader/Wand) for reading the non-ISO compliant microchip at the time of inspection (3) The microchip must be implanted before the primary rabies vaccination or valid rabies booster is given to the pet before traveling:

a) Primary Rabies Vaccine - This is the first rabies vaccination a pet ever receives; for EU countries this also applies to the first rabies vaccine given after the microchip was implanted; that is, rabies vaccinations received prior to the pet being microchipped are NOT recognized by the EU. b) Valid Rabies Booster - This is a rabies booster that was given to the pet before the previous (Either the primary rabies vaccine or another rabies booster) rabies vaccination expired C. Rabies Immunization: (1) Please refer to "http://www.aphis.usda.gov/regulations/vs/iregs/animals/

(Enter the destination country you will be residing in under "Search APHIS") (2) Pets less than three months of age coming from the United States may not always require the rabies vaccination IF: (a) These pets have pre-authorization from the EU member state BEFORE entering the country (3) Any one-year dose or three-year dose rabies vaccine is valid as long as it is a U.S. approved vaccine, and was administered according to the manufacturer's specifications (for instance, a vaccine labeled for 1 year use cannot be utilized as a 3-year vaccine) (4) A valid rabies vaccine must occur after the animal has been microchipped to be valid for entry into an EU member state (5) At least 21 days must have elapsed between the completion of the primary rabies vaccination (as specified above) and before the pet enters the EU member state.(a) However, if the animal received a valid rabies booster - - 21 days does not have to elapse before travel. (6) If a pet has received a non-ISO compliant microchip and then received a valid rabies vaccination with 21 days having elapsed since that vaccination and entering the EU member state: they: (a) Do not require implantation of another ISO compatible microchip, but are required to carry with them a microchip reader/wand capable of reading the non-ISO compatible microchip implanted in their pet (b) Do not require administration of another rabies vaccination before traveling as long as the rabies vaccination received is still valid (c) Can have an ISO compatible microchip implanted in their pet so they do not have to carry the reader/wand with them 1. If they get this ISO compatible microchip implanted, they do not have to receive another rabies vaccination following this second microchip implantation. They are only required to document both chips on the required forms with their implantation dates D. Documentation (Verify the correct

required documentation with your local USDA office): (1) APHIS Form 7001 (Nov 2010) Acquired from any Army veterinarian, local veterinarian or USDA office (a) Valid for only 30 days after issuance 1. Timeframe the form is valid can be shortened per the requirements of the Airline the service member is traveling on (b) Requires certification by a USDA Accredited Veterinarian, Army Veterinarian, or GS 0701 Veterinarian before travel (c) This form is not required to enter the European Union (EU)1. However, it's highly recommended that service members acquire this form before travel from their on-base Army veterinarian to preclude the following: a. If a member flies on a commercial carrier they may be required to have this form b. If a member is scheduled to fly Patriot Express and somehow has to divert to a commercial carrier, having this form in advance alleviates last minute costs ($200) or delays 2. This form is not required to travel on Patriot Express (2) EU Non-Commercial Pet Form (Bilingual Health Certificate) (a) For "Pets Dog, Cats, and Ferrets" destined to Germany, see link Under Pets heading Pets Dog, Cats, and Ferrets) Please refer to "http://www.aphis.usda.gov/regulations/vs/iregs/animals/ (Enter the destination country you will be residing in under "Search APHIS") (b) Valid for 10 days to enter European Union and 4 months once inside the European Union 1. Timeframe the form is valid can be shortened per the requirements of the Airline the service member is traveling on (c) Requires certification by a USDA Accredited Veterinarian, Army Veterinarian, or GS 0701 Veterinarian before travel E. Helpful Hints: (1) As soon as you know you are going to travel and no later than 22 days prior to travel, get your pet microchipped first and then vaccinated for rabies if you have not already done so. Remember: A VALID RABIES VACCINE MUST OCCUR AFTER THE MICROCHIP IS IMPLANTED

(a) This will ensure the required 21 days has elapsed post vaccination prior to travel (2) When completing your required documentation (before you mail the forms or travel to your local USDA office to get them certified, if not using your on base Army veterinarian), fax or over-night ship them to your local USDA office to ensure they are filled out correctly before traveling to their office

(a) This will ensure you do not waste travel time or postage only to have to redo the paperwork

(3) Many overseas bases have a full-time veterinarian on staff as well as commercial veterinarians available on the economy (a) Most bases require pets to be registered with the base veterinarian after arrival. Check with base veterinarian for details(4) The pet cage or carrier (See carrier shipping rules for correct cage dimensions based on pet size) used for shipping the pet must be labeled with the owner's name, pet's name, owners (or nominated persons) address, contact number and contact number at the final destination.(5) Since 21 Apr 2001, Germany has had a law in place prohibiting importation of certain dog breeds regarded as dangerous. For more information consult http://www1.zoll.de/english_version/a0_passenger_traffic/e0_vub/h0_dangerous_dogs/index.html. You may also contact the base veterinarian at your destination.F. Unauthorized Pets:The import of Pit bull Terriers, American Staffordshire Terriers, Staffordshire Bull Terriers and their crossbreeding is prohibited. G. Fees: (1) The USDA form certification fee (approximately $70+, plus any shipping and handling if by mail) (2) Transporting pets to and from the PCS destination is at the member's expense and cost is based on the size of the pet being transported. Connecting flights may have fees in addition to AMC fees from BWI. (3) EFFECTIVE 1 February 2013, the fee for the import examination is 55 Euro. (4) All pet requirements are at the member's expense

7. PRIVATELY OWNED FIREARMS (POF)

Note: Privately owned firearms are strictly prohibited. Except the owner holds a German weapons card. Which is very rare. Before allowing any shipper to ship their firearms please contact the destination CPPSO.Note: Firearms issued to General or Flag officers, are not considered POFs. Code J is the preferred code of service. Transportation officers should ensure the destination (C) PPSO or the USTRANSCOM Europe representative is contacted to assist with tracking the movement. Direct communicate between origin and destination offices is Paramount to a successful entry.

To avoid the possibility of German criminal prosecution for unauthorized possession of weapons or the possibility of punishment under the Uniform Code of Military Justice, privately owned firearms will not be included in household goods/unaccompanied baggage shipments, hand carried, or transported in luggage to Germany unless the owner possesses a valid German Weapons Possession Card (Waffenbesitzkarte) specifically listing those firearms. Antique POFs manufactured during or before 1898, and single-shot black powder POFs are not required to be registered with the German authorities, and may be shipped or transported in luggage to Germany. Headquarters, USAREUR and German Federal Ministry of the Interior are developing procedures to enable military and civilian personnel assigned to Germany and their dependents to obtain these cards through the USAREUR Central Registry. Members who have in their possession Waffenbesitzkarte from a previous assignment in Germany are authorized to ship POFs, as long as the Waffenbesitzkarte covering the POFs to be shipped has not expired. Copy of the Waffenbesitzkarte must accompany shipment. Update: German Zoll (Customs)Weapons and ammunition.The German Weapons Act covers firearms, similarly classified items, certain portable items, and ammunition (Annex 1 Part 1 Weapons Act).The transfer or carriage of weapons from a non-EU countryTransfer means the transportation of a weapon or ammunition across a border with the intention of leaving it abroad or changing its ownership (through sale, for example).NoteThe transfer of firearms and ammunition from a non-EU country always requires prior authorization.Carriage means bringing firearms and ammunition temporarily across a border with the intention of using them abroad (in a competition, for example) but without relinquishing possession of them.NoteYou always need the appropriate license if you wish to bring firearms or ammunition into Germany from a non-EU country.Such a license must have been issued by the competent German weapons authority prior to the transfer or carriage of the items into Germany. The requirement also applies to any weapons that you may have had with you when exiting Germany.Should you intend to transfer or take firearms and ammunition to Germany you would be well advised to inquire about the current regulations in good time ahead of your journey.Prohibited weapons and ammunitionYou should be aware of the fact that the movement or transfer into Germany of weapons that are freely available abroad is only permitted under certain conditions or may be banned. The illegal transfer or movement of firearms and ammunition into Germany is punishable with imprisonment for up to five years, and, in particularly serious cases, for up to ten years.Weapons and ammunition banned under Annex 2 Part 1 of the Weapons Act include:fully automatic firearms (submachine guns and automatic rifles)butterfly knives, fist knives, flick knivessteel rods, clubs, and knuckledustersstar-shaped discs (throwing stars) unless designed solely for decoration, that is, not presenting any hazard of inflicting injurychoking weapons (known as nunchakus or soft nunchakus)precision catapults, and associated wrist supports and similar devicesreplacement magazines intended for firearms and magazine boxes for replacement magazines:for centrefire ammunition handguns capable

of accepting more than 20 cartridges of the smallest caliber that the manufacturer specifies can be used for its intended purposefor long firearms for centrefire ammunition, which can hold more than 10 cartridges of the smallest caliber that can be used as intended according to the manufacturer's specifications; a replacement magazine that can be used in both short firearms and long firearms is considered to be a magazine for short firearms unless the owner also has a permit to possess a long firearm in which the magazine can be usedTransfer or carriage not requiring an authorizationAdults may transfer or carry certain weapons and ammunition into Germany without an authorization.For example, the transfer or carriage of the following without authorization is permitted:Compressed air weapons, spring-operated weapons, and weapons, such as air rifles for sale to the general public, the projectiles of which are propelled by a cold propellant gas, as well as soft-air and paintball weapons which impart no more than 7.5 joules to the projectile and which bear the approval mark of an "F" in a pentagonGuns firing blank or irritant cartridges, or signal guns which conform to an approved type pursuant to Section 8 of the Test Firing Act and which - including their ammunition - bear the "PTB" mark or which comply with the legislation of another EU Member State which it has notified to the European Commission in accordance with Art. 4 Para. 2 of the Commission Implementing Directive (EU) 2019/69 of 16 January 2019 laying down technical specifications for alarm and signal weapons unter Council Directive 91/477/EEC on control of the acquisition and possession of weapons as a measure implementing that DirectiveCrossbowsThe involvement of the Customs AdministrationWhile the issue of permits or authorizations under firearms legislation falls within the area of competence of municipal public affairs offices, district administrations, or the district police authorities, the customs administration monitors the movement of goods on the external borders of the European Union and domestically by means of mobile inspections pursuant to Section 33 of the Weapons Act. When transferring or carrying firearms and ammunition into or through Germany they must always be declared to the customs office, and presented as necessary. The non-observance of firearms legislation is always followed by the initiation of a criminal justice procedure and the confiscation of the imported objects, firearms, or ammunition.Further InformationThe relevant administrative authorities (city or municipal public affairs office, district administration) can answer any questions you may have relating to firearms licenses or the transfer or carriage of firearms and ammunition. For individuals who are not resident in Germany the competent authority for the issue of the authorization to transfer or import firearms is:The authority (city or municipal public affairs office, district administration) in whose district the individual(s) concerned will be, or intend to be staying (for example, the district where the hunt or event will take place), orinsofar as this - in the case of transit, for example - cannot be precisely specified, in the district in which the border is crossed

8. PRIVATELY OWNED VEHICLES (POVs)

DOD SPONSORED SHIPMENTS NOTE: IT IS NOT POSSIBLE TO INCLUDE ALL GERMANY POV RESTRICTIONS IN THE PPCIG. For detailed POV guidelines, DOD Personnel PCSing to Germany should inquire with their unit or sponsor, and review Army in Europe, Regulation 190-1, (Navy) CNE-C6F Instruction 11240.6W, or (USAF) USAFE Instruction 31-202, for detailed guidelines on shipping POVs. Particularly, if shipping diesel fueled POVsUSAREUR CERTIFICATE OF LICENSE: In order to register and operate a POV in Germany, a USAREUR certificate of license must be obtained which requires passing a very stringent test on European driving rules, requirements, and road signs. An individual must be in possession of a valid U.S. state license, or a valid license from another country, as a prerequisite for taking the test. Unit issued military operator's permits also meet the requirement for obtaining a USAREUR certificate of license, however, these permits can only be issued to service members and civilian employees. Family members cannot be issued a military operator's permit, therefore, family members not in possession of a valid license from the USA or another country, cannot be issued a USAREUR certificate of license. Any additions of different classes, such as a motorcycle endorsement must first be authorized on the valid state or country license. USAREUR is no longer permitted to issue learner's permits, or instructor's permits; and parents are not allowed to "teach" family members how to drive. Individuals arriving in Germany without a valid license desiring to obtain a USAREUR certificate of license must first complete requisite training and licensing in CONUS, or complete local German training and licensing requirements prior to being issued a USAREUR certificate of license. Cost of local training is expensive.NOTE IMPORTANT DEPARTMENT OF STATE SPONSORED POV SHIPMENTS ONLY: Germany. Effective 01 JAN 2023, U.S.- and Japanese-manufactured vehicle imports must operate with fobs no less than 400 MHz (megahertz) to be registered in Germany. (U.S. and Japanese vehicles operate with fobs in the 315 MHz range.) Non-compliant vehicle imports that arrived in Germany prior to 31 DEC 2022 can be registered under two conditions. First, the vehicle registration cannot be transferred unless the POV is retrofitted to an appropriate frequency. Second, the vehicle must be exported before 31 DEC 2025 if it is not retrofitted to an appropriate frequency.

a. POVs (includes data on prohibited vehicles, colors, etc.)

The inland pickup and delivery of POV in Germany (program applies to personnel assigned to locations in the Federal Republic of Germany, Giessen and points south). Berlin and points north of Giessen are not included in this program. (1) Military Communities Served: Each Area Support Group (ASG) Vehicle Processing Center (VPC) location and telephone numbers are provided in PPCIG, VOL II, Overseas, Appendix IV, Out loading Port for Privately Owned Vehicles. (2) Entitlement: POV larger than 20 measurement tons (800 cubic feet) will incur excess cost unless an exception is granted for medical need (i.e., handicapped family members)or when joint spouse military couples elect to combine their 20 MT entitlement into one 40 MT entitlement. (3). Window Tinting: IAW with German Law, vehicles with after market window tinting on the windshield, front driver's side, and front passenger side window are not authorized. Vehicles that are being shipped in connection with a new assignment to USAREUR must have the film removed before shipping. Soldiers or civilians that have shipped their vehicles without meeting the current German law must have the film removed before going through USAREUR inspection station. In addition, several vehicles are being customized by replacing factory glass with dark tinted glass imbedded in the glass by the manufacture. This may also be an issue. The US Government standard for factory tinted glass is 30%, while the German tint standard is about 10% from the factory manufacture; however the German government will allow US vehicles with the U.S. Federal standards. This is not to be confused with individual State standards that in many cases are darker than the U.S. Federal

Standards. For more information please contact the Customer Service Office, USAREUR Registry of Motor Vehicles at DSN: 542-2021/2022/2023 or CIV: 49-611-143-542-2021/2022/2023. (CH)(4) Inbound shipments (to Germany). To order, owner needs to: (a) Obtain USAREUR POV driver's license.(See b below) (b) Obtain POV insurance. (c) Obtain verification that POV has arrived at local VPC. 1. Post card from local VPC. 2. Name on weekly arrival list posted at local TMO/ITO (list provided by contractor). 3. Copy of FAX listing via ITO for direct inquires. (d) Bring copy of PCS orders, driver's license, DD Form 788, USAREUR Registration ID and proof of insurance to contractor's office. (e) Ensure any damage or missing items are noted on DD FORM 788. (f) Show at scheduled time to receive POV. (g) Proceed to POV safety inspection station. (h) Proceed to vehicle registration. (5) US State license plates are not required on POVs arriving in Germany since USAREUR plates are issued when the member picks up the POV. As some states provide a partial refund for plates turned-in prior to expiration date, members have the option to remove the plates when the POV is turned-in to the port for shipment. It is a member's responsibility to remove the plates. A claim for lost plates will not be authorized. (6) POV Tracing: Log into the website www.PCSMyPOV.com, or contact the destination Vehicle Processing Center(VPC) toll free at 0800-02277447. (7) SEPARTEES RETIREES ONLY- Germany. b. MOTOR CYCLES/MOPEDS

(1) Air Force personnel: must have a valid state of country license with a motorcycle endorsement, and a course completion card from the Motorcycle Safety Foundation in order to be licensed to operate a motorcycle in Germany. Persons who do not have a valid state or country motorcycle license will be required to be licensed at a German driving school at personal expense (approximate cost $1400.00).(2) Army personnel: must have a valid state or country license with a motorcycle endorsement, and are required to attend a motorcycle orientation course, take a 30-question written test, and then attend a motorcycle proficiency course in order to be licensed to operate a motorcycle in Europe. There is no cost for completion of these requirements. Persons who do not have a valid state or country motorcycle license will be required to be licensed at a German driving school (at personal expense, see approximate cost in (1) above), or obtain a state motorcycle license before being licensed to operate a motorcycle in Germany.(3) Accompanied personnel: Two POVs and two motorized recreational POVs, or one motorized and one non-motorized recreational vehicle are permitted to be registered in Germany. (4) Unaccompanied personnel and single parent: One POV and one motorized or non-motorized recreational POV are permitted to be registered in Germany.(5) Non Temp Storage(NTS): Customers must be briefed prior to shipment of a motorcycle as to potential costs and the option to place their motorcycle in NTS.(6) Alteration/Motorcycles: Motorcycles will be rejected when the motorcycle has been altered or modified to change the center of gravity or wheel base from what was established by the manufacturer.NOTE: A recreational vehicle is defined as a POV normally used only during certain seasons (for example, motorcycle, camper, motor home, and trailer).

c. GASOLINE/CATALYTIC CONVERTERS

d. INSURANCE AND SAFETY REQUIREMENTS

Service members should be Informed of the higher insurance rate for Privately Owned Vehicles (POV) in Germany, before shipping their POVs. Only insurance companies approved by the German Government are authorized to issue a 29a (proof of German Minimum third party liability insurance) to register a POV in the U.S. Forces system in Germany. There are two insurance systems service members can choose from in Germany. NATO Tariff and German Tariff. Several companies issue policies in the United States for registration of POVs in Germany. The differences in the systems are the following.(1) NATO Tariff: Annual tariff rates are based on age and marital status (all payments can be made in US currency). The most expensive category personnel are individuals under 25 years of age and single.(2) German Tariff: Rates are based on POV HP/PS/or KW, location where POV is registered and individual's driving record (substantiated by letter from service member's home insurance office in U.S. only). Payment in the local German currency is required. e. SAFETY REQUIREMENTS: A POV shipped to Germany must also pass USAREUR safety standards before it can be registered for driving in Germany. The cost of repair work and parts are very expensive in Germany and should be done in CONUS before POV is delivered to the Vehicle Processing Center. Counselors need to stress to each member on orders to Germany. It is the member's responsibility to ensure POV meets USAREUR safety standards. This is best done before making delivery to the POE. The most common causes of POV inspection failures in Germany are:(1) Tires: All tires must have at least 1.6mm tread over the complete tire surface. No regrooved tires are allowed; snow tires (if on vehicle) must be on the drive wheels; and there can be no mixing of radial and conventional tires.(2) Exhaust System: No rusted out or leaking exhaust system components allowed. Exhaust systems with cutouts, fiberglass packed, or straight through exhaust systems are not allowed. (3) Brakes: A mismatch of 20 percent or more between wheels, as measured on the brake wheel drag machine. Hand brake must hold vehicle on incline. (4) Wheel Alignment: Wheels must be able to be turned to full right or full left without jamming or rubbing any part of vehicle; tie rod steering arm assemblies must not be damaged or worn.(5) Lights: All installed lights must be operational.(6) Exterior Condition: Missing fenders, broken windows, extensive body damage, deterioration, broken springs, or oil leaks are not allowed. Foreign manufactured vehicle frames are usually an integral part of the body; therefore, rust damage is critical and will necessitate costly reconstructionto pass the inspection.(7) Horns: POVs must be equipped with a horn and it must be operational.(8) Modifications: Any modifications changing the vehicle body style (as to engine not being covered), altered bumpers which are not to manufacturers specifications, missing or damaged running boards, or tires protruding beyond the fender wells are not allowed. Dark tinted glass on the front driver's and passengers doors or on the front windshield that comes down from the top of the windshield more than 4 inches that makes it impossible to see the driver and occupants is prohibited by German law.

a. Germany has different rules and regulations governing the use of the Frequency Spectrum within their borders. As visitors in this country, we are subject to their rules and regulations. Violations of these rules and regulations governing the use of the Frequency Spectrum in Germany, can result in fines, confiscation of equipment, and imprisonment.b. The frequency band equipment is authorized to operate if determined by the nations Spectrum Allocation Tables(SAT). The Spectrum Allocation Table in Germany is very different from the US (i.e., U.S. cordless phones operate in the German cellular phone band but will cause local interference with the German cellular network).c. In the US the FCC verifies all transmitters (legal) sold adhere to the US Spectrum Allocation Tables and are marked with FCC numbers (i.e., FCC: 1234567). Transmitters with the FCC numbers are not legal for use in Germany.d. The following U.S. manufactured items are NOT authorized for use in Germany: CB Radios, cellular phones, cordless phones, baby monitors, wireless intercoms, radio frequency remotes, radio controlled vehicles, and radio frequency wireless LANs.NOTE: Items above can be purchased in Germany that adhere to the German Spectrum Allocation Tables.e. 8. PRIVATELY OWNED VEHICLES (POVs)

NON-NATO PERSONNEL ONLY:1.Ruling of the SOFA between the Kingdom of Spain and the United States stipulates members of the US Military Forces and civilian employees ordered to Spain for duty, are authorized to import and retain one POV of non- Spanish manufacture free of all types of Spanish duties. The vehicle must be for the exclusive use of the military member, civilian employee, or a dependent and must arrive in Spain within 6 months, repeat, 6 months from the initial date of arrival of the military member or civilian employee. Members of the force and civilian component can neither import nor register a second non-Spanish manufactured POV. A second POV, shipped commercially, will be impounded at the POD and all storage and related handling fees, including reshipment will be at member's expense. Military Members are solely responsible for all Spanish duties on POVs shipped commercially at personal expense. Suggest all personnel validate Spanish registration requirements before affecting a second vehicle at personal expense. If a second POV arrives via OPTLIFT, it will be held aboard the station pending reshipment via OPTLIFT to CONUS. In addition to this imported vehicle, the military member or civilian employee also may own and maintain one Spanish-manufactured vehicle purchased in Spain in accordance with special arrangements and free of the Spanish value added tax. Dependents over the age of 18 may own and maintain one vehicle of Spanish manufacture.2.POVs/motorcycles are picked up at the vehicle-processing center in the city of Rota and members should have a current registration and must have

metal license plates. If the registration has expired or the member doesnt have metal plates, the vehicle can still be registered however, it will take ten to twelve days to complete the process for Spanish registration and license plates. Normally it takes 2 to 4 days to complete the Spanish registration process if the member has a current registration and metal plates. It is recommended that the registration be good for at least 90 days from the date the vehicle is turned in for shipment at the CONUS or overseas VPC. Members must have a POV/motorcycle registration, even if it is expired, in order to register the vehicle with Spanish traffic authorities.3.Bumper stickers, decals on windows and windshields must be removed before members can pick up the vehicle. It is suggested this be done prior to turning in the POV for shipment.4.Members must possess a valid US or foreign drivers license and members arriving in Spain must successfully complete a Spanish drivers test and obtain a Spanish drivers license. Spanish license processing takes approximately 10 working days. Members can drive during this period with either an international license, or a Spanish translation of their US or foreign drivers license obtained from the Security Department, NAVSTA Rota, Spain.5.Members who are not ordered to Spain for duty are not eligible for customs clearance of their POV, under the rules governing members of the US Forces. Members who ship their POV to Spain on PCS orders which assigned them to another country, or on retirement orders with a home of selection other than Spain, and with the intent of picking up the vehicle at the Spanish port and driving it to their final destination, must be advised: (A)Customs clearance cannot be effected by Commanding Officer, NAVSTA Rota, Spain.(B) The POV must be properly manifested and shipped for discharge at the designated commercial port of Algeciras, Cadiz, Spain. Preferably Cadiz inasmuch as the port is 35 miles from the Naval Station and Algeciras is 90 miles south.(C) Commercial customs clearance and all costs involved are the responsibility of the member, and customs clearance can take a week or more.(D) All documents for the vehicle must be current and after effecting clearance, the POV must be picked up by the owner.(E) Shipping a POV contrary to above information will result in personal delay, expenditure, and frustration.PERSONNEL ASSIGNED TO NATO ONLY1. In Accordance with the "Stationing Agreement" Between NATO (SHAPE) and the Kingdom of Spain singed 28 February 2000 and the "Exchange of Letters". NATO personnel may own at any time one duty-free vehicle if unaccompanied or, if accompanied by dependents, two duty free vehicles. 2. Motorcycles: "Personnel entitled to a tax-free motor carshall, in addition be authorized to import or purchase a motorcycle toinclude a motorcycle/bicycle, motor scooter, or similar 2/3 wheel/skidmachine free of duties and taxes. Resale or replacement of such vehiclesshall be governed by the same provisions specified on motor vehicles.*POV/MOTORCYCLES (Regardless NATO or other, only 1 vehicle may be shipped at government expense)

a. POVs (includes data on prohibited vehicles, colors, etc.)

“No restrictions identified.”

b. MOTOR CYCLES/MOPEDS

A non-Spanish manufactured motorcycle/moped/motorized bike with a 50cc* engine or larger is considered a POV and must be shipped to Spain via the VPC and registered as any other POV. Do not ship as HHGs. ATVs and Motor cross vehicles, provided they remain on base and off-road, are not considered POVs and may be imported into Spain as HHGs. Possession of these types of vehicles for off-road use will not count against the limitation of tax-free vehicles members may import and own.2.Spanish Traffic Regulations requires proof of two years experience before issuing a full motorcycle drivers license. (CLASS A license allows the holder to operate motorcycles regardless of piston displacement, up to a maximum weight of 350 kilograms/771.62 LBS.) Proof of two years experience can be provided if the current stateside or foreign drivers license has a motorcycle

endorsement and is at least two years old. If the current stateside or foreign drivers license has a motorcycle endorsement but is under two years old due to renewal, documentation from a previous motor vehicle department can be presented to prove the member has accumulated the required two years of experience. If two years of holding a valid drivers license with a motorcycle endorsement cannot be proven the CLASS A license will not be issued. Failure to obtain the Spanish drivers license with the required motorcycle endorsement will result in termination of the registration process. At this time arrangements will have to be made for the exportation of the motorcycle, which may be determined to be paid by the member. * MOPEDS (with less than 50cc engine capacity): The Spanish Ministry of Industry prohibits registration/operation of non-Spanish manufactured mopeds with less than 50cc engine capacity. They cannot be imported into the country as HHG or as POV via the VPC. Failure to comply with above information will result in hardship on member, personal expenditures, and severely strain Spanish customs/US Forces relations.

Health clearance will be given at the port of entry. There is no quarantine period upon entry into Greece. Personnel should be counseled that they must make arrangements for boarding their pets upon arrival, as most hotels do not allow pets. The Navy Gateway Inns and Suites on base has limited pet-friendly rooms. Greece has a limited amount of boarding kennels available, so booking must be made in advance. NSA Souda Bay does not have a veterinary clinic, but there are several Greek veterinary clinics near the installation. Birds are prohibited.

7. PRIVATELY OWNED FIREARMS (POF)

"Importation is PROHIBITED."

a. HAND GUNS

Importation of handguns is strictly prohibited. Personnel should store their privately owned firearms at origin or dispose of accordingly. DO NOT SHIP IN HHGS.

b. RIFLES/SHOT GUNS

Greek law prohibits importation of rifles of any kind. Personnel should store their privately owned firearms at origin or dispose of accordingly

c. TOY RELATED GUNS

No restrictions identified.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

"Importation is PROHIBITED."

8. PRIVATELY OWNED VEHICLES (POVs)

IMPORTANT NOTE: Member must possess driver's license, "paper" vehicle title, vehicle registration and insurance valid for Greece at the time the POV arrives at the port of entry. If any of these documents are not available, member's vehicle is held at the port. Greek customs does not accept electronic titles.TO EXPEDITE CUSTOMS PROCESS MEMBER SHOULD E-MAIL IN ADVANCE VEHICLE INSPECTION FORM (DD Form 788), ORDERS, TITLE AND REGISTRATION TO soudappso@us.navy.milLIEN: If there is still a lien on the vehicle, member must request bank issue a paper title, prior to departure from the old duty station.

a. POVs (includes data on prohibited vehicles, colors, etc.)

DOD military and civilian members assigned to Greece that serve an accompanied tour are authorized to import free of duty taxes two (2) Vehicles, including motorcycles, for personal and/or dependent's use. Greece considers motorcycles as POVs. Members/Employees can ONLY import free of duty taxes 2 vehicles. DO NOT SHIP 2 VEHICLES IN ADDITION TO A MOTORCYCLE!

Members that serve an unaccompanied tour are limited to one (1) duty free vehicle importation (car OR motorcycle) Note: If shipping a car, DO NOT SHIP A MOTORCYCLE IN THE HHGs shipment. A POV shipped at owner’s expense must clear customs at the port of entry. Customs clearance must be arranged through a customs broker and owner has to pay all associated fees. The fee is approximately 500 US dollars. For more information and assistance check with FLCSI Souda Bay Customs Control Office. There is no host country vehicle licensing requirements. Any item listed on the Greek customs booklet issued by the Greek Customs authorities at the time of importation of the vehicle, must remain in the vehicle or be produced at the time of sale or re-exportation from the country. For POVs shipped to NSA Souda Bay Crete (LD9), add 10 days to the transit time for Greece listed in the Global POV Contract. POVs are trans-shipped from the port of entry Piraeus (LD1) to the port of Souda Bay (LD9) on the island of Crete. Electric Vehicles/Tesla: For Tesla models with US specifications earlier than 2012 there is not capability for charging with the exception of some models. There are charging stations at the gas stations and large supermarkets for newer models of Tesla. Before sending a Tesla, members can contact Tesla in Greece at email: athens-service@tesla.com to inquire about the charging capability of their vehicle.

Members should not be encouraged to ship an EV in Greece because it would create financial hardship for them. There are no spare parts available for electric vehicles with US specifications in Greece. Parts have to be ordered and take up to 4 months to arrive. There is not a qualified service center on the island so the vehicles have to be transported to mainland Greece.

b. MOTOR CYCLES/MOPEDS

The Greek Government defines all motorcycles, mopeds, mini bikes as POVs. Motorcycles can be shipped as POVs or may be included in HHGs shipments. Members must possess a valid driver's license, vehicle title; permission to ship letter from Lienholder (if applicable), current or previous vehicle registration and insurance valid for Greece at the time the motorcycle arrives.Members that serve an unaccompanied tour are NOT authorized to import two duty free vehicles and should not ship a motorcycle in addition to a car. Greek Customs authorities will confiscate the second vehicle 40 days after the importation, unless members ship the vehicle out of the country at their own expense or register one of the vehicles with the Greek Motor Vehicle Department and pay import taxes.

c. GASOLINE/CATALYTIC CONVERTERS

Members are not required to remove catalytic converters prior to shipment. Unleaded fuel is available at local service stations.

d. INSURANCE AND SAFETY REQUIREMENTS

Members must have proof of insurance valid in Greece at the time the POV arrives at the port of entry. Current minimum insurance coverage is required for vehicles. (a) 1.300.000.00 Euros for property damage and 1.300.000.00 Euros for bodily injury. Local auto insurance is relatively inexpensive. US Forces regulations require POVs over 4 years old to pass an on-base vehicle safety inspection before an NSA Souda Bay base access pass is issued. Greek law requires each automobile to be equipped with a first aid kit, a safety triangle, and a fire extinguisher.

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

"Shipments for retirees, separatees or family members relocating to Greece can be processed in DPS and the destination GBLOC is UANA". a. Personnel contemplating retirement, separation or relocating family members to Greece should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the government of Greece. Personal Property shipments incident to retirement, separation or designated relocation for family members, must be

consigned to the member at the selected destination address or when unknown, consigned to the address of the destination moving agent facility. b. All shipment containers and documents must be marked as RETIREMENT SHIPMENT, SEPARATION SHIPMENT or DESIGNATED RELOCATION SHIPMENT. Preferably consign HHGs shipments as Code 4 and/or Unaccompanied Baggage (UB) as Code J.c. Retirees and/or separatees are not authorized U.S. Government arranged customs clearance and duty-free importation of personal property or POVs into Greece. Customs clearance must be personally arranged by the separatee/retiree through a licensed Greek customs broker.d. Retired and/or Separated Uniformed Service members who elect to reside in Greece as Ordinary Residents upon retirement or separation from service, MUST obtain a Greek resident visa from a Greek Embassy or Consulate. The resident visa must be obtained prior to arrival in Greece and must be stamped in the member's and/or family member's passports, if accompanied.e. If a visa is not obtained prior to arrival in Greece, member cannot apply for residency permit in country. A residency permit must be obtained prior to clearance and release of personal property shipments. Personal Property shipments should be placed in Non-temporary Storage (NTS) at origin until residency permit is obtained by member. Members could be responsible for excess storage costs of NTS, if storage entitlement exceeds Service guidance.f. Imported personal property inventory must be translated to Greek language. The PPSO does not provide translation services. Members must obtain commercial translation services prior to visiting Greek Customs Office. Shipments shipped via DPM must be personally cleared by the member. The DD Form 1299, Application for Shipment and/or Storage of Personal Property must include the following statement: Member counseled clearance through Greek Customs and any related duties, fees levied, are personal responsibilities. Property will not be released until fees are paid and customs requirements completed.h. Additionally, HHG/UB shipments are immediately impounded by Greek customs authorities pending the property owner's arrival. i. In the interim, the Greek Government automatically assesses handling and storage charges based on the weight and duration of demurrage of the shipment. Assessed charges can be extremely expensive if not properly coordinated with a broker. Property owners are fully responsible for payment of all Greek customs related handling and storage fees, NOT the U.S. government. j. Any government authorized storage in transit of personal property shipments at U.S. Government expense cannot commence until the property owner has personally arranged for the release of his/her property from the possession of the Greek customs authorities. k. POVs imported into Greece in conjunction with retirement or separation from service are subject to extremely high import duties, which can be as much as 200 percent of the assessed value by Greek customs authorities (i.e., POV value is assessed at $10,000; import duties would be $20,000). l. Retirees/Separatees are advised to plan accordingly for potential expenses and are strongly encouraged to contact the nearest Greek Embassy/Consulate to obtain the latest information and any required documents related to the importation of personal property/POVs into Greece prior to effecting such shipments.

m. DESIGNATED RELOCATION FAMILY MEMBERS: Family members relocating to Greece as a designated relocation area are subject to the same Greek customs restrictions as that of retirees and separatees.

AFTER SUBMISSION OF REQUIRED DOCUMENTS TO DOS, PLACE THE DPS SHIPMENT RECORD IN A "CANCELLED" STATUS.OTHER: All Navy, Marine Corps, Coast Guard, Army, and DOD civilian personnel being assigned to Guam should be informed that: (1) If the shipment does not arrive by the RDD, the service member should be counseled to contact the Navy Housing and Family Service Center for assistance in getting necessary furniture as stated below. Additionally, advise the member that if the shipment missed the RDD they can file a inconvenience Claim against the carrier. (2) Household Appliances: Guam is a full JTR weight allowance area for the command-sponsored service members assigned to Guam. However, Government-owned appliances, to include refrigerators, stoves, washers, dryers, and central air conditioning units are provided automatically for Government quarters and upon request (command-sponsored members) for off-base housing. The Housing Department will not remove the Government-owned appliances already in Government quarters. Shipment of the appliances listed above to Guam is neither necessary nor recommended. (3) All other furniture support is limited to a maximum period of 90 days unless HHGs are not received within 90 days through no fault of the service member. (4) Members should be advised to contact their assigned sponsors before making any final arrangements for shipment of HHGs to Guam. Depending on the size of the family quarters to be assigned, the Housing Office has advised that a standard housing unit has no more than an 8-foot high ceiling with room sizes of about 10 feet by 12 feet, 12 feet by 14 feet, and 8 feet by 10 feet. Due to the limited spaces of the Government housing units, members should be advised to ship only furniture that can be accommodated within the unit spaces.

a. WEIGHT RESTRICTIONS

For All Personnel: (1) Accompanied tour: Full JTR weight allowance. (2) Unaccompanied tour: Guam is not a weight restricted area. However, there are Housing requirements IAW the NAVADMIN policies regarding BAH/OHA. All E4s and below are required to occupy barracks at 100%. E4s over 4 years regardless of years served are required to occupy barracks unless accompanied with dependant. In light of this existing requirement, E4s should be advised by the Transportation office at origin not to ship any HHG that cannot fit into a barracks. Service member should be advised to utilize NTS in lieu of shipping HHG to Guam. If service member elects to ship their HHG in lieu of NTS and they do not receive OHA they will be liable for all storage fees after the govt paid temp storage has expired (90-180 days).(CH 03-OCT-2014 SDDC-PAC RB)

d. UNACCOMPANIED BAGGAGE

All UB shipments destined for Guam should be shipped Code J with DPM/AMC as an alternate. DO NOT use DPM Commercial International Air.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Customs forms are not required. Guam is a US Territory. However, Guam is not under US Customs jurisdiction. In order to clear personal property shipments through the Guam Port Authority, a legible detailed copy of the inventory with advance shipping documents is required by Government of Guam Customs.

3. CONSUMABLES

.

a. ALCOHOLIC BEVERAGES

Military members, their dependents of legal age (21 years or older) and Department of Defense (DOD) civilians are authorized to import one(1) gallon of alcoholic beverages into Guam. Importation (hand carried or personally procured) of more than one gallon requires a license from Guam's Alcoholic Beverage Control Board. There are no waivers or exceptions for private collections of DoD personnel (military or civilian). Violators of Guam's importation restrictions on alcoholic beverages can be found guilty of a misdemeanor and fined not more than $10,000 USD. (TCJ9-OH, MO-8/17/20). There are three limited exceptions to this prohibition: (1) A religious organization may import or receive into Guam sacramental wine for use in the religious rites of such religious organization without license; (2) A Consul General, Consul or Vice Consul of a foreign country may import or receive into Guam for private use and consumption; (3) A person arriving in Guam may bring with them not more than once every sixty(60) days for private use and not for sale, alcoholic beverages not exceeding one(1) gallon in quantity without a license.

b. CIGARETTES/TOBACCO PRODUCTS

Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

6. PETS/QUARANTINE

Guam is rabies-free. Please be aware that all live animals coming to Guam, regardless of category, REQUIRE AN ENTRY PERMIT. Owners are responsible to ensure that all documents are in order, all requirements are met, and most importantly, copies are provided (facsimile copies and scanned copies are accepted) to Department of Agriculture in advance with the required specifications and veterinarian's signature. All original documents such as the latest Rabies Certificate and Immunization Record, and the original Health Certificate (both with the valid signature of the veterinarian) must be retained and attached to the kennel.Title 10 Guam Code Annotated

Chapter 34 Article 3 states that these animals are required to complete a 120-day confinement in an approved Commercial Quarantine Facility. It is vital to understand that bringing a pet to Guam without a valid Entry Permit can result in imprisonment of the pet owner and a fine not to exceed $1,000.. It is recommended that pets that are very old, very young (not less than 9 weeks if coming from exempt areas), chronically ill or debilitated, or pets that experience difficulty in hot climates, not be imported into Guam. Pregnant animals past 45 days of gestation, are prohibited entry into quarantine.Other vertebrates, such as skunks, wolves, raccoons, ferrets, etc. are generally prohibited entry into Guam.Step by step process and permits can be found on The Department of Agriculture's website, along with more detailed information regarding applications for entry, required vaccinations, quarantine, quarantine facilities and reservations, post arrival requirements, pet licenses, exemptions, service animals and affidavits for export at www.doag.guam.gov. To schedule for clearance at the port of entry contact Guam Customs and Quarantine. There is a fee for this process. The contact telephone number is 671-642-8071/2.(CH USTC Pacific J9, 8FEB24, TF)Guam - Pet information***For the most current information, contact the VTF at bollervtf@gmail.com or andersenvtfgu@gmail.com prior to making any travel arrangements. In addition, refer to Guam specific requirements at https://cqa.guam.gov/pet-import-requirements-3/.Limitations to consider before travel:Strongly consider the limited availability of flights and veterinary care on Guam before shipping your pets. There are no emergency veterinary clinics to treat pets overnight or on the weekends. There are no specialty clinics to perform advanced care such as orthopedic surgery, cancer treatment, or hospitalization of sick pets. Many medications required to care for sick animals are not readily available. On base veterinary care is typically fully booked 1+ month out and does not take walk-in or same day appointments. Off base veterinary care is often very expensive. If you own elderly pets or those requiring frequent care for ongoing medical conditions, please strongly consider the veterinary limitations before moving your pets to Guam.There are quarantine requirements upon arrival, which can only be at certain facilities, and the owner is responsible for paying.Transportation Considerations:In addition to limited veterinary care, pet flights to and from the island are extremely limited and very costly. Options are as follows and contact the VTF for a list of reputable pet shippers:Patriot Express: Military flight to/from Guam with very limited pet spots. Brachycephalic pets allowed. Pet plus crate cannot exceed 150lbs. Limit 2 pets per set of PCS orders.United Airlines via Hawaii or Japan: For more information, visit https://www.united.com/en/us/fly/travel/trip-planning/military-pet-program.html. Pet plus crate cannot exceed 99lbs. Many breeds are banned to include all brachycephalic pets. Owner must fly on same flight as pets and be actively moving on PCS orders.Charter: Typically, every 3 months to/from Guam via Hawaii or Korea, depending on demand. Will fly large and brachycephalic pets. PCS orders not required. This is the only option for civilians or for military flying without PCS orders, to include Early Return of Dependent orders. This is very costly.Vaccination Requirements:1. Dogs:a. Rabies. Dogs over 12 weeks of age must present certification the dog has been vaccinated by a U.S. veterinarian. Minimum of 2 rabies vaccinations are required. The most recent rabies vaccination cannot be more than 1 year, unless it is an approved 3-year vaccine.b. Canine Distemper, Canine Parainfluenza, Canine Parvovirus, Canine Infectious Hepatitis Virus or Canine Adenosvirus-2 (DA2PP)c. Canine Leptospirosisd. Canine Bordatella bronchiseptica (kennel cough).2. Cats:a. Rabies. Cats over 12 weeks of age must present certification the dog has been vaccinated by a U.S. veterinarian. Minimum of 2 rabies vaccinations are required. The most recent rabies vaccination cannot be more than 1 year unless it is an approved 3-year vaccine.b. Feline Panleukopenia Virus, Feline Viral Rhinotracheitis, and Feline Calicivirus (FVRCP)Additional Requirements1. Pet must be microchipped or tattooed. The microchip must be a 15-digit ISO Standard. This must be placed prior to the rabies vaccine administration.2. A passing rabies titer test (FAVN). The results must be provided directly to Animal Quarantine Program at the Department of Agriculture, 163 Dairy Road, Mangilao, Guam

96913. A copy of the report must be presented on arrival. If your pet is not arriving from an exempt country or area and if your pet fails to pass or complete the FAVN testing and other requirements, then your pet will have to complete 120-days of commercial quarantine on Guam. There are no other options or exceptions. Animals originating from the British Isles, Australia, New Zealand, Japan, and Hawaii on direct flights to Guam may be exempt from quarantine requirements after meeting shipping and veterinary examination requirements.3. An APHIS endorsed health certificate must be completed no greater than 10 days prior to travel. The health certificate must be endorsed by a USDA APHIS veterinarian. A U.S. Army veterinarian CAN endorse the APHIS 7001 Health Certificate in place of the USDA veterinarian.4. Original rabies certificate signed in blue ink.5. Pet must be heartworm negative.6. For entry into Guam, an entry permit is required for all animals and may be obtained by writing the Department of Public Health and Social Services, PO Box 2816, Agana, Guam 96910/PH (671) 735-7210 or email quarantine@doag.guam.gov. (Required documents: Application for entry permit, payment per pet [65$], current and prior rabies certificate, vaccination records, flight itinerary, quarantine facility reservation, FAVN results from CDC approved testing lab, 10 day health certificate). Pets without a valid entry permit will be placed in a 120-day commercial quarantine at the owner's expense or returned to origin at owner's expense. Owners will also be fined not to exceed $1000.7. Animals transiting through Guam must obtain a transit permit if their ship or plane is on Guam for greater than 4 hours. Transit animals arriving without a transit permit will be quarantined at owner expense.8. QUARANTINE: Animals will require quarantine in an approved Commercial Quarantine Facility upon arrival to Guam. The duration is dependent on the result of their FAVN rabies titer test. Animals arriving from exempt areas such as Hawaii or Japan, must contact Guam Customs and Quarantine to schedule for clearance at the port of entry. There is a fee. Contact number is 671-642-8071/2. Kennel reservations at a government of Guam approved commercial quarantine facility must be obtained prior to shipping pets. The pet owner is responsible for incurred costs. Approved quarantine facilities: Harper Valley Kennels (671) 797-0393, Andersen Pet Lodge (671) 637-8387, and Animal Medical Clinic (671) 366-5020.End of Tour/ Return to CONUS:Transporting a pet back to the U.S. can be extremely expensive, particularly for large dogs, and there is limited flight availability due to temperatures.(CH USTC Pacific J9, 13MAY25, TF)

7. PRIVATELY OWNED FIREARMS (POF)

Recommend avoiding shipping firearms to Guam. Effective immediately, the Government of Guam has imposed the following requirements on the importation of firearms:Members MUST have and possess proof of ownership such as a previous firearms registration. If proof of ownership is not available, an affidavit of ownership with notary seal is acceptable. Members would also need to provide one form of identification (ID) (birth certificate or passport). There is no limit on the number of firearms allowed to be shipped. Members MUST obtain a Guam Firearms ID at the Guam Police Department immediately, pay corresponding fees and register each firearm with the Guam Police Department within 30 days of receipt of firearms. Members will be charged the following:- FBI record check - $37.00 (paid by cashiers¿ check or money order)- Firearms ID Application - $20.00 (fingerprinting) and $25.00 (ID pickup)- Firearm inspection fee - $5.00 for each firearm- Firearm registration permits fee - $40.00 eachThe initial cost to import one firearm is $127.00. Each additional firearm is $45.00.Members MUST complete the firearm application and registration process within 30 days of receipt of their firearms. Severe penalties will be imposed to members who do not register their firearms with the Government of Guam. Penalties include jail time and a $10,000 fine imposed by Government of Guam¿s Attorney General¿s office to the member for noncompliance. (CH SDDC-Pac, 13 Jan 2014, MO)** Shipping POFs to the Commonwealth of Northern Mariana Islands (CNMI)** The populated Islands of CNMI are: Saipan,

Tinian, Rota, Agrihan, and Alamagan. The only legal weapons authorized into the CNMI are:

.22 rifle .223 rifle 410 shotgun --The importation of any/all pistols, or other weapons not listed above is prohibited. Only local law enforcement personnel are authorized to legally possess pistols. --All personnel are advised NOT to ship pistols of any size into the CNMI.

(CH SDDC-PAC 20-Oct-2011 RB)PLEASE NOTE: Firearms are stored separately in a Government authorized Container Freight Station (CFS), to be cleared by Guam Customs. Accordingly, the firearm(s) will have to be extracted from the inbound shipment and stored separately. This could delay the receipt of your shipment if not timely cleared.(CH 12-NOV-2020 TCJ9-OH-Pac RB)

8. PRIVATELY OWNED VEHICLES (POVs)

Effective May 21, 2007 the Government of Guam's Department of Motor Vehicle has initiated a vehicle registration fee of $5.00 per vehicle to all Department of Defense members and civilian employees.--EFFECTIVE 01-DEC-2015-- Imported unregistered POVs (i.e.-NEW unregistered POVs) MUST have a VEHICLE SPECIAL PERMIT from the Guam Police Department before a POV can be driven or transported from the POV Port of Entry, per Title 16, Guam Code Annotated, Chapter 7, Sections 7103 (a) and (c). The cost for the VEHICLE SPECIAL PERMIT is $50 as of 01-Dec-2015. The application for the VEHICLE SPECIAL PERMIT is available at the Guam Police Department's Records and Identification Section office located at 590 South Marine Corps Drive, Suite 120, First Floor, ITC Building, Tamuning, Guam or at the http://gpd.guam.gov/ website.(CH 17-Dec-2015 SDDC-PAC RB)Effective 26 Aug 2025, the shipment of Electric Vehicle (EV) and Plug-in Electric Vehicle (PHEV) are restricted until further notice due to ocean carrier safety concerns. Please contact your Transportation office to obtain a storage letter for any EV / PHEV shipments.(CH USTC Pacific J9, 27AUG25, TF)

a. POVs (includes data on prohibited vehicles, colors, etc.)

No restrictions. However, Government of Guam applies a four (4) percent use tax on vehicles purchased and imported by members when vehicle is owned less than 90 days. Recommend shipment of a small or medium, well-maintained, rust-free car. Repairs can be made locally but parts are often hard to locate and labor is expensive. Used cars are available for sale, but often have extensive rust damage and sell far above comparative US prices. Transit time ranges between 4-6 weeks from the West Coast and up to 3 months from the East Coast. Rental vehicles are available

both on and off-base.

b. MOTOR CYCLES/MOPEDS

Effective May 21, 2007 the Government of Guam's Department of Motor Vehicle has initiated a vehicle registration fee of $5.00 per motorcycle to all Department of Defense members and civilian employees.PLEASE NOTE: Motorcycles are stored separately in a Government-authorized Container Freight Station (CFS), to be cleared by Guam Customs. Accordingly, the motorcycle(s) will have to be extracted from the inbound shipment. This could delay the receipt of your shipment if not timely Customs-cleared.(CH 12-NOV-2020 TCJ9-OH-Pac RB)

c. GASOLINE/CATALYTIC CONVERTERS

Premium and unleaded gasoline are available island-wide.

d. INSURANCE AND SAFETY REQUIREMENTS

POV safety and emission standards on Guam are the same as CONUS. Guam requires all POVs to pass a safety inspection checking integrity of exhaust system, body, braking power, wheel alignment, lights, horn, and windshield wipers prior to issue of either Guam license or soldiers/sailors relief registration decals.

13. OTHER

a. HOUSING: Waiting time for Government quarters is 2 to 5 months, depending on rank, rate, and number of bedrooms required. Adequate TLA accommodations are available off-base. A limited number have kitchen facilities. Linens are provided. Baby cribs are normally not provided; however, a few are available. Local command's hospitality kits have a limited number of utensils. Local power is standard US 110 volt 60 cycle. No modifications required for US type appliances. Color TV is available with programs taped in the US and shown 1 week later. More specific information should be requested from command sponsors. b. BOATS: Import standards are the same as for CONUS. US Coast Guard inspects boats for sea worthiness. Boats from CONUS should have a manufacturer's certification decal as it eliminates the inspection requirement. Guam customs may collect a 4 percent use tax at time of importation. All boats must be promptly preregistered with the harbor unit of the Guam Police Department. Boat owners have 60 days to ensure they meet Guam boating requirements before registration with the harbor unit is completed. The documents required for registration must be originals or notarized copies proving ownership. Boat trailers are registered with vehicle registration. A safety inspection is required. A manufacturer's statement of origin or a certification of title is required for a trailer license. A Soldier's/ sailor's relief registration decal is acceptable for the trailer. Repair parts for the major American brands are usually available but at a higher price than most CONUS areas. Labor rates are generally higher than in CONUS. Docking, mooring, and storage space is extremely limited. There is a long waiting list for space at the Naval Base Guam Sumay Cove Marina. Commercial space is available but is very limited and expensive. (CH 03-OCT-2014 SDDC-PAC RB)

For further details contact US Embassy Assistant GSO:A/GSO Michael BrownEmail: BrownME@state.govPhone: +509-2229-8607

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) Ship in sea containers. One POV may be imported duty-free. Vehicles should be unpretentious in appearance. Specific and up-to-date information should be obtained from the sponsoring country prior to shipment of POV. Recommend POVs be shipped to Port-au-Prince where US Embassy Customs officer will arrange for pick-up. (2) If clarification is needed on procedures for shipping a POV to Haiti, you may contact the US Embassy Customs Officer at 509-221-1104. In order to complete customs procedures for importing a vehicle, American Embassy Haiti must have an original bill of sale or a dealer's invoice listing all options and giving the total value of the vehicle. This invoice, along with the Certificate of Origin and Bill of Lading(B/L) must be submitted to: Customs/Shipping Unit American Embassy Port-au-Prince, Haiti FAX: (509-222-1579)

(3) Employees should specify that vehicles be shipped and consigned to: (NOTE: DO NOT USE THE FOLLOWING ADDRESS TO MAIL DOCUMENTS, USE THIS ADDRESS ONLY TO SHIP VEHICLE)

Name of owner American Embassy Port-au-Prince, Haiti ATTN: GSO/Customs-Shipping Unit Phone: (509-221-1104) FAX: (509-222-1579) (4) SPECIAL REQUIREMENTS: Name of owner, VIN number or engine number, color, make, and model must be described on the original Bill of Lading (B/L). Copies of the B/L should be provided by faxed to post or USMILGRP. Orginal of B/L should be mailed to address on subparagraph "2" above.

8. PRIVATELY OWNED VEHICLES (POVs)

.

a. POVs (includes data on prohibited vehicles, colors, etc.)

ENTIRE SECTION UPDATED ON 19-FEB-2016 (SDDC-PAC RB) 1. There are several good reasons not to ship a Privately-Owned Vehicle (POV) to Hong Kong: a. Public transportation is excellent. b. Public parking facilities are scarce and expensive. c. Hong Kong uses a right-hand drive system and requires POVs meet U.K. specifications. 2. Because of the very stringent requirements imposed by the Hong Kong Government, the cost of modifications, and the uncertainty the modifications will bring the POV up to required standards, Post will NOT approve the importation of LEFT-HAND DRIVE POVs (i.e. American style). a. Many employees wait until after their arrival at Post to assess their need for a POV, then buy a POV locally if needed. b. Japanese and European cars are the most popular, and parts and maintenance facilities for them are readily available. Though the current used car market is particularly buyer-friendly, fewer than half of Hong Kong Mission personnel have POVs. Many who DO own a POV in Hong Kong find insurance coverage somewhat higher than in the U.S. 3. Given the above, if you seek to ship a right-hand POV to Hong Kong, please first contact the GSO Shipping and Customs Office, email: gso_hongkong@state.gov, and provide the following information: a. Make, Model, Year of POV b. Number of cylinders, displacement (in cubic centimeters or cubic inches) c. Chassis number, engine number and engine model After you have submitted the above information, GSO Customs and Shipping will research the POV specifications to determine compatibility to similar POVs in Hong Kong, and eligibility for importation. GSO Customs and Shipping personnel will inform you of their findings. 4. DO NOT ship a POV to Hong Kong without specific permission from Post. If your POV shipment is approved for importation, the Hong Kong Government will require certification your POV is in compliance with the emission control standards of Hong Kong. a. Customers may apply for an exemption of emission control and noise control based on diplomatic courtesy. The exemption process usually it takes approximately 2- 4 weeks. 5. Only unleaded gasoline is available in Hong Kong. DO NOT remove catalytic converters. 6. Mail POV shipping documents, including the original Bill of Lading to General Services Officer, US Consulate General, PSC 461 Box 9, FPO AP 96521-0006 to arrive NO LATER THAN 2 weeks prior to the anticipated arrival of the POV into Hong Kong. 7. Trucks, vans and pickup models are considered commercial POVs and may not be imported into Hong Kong. 8. POVs with tinted windows cannot be registered. 9. The POV owner must have purchased the POV more than six months prior to arrival at Post or licensing will be denied. In addition, the owner should have been issued a valid driver's license and resided for at least six months in the country where the POV was last registered. 10. POVs require a thorough mechanical and safety inspection before being registered in Hong Kong. Due to the stringent inspection process, successful POV registration may take between 4 - 6 months if all inspection requirements are met. 11. When the owner of an imported POV departs Post, the POV cannot be sold to a local resident. The POV can only be sold to diplomatic personnel assigned to Hong Kong, exported, or disposed of. 12. POVs 6 years old or older must undergo inspection annually prior to the renewal of POV registration.b. Anyone who cannot ship a POV to Hong Kong, because of the above requirements or restrictions, should request Service approval for POV storage. No storage facilities for POVs exist at Post. c. For further information or inquiry, please feel free to contact the GSO Customs and Shipping Office, email:gso_hongkong@state.gov

b. MOTOR CYCLES/MOPEDS

Motorcycle/mopeds must be shipped separately as POVs and are imported duty-free.

c. GASOLINE/CATALYTIC CONVERTERS

Do not remove catalytic converters. Unleaded gasolines is available at all gas stations in Hong Kong.

DOD arranged movesFor shipments going to Papa AB, Hungary, customs form AE Form 302 will be requested and completed by 950th Transportation Battalion, Bremerhaven at email addresses: (usarmy.bremerhaven.598-trans-bde.list.950th-cargo-control-group@mail.mil) and (ursula.b.kappler2.ln@mail.mil) upon receipt of the following information from the TSP or agent: cargo description, pieces and weight, soft copy of GBL, correct delivery address including APO#, POC name and POC phone number.DOD arranged MovesDO NOT PLACE SHIPMENTS IN SIT AT ORIGIN, allow shipments to continue to move forward. AF members stationed at Papa AB will be required to obtain a residency permit prior to delivery at destination. To avoid delivery delay of personal property, AF members stationed at Papa AB are required to have a no-fee official passport issued prior to arrival. Members need to contact their servicing Military Personnel Flight with questions.DOS arranged MovesA Hungarian customs official is on hand when unaccompanied baggage air and surface shipments are delivered. It is, therefore, highly advisable to prepare a complete inventory of effects brought into Hungary and be prepared to submit complete inventories upon arrival and departure. One advance copy of the inventory should be forwarded to GSO, American Embassy, Budapest, for translation into Hungarian. Incoming shipments cannot be custom cleared until member is physically present on station and registered with the Hungarian authorities. Due to mail lag time often experienced by American Embassy Budapest, origin shipping office should forward message to TWX address providing member's name, destination carrier (to include the mail and telex address), shipment date, and PPGBL and airway bill number.

6. PETS/QUARANTINE

Pets are not subject to quarantine, but dogs and cats must have all shots up-to-date at least 30 days prior to departure. EU Form 988, bilingual Veterinary Certificate is required. (The rabies shot must be at least 30 days old, but not older than 1 year.) The certificate must be issued within 10 days prior to arrival in Hungary.The requirement is for a microchip and if the requirement is not met upon arrival the pet will be quarantined at the owner's house until the requirement is met. Attached is the latest TM-2 info on pets. 21. Pet information: There are up to four requirements for importing dogs and cats into Hungary, depending on one's shipping point of origin:A) Physical identification requirements. The pet must have a implanted microchip for identification. Hungary uses the 11784 ISO or 11785 ISO microchip standard. If the microchip follows another standard the owner of the pet must provide a scanner able to read the implanted device. To date, pet owners arriving from the USA have not experienced problems meeting the identification requirements, but owners may wish to bring this microchip standard requirement to the attention of their veterinarian.

B. Pet Passport or EU Veterinary Certificate. Pets shipped from EU countries are expected to have pet passports issued by an authorized Veterinarian. When importing pets from the USA, a completed EU Form 988, veterinary certificate can be substituted for a pet passport. A blank copy of this certificate can be obtained on the GSO page of post's intranet website at (http://budapest.state.gov) or from post's shipping assistants (VeroD@state.gov or FassyB@state.gov). C. Rabies vaccinations. The pet should be inoculated at the age of 3 months. The inoculation should be repeated annually. The most recent rabies vaccination should have been completed at least 30 days prior to the pet's date of arrival in Hungary. Pet owners must carry with them an official record of these vaccinations (whether in a pet passport or international

health certificate). D. Blood test. A blood test is NOT required for pets coming from EU countries, the USA, Australia, Barbados, Bahrain, Bermuda, Canada, Croatia, Jamaica, Japan, Mauritius, New Zealand, Russia, and Singapore. A blood test is required for pets coming from other countries. For further information, please contact post's shipping assistants (VeroD@state.gov or FassyB@state.gov). E. Quarantine. If the pet dos not comply with the above listed requirements then quarantine may be ordered at the house of the owner until all the necessary requirements are fulfilled.Other pets. If you are planning to ship more exotic pets, please check with the CLO or the closest Hungarian embassy or consulate. Hungary is a signatory to The Washington Convention on International Trade in Endangered Species of Wild Flora and Fauna.Pet food and supplies. The Commissary stocks dog and cat food and kitty litter. These items may also be purchased locally. You should consider bringing unique specialty pet supplies in your HHE. When providing post with your initial information, please indicate whether or not you intend to bring a pet to post and confirm your pet status in your subsequent arrival cables.

7. PRIVATELY OWNED FIREARMS (POF)

Hungarian law only allows one shotgun or one rifle to be imported for hunting purposes. Serial/model numbers and caliber information must be provided to the Regional Security Officer(RSO) and General Service Officer(GSO) in advance. A permit must be obtained for all firearms BEFORE importation is possible. If permit is not available at the time of importation, weapon will be confiscated by the customs official. It will remain in their custody until the member can show a valid permit or leaves Hungary, whichever is sooner. No firearms may be imported for personal use without prior approval from the ambassador.

8. PRIVATELY OWNED VEHICLES (POVs)

Effective 1 Oct 2024, The Hungary Ministry of Transportation, Decree 511/2017 (XII. 29.) allows the shipment of vehicles used by foreign armed forces on official duty in Hungary, and international military headquarters established in the territory of Hungary. Personnel serving in Hungary and their family members as defined in the Act on the Registration of International Military Headquarters and their personnel on Certain Provisions Relating to their Status, and by persons and their family members staying in the territory of Hungary on official duty and enjoying other privileges and immunities based on diplomatic or international law." POVs will be shipped direct to Papa Hungary, through VPC contract. Vehicle storage is authorized IAW JTR 0532.

a. POVs (includes data on prohibited vehicles, colors, etc.)

DOS GUIDELINES: (1) Hungarian regulation requires vehicles to conform to European specifications, but the Embassy has a waiver covering all of the Embassy's official and diplomats' privately-owned vehicles(POVs). There is no restriction on the type of vehicle imported. (2) Each vehicle must go through a thorough technical inspection prior to registration/licensing. If the vehicle fails the inspection, all repairs/modifications must be completed before registration is allowed. All of these repairs are at the owner's expense and are not reimbursable. Some of these repairs might be quite expensive. Therefore, it is in the best interest of the member to ship/purchase a vehicle that is new or in 'like new' condition.(3) POV should be shipped in sea container and consigned to American Embassy Budapest, Szabadsag ter, Attn.: members name. Information copy of documentation should be mailed to American Embassy, 1054 Budapest Szabadsag Ter 12, ATTN: GSO.Please note that none of these expenses are reimbursable to the member. Member must possess a valid state driver¿s license and also possess a US State Department-authorized international driving permit (AAA or NAC). Member and dependents with driver's licenses will receive European driving regulations training.(4) Papa AB, Hungary: POVs will be shipped direct to Papa Hungary, through the VPC contract.

b. MOTOR CYCLES/MOPEDS

Motorcycles/mopeds can be imported with household goods. They are considered POVs if the engine size exceeds 50cc and must be registered as such. If the motor size remains under 50cc, it does not require registration.

c. GASOLINE/CATALYTIC CONVERTERS

All vehicles must be equipped with a three-way controlled catalytic converter. There are no exceptions made to this law.

d. INSURANCE AND SAFETY REQUIREMENTS

Due to limited vehicle registration/insurance options and the fact that there are currently no US insurance companies offering primary or third party liability coverage in Hungary, the member should be prepared to either: (1) store their US-spec POV stateside; (2) title and register their US-spec vehicle in the Hungarian system ($350-$1,300 depending on the status of the title and the type of vehicle) only if allowed by their lienholder (if applicable); (3) rent/lease/buy and register and insure an EU-spec vehicle; or (4) pay approximately $350/month for mandatory third party liability insurance (plus collision & comprehensive coverage as required).

5. FURTNITURE, OVERSIZED

a. Military family housing is small by US standards and storage is limited. Members should be advised furniture (couches, desks, etc.) Approximately 7 ft or longer may not fit through doors and halls in some housing units. Contact the housing office for advice before shipping such an article because housing assignments will not be changed to accommodate excessive or oversized

furnishings. Washers, dryers, stoves, and refrigerators are provided for all on-base housing; therefore, these items must be placed in NTS at origin. If a member desires an extra refrigerator or freezer, one may be shipped. NTS will not be provided, nor will housing assignment be changed to accommodate shipped appliances. b. Unaccompanied members will be assigned a room/suite depending on rank. DO NOT SHIP ANY FURNTIURE. Large electrical items such as TV's, VCR's, stereo's and personal computers are permitted however, keep in mind that space is limited. Adequate cable, Internet capabilities, and phone jacks will be available. Extension cords are prohibited, however, surge protectors may be used. You may ship a microwave, though some buildings provide them in the rooms. You will be provided with: common use laundry and kitchen facilities, recreation and work out facilities, a bed, refrigerator, sitting chair, desk, adequate lighting and an entertainment center. Some of the buildings provide common area bike storage, and all buildings provide personal storage, and all buildings provide personal storage lockers measuring at least 37 cubic feet. Bachelor housing furnishing will not be displaced to facilitate personal belongings.

6. PETS/QUARANTINE

Pre-approval from the Government of Iceland is necessary before pets may enter into the country. Members are authorized NOT MORE THAN TWO PETS PER FAMILY. Pet permission and quarantines are both lengthy and expensive (approx. 8 weeks) at this time. Contact the NASKEF Security at the Visitors Center at DSN 450-6152, Com.001-354-425-6152. To receive your information package containing your pet shipment forms and requirements also check the Chief Veterinary Clinic website at www.cvo.is. The pet can be flown into the country on a commercial flight at owners expense (currently about $350), quarantine and veterinarian costs are approximately $1600 for a cat, and $1743 to $2500 for a dog. NO DOGS over 85lbs are permitted. Rottweilers, Pit Bulls, nor Doberman breeds are NOT PERMITTED into the country. Contact NASKEF Security at the Visitors Center for a complete list of breeds that are not permitted into Iceland. Animals must be registered and tagged through the Security Admin Office. Dog and cat shots must be up to date prior to entry and maintained while on the island using the local vet service. Contact the NASKEF Security at the Visitors Center at DSN 450-6152, Com: 001-354-425-6152. All procedures must be followed explicitly as stated in the law. Pets are not allowed in bachelor quarters.

7. PRIVATELY OWNED FIREARMS (POF)

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

“Importation is PROHIBITED.”

8. PRIVATELY OWNED VEHICLES (POVs)

Copy of the vehicle title is required for all POVs destined to Iceland in order for them to be customs cleared into that country. The vehicle customer must provide two photocopies of the vehicle title (all pages) to the origin VPC(OVPC) at the time of turn-in.A photocopy of the vehicle title will be placed in the members record at the OVPC and a second copy placed in the will travel with the vehicle. The outbound waterport VPC will be required to fax a copy of the vehicle title along with the coversheet and both pages (summary and detail) of master ocean bill of lading to the Iceland VPC (FAX 354-425-4489) at the same time the master ocean bill of lading is submitted to the ocean carrier.

a. POVs (includes data on prohibited vehicles, colors, etc.)

POVs: Authorized DOD personnel may import one POV duty-free. Icelandic Government imposes no restrictions as to color, age, or dimensions.

b. MOTOR CYCLES/MOPEDS

Shipments of two-wheeled motorized POVs (motorcycles/mopeds) to Iceland is prohibited due to severe weather and unsafe road condition.

c. GASOLINE/CATALYTIC CONVERTERS

Diesel fuel is available from commercial source on base. The price per gallon at this station fluctuates with local market prices but does not include host nation taxes. As of JUN 2005 the price is $1,74 per liter. While this service is available to any member, prior arrangement must be made through the Iceland Defense Force Staff Judge Advocate Office.

d. INSURANCE AND SAFETY REQUIREMENTS

1. INSURANCE: Liability insurance is mandatory for all POVs in Iceland. Insurance must be purchased in Iceland; no US insurance companies are allowed to underwrite insurance in Iceland. Cost of liability insurance varies with type and year of the vehicle but generally runs from $400 to $500 per year. Comprehensive/Collision insurance is not required but is available for an additional cost of $200 to $1,000 per year.2. SAFETY REQUIREMENTS:a. Headrests: Icelandic laws requires all POV's manufactured after 1 Jan 1983, to be equipped with high-back front seats extending to a minimum of 30 inches from the top of the seat cushion to the top of the back of the seat, or built in adjustable headrests (clip on headrests are not acceptable).b. Tinted windows: Icelandic law prohibits tint (peel off type) on the drivers side and front passengers side windows. This causes failure of inspections.c. Seatbelts: It is mandatory safety requirement in Iceland all POVs be equipped with three-point seatbelts (shoulder strap) in the front seats and the rear seats where they can be arranged, or alternatively, lap belts. d. Lights: All vehicles being operated in Iceland must have low beam headlights and exterior lights/parking lights when the vehicle is driven day and night, 24 hours. Daytime running lights will not be accepted in Iceland and will cause failure of inspection. In order for newer model cars to pass inspection, they must remove the fuses or relay connected to the daytime running lights. Recommend that members have the diagram of the electrical connection of the vehicle in order to disconnect the daytime running lights. (The taillights are not on when running lights are activated, therefore making them illegal in Iceland.) All fog lights must have "E" or "DOT" marking on.e. License Plates: Front and rear license plates are required. Recommend a license plate holder be installed for front and rear before you arrive in

Iceland. Brackets are very hard to purchase in Iceland.f. Side view mirrors: Two side view mirrors (one on each side) are mandatory on all POVs.g. Warning triangle: It is a mandatory requirement to have a reflective warning triangle available in the trunk of each POV.h. Mud flaps: No mud flaps are required on regular vehicles. For certain vehicle types modified for higher ground clearance, four mud flaps are required, for example jeeps and trucks.i. Fender flares: All vehicles that have tires which extend past the body are required to have fender flares installed.j. Trailer hitch: Hitch balls must be removed prior to inspection.k. Steering: Vehicles with steering wheel on the right hand side will not be accepted in Keflavik Iceland.l. Speedometer: Speedometer must indicate speed in kilometers/MPH. Transparent overlays can be manufactured to satisfy this requirement.m. Turning Signal: Vehicles manufactured after March 1988 turning signal must be visible from front and side of the car, signal must blink not only from bumper but also the side of front fender headlights, or will cause failure of inspection.n. Exhaust System: Vehicles manufactured after 01 July 1990, that have the tail pipe ends extending to the right must have pipe end bent down or straight back or will cause failure of inspection.e. REPAIRS:1. Tires and minor mechanical repairs are available at the Navy Exchange Service Station on-base. Limited POV parts are available. Parts and repairs off-base are expensive.2. Because vehicle repairs in Iceland are expensive and the mandatory inspections are quite strict, it is recommended all POVs shipped be in excellent condition and any required repairs be accomplished prior to shipment.f. THE FOLLOWING OPTIONS APPLY TO DRIVING ON SNOW OR ICE-COVERED ROADS:1. Snow tires on all wheels.2. Chains on all wheels of the drive axle (front or rear).3. Studded tires on all wheels.4. Studded tires on wheels of one axle and chains on wheels of the other axle. You may not use two studded tires alone. Chains and studded tires may not be used during the period 16 April through 31 October, unless necessary due to special driving conditions. Should you be observed driving a vehicle on ice and snow covered roads without the proper equipment, you may be issued a citation; furthermore, if you are involved in an accident and your vehicle is not properly equipped, you will automatically be held responsible for the accident.g. REGISTRATION: The initial cost to register a POV is $270 (varies with exchange rate). This includes registration, safety inspection, plates, and headlight inspection. A POV that fails a safety inspection is subject to $24 reinspection fee. There is also an annual safety inspection charge of $67.h. MODIFIED/ALTERED VEHICLES: Vehicles which have been significantly modified or altered from their original factory specifications (e.g., fourwheel drive trucks with raised suspensions) may be subject to a special inspection at the Icelandic Motor Vehicle Supervision Office to ensure they conform with all applicable vehicle rules and specifications. The cost of the inspection is approximately $200. Additionally, these vehicles are required to carry both a fire extinguisher and a first aid kit at all times.i. VEHICLE AVAILABILITY: Four-wheel drive vehicles are very popular in Iceland. Used POVs, some with four-wheel drive, are available on-base. Additionally, many models of new POVs can be purchased on and off-base, free of Iceland taxes. However, these vehicles cannot be shipped back to the US at Government expense, unless the vehicle is purchased to replace a vehicle lost through fire, theft, accident or similar causes.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. No shipments can be cleared through Indian Customs prior to the arrival of member arrival at post. To avoid unnecessary demurrage charges, post strongly suggests shipments be timed to coincide with the arrival of personnel at New Delhi or Mumbai. In order to obtain Government of India (GOI) duty free import permission, please mail the HHGs original Bill of Lading and invoice to:-FOR NEW DELHI-American Embassy, ATTN: GSO/Shipping, Shanti Path, Chanakyapuri, New Delhi 110021.-FOR MUMBAI-Scanned, email copies of the Seaway Bill or Airway Bill, and Packing List to the American Consulate General, Mumbai, ATTN: GSO/Shipping-mumbaishipping@state.gov(CH 21-Dec-2017 TCJ4-HB-PAC RB)-FOR HYDERABAD-Scanned, email copies of the Seaway Bill or Airway Bill, and Packing List to the American Consulate General, Hyderabad, ATTN: hydcs@state.gov(CH 10-NOV-2020 TCJ9-OH-Pac RB)b. Staff members have duty free time limit only up to 4 months from the date of arrival at post. Advance shipments

should be avoided as they cause heavy demurrage charges (warehouse charges), and receive no proper closed storage. Advance shipments remain in the open and get damaged due to rains.c.Students attending Defense Staff Colleges in New Delhi or Wellington, India, do not enjoy duty free privileges enjoyed by the regular employees accredited to the Embassy. Their shipments are cleared from customs under transfer of residence rules. It is advised they should bring limited and used household items to avoid payment of custom duty. All major electronic equipment (TV, VCR, Stereo HiFi, microwave oven, video/movie camera, computer equipment, etc.) shipped in their baggage will be cleared after payment of custom duty.d.American Embassy, New Delhi, the American Consulate General, Mumbai, and the American Consulate General, Hyderabad requires a copy of the airway bill and/or ocean bill of lading prior to receipt of shipment to initiate customs clearance paperwork and formalities.(CH 10-NOV-2020 TCJ9-OH-Pac RB)e.The markings on shipments must be the same as those shown on the shipping documents prepared by the shipper. For shipments to the American Consulate General, Mumbai, and the American Consulate General, Hyderabad shipment markings should be: Employee Name, American Consulate General, Mumbai or Employee Name, American Consulate General, Hyderabad.

(CH 10-NOV-2020 TCJ9-OH-Pac RB)f.An itemized inventory of the shipment must be attached to the cargo manifest or bill of lading. Every member, upon arrival in India, will be required to present a valuation listing to process the duty free Exemption Certificate for shipment to clear customs.g.Importation of antiques (items over 100 years old) is discouraged. If they are imported, a clearance from the GOI, Department of Archeology as required.h.Documentation: Send all documentation concerning transportation to: -FOR NEW DELHI-American Embassy, ATTN: GSO/Customs and Shipping, Shanti Path, Chanakyapuri, New Delhi-110021, India, Phone: 011-2419-8138. b. CONTAINER/CRATING REQUIREMENTS

Shipment must be waterproof inside and outside to protect contents from water damage, humidity or dampness. The packed lift vans shall be wrapped with plastic polyethylene sheets and placed over the lift vans. The lift vans should be securely sealed with sufficient caulking compound on the panel joints to prevent entry of insects.All solid wood packaging materials used for shipments inbound to Indonesia must be either fumigated or heat treated and marked with an approved International Mark certifying treatment (ISPM15). The ISPM15 certificate is required to be attached with other shipping documents. Failure to meet this requirement will subject the shipment to quarantine (up to re-exportation) resulting in significant delays and added costs. (CH PPP-POP 3-5-2010)

c. HARD LIFT AREA

No restrictions identified.

d. UNACCOMPANIED BAGGAGE

No restrictions.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

HHG cannot be cleared prior to arrival of the employee in Indonesia. Customs clearance for HHG will normally be processed once an employee has received a Diplomatic ID Card issued by the Indonesian Ministry of Foreign Affairs. It is advisable to schedule a HHG shipment to coincide with employee’s arrival. (Changed 29-Mar-2023 by USTCJ9 DPMO Pacific TF)To expedite customs clearance procedures, the Airway Bill of Lading (AWB), Ocean Bill of Lading (OBL), Personal Property Government Bill of Lading (PPGBL) and inventory must be scanned and emailed to: JakartaGSOShipping@state.gov. (Changed 29-Mar-2023 by USTCJ9 DPMO Pacific TF)

3. CONSUMABLES

Per U.S. Embassy Jakarta/USASEAN Management Notice 192-15, dated 16-Nov-2015, and Indonesian Ministry of Finance decree number 149-PMK.04-2015, the Indonesian Government no longer grants exemption from Import Duty of personal property or consumables shipments AFTER six months from the date of arrival in Indonesia. All shipments MUST arrive within 6 months from the date of employee arrival in Indonesia or Import Duties will be collected from the customer. c. OTHER (i.e. COMPATIBILITY, ETC)

Voltage in Indonesia is 220, 50hz. Voltage in Foreign Officer Accommodation (FOA) housing is 110, 50hz.

5. FURTNITURE, OVERSIZED

Do not ship oversized furniture. Items must fit in a standard size household goods shipping crate (Type II containers).

6. PETS/QUARANTINE

The Government of Indonesia (GOI) requires the quarantine of all pets arriving into Indonesia, regardless of their country of origin for a period of 14 days, although occasionally a pet importer or employee has been able to arrange an earlier release. However, the earlier release is never given.

Also, pet-owners are required to pay the full cost of the 14-day quarantine regardless of how long the pet remains in quarantine. As of March 4, 2023, the cost of quarantine is IDR 2,000,000 (USD 178.00) for small animals and IDR 3,000,000 (USD 215.00) for large animals. This does not include a handling fee to transport the pet to the quarantine area of the airport or the handling fees of a pet importer. (Changed 29-Mar-2023 by USTCJ9 DPMO Pacific TF)Pets are also subject to duties and taxes from the GOI plus an approximate fee of USD 200.00-500.00 in addition to pet handling and quarantine fees. Incoming members determine the appropriate method of bringing pets to Indonesia. Currently, the most efficient way to send pets is as accompanied baggage. Many U.S. air carriers place restrictions on pets during the hot summer months.To obtain the proper import permit, the AMEMB recommends members use a local pet transport service. (CH PPP-POP 3-10-2010)

8. PRIVATELY OWNED VEHICLES (POVs)

Per U.S. Embassy Jakarta/USASEAN Management Notice 192-15, dated 16-Nov-2015, and Indonesian Ministry of Finance decree number 149-PMK.04-2015, all Administrative and Technical Staff (regardless of Service affiliation) are NO LONGER ALLOWED to import a POV (car, motorcycle, or moped) into Indonesia. This restriction DOES NOT apply to members of the diplomatic staff (those having diplomatic rank). (CH 02-Dec-2015 SDDC-PAC RB)

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) The Government of Indonesia (GOI) must approve all POV imports before the POV is shipped. Personnel should contact their organization of assignment to determine their eligibility for POV importation and to provide information required to obtain GOI approval. The GOI prohibits importation of POVs for persons on the Diplomatic List and personnel assigned to the office of

Military Attached for Defense Program (OMADP). Only sedan and sedan-type station wagons with engine displacement of less than 4000cc and costing less than $30,000.00 (excluding insurance and freight) may be imported. Vans buses, 4-wheel drive vehicles (except RAV 4 type of vehicle) and trucks are specifically prohibited. (2) The GOI will give approval ONLY AFTER the member arrives at post and has obtained his/her Diplomatic ID Card. Personnel may not ship POVs until this approval is received. For personnel desiring to ship a POV The following information will be provided by message to: AMEMBASSY JAKARTA //TRANS OFF// with info to USDAO Jakarta, ID, and ODC JAKARTA ID//XO// as soon as possible after receipt of assignment notification or fax directly to GSO/TRS (62-021-3435-9923). Experience with GOI indicates 60 to 90 days may be required to obtain the advance approval. (a) Name, diplomatic rank, and estimated arrival date. (b) Vehicle Year/Make/Model/Type. (c) Price (cost insurance freight(CIF) in US dollars). (d) Engine displacement (CC) (not liters). (e) Country of origin. (f) Name and address of dealer: (for new cars). (g) Estimated date of importation. (h) Vehicle Identification No. (VIN): (all digits). (i) Engine No: (all digits) (A VIN only is not acceptable). (j) Color:

b. MOTOR CYCLES/MOPEDS

Per U.S. Embassy Jakarta/USASEAN Management Notice 192-15, dated 16-Nov-2015, and Indonesian Ministry of Finance decree number 149-PMK.04-2015, all Administrative and Technical Staff (regardless of Service affiliation) are NO LONGER ALLOWED to import a POV (car, motorcycle, or moped) into Indonesia. This restriction DOES NOT apply to members of the diplomatic staff (those having diplomatic rank). (CH 02-Dec-2015 SDDC-PAC RB) After Motorcycle Importation review on Jan 2016, The Government of Indonesia considers a motorcycle as a POV and it will be processed through regular POV channels. Motorcycles cannot be shipped with HHG; it takes months to bring any vehicle into Indonesia, so the HHG and motorcycle cannot be linked or HHG would also take 4 to 6 months to clear. Shipment of a motorcycle cannot even START until AFTER the individual arrives and is accredited. Once accreditation is approved, the vehicle must have permission to enter the country before it can begin transport to Indonesia. This also means no other vehicle can be imported or purchased duty-free. Average time of POV or motorcycle clearance/entry into the Indonesia is 5 to 6 months AFTER arrival. The MFA is not consistent about permitting importation of motorcycles, so it has to be done on a case-by-case basis. If post has the motorcycle specifications first, post can discuss this with contacts in the MFA. Motorcycles and scooters are plentiful in Indonesia so if shipping is not an option, one may be purchased fairly easily. It is dangerous, however, to use a motorcycle on the MASSIVELY OVERCROWDED streets in Jakarta. (CH 07-May-2017 SDDC-PAC RB)

c. GASOLINE/CATALYTIC CONVERTERS

No restrictions on catalytic converters. Unleaded gasoline is available. (CH PPP-POP 3-10-2010)

d. INSURANCE AND SAFETY REQUIREMENTS

All personal vehicles must be covered by third-party liability insurance. The AMEMB Jakarta recommends individuals carry a minimum amount of IDR 300,000,000.00 (USD 32,786.88) in coverage. The cost for this amount of coverage is approximately IDR 2,500,000.00 (USD 273.22 per year). (CH PPP-POP 3-10-2010)

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

Personnel contemplating retirement, separation, or relocating dependents to Indonesia should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Indonesia (GOI).

13. OTHER

Personal Effects: Do not mingle personal effects with MAP supplies and equipment. Such a practice will cause difficulty in obtaining release of personal effects due to import clearance from the Government of Indonesia (GOI). Do not containerize POV with liftvans either, as the clearance process for vehicles will not allow the release of HHG until approval is received, sometimes a 3 month process.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Irish customs require a full inventory of all incoming shipments be furnished with customs clearance and transfer of residency forms in order for shipping agent to clear all HHG and air freight arriving in Ireland. It is important to mail one copy of all inventories and other documents to post as soon as they are available so shipments will not be delayed. These documents should be addressed to the shipment assistant. Without inventories post faces difficulties in obtaining release of shipments.

Customs will refuse release and charge exorbitant storage fees. Upon submission of inventories customs will release shipments.

3. CONSUMABLES

6. PETS/QUARANTINE

Ireland requires an extensive six-month quarantine for all animals (including birds) unless they are arriving from the United Kingdom, where they have been for a minimum of six months. No exceptions are made. The animal must arrive with a valid shot record, a current rabies shot (administered no more than 30 days prior to arrival), and a certificate of good health. The originals of these documents should travel with the pet but be sure you also have copies. Cost ranges from around 1500 dollars for a cat to over 2200 dollars for a dog, depending on size. Ireland has only one approved quarantine facility which is located on the outskirts of Dublin. You should contact the Irish Department of Agriculture's Veterinary Division for further information.

7. PRIVATELY OWNED FIREARMS (POF)

“No restrictions identified.” See below information

a. HAND GUNS

Local law requires a gun owner must be in possession of a current Irish Firearm Certificate (Gun License) for each firearm prior to importation into Ireland. In the absence of the owner's Irish Firearm Certificate, Irish customs will take possession of the firearms at the port of entry and will hold them until a firearm certificate is shown by the owner, at which time the firearms will be released to the owner. Irish laws governing the use and possession of any type of firearm are strictly enforced with heavy penalties. No person under the age of 16 years may own or use a firearm and will be denied a firearm certificate. A primary requirement of obtaining a Firearms License is the owner's proof of membership in a local gun club (approx USDOLS 45.00 to 55.00 per year) or permission from two local landowners to hunt on their property (no charge). The following are prohibited for importation or purchase throughout Ireland: (1) Automatic weapons (repeater and automatic shotguns must be adapted so that they carry no more than three cartridges); (2) Guns exceeding .22/250 (5.6mm) calibre or with a barrel shorter than 24 inches; (3) Cross bows. (4) Up to 500 cartridges may be imported with each gun. Cartridges of any bore are generally available in the larger Irish towns. Smaller towns will usually supply 12 bore cartridges, but there may be some difficulty in purchasing ammunition of smaller bore.

b. RIFLES/SHOT GUNS

Employees must have the following information for each gun in order to complete the necessary application forms: (1) For rifle or airgun, air rifle, and shotgun: Applicant's date of birth; (2) Calibre, manufacturer, and number of gun; (3) Whether single or double barreled, or repeater; (4) Bore (calibre); (5) What type of birds or animals you hope to shoot; (6) Number of rounds of ammunition to be imported with gun; (7) details of any firearm certificate now held by you; (8) ETA of gun into Ireland. c. Deer hunting requires a Special Firearms Certificate and Hunting License. Rabbits are open season all year round and no hunting license is required. Long bows require a separate license in place of the Firearms Certificate, evidence of membership in a long bow club.

c. TOY RELATED GUNS

See Above

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

See Hand Guns section.

8. PRIVATELY OWNED VEHICLES (POVs)

"No restrictions identified."

a. POVs (includes data on prohibited vehicles, colors, etc.)

It is imperative POV?s not arrive in advance of member. Member should also handcarry all documentation in relation to vehicle. Do not pack Certificate of Title with HHG or POV as this is required to clear vehicle thru customs. All vehicles of 4 years or more will be required to pass the National Car Test to obtain a certificate of competency.

b. MOTOR CYCLES/MOPEDS

"No restrictions identified."

c. GASOLINE/CATALYTIC CONVERTERS

"No restrictions identified."

d. INSURANCE AND SAFETY REQUIREMENTS

Motor Insurance in Ireland is extremely expensive. A minimum of third party coverage by an Irish insurance company is mandated by Irish Law. The following list includes factors which inflate already costly insurance premiums:(1) Imported/Non-standard vehicles to Ireland including left-hand drive vehicles;(2) Soft top convertible vehicles;(3) Vehicles in excess of 2000 C.C.;(4) Drivers under 30 years of age;(5) Drivers with no previous insurance record;(6) Drivers with previous accidents/convictions; (7) Vehicles with markings indicating a higher performance engine, e.g. turbo, GTI, etc. e. Inbound military personnel who are coming to Ireland on a transfer of residency basis are permitted to import one vehicle free of local duties provided vehicle has been in their possession for a period of at least six months prior to shipping. A valid certificate of title is required to register the vehicle.

8. PRIVATELY OWNED VEHICLES (POVs)

MFO and site 512Do not ship POVs/ motorcycle into the country.

a. POVs (includes data on prohibited vehicles, colors, etc.)

DOS:The Israeli Ministry for Foreign Affairs and Customs Authorities do not authorize the importation of POV's until the owner has arrived in country. Please make sure that the arrival of a POV coincides with that of the owner. (1) VEHICLE DETAILS: The following details must be forwarded to post: make and model, year, engine size (very Important) and VIN No. Before shipping a POV please fax and send a copy of vehicle title to: 1)American Embassy Tel Aviv, Israel GSO Shipping, FAX 011-972-9-955-8656, Email: TelAvivGSOShipping@state.gov. 2) American Consulate, Jerusalem, FAX: 011-972-2-622-3561, E-mail: JerusalemShipping@state.gov. (2) REGISTRATION: US spec POV's are allowed to be imported. Before shipping any vehicle to Israel please check with the appropriate local transportation office. (3) ADDITIONAL INFORMATION: Employees are exempt from customs duties on bought or imported vehicles. However, such duties will have to be paid when selling a vehicle on the local market and therefore will have a direct bearing on your ability to sell the vehicle upon departure. Customs duties are based on each vehicle and on the current customs regulations in force at the time. The age of the vehicle does not necessary allow for graded reduction. (4) RESTRICTIONS: The importation of diesel powered vehicles (older than 4 years) or right hand drive vehicles is not permitted by the GOI. (5) SECOND VEHICLE: Employees, if accompanied by a spouse, are permitted to import or purchase a second POV duty-free.

b. MOTOR CYCLES/MOPEDS

Motorcycles and mopeds are considered as POV's in Israel.

c. GASOLINE/CATALYTIC CONVERTERS

Unleaded fuel is available; therefore catalytic converters do not have to be removed.

d. INSURANCE AND SAFETY REQUIREMENTS

Insurance costs in Israel are subject to the Dollar rate and Inflation and can very greatly depending on the type of vehicle. There are 2 basic kinds of insurance in Israel. (1) Mandatory Insurance: This is a statutory insurance set by the Government of Israel (GOI). Its purpose is to cover bodily injury to any person involved in an accident. No vehicle may be registered or driven on Israeli roads without this insurance. This insurance costs between 500-900 USD (depends on the make and model, engine size or weight of the car). (2) The second kind of insurance, which covers damage to property, can be split into different levels of coverage: I) Third Party/Liability covers damage to the other party's vehicle. II) Comprehensive/collision covers all eventualities e.g., theft, damage to owner's vehicle. The policymay be purchased locally or from the US, however, please note that some US policies do not cover for third party. In addition, please check when purchasing a US policy how you would be represented locally in the case of an accident. Embassy policy requires at least third party coverage for all Embassy POV's.

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

a. Personnel moving to Israel incident to retirement or separation are considered new immigrants and/or temporary residents, depending on the type of visas obtained. Local regulations require that in some cases shipments be opened, inspected, and assessed by Customs Authorities, in owner's presence, at port of arrival and any custom duties and/or import taxes be paid before goods are released for onward movement to final destination. Therefore, owner must ensure that if required, they are present at the time of release of their effects. They must also make certain they fully understand any limitations in their Israel Visa category before their arrival in Israel, which might cause unnecessary delays in releasing their shipments. b. Household effects must be consigned to the owner and shipped by prepaid sea freight only. AMC flights should not be used for this type of shipments. Destination PPSO is TMO, Israel tel. 011-972-9-956-7081 fax. 011-972-9-950-1611, E-mail: Laurence.Bliss.is@dcma.mil.

(1) Aviano AB: Members should contact their sponsors for specific information. Currently the Furnishing Management Office (FMO) provides all major household appliances, wardrobes and transformers to operate the small appliances since there is a difference in wattage. (2) Leghorn: Ranges, refrigerators, washers, dryers, kitchen cabinets, and wardrobes should not be shipped as these items are provided by Central Furnishing Management Office. Non-temporary storage of items shipped is not authorized. (3) Naples: Ranges, refrigerators, freezers, washers, dryers, kitchen hutches, and wardrobes should not be shipped as these items are provided by Partial Full Tour Furnishing (PFTF). We advise the service member to check with his or her sponsor for details. (4) NAS Sigonella: It is not recommended to ship major electrical appliances due to the difference in wattage. The Housing Office provides the following items for use in on and off base housing: washer, dryer, refrigerator, stove, microwave, kitchen cabinets, wardrobes, transformers, gas detectors, carbon monoxide detectors, computer desk, standing fan, and medicine cabinet. We strongly advise that the member check with his sponsor before arranging his shipment to Sicily.(5) La Maddalena: It's not recommended to ship a range, freezer, refrigerator, kitchen cabinet, washer, dryer and wardrobes, these items are provided by the Houshing Office upon request. (CH)(6) DTR Part IV, CHAPTER 401,G. REQUIRED SUPPORTING DOCUMENTATIONd. 5. FURTNITURE, OVERSIZED

Government and Economy living quarters are generally smaller than those in CONUS.Economy housing in Italy accommodate more HHG than government quarters, but are still smaller than homes and apartments in the United States. Many have narrow doorways and tight stairwells that cannot accommodate furniture that would fit easily into an American home. Service members shipping large items such as king and/or queen size box springs and mattresses, oversized sofas, or other large furniture items that cannot be disassembled, may encounter problems when residing in government or economy housing due to narrow stairwells. Washers, dryers, ranges, refrigerators, kitchen cabinets, and wardrobes are furnished for Government and Economy quarters. There is no Non-temporary storage in Europe authorized for HHG shipped in excess of what will fit, or is too large to be placed in,the Soldiers living quarters. Excess property shipped will not be stored at Government expense.Storage will be at the Soldiers expense.

6. PETS/QUARANTINE

Standards laid out in the following document address requirements for shipping dogs, cats, and ferrets from the United States. PLEASE NOTE: Ferrets are not accepted as pets for movement on AMC military or commercially contracted aircraft. If you require information on shipments for ferrets or other exotic pets please contact your local USDA field office. NOTE: For the remainder of this document the term pet or pets refers to dogs and cats only. ATTENTION: An examination fee of 55 Euro per pet will be implemented February 1, 2013, for all non-EU citizens who import a pet into the country.A. Quarantine Period - There is no quarantine period for pets entering ItalyB. Identification (Via standard electronic identification system with a read-only passive radio frequency identification device known commonly as a transponder "Microchip"):(1) Complies with ISO standard 11784 and 11785(2) Where the microchip does not comply with ISO standard 11784 or 11785, the owner or the natural person responsible for the pet on behalf of the owner must provide the means necessary (Microchip Reader/Wand) for reading the non-ISO compliant microchip at the time of inspection(3) The microchip must be implanted before the primary rabies vaccination or valid rabies booster is given to the pet before traveling:a) Primary Rabies Vaccine - This is the first rabies vaccination a pet ever receives; for EU countries this also applies to the first rabies vaccine given after the microchip was implanted; that is, rabies vaccinations received prior to the pet being microchipped are NOT recognized by the EUb) Valid Rabies Booster - This is a rabies booster that was given to the pet before the previous (Either the primary rabies vaccine or another rabies booster) rabies vaccination expired

C. Rabies Immunization:(1) Usually is required for all pets entering Italy(2) Pets less than three months of age coming from the United States may not always require the rabies vaccination IF:(a) These pets have pre-authorization from the EU member state BEFORE entering the country (3) Any one year dose or three year dose rabies vaccine is valid as long as it is a U.S. approved vaccine, and was administered according to the manufacturer's specifications (for instance, a vaccine labeled for 1 year use cannot be utilized as a 3 year vaccine)(4) A valid rabies vaccine must occur after the animal has been microchipped to be valid for entry into an EU member state(5) At least 21 days must have elapsed between the completion of the primary rabies vaccination (as specified above) and before the pet enters the EU member state(a) However, if the animal received a valid rabies booster after -- 21 days does not have to elapse before travel.(6) If a pet has received a non-ISO compliant microchip and then received a valid rabies vaccination with 21 days having elapsed since that vaccination and entering the EU member state; they:(a) Do not require implantation of another ISO compatible microchip, but are required to carry with them a microchip reader/wand capable of reading the non-ISO compatible microchip implanted in their pet (b) Do not require administration of another rabies vaccination before traveling as long as the rabies vaccination received is still valid(c) Can have an ISO compatible microchip implanted in their pet so they do not have to carry the reader/wand with them1. If they get this ISO compatible microchip implanted, they do not have to receive another rabies vaccination following this second microchip implantation. They are only required to document both chips on the required forms with their implantation datesD. Documentation (Verify the correct required documentation with your local USDA office):(1) APHIS Form 7001 (Nov 2010) - Acquired from any Army veterinarian, local veterinarian or USDA office(a) Valid for only 30 days after issuance1. Timeframe the form is valid can be shortened per the requirements of the Airline the service member is traveling on(b) Requires certification by a USDA Accredited Veterinarian, Army Veterinarian, or GS 0701 Veterinarian before travel(c) This form is not required to enter the European Union (EU)1. However, it's highly recommended that service members acquire this form before travel from their on-base Army veterinarian to preclude the following:a. If a member flies on a commercial carrier they may be

required to have this formb. If a member is scheduled to fly Patriot Express and somehow has to divert to a commercial carrier, having this form in advance alleviates last minute costs ($200) or delays 2. This form is not required to travel on Patriot Express(2) EU Non-Commercial Pet Form (Bilingual Health Certificate)(a) See link Under Pets heading Pets Dog, Cats, and Ferrets) http://www.aphis.usda.gov/regulations/vs/iregs/animals/animal_italy.shtml(b) Valid for 10 days to enter European Union and 4 months once inside the European Union1. Timeframe the form is valid can be shortened per the requirements of the Airline the service member is traveling on(c) Requires certification by a USDA Accredited Veterinarian, Army Veterinarian, or GS 0701 Veterinarian before travelE. Helpful Hints:(1) As soon as you know you are going to travel and no later than 22 days prior to travel, get your pet microchipped first and then vaccinated for rabies if you have not already done so. Remember: A VALID RABIES VACCINE MUST OCCUR AFTER THE MICROCHIP IS IMPLANTED(a) This will ensure the required 21 days has elapsed post vaccination prior to travel(2) When completing your required documentation (before you mail the forms or travel to your local USDA office to get them certified, if not using your on base Army veterinarian), fax or over-night ship them to your local USDA office to ensure they are filled out correctly before traveling to their office(a) This will ensure you do not waste travel time or postage only to have to redo the paperwork(3) Many overseas bases have a full-time veterinarian on staff as well as commercial veterinarians available on the economy(a) Most bases require pets to be registered with the base veterinarian after arrival. Check with base veterinarian for details(4) The pet cage or carrier (See carrier shipping rules for correct cage dimensions based on pet size) used for shipping the pet must be labeled with the owner's name, pet's name, owners (or nominated persons) address, contact number and contact number in Italy.(5) Since 21 Apr 2001, Germany has had a law in place prohibiting importation of certain dog breeds regarded as dangerous. For more information consult http://www1.zoll.de/english_version/a0_passenger_traffic/e0_vub/h0_dangerous_dogs/index.html. You may also contact the base veterinarian at your destination. F. Unauthorized Pets: The import of Pit bull Terriers, American Staffordshire Terriers, Staffordshire Bull Terriers and their crossbreeding is prohibited. G. Fees:(1) The USDA form certification fee (approximately $70+, plus any shipping and handling if by mail)(2) Transporting pets to and from the PCS destination is at the member's expense and cost is based on the size of the pet being transported. Connecting flights may have fees in addition to AMC fees from BWI(3) EFFECTIVE 1 February 2013, The fee for the import examination is 55 Euro. (4) All pet requirements are at the member's expense

7. PRIVATELY OWNED FIREARMS (POF)

Shipping of any kind of weapon is prohibited. The Italian Government has imposed a ban on shipment of privately owned firearms to Italy. POF includes any weapons that is designed for or can be readily converted to be used for attack, defense, sports, games or hunting by driving a projectile through the barrel. This includes air pistols, air rifles and firing replicas of antique firearms. Additionally, it includes spring-opening knives, fixed bowie knives, straight-edge razors, brass knuckles, blackjack devices, cans with sharpened points, pipes, chains, slings, metal spheres, and any other like weapon which may be used for offending a person is forbidden. Italian law states that pocket knives may be carried, but the blade must not exceed two inches in length.

8. PRIVATELY OWNED VEHICLES (POVs)

SAFETY REQUIREMENTS: There are no restrictions as to color, age, dimensions, or special lighting of POVs imported. Vehicles must be in mechanically safe operating condition and each must undergo a detailed safety inspection. Vehicles that do not conform to the mechanical and safety standards may be denied a decal and/or temporary pass for operation aboard the military installation. Common causes of POV inspection failures in Italy are:(1) Brakes: A POV must have two separate means of applying brakes. The failure of one braking system must not affect the other.(2) Horns: A POV must be equipped with horns capable of being heard at least 200 feet.

(3) Lights: All installed lights must be operational. The tail lights or a separate lamp must illuminate the rear license plate. Backup lights must function when the transmission is engaged in reverse gear. All POVs except light motorcycles or mopeds 50cc or less will be equipped with directional signals.(4) Tires: All tires must have at least 1mm tread over the complete tire surface. No re-grooved tires are allowed; the tires must be mounted on the drive wheels of the vehicle, unless the POV is equipped with snow tires. Tires extending laterally beyond the fenders are prohibited.(5) Windshield Wipers: Must be operational and the blades serviceable.(6) License Plates Mounts: All vehicles require front and rear license plate mounts. (7) Others: Faulty exhaust system, exterior condition (missing fenders, broken windows, etc.), missing mirrors, and improper wheel alignment (wheels that cannot be turned from full right to full left without jamming or rubbing part of the vehicle). VPC: Livorno,Italy Requirements: "Members shipping a POV to Italy are advised that it is extremely important that the owner's name shown on the title of the vehicle or the current vehicle registration must match the name of the person registering the POV. The Italian customs does not accept a power of attorney from any person other than the person whose name is shown on the title of the vehicle or the current vehicle registration to register a POV.AVIANO REQUIREMENTS: All POVs operating on Aviano Air Base will conform to POV Safety Standards outlined in Aviano Instruction 24-307 (available on the Aviano Air Base Web-Page (https://avo-intranet/LogReadiness/_html/lgrvm_pov_main.htm). (CH)POV DOCUMENTATION: Duty-free clearance of POV and/or motorcycle/moped shipped as a POV is arranged by military terminal personnel at the port of entry. In order to complete this procedure expeditiously, it is imperative that the DD 788 or DD 788-2 clearly states the correct chassis and license of the vehicle imported. To further expedite customs clearance and vehicle registration, ensure that the advance copy of the DD 788 or DD 788-2 is mailed to the destination ITO/TMO prior to shipment arrival. Also ensure member retains a legible copy of the DD 788 or 788-2 for both automobile and/or moped/motorcycle shipped as POV. "Members shipping a POV to Italy are advised that it is extremely important that the owner's name shown on the title of the vehicle or the current vehicle registration must match the name of the person registering the POV. The Italian customs does not

accept a power of attorney from any person other than the person whose name is shown on the title of the vehicle or the current vehicle registration to register a POV." (CH)

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) The Italian Ministry of Finance (Customs) authorizes DOD military and civilian employees to import, free of duty taxes, no more than three privately-owned motor vehicles including motorcycles for personal and/or family member's use. However, only one is authorized at government expense. For registration and licensing of a vehicle that exceeds 50cc personnel must be 18 years of age and possess a valid operators permit for the imported automobile or motorcycle. For motorcycles that exceed 350cc personnel registering must be 18 years of age. (2) Due to customs clearance process, POVs for La Maddalena, IT, should be consigned to KF1 Naples or FFT KG2 La Maddalena, IT. Forward a legible copy of the POV registration with a copy of the PCS orders to NAVSUPPACT La Maddalena, same procedures applies to shipping a motorcycle with HHG.

(3) Due to customs clearance process, members shipping a POV to the Port of Naples are advised it is extremely important to forward a legible copy of the POV registration prior to the expected arrival date of POV. Mail to: PPSO S43 NAVSUPPACT, PSC 808 Box 42, FPO AE 09618-0042. Same procedures apply to members shipping a MOPED or motorcycle with HHG. (4) A POV shipped at owners expense must clear customs at the port of entry. Customs clearance must be arranged through a broker and all associated fees are the owner's responsibility. The fee is approximately 250 US dollars.

b. MOTOR CYCLES/MOPEDS

FOR ASSISTANCE AND CLARIFICATIONS ON MOTORCYCLE AGE RESTRICTIONS FOR NAVY PERSONNEL ASSIGNED TO NAPLES AND SIGONELLA, PLEASE REFER TO THE APPROPRIATE PPCIG INTERNATIONAL PPSO PAGE.NOTE: Motorcycle age restrictions ONLY affects Air Force members assigned to Aviano Air Base, Italy. To drive motorbikes, starting 19 January 2013, there are three different kinds of driver's licenses: A1, A2, or A. A1 driver's license can be obtain with 16 years of age and allows driving small motorbikes, A2 driver's license it is an intermediate license slightly different from the one that was released prior than 19 January 2013 because allows, from 18 years of age on, to drive motorbikes which have a slightly higher power. Driver's license A, no limits driver's license, also known as A3 driver's license, allows driving all kinds of motorbikes but now, it can be obtained only after 24 years of age. The age limit can be lowered to 20 provided that an A2 driver's license has been issued to the driver since at least two years. The driver who already has the B driver's license, to obtain the A driver's license only need to take the practical exam. To start driving a motorbike prior than 24 years of age, it is then possible to obtain A1 driver's license starting with 16 years of age or A2 driver's license starting from 18 years of age. It is important to underline the fact that the concept of loss of limits does not exist anymore: to pass from one category to the other it is always necessary to take the corresponding practical exam. CONTACT the destination TMO/ITO before shipping your motorcycle! ATTENTION: Personnel assigned to Aviano AB are NOT authorized shipment of any Off-Road vehicle to this location regardless of the cc's.1. All mopeds, motorbikes, and motor scooters shipped with HHG are entered duty free, but must be licensed and registered with the motor vehicle registration office prior to use on the road. Plates will be not issued for those less than 50 cc. To operate any motorcycle, or other two wheeled vehicles the registered owner/operator must be 18 years of age and have a motorcycle endorsement on the stateside license. Also before registration and licensing all individuals must show evidence of

successfully completing an approved motorcycle safety course. (CH) 2. To effectively clear customs by local port officials, all mopeds/motorcycles shipped with HHG must be packed in a separate container (Container # 1). a. Crate must be properly marked on the outside of the crate that this shipments contains a motorcycle/moped b. Government Bill Of Lading i. Block 27 1. This shipment consists of one lot of household goods and motorcycle (Type, chassis/serial number)

c. Inventory must include: i. Type, Year and Make of Motorcycle/Moped ii. Serial/Chassis Number d. Transportation Control and Movement Document (TCMD) i. Type, Year and Make of Motorcycle/Moped ii. Serial/Chassis Number 3. A copy of the title/registration,the members orders , GBL and inventory regardless on destination must be sent to Personal Property Shipping Office, Attn: Motorcycle Clearance, PSC 808 Box 42 FPO AE 09618 4. Failure to comply with this requirement could result in the return of the motorcycle/moped, confiscation by Italian Customs Authority, fine or penalty and paid of importation fees. 5. Carrier Must Ensure the following: a. Inventory is properly prepared b. GBL is annotated with the motorcycle c. Ocean Bill of Lading Identities that shipment contains motorcycle d. Advance paperwork is forward to General or Port Agent.(Vicenza and Livorno) The following guidance is provided to assist with shipment of motorcycles into Italy for GBLOC: WKAS area of responsibility. Motorcycles may be shipped as Household Goods but must be packed in a separate container and listed on the inventory with make, model and chassis number in addition block 27 on the PPGBL and/or the TCMD must identify the make model and chassis number, (example: THIS SHIPMENT CONSISTS OF ONE LOT OF HOUSEHOLD GOODS WITH A 1984 HONDA 750CC MOTORCYCLE CHASSIS/SERIAL NUMBER JT2AM21). When the origin installation fails to give destination prior notification of shipments with a motorcycle, major problems with the Italian Customs Authority can occur. A COPY OF THE ORDERS MUST BE IN THE ADVANCED PACKAGE TO THE TSP, OTHERWISE THE MOTORCYCLE CANNOT BE CUSTOMS CLEARED. Failure to properly import the motorcycle is a violation of Italian Law and requires a formal letter of explanation to the customs office on why the motorcycle was not cleared properly and request after the fact clearance. Italian Customs can fine the US Government, the member or confiscate the motorcycle. After the fact and approval is not guaranteed. Prior notification by the origin PPSO will prevent these problems. For questions please contact GBLOC: WKAS, Inbound Branch usarmy.rheinland-pfalz.405-afsb.mbx.basops-inbound@mail.mil Origin PPSO must have the member provide clear and legible copy of the title and registration to their office. If the title is held by a lien holder, customs MAY accept a letter from the lien holder authorizing the motorcycle to be exported, although there is no guarantee that customs will accept such a letter but the member still needs to provide it. Without the title and registration or letter from lien holder, the member may be subject to duties, taxes, as well as, having to finalize customs and register their motorcycle on their own: Origin PPSO will provide the copies of the paperwork to the TSP so they can forward the paperwork to their Italy agent prior to arrival of the motorcycle in Italy: TSP responsibility - The ocean bill of lading (OBL) must list the motorcycle, VIN number, make, and model (it will be up to the TSPs to instruct their CONUS port agents accordingly). Italian Customs require motorcycles to be cleared at final destination rather than at the port of entry. NOTE: Motorcycles will be moved from the Italian port of entry to destination on a requested AE Form 302 issued by GBLOC: WKAS. In order to prepare the AE Form 302, the above-mentioned information must be noted on the GBL, inventory and OBL. Shipments being custom cleared will require 2 (two) AE Form 302 request from the TSP (1 for household goods and 1 for motorcycles). If this information is not available, the motorcycle container and household goods containers will be delayed pending customs clearance at the port. Upon arrival at final destination, customs requires copies of the title and registration. NOTE: These requirements do not apply to off-road bikes (dirt bikes), as they do not have to be registered in Italy. If off-road bikes are declared on the GBL and inventory document as motorcycle and not dirt bike, this will cause major problems and delays in the customs clearance

process.

c. GASOLINE/CATALYTIC CONVERTERS

1. There is adequate availability of unleaded gas to accommodate the operation of catalyst-equipped POVs. Members shipping a POV to Italy no longer must remove their catalytic converter to participate in the DOD Importation Control Program. There are no approved facilities for removing/refitting catalytic converters.

d. INSURANCE AND SAFETY REQUIREMENTS

(1) Insurance is required to operate all vehicles on Italian highways.(2) Automobile insurance for the Naples area is expensive. Cost depends on make, model, and year of vehicle with the annual premium for minimum coverage costing up to $4,000.00 per year. Vehicles cannot be released for registration and use, without proof of valid insurance.(3) Liability insurance with equivalent dollar minimum of 100,000-50,000-10,000 is currently required. Individuals who retain this coverage with US companies must possess a valid insurance green card. Insurance is available on the local economy.

Retired personnel who choose Italy as home of selection and wish to ship their household goods should contact the nearest Italian Embassy or Consulate for information concerning customs, taxes, and any other requirement in connection with importation of personal property into Italy or obtain the Certificate of Residence issued by the local Italian area city Municipal Hall officials. When accomplished and prior to shipment arrival, contact the commercial carriers broker with the documents to obtain clearance. Shipments may be made on the PPGBL (SF1203), however, upon shipment arrival the customs clearance process is their responsibility and is not authorized at government expense. The GBL when issued must be annotated in block 25 with the words retirement or separation shipment.

All accompanied Air Force members PPTY shipments to or from Kadena AB, Yokota AB, and Misawa AB which are picked up on or after 1 Mar 08 are authorized to ship their full JTR weight entitlement. This DOES NOT indicate members must ship their full weight. b. Housing in Japan is smaller than homes in the CONUS, commercial storage in Japan is almost non-existent and housing offices will not fund items to be sent back for storage. Members must be counseled on items provided to them (i.e. washer, dryer, refrigerator, stove, etc.), type of housing available to them and size of houses to determine what to ship and

what items to place in NTS for the duration of their tour in Japan. All worldwide Personal Property offices must consult each installation specific PPCIG instructions to properly counsel the member.c. Consistent with Air Force policy all unaccompanied members are authorized either an unaccompanied baggage shipment or elect 10% of full JTR weight entitlement via surface. However, AFI24-602v4, Table A3.1, Rules 2 and 4, and the Overseas Furnishings and Housing Availability report may authorize additional weight contingent upon the members rank or employees' grade and unaccompanied housing availability. All additional authorized weight must be identified on members or employees PCS orders.b. Air Force personnel assigned to non-AF installations (e.g., Camp Zama, etc.) receive the same weight entitlement as hosting base personnel, unless the gaining Military Personnel Flight (MPF) (identified on PCS orders) dictates a higher weight entitlement.3. NAVY PERSONNEL (Also see Item 7 below):a. All accompanied Navy personnel with personal property shipment(s) picked up on or after 02-Apr-2019 are authorized to ship their full JTR weight entitlement. All accompanied Navy personnel with PCS orders to a USMC Command or Unit on MCAS Iwakuni, Japan dated 02 Apr 2019 or thereafter, are authorized to ship up to their full JTR weight entitlement per JTR, AP-AW-01 dated 1 April 2019.b. Japan (Includes Navy personnel assigned to a Non-USMC Command or Unit on MCAS Iwakuni, Japan): Accompanied Navy personnel are authorized to ship up their Full JTR weight allowance per JTR, AP-AW-01 dated 1 April 2019.(1) This DOES NOT indicate customers should ship their full authorized weight.(2) Housing in Japan is smaller than homes in CONUS.(3) Accompanied Navy personnel must be counseled on the new weight allowance for Japan to ensure items not needed are not shipped. 5. FURTNITURE, OVERSIZED

--a. MISAWA AB: Due to shortage of Government-owned essential furniture items, members with pay grade of E5 and above serving an accompanied tour are required to ship privately-owned essential furniture items, i.e., beds, clothes chests, dining set, and living room sets to Misawa AB, JA, in conjunction with their PCS move.----ATTENTION: Please be advised all major appliances such as stoves, refrigerators, washers, and dryers are available and will be furnished by the Government. Exception is a freezer, which is not provided by the Government. Due to small size of on and off-base quarters, contact your local sponsor for additional data concerning size and available floor space of quarters. Consider NTS Non-temporary Storage (NTS) of nonessential items to avoid unnecessary and expensive commercial storage at Misawa area. (CH)--b. YOKOTA AB: Effective 1 September 1998, Air Force personnel assigned to Yokota will be authorized concurrent travel. Individuals should contact their sponsors or their gaining command to inquire about housing and the availability non-availability of government furnishings.--c. YOKOSUKA NAVAL BASE, YOKOHAMA, CFAY SASEBO, NAF ATSUGI, MCAS IWAKUNI: ALL DOD PERSONNEL MUST be counseled that Commercial Storage in Japan is almost non-existent. Most local economy Japanese-styled homes or apartments cannot accommodate large furniture items. Items may not fit through doorways, staircases, elevators or windows. Customers may incur excess cost to dispose of or relocate excess or oversized furniture. To avoid unnecessary and expensive commercial storage, large furniture items and major appliances such as a washer, dryer, gas range, freezer, refrigerator, large couches sofas and king size bed sets should be placed in NTS at origin for duration of the overseas tour. Major appliances are furnished in both Government Quarters and Off-Base Housing (local economy) upon request from the command-sponsored DoD customer.(CH 28-JUL-2015 SDDC-PAC

6. PETS/QUARANTINE

--a. SHIPPING PETS----(1) The shipment of pets as excess baggage accompanying the member in PCS travel may be accomplished by requesting category --B-- travel.----(2) Advance (90-120 days) reservations are required for pets and should be requested at the same time PCS port call is being requested. There is no entitlement for shipment of pets at Government expense. Pet owners are responsible for making all travel arrangements, complying with shipping requirements, and all associated costs. (CH SDDC-PAC 14-Jan-2011 RB)--b. JAPANESE REGULATIONS----(1) Japanese Animal Quarantine Service Regulations require all animals entering Japan be examined to determine if they are free from communicable diseases.----(2) Animals found to be free from communicable diseases and meeting entrance requirements may be released to the owner s custody, subject to the restrictions discussed below.----(3) As of 6 June 2005, the Government of Japan (GOJ) began enforcing a new quarantine program for import and export of animals and pets.--------(a) Active duty military members, members of the civilian component and their respective dependents enter Japan under the US-Japan Status of Forces Agreement (SOFA). The SOFA sets forth rights and responsibilities applicable to US Forces individuals who enter Japan.--------(b) US Forces, Japan (USFJ) negotiated with the Government of Japan to resolve how this new pet quarantine program will affect SOFA status personnel. This document provides guidelines and recommendations for SOFA status personnel assigned to Japan who will be transporting personal pets into and out of Japan.--------(c) There will be some differences between how the new Japanese pet quarantine program will be applied to SOFA status members and how it will apply to others. Due to these differences, the information on the new pet quarantine program published by the GOJ, the US State Department, the USDA, and the USFJ may differ.----(4) To minimize any inconvenience which might otherwise be experienced, we recommend following the guidelines listed below.--------(a) DO NOT HESITATE TO CONTACT THE INSTALLATION VETERINARIANS IN JAPAN IF NECESSARY. All contact information may be found on the Japan District Veterinary Command website: (http: www.usarj.army.mil organization vet index.htm).--c. LENGTH OF QUARANTINE----Ministry of Agriculture, Forestry and Fisheries (MAFF) quarantine inspectors and US Army Veterinary Command veterinarians will determine the length of each pet’s quarantine period when the pet arrives in Japan. The quarantine periods will range up to 180 days.--d. RECOMMENDATIONS----(1) The USFJ Veterinarian offers the following recommendations to assist SOFA status personnel in the movement of their pet to Japan. Each item listed below is important and must be accomplished AS SOON AS THE MILITARY MEMBER IS AWARE OF MOVEMENT TO JAPAN. This will ease the transition and acceptance of the pet into Japan.--------(a) Microchipping: Before completing any of the following requirements, PLEASE MICROCHIP YOUR PET FIRST. Any vaccinations or testing prior to microchipping will be considered invalid. All animals must obtain a microchip before arriving in Japan. ISO or ISO-compatible chips that meet the ISO 11784 and 11785 Standard are recommended. HomeAgain and AVID microchips are acceptable. The identification number of the microchip must be annotated on the Rabies Certificate, the Health Certificate, and on the rabies serology (FAVN) test results sheet.--------(b) Vaccinations: SOFA status personnel bringing a dog or cat into Japan should be prepared to present documentary evidence that their pet has had at least two rabies vaccinations since being microchipped.----------(i) The most recent vaccination must have been given not less than 30 days and not later than 12 months prior to arrival.----------(ii) The most recent rabies vaccination form (DD 2208, Rabies Vaccination Certificate) will be required and requires annotation of the microchip number.----------(iii) Complete information for the past two rabies vaccinations will be annotated on the health certificate (MDJ OP 2209, Veterinary Health Certificate for Import Export for

Japan).----------(iv) The first rabies vaccine may be given at the same time as the microchip. The second rabies vaccine booster should be given at least 30 days or more after the first rabies immunization.--------(c) Fluorescent Antibody Viral Neutralization (FAVN) Test:----------(i) This blood test needs to be performed after the second rabies vaccination and is good for up to 2 years.----------(ii) For PUPPIES and KITTENS (< 12 months): blood should be drawn >30 days after the second rabies vaccination.----------(iii) For ADULT DOGS and CATS (>12 months with a history of rabies vaccinations): blood can be drawn within 2 days or later of the second rabies immunization.----------(iv) A FAVN test result which indicates an antibody level greater than or equal to 0.5 IU ml is acceptable. The microchip number needs to be annotated on the FAVN test result form. The FAVN blood test can be ordered through Kansas State University Rabies Laboratory or DOD Veterinary Food Analysis and Diagnostic Laboratory, Fort Sam Houston, TX.--------(d) Advance Notification:----------(i) Kadena AB, Yokota AB, and Misawa AB currently have capabilities for handling AMC arrivals of dogs and cats so the ADVANCE NOTIFICATION IS NOT NEEDED IF THE ANIMAL ARRIVES AT A MILITARY INSTALLATION.----------(ii) If the animal is traveling by commercial air, the GOJ requires an advance notification of pet movement as soon as transportation is scheduled for SOFA members. A notification approval will be returned and is used when checking the animal in with the airline. Therefore, in order to avoid problems at check-in with the airline, this prior notification approval form is VERY IMPORTANT. Please annotate in the --Remarks-- box the following statement: --This pet belongs to a US SOFA sponsored family and will be assigned to (list installation).----------(iii) The advance notification form is found on the JDVC website:http: www.usarj.army.mil organization vet r_doc.aspx----------(iv) The advance notification form is required to be sent by mail or by FAX to the port of entry. Addresses and FAX numbers for the respective port of entry may be found at this website (Narita arrivals should fax to Terminal 1): http://www.maff.go.jp/e/index.html--------(e) All incoming animals must enter Japan through officially designated ports:----------(i) Seaports: Keihin, Nagoya, Osaka, Kobe, Kanmon, and Naha.----------(ii) Airports: New Tokyo (Narita), Tokyo (Haneda), Nagoya, Osaka (Kansai),Fukuoka, Kagoshima, and Naha (Okinawa).----------(iii) Military AMC ports: Kadena AB, Yokota AB, and Misawa AB.--e. HEALTH CERTIFICATE:----(1) An individual health certificate is required for each animal that is moved into or out of Japan. The military health certificate is valid for 10 days and must be completed within 10 days before arrival. Please note the traveler will lose one day during travel to Japan from the US.----(2) The MDJ OP Form 2209 (Veterinary Health Certificate for Import Export for Japan) may be used by military veterinarians. The MDJ OP Form 2209 may be found onwww.public.navy.mil/surfor/lsd49/Documents/2209.pdf. (CH 09-Jan-2018 USTCJ4-HB-PAC RB)--f. USDA CERTIFICATION:----(1) If a health certificate is issued by a licensed civilian veterinarian, the health certificate and rabies certificate must be certified by a USDA State Veterinarian and bear the USDA raised embossed seal. These health certificates are valid up to 30 days before arrival.----(2) Health certificates issued by a military veterinary treatment facility using the MDJ OP Form 2209 do not require the USDA certification.----(3) Airlines require a health certificate that is within 10 days of arrival. Therefore if the USDA certified health certificate isn not dated within 10 days of arrival, an additional certificate will be required within 10 days of arrival for the airline.----(4) The USDA certified certificate will be used upon arrival for processing the pet at Customs.--g. AGE REQUIREMENT:----(1) Japan discourages the importation of dogs and cats under the age of 12 months. These pets rarely meet the vaccination and FAVN test requirements prior to 11 months.----(2) Pets under the age of 11 months can be imported but must start out with a 180 day quarantine period. This quarantine period may be reduced if all of the steps above are completed before arrival in Japan. Primary emphasis is placed on microchipping, rabies vaccinations (one at 91 days of age followed by a second one not earlier than 30 days after the first), and the FAVN test (must be drawn not earlier than 30 days after the second rabies vaccination).----(3) For animals over the age of 12 months, with a history of vaccination, the primary difference is the

FAVN test may be performed any time after the second rabies vaccination.--h. OFFICIAL TRAVEL ORDERS (2 copies):----Pet owners must submit Official Travel Orders upon arrival at the Animal Quarantine Service in the airport Customs area to verify SOFA status.--i. MDJ Form 270 (Pet Quarantine and Examination Certificate; 2 copies):----(1) All SOFA status personnel entering Japan with a pet must complete a MDJ 270. The MDJ 270 allows your pet to be released to you for transportation to your US Military Quarantine Facility. The form may be downloaded from the JDVC website and should be completed prior to arrival in Japan.----(2) You must submit the form to the Animal Quarantine Officer upon arrival, then to your US Military Veterinary Treatment Facility within 72 hours after entry into Japan to continue and complete the quarantine processes.--j. USFJ Form 380 EJ (Customs Free Import or Export of Cargo or Customs Declaration of Personal Property):----(1) This form is required when your pet(s) enters Japan unaccompanied as cargo or on a different flight as the sponsor. You do not need this form if you are accompanying the animal as baggage.----(2) You can only use this form within 6 months of being assigned to Japan. After 6 months, you can still use the form, but you may be required to pay any Customs duties associated with bringing a pet into the country. You may obtain the form by having your sponsor take a copy of your orders to the transportation office at your gaining command. The base transportation officer will sign the appropriate box after verifying your orders.--k. Pet owners or their authorized representatives should be prepared to provide the following information to the Animal Quarantine Officer:----(1) Military mailing address----(2) Duty phone number (Ask your sponsor for a duty number)----(3) Command informationNOTE: Placing the above certificates in a zip lock plastic bag and taping it securely to the top of the Pet s cage seems to work best. These forms must accompany the animal during transit. Ensure these forms are completely filled out. It is suggested that you carry in your possession the originals of each certificate. When clearing customs, all supporting documentation, including the animal s health record, must be available for referencing in case questions arise concerning the health and or identity of the animal and validity of the records.--l. QUARANTINE PERIOD:----(1) The quarantine period is primarily determined by the date the blood for the FAVN test was collected. This is only valid if the microchip was received prior to the two rabies vaccinations and the rabies immunizations were received prior to the blood being drawn for the FAVN test. The FAVN test result level must be equal to or greater than 0.5 IU ml. Equation used: (180 days) minus (# days since blood drawn for an acceptable FAVN test at the date of arrival) Additional Japan Pet Information***For the most current information, contact your local VTF or USDA APHIS website (https://www.aphis.usda.gov/pet-travel/us-to-another-country-export/pet-travel-us-japan). In addition, refer to https://www.maff.go.jp/aqs/animal/dog/attach/pdf/import-other-42.pdf for a complete guide.Limitations to Consider Before Travel: Dogs and cats imported into Japan must undergo an import quarantine up to 180 days depending on the import inspection.Transportation Considerations: Pets may travel as hand luggage (checked baggage) and/or cargo. The PATRIOT EXPRESS is an authorized means of travel for travelers on official duty orders to and from Japan. Airlines may apply restrictions for travel (ie. Brachycephalic dogs) Pet travel cost and related expenses are the responsibility of the owning customer.Vaccination Requirements:1. Dogs:a. Rabies. Two rabies vaccinations, 30 days apart. If planning to export a pet, apply for exportation at the Animal Quarantine Service office at least 7 days prior to export.Japan is considered a low-risk rabies country. Follow CDC procedures at https://www.cdc.gov/importation/dogs/rabies-free-low-risk-countries.html(CH USTC/J9 13MAY25, TF)

7. PRIVATELY OWNED FIREARMS (POF)

--a. U.S. Forces Japan (USFJ) personnel must meet the requirements of Japanese law when importing or possessing POFs in Japan. Japanese laws are strict. Japanese police that discover U.S. Forces personnel carrying a pocket knife or other bladed instruments without a justifiable reason (Self-Defense or General use are not sufficient reasons in Japan) may be apprehended for violation of the Firearms and Swords Control Law or other laws. USFJI 31-207, Firearms and Other Weapons in Japan contains detailed information on what weapons can and cannot be shipped to Japan. It also incorporates changes to Japanese law with regard to possession and ownership of knives and other bladed instruments. The Japanese Government has PROHIBITED local agents in Japan from line hauling HHGs shipments containing firearms on Japanese highways. USFJ members are NOT AUTHORIZED to import or possess the following in Japan (includes Okinawa).----(1) Handguns----(2) A muffler or a silencer for any firearm----(3) Machine gun----(4) Shotguns larger than 12 gauge (i.e. 8 and 10gauge are prohibited)----(5) .410 caliber shotguns that the Japanese government considers technically capable of firing a rifle round.----(6) Any power-charged rifle for hunting game birds.----(7) Imitation handgun. Any product made from metal in a form remarkably resembling a handgun.--b. POF SHIPPING: Privately owned firearms will not be shipped in either unaccompanied baggage (UB) or household goods (HHG) shipments to from Japan. Shotguns and

rifles will be mailed to Japan through the U.S. Postal System, consigned to the Commander, unit of assignment, of the gaining member, and stored IAW Commanders guidance developed IAW paragraph 12.1 and 12.2 of USFJI 31-207 until properly registered IAW with paragraph 5.6. (CH 20-Sep-2012, SDDC-PAC RB)--c. POF STORAGE: Service Component and installation Commanders will determine firearms storage requirements for persons residing in accompanied housing on U.S. installations. Privately owned firearms will not be stored in unaccompanied housing quarters or billeting. Privately owned firearms may only be stored in off base housing once they have been properly registered with the government of Japan and comply with Japanese laws for firearms storage. Until personnel acquire their firearms permit, weapons must be stored in approved weapon storage areas within USFJ installations.--d. COMMANDER AUTHORIZATION: Service commanders are authorized to impose more stringent requirements than those outlined herein regarding privately owned firearms (POFs). It is imperative that all inbound personnel interested in shipping firearms and other weapons as part of a move to Japan contact their unit of assignment prior to arranging shipments.--e. POF REGISTRATION: All privately owned firearms must be registered at the installation where owners are assigned within 7 days after importation or acquisition. Japanese firearm permits are required for possessing, using, storing, and transporting privately owned firearms outside U.S. installations and facilities.--f. ALL U.S. NAVAL INSTALLATIONS IN JAPAN (FLC Yokosuka, Sasebo, and Atsugi): Importation of all types of firearms into Japan is prohibited. U.S. military members, or U.S. Civilian components, assigned to duty either on a permanent basis, or extended temporary duty, shall not import by mail, or household good shipments, any type of handgun, rifle, shotgun, pellet, air or bb guns.--g. FOR OKINAWA: Importation of handguns, rifles, pellet, air and BB guns to Okinawa is strictly prohibited. Possession of these types of firearms on Okinawa is not authorized. Shotguns, may be imported, however, it is strongly discouraged. Use of parcel post only (subject to postal regulations). Members must mail shotgun(s) to their gaining unit Commander, marked for member. Shotguns MUST be stored in the armory and can only be checked out as needed for approved use. DOD members must have a current Japanese gun permit prior to transporting, using, storing, or otherwise possessing firearms outside military installations on Okinawa. DoD members planning to ship shotguns must coordinate with their sponsors or gaining unit before proceeding with the shipment.--h. AGE REQUIREMENT: Persons under 20 years old are prohibited from owning, purchasing, possessing, carrying, or registering privately owned firearms and ammunition in Japan. This includes military members under 20 years old.--i. AMMUNITION: Members are prohibited from importing or exporting privately owned ammunition into Japan. The sale or transfer of ammunition to non-SOFA status individuals is strictly prohibited.--j. BLADED INSTRUMENTS: Japanese law prohibits restricts bladed instruments outside of U.S. installations and facilities. Items prohibited from importing into Japan, including Okinawa are:----(1) Privately owned daggers and double-edged knives with a blade length of 5.5 centimeters (2.1 inches) or longer.----(2) Spring switchblade knives with a mechanism to automatically open a blade 45 degrees or more.--k. CUTLERY: Cutlery (such as kitchen knives, box cutters, or other single, non-folding bladed cuttinginstruments) exceeding 6 centimeters (2.3 inches) are prohibited outside of U.S. installations andfacilities unless carried for business or other justifiable reasons. Recommend shorter bladedinstruments also not be carried unless for business or other justifiable reason. Cutlery that is lessthan 6 centimeters (2.3 inches) without a justifiable reason may also result in being detained orapprehended for a violation of a Minor Offense law.--l. SCISSORS OR FOLDING KNIVES: Scissors or folding knives exceeding 8 centimeters (3.1 inches) are prohibited outside of U.S. installations and facilities unless carried for business or other justifiable reasons. Folding knives stated above does not include switchblades which are categorized as swords.--m. SWORDS: Swords may be detained or confiscated by Japanese Customs officials upon entry into Japan. Swords that are part of an official U.S. military (including U.S. Coast Guard) uniform do not

require a permit or registration with the Japanese authorities. However, they must be listed on the owners travel orders.----For transporting swords outside of U.S. installations for other than official U.S. military ceremonies, authorization must be obtained from the local Public Safety Commission (Police Department) prior to the event. Transporting official military swords outside of U.S. facilities and areas as part of official ceremonial functions, or as part of an official uniform, and also when entering or departing Japan, should be authorized in writing by appropriate commanders. A person that carries or transports a privately owned sword (non-part of an official U.S. military uniform) outside of U.S. installations shall carry a Japanese license or registration certificate for the sword.--n. BLADED INSTRUMENT TRANSPORTATION: Transporting privately owned bladed instruments outside U.S. facilities and areas for off-base cultural or sporting activities must be IAW Japanese law. For transporting knives or other cutlery to camping or other recreational events, it is recommended to pack the items with the camping or other gear to confirm their intended use.--o. BOWS AND ARROWS: Recreational bows arrows are considered weapons and must be controlled to prevent misuse. Recreational bows arrows are authorized under the following conditions: ----(1) Individual Use. Personal bows arrows for individual recreational use may only be imported into Japan via authorized household shipments or purchased through authorized retailers in Japan, including through Article XV organizations. ----(2) Personnel are authorized to store bows arrows in their on base government quarters, unless otherwise directed by local installation instructions. Storage of bows arrows in off installation residences will be in accordance with Japanese law. Bows arrows will be stored in a locked container or closet to prevent access to minors or unauthorized personnel when not in use. Storage of bows arrows is not authorized in unaccompanied barracks dormitories. Service Component and installation Commanders will determine registration requirements, if any.--p. THE FOLLOWING TYPES OF POFs MAY BE LAWFULLY IMPORTED AND REGISTERED IN JAPAN BY U.S. FORCES PERSONNEL:----(1) Hunting and sporting rifles including .22 caliber rifles. However, .22 caliber rifles are prohibited for hunting. The minimum bore size for hunting in Japan is .23 caliber.----(2) Defined as a gun customarily used for hunting or sporting, including military type rifles that have been converted permanently.----(3) Hunting and sporting rifles (including shotguns) must meet the following restrictions:--------(a) Not capable of automatic, successive firing such as machine guns. The magazine shall be such that it can load no more than 5 rounds of ammunition or metal bullets. Shotguns may not have a load capacity greater than 3 rounds. --------(b) The caliber of a rifle bore cannot exceed 0.41 inches (10.5 millimeters).--------(c) Shotgun bores cannot be larger than 12gauge i.e. 8 and 10-gauge shotguns are prohibited.--------(d) The length of the rifle or shot gun must exceed 37 inches (93.9 centimeters).--------(e) The length of the barrel must exceed 19.25 inches (48.8 centimeters).--------(f) Not equipped with a silencing device or silencing equipment to produce silencing effect.--------(g) Not having such serious defects in the firing mechanism or barrel as would create apprehension that a hazard exists.--------(h) .410 caliber shotguns that the Japanese government does not consider technically capable of firing a rifle round.----(4) Firearms designed primarily for target, skeet or trap shooting must be of the types listed above and restrictions stated above apply.--q. AIR GUNS BB GUNS PAINTBALL GUNS PAINTBALL MARKERS (to include Okinawa):(Paragraph added 02-Jul-2015 SDDC-PAC RB)----Shipment of air guns, also called pellet or BB guns, that propel metallic projectiles are not authorized in any personal property shipments (household goods or unaccompanied baggage).----Per USFJ 31-207, para 3.1., air guns (including those in which compressed gas is used) equipped with a mechanism for shooting metallic bullets are considered firearms under Japanese law. Paintball markers or paintball guns with a maximum velocity UP TO 300 Feet Per Second (fps) may be shipped in any personal property shipments (HHG and UB). All DoD installations in Japan do not prohibit shipment, storage, and use of paintball guns markers for use at MWR facilities that accommodate paintball tournaments and or activities.----Per USFJ 31-207, para 6.8., paintball markers (guns) are authorized IAW Service

Component and installation Commanders guidance. Paintball guns markers will only be used during official paintball functions (i.e.-Outdoor Recreation sponsored programs events, official paintball competitions, etc.). All rules, regulations, guidance and instructions will be adhered to.----Per USFJ 31-207, para 6.8.2., any individual who owns a paintball gun marker that closely resembles an actual firearm --MUST-- make arrangements with the Outdoor Recreation section to store the paintball gun marker. If arrangements are not made and the paintball gun marker is discovered, the paintball gun marker will be accounted for, controlled, and stored by military authorities IAW appropriate Service regulations until such individuals depart Japan or until the paintball gun marker is destroyed.---- CO2 cartridges are considered a Hazardous Material, and cannot be included in the HHG UB shipment imported into or exported out of Japan.--r. NOTE: Violators may be severely fined or imprisoned by Japanese authorities, depending on the offense. (CH SDPPP-Pac, Jan 14, 2011)

8. PRIVATELY OWNED VEHICLES (POVs)

--a. POV shipments are subject to embargo or waiver requirements.----(1) Effective 1 April 1996, the Assistant Secretary for Defense (for Management Policy) has granted limited case-by-case, waiver authority to Commander USFJ for shipment of post 1976 type vehicles to Mainland Japan only.----(2) Okinawa continues to be under an embargo status and is not included under this waiver authority except for Category C POVs (see below).----(3) The waiver authority for Mainland Japan has been further delegated by USFJ to Component Commanders. SEE "POVs (Includes data on prohibited vehicles, color, etc.)" paragraph below for authorized Component Commanders.----(4) When requesting a waiver, the following information should be included:--------(a) make, year, model of vehicle--------(b) Vehicle Identification Number (VIN)--------(c) if equipped with California emission.--b. All DoD military members employees must obtain prior approval from their respective service authority in Japan named in para 8.l. All imported motor vehicles must be registered by the Government of Japan.--c. All DoD service members MUST be counseled on the following items:----(1) the high cost of initial registration of their POV in Japan ($3000 to $5000 dollars per vehicle based on 100 Yen to $1.00 US dollar),----(2) availability of parts and qualified maintenance----(3) emissions testing ($3,000 to $5,000).--d. POVs shipped to Japan are either category A, B or C:----(1) CATEGORY A are POVs manufactured prior to 31 March 1976.

--------Category A POVs will have to meet the insurance, taxes, registration fees and local vehicle

emission standards and safety requirements (headlights, color of bulbs, MPH to KPH, speedometer, etc.). This category will NOT require a waiver. Category A POVs may be shipped to Mainland Japan or Okinawa, Japan as appropriate. Estimated cost per vehicle is between $500 to $1000 based on 100 Yen to $1.00 US dollar.----(2) CATEGORY B are POVs manufactured after 31 March 1976. -------- Category B POVs will have to pass Japanese Vehicle Emission Standards (JVES), plus the above-mentioned items (insurance, tax, and registration requirements). This category will require a waiver (component services) and is authorized for shipment to Mainland Japan ONLY! Estimated cost per vehicle is between $3000 to $5000 based on 100 Yen to $1.00 US dollar.----(3) CATEGORY C are Japan-spec POVs previously registered and exported from mainland Japan and/or Okinawa. -------- Category C POVs require a shipment waiver from service component representatives acknowledging all associated costs will be at the personal expense. Copy of the original car title or Japan export title will be presented to Transportation Office during counseling and to the origin Vehicle Processing Center (VPC). Per confirmation from the National Agency, Vehicle Inspections Office, Okinawa, emissions testing is not required for stock vehicles and can be registered in mainland and/or Okinawa, Japan. In order to ensure current emissions and safety standards are met, all modified Japan-spec POVs will be shipped to mainland Japan to undergo emissions, safety, and noise testing. All additional costs plus the subsequent delivery to Okinawa will be at member s or DoD employee s expense. Origin VPCs must ensure NOT to ship any modified Japan-spec POVs directly to Okinawa to include POVs purchased from a Japan Export Company. Any changes that affects safety and the manufacturer s original factory intake, exhaust, tuning and suspension are considered car modification.(CH SDDC-PAC 10-Mar-2017 RB)--e. Due to the remote locations and size of the installations of CDR Fleet Activities Sasebo NAVSUP Fleet Logistics Center Yokosuka Site Sasebo (QENF), MCAS Iwakuni (QEML) and Misawa AB (QEFL), there are no on-base facilities authorized to modify or inspect vehicles to meet Japan emission and safety standards. The estimated cost per vehicle may be $2,000 to $5,000 based on 100 Yen to $1.00 US dollar regardless of vehicle category A or B.--f. Oversized vehicles (i.e.-special purpose vehicles, campers, motor homes, recreational vehicles, etc.) exceeding 12 meters in length, 2.5 meters in width, and or 3.8 meters in height will not comply with Japanese registration standards. Modifications, including installed camper shells, cannot protrude more than 15cm from each side of the vehicle. Total vehicle weight cannot exceed 20 tons: axle weight-10 tons; and wheel weight-5 tons.--g. Members should contact their sponsors and or transportation offices concerning the current cost of owning and operating POVs in Japan.--h. DIESEL passenger vehicles shipped to the Kanto plain: "Government of Japan vehicle regulations concerning some diesel-powered vehicles are in effect in the Tokyo, Nagoya and Osaka metropolitan regions. U.S. Forces must abide by these regulations. The Tokyo region includes CFAY Yokosuka (QENQ), NAF Atsugi (QENL), Yokota AB (QFFL) and Camp Zama (QFAC). The new regulations are designed to reduce pollution in these heavy-traffic areas. Owners of older model diesel vehicles must determine if this law applies to their POV prior to shipping to an affected area. If they are shipping intra-Japan, they can check with their local Land Transportation Office (LTO). The newcomer can also request that his/her sponsor check with the local LTO. Members moving to the affected areas should consider these regulations when purchasing older model diesel vehicles. Information on vehicle registration can be obtained from local (Japan) installation vehicle registration offices." (CH)--i. TRANSPORTING POVS WITHIN JAPAN: (per USTRANSCOM Personal Property Advisory #20-0092 dated 09-Jun-2020)---(1) Effective 15 May 2020, USTRANSCOM modified the Global POV Contract (GPC IV) to include non-standard “quality of life” movement services for transporting POVs from Yokohama Port to Marine Corps Air Station Iwakuni, U.S. Fleet Activities Sasebo, Misawa Air Base, and the island of Okinawa. No GPC IV modifications were required for POVs destined for U.S. Fleet Activities Yokosuka, Naval Air Facility Atsugi, U.S. Army Garrison Camp Zama, or other U.S. military installations in and around Tokyo proper due to the installations’ proximity to Yokohama Port.---(2) Japan INTRA-THEATER POV LOGISTICS SUPPORT

PLAN - --------(a) IAL will provide POV turn in service within a 9 mile (15 kilometers) radius in proximity of Misawa Air Base, Sasebo and Iwakuni. POV turn-in service will not be offered on a walk-in basis. POV turn-in will be offered BY APPOINTMENTS ONLY. --------(b) Appointment scheduling. IAL will confirm receipt of emailed documents and provide any required corrections within 24 hours of receipt. If no changes are required, the response will confirm and notify the customer that their information has been forwarded to our local representative for scheduling. Someone will reach out to them within 48 hours after confirmation that all documentation is complete to schedule an appointment.---(3) REMINDER FOR PPPO COUNSELORS: Since there are no physical VPCs in Japan, customers MUST schedule an appointment with IAL to turn in or pick up their POV. Counselors may point them to the contractor's website, PCSmyPOV (www.pcsmypov.com), for appointment scheduling and other contact information.(CH 18-Jun-2020 TCJ9-OH-Pacific RB)

b. MOTOR CYCLES/MOPEDS

----(1) Motorcycles/Mopeds over 250cc, manufactured 1 July 1999 or later, must comply with Government Of Japan (GOJ)-imposed brake standards. In addition to the brake standard requirement, motorcycles/mopeds over 250cc, manufactured 1 April 2001 or later, must pass GOJ emissions testing and meet engine-exhaust emission control standards.----(2) The estimated minimum costs for mandatory engine exhaust emission testing is approximately $800. Costs to bring a noncompliant motorcycle to standards depends on type model. If a motorcycle does not meet brake standards, costs to bring the motorcycle into compliance could run $2000-$4000. (Brake testing costs depend on type model). These are separate requirements (subject to manufactured dates). Failure to meet compliance places the owner in an even costlier situation. The additional cost of meeting GOJ s standards is subject to the various equipment types and models and degree of difficulty in meeting compliance. There is only one brake testing facility in Tokyo; two emission testing facilities located in Tokyo and one in Osaka. There are no brake or emissions testing facilities

on Okinawa. Furthermore, there are no brake or emissions testing facilities near Misawa, Sasebo, or Iwakuni (mainland Japan).----(3) The following paragraphs outline current DoD policy on importing motorcycles/mopeds over 250cc:--------(a) Manufactured prior to 1 Jul 99: No import restrictions.--------(b) Manufactured 1 Jul 99 to 31 Mar 01: The motorcycle must meet brake standards. No import restrictions to mainland Japan, however, member should have a manufacturer s certificate stating the motorcycle meets Japanese brake standards.----(4) Members assigned to military installations outside the Kanto Plain (Tokyo area) will face high costs and extreme inconvenience transporting the motorcycle to a brake testing facility, if testing is required. Members assigned to Okinawa do not have a brake testing facility on the island.----(5) The motorcycle owner, whether assigned to mainland Japan or Okinawa, should contact the motorcycle manufacturer and obtain a certificate that specifically states the vehicle meets Japanese brake standards. If the member has any doubt about meeting the brake standard, he she may send the manufacturer s brake certificate to the sponsor in Japan and ask him her to check with the local LTO. The sponsor can then advise the member (before shipment) if the motorcycle meets standards. Ensuring the brakes meet Japanese standards prior to shipment is critical, especially for Okinawa, as there are no brake testing facilities on the island.----(6) Manufactured 1 Apr 01 or later: Both brake and engine exhaust emission standards must be met. Members assigned to military installations outside the Kanto Plain (Tokyo area) will face high costs and extreme inconvenience transporting the motorcycle to an engine exhaust testing facility, and to a brake testing facility (if required). Members must sign a memo (prepared by origin Transportation Officer) acknowledging costs inconvenience if the member chooses to ship to mainland Japan. A copy of this memo will be included in advance shipping documents sent to the destination Transportation Office. Motorcycles are prohibited from importation to Okinawa due to the lack of brake and emission testing facilities.----(7) Motorcycles/mopeds must be insured with a temporary registration tag in order to be driven to a testing facility.----(8) It is critical that counselors brief members of the extremely high GOJ compliance costs when shipping motorcycles/mopeds into Japan. Counselors should advise members, as an alternative, to place their motorcycles/mopeds into non-temporary storage as household goods for the duration of their tour in order to avoid compliance expenses. Service members may also use their POV storage entitlement (if a POV is not shipped) to store their motorcycle as a POV in the POV storage program where it will receive proper care.----(9) IAW Japanese Customs requirements, all motorcycles (to include mopeds) shipped as HHGs must be properly inventoried. The make, model, chassis number, and engine size must be noted on the inventory and shipping documents. Motorcycles may also be shipped as POVs. (NOTE: motorcycles/mopeds do not require POV waivers). Motorcycles/mopeds shipped as part of HHGs that fall in the above manufactured date category [b.(1)] must still comply with GOJ requirements.----(10) Motorcycles shipped as HHGs to Japan: All Transportation Offices are required to identify the inclusion of a motorcycle with make, model, chassis number, and engine size in block 25 of the PPGBL and as trailer card data on applicable Transportation Control and Movement Documents. Personal property Transportation Service Providers must show the same information on the inventory.----(11) Diplomatic Personnel: Department of Defense personnel on diplomatic assignment to the U.S. Embassy, Tokyo must contact their sponsor or the Transportation Section of the Embassy for specific guidelines regarding shipping a motorcycle.

c. GASOLINE/CATALYTIC CONVERTERS

----(1) Gasoline purchased on military installations is 89 octane. Off-installation gasoline is minimum 89 octane. Prices off base start at approximately $4.00 per gallon for 89 octane. Higher grade gasoline off base is more expensive.----(2) CUSTOMERS SHOULD BE COUNSELED ON EXTREMELY STRINGENT EMISSION STANDARDS IMPOSED.

d. INSURANCE AND SAFETY REQUIREMENTS

----(1) Effective 01 Jan 1997, each POV shall have insurance required by the Japanese Motor Vehicle Damage Compensation Guaranty Law.----(2) POV owners must secure and maintain supplemental coverage of no less than 30,000,000 Yen or $300,000 for bodily injury, and 3,000,000 Yen or $30,000 for property damage.----(3) Military and family members, and civilians assigned to US Navy commands, shall not operate private or rental vehicles unless the proper insurance provisions have been met.SAFETY in the MISAWA AB area: If a POV is destined for Misawa AB between 01-Dec through 31-Mar, four(4) snow tires are highly recommended.

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

The importation of pornographic material is a violation of Japanese law. Any exposure of the pubic area is considered pornographic. Those items determined to be pornographic will be confiscated and destroyed.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

No restrictions identified.

11. TRANSMITTING EQUIPMENT

Transmitting equipment is defined as any device that emits a wireless radio frequency signal. This includes, but is not limited to, the specific equipment devices described in the subparagraphs below. Transmitting devices designed and manufactured to be used in the U.S. operate in frequency bands authorized for their use in the U.S. Many of those same devices cannot be used in Japan because of different Japanese allocations for frequency bands. Any questions concerning the operation of personal wireless devices or radio transmitting equipment should be directed to the appropriate base frequency manager or the U.S. Forces Joint Frequency Management Office (JFMO) at Yokota AB, Japan (DSN) 315-225-4613, (CML from U.S.) 011-81-311-755-4613, (CML from Japan) 042-552-2510 x54613.Note: UNAUTHORIZED USE OF ANY TRANSMITTING EQUIPMENT IN JAPAN COULD RESULT IN SEVERE PENALTIES, INCLUDING MONETARY FINES AND IMPRISONMENT.--a. CITIZEN BAND (CB) RADIO EQUIPMENT: ----The Status of Forces Agreement (SOFA) prohibits the use of Citizen Band (CB) equipment in Japan by U.S. Forces personnel. CB equipment typically is available in the form of small walkie-talkie type radios that transmit and receive in the citizens radio service band. These radios are normally known in the U.S. as Family Radio Service (FRS) or General Mobile Radio Service (GMRS).--b. AMATEUR HAM RADIOS: ----Amateur HAM radio use on U.S. bases and facilities in Japan must be approved by the appropriate base frequency manager and base commander. In addition the foreign (non-Japanese) operator must submit an application to the Japanese government, regardless of the location of the transmitting equipment. More information about foreigners using amateur radio in Japan is available at: http://www.jarl.org/English/0-2.htm--c. BABY MONITORS: ----The use of baby monitors or baby alarms is permitted in Japan with the provision that the device operates in the 2.4 Gigahertz (GHz) band. MANY TYPES OF BABY MONITORING DEVICES MADE FOR USE IN THE U.S. CANNOT BE USED IN JAPAN BECAUSE THEY OPERATE IN THE 900 MHZ BAND, which is used for a different purpose in Japan. Use of these 900 MHz monitors causes extensive interference to Japanese emergency and cell phone networks. U.S. FORCES USING THESE 900 MHz BABY MONITORS IN JAPAN ARE SUBJECT TO MONETARY FINES AND DISCIPLINARY ACTION. Any questions about whether a particular baby monitor is authorized or not should be directed to the base frequency manager or the USFJ JFMO.--d. WIRELESS LOCAL AREANETWORK (LAN) TRANSMITTING EQUIPMENT: ----The use of wireless LAN equipment is

authorized in Japan as long as it transmits in the 2.4 GHz frequency band. The use of amplifiers, boosters, or any other device that alters the transmitted power or the transmitted signal characteristics is strictly prohibited.--e. CORDLESS TELEPHONES: ----Cordless home telephones may be used in Japan but must operate in one of the following frequency bands: 2.4 GHz (Gigahertz)5.8 GHz. Specifically prohibited are cordless telephones with base stations and or remote units that transmit in the 900 MHz (Megahertz) band. These 900 MHz phones cause extensive interference to Japanese emergency and cell networks. In addition, any other cordless telephone use (other than 2.4 GHz and 5.8 GHz) must be approved by the appropriate base frequency manager.--f. RADIO CONTROLLED MODEL EQUIPMENT (RCME): ----RCME is defined as scale model aircraft, boats, vehicles, etc. remotely controlled using radiofrequencies. Use of RCME is authorized per the following guidance:--------(1) Operator, controlling transmitter, and controlled device must be entirely within the confines of U.S. facilities and areas.--------(2) Japan-wide: Remote control transmitter must operate on one of the following frequencies at no more than 2 watts of power: 26.995, 27.045, 27.095, and 27.255 Megahertz (MHz).--------(3) Japan-wide: Remote control transmitter must operate on one of the following frequencies at no more than 1 watt of power: 72.24, 72.4, 75.64 MHz. --------(4) Additional frequencies in these same bands have been approved for specific Japan U.S. base locations and can be provided upon request by the appropriate base frequency manager or the USFJ JFMO. 12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

----Separatees and retirees DO NOT fall under the Status of Forces Agreement (SOFA) and are not entitled to the exemptions of personnel whose status in Japan stems from this agreement.----Personnel contemplating retirement, separation or relocating dependents to Japan should be counseled that all customs entry requirements, to include payment of duties, taxes, customs inspection fees, port handling fees, port storage fees, etc. remain the responsibility of the member and is a personal matter between the customer and the Government of Japan. (CH 14-Apr-2020 TCJ9-OH-P RB)----Documents Required for Customs Clearance: For EGATE entry, please see https://www.customs.go.jp/english/passenger/egate.htm----Personnel are responsible to ensure the Japanese Government has not imposed a Travel Ban on personnel from entering the country, which may not allow them to clear their shipment in a timely matter. If not, this could result in port

demurrage charges incurring and require personnel to pay until the Travel Ban is lifted and the shipment is cleared.----In April 2013 applicable duties, taxes and customs inspection fees destined for Okinawa totaled approximately 2,000USD for a 500-pound shipment of HHG. Please ensure customers are counseled of potential costs accordingly. (CH 07-MAY-2013 SDDC-PAC RB)----
Origin transportation officers must ensure personal property shipments are clearly marked identified as belonging to a separatee or retiree on GBLs, orders, and other documents so destination agents and transportation officers know the shipment belongs to a separatee or retiree.

b. BOATS: Considering all the expenses involved and limited weight entitlement allowed, this activity discourages the importation of boats to Okinawa.----(1) Sailboats, motorboats, jet skis and wave runners may be imported to Japan duty-free subject to the following provisions:--------(a) Boats must be included in personal property shipments and imported within 6 months of sponsors arrival in Japan. Japan law states boats are not assessed customs duty, therefore, USFJ Form 380 EJ is not required.--------(b) Sponsor must declare boat as unaccompanied personal property at the time of his/her entry in Japan and possess evidence of ownership (title registration papers) and date of purchase.--------(c) If an imported boat is subsequently sold transferred to non-SOFA personnel (enterpriser or business), consumption tax of 5 percent of the boats value may be charged by the Government of Japan.----(2) All members should be counseled on the following:--------(a) Insurance costs average $1,000 to $2,000 annually, depending on coverage.--------(b) Any individual operating a boat with a motor must obtain a Japan Class 2 boating license (Certificate of Competency for Small Vessel Operator). The license cost is approximately $400, and the test is only given in English twice each year. A Personal Watercraft (PWC) requires an additional license. Both licenses involve a written and practical examination.--------(c) Parking is very limited at the marina, as well as in off-base housing areas. Ball type hitches are very rare and should be shipped in with the water craft, or trailers must be converted for a pintle hook connection. A towing license is required to tow any trailer in Japan. An ordinary SOFA license is not sufficient.--------(d) Slips at Japanese marinas are very expensive. A typical slip on Tokyo Bay for a 30-foot boat will cost at least $23,000 for the first year and $10,000 each additional year (Yokohama Bayside Marina).----(3) For Okinawa: Members requesting shipment of boats should be counseled on the following:--------(a) Considering all the expenses involved and limited weight entitlement, importation of boats to Okinawa is discouraged.--------(b) It is difficult and expensive to obtain a boat license. There are only two boat licensing classes per year costing approximately $300.--------(c) Boat registration fee is approximately $80 per year.--c. d. UNACCOMPANIED BAGGAGE

Do not use DPM commercial air to ship UB to the Republic of Korea (ROK). Excessive delays are experienced during custom clearance procedures.1. ARMY Military Members: a. ACCOMPANIED COMMAND-SPONSORED TOUR (ACST). -UB. The maximum weight of UB is 2,000 pounds (net) excluding weight of professional books, papers and equipment (PBPE) if transported with UB. UB shipments via expedited mode (commercial air), maximum of 1,000 pounds (net), including PBPE is authorized (see JTR, par. 5210-B). UB weight is part of the members authorized HHG weight allowance (see JTR, par. 5172-H and JTR, par. 3110-A2). If both spouses are members and are assigned to the same OCONUS area at which they jointly occupy quarters each is authorized UB, PBPE and required medical equipment (see JTR, pars. 5268, 5270, 5192 and Appendix A, definition of UB and PBPE). b. UNACCOMPANIED TOUR. UB: Unaccompanied active duty members NORMALLY assigned to furnished GOVT QTRS, UB is authorized NTE 10% of the JTR weight allowance (or the AWA limit shown in the JTR, whichever is less). Unaccompanied members NOT NORMALLY assigned to furnished UPH are authorized UB NTE 2,000 pounds (or the AWA limit shown in the JTR, whichever is less) All max weights exclude the weight of PBPE if transported with UB. UB shipments via expedited mode (commercial air), maximum of 1,000 pounds (net), including PBPE is authorized (see JTR, par. 5210-B). UB weight is part of the members authorized HHG weight allowance (see JTR, par. 5172-H and JTR, par. 3110-A2). Soldiers required to reside in UPH should consider shipping less than their authorized weight allowance due to the small room sizes. The remaining HHG should be stored in NTS at origin. See pictures of the size of UPH at https: onestop.army.mil. 2. ARMY Civilian Employees. The weight of UB is part of the HHG weight allowance.---------ACCOMPANIED CIVILIANS are authorized UB NTE 350 pounds net weight for each adult and dependent age 12 or older, and 175 pounds net weight for each child under age 12 (JTR, par. 5656-B2) except when air transportation of UB is used, JTR, par. 5656-B4 or JTR, par. 7065-I applies. The UB total transported by air (or any expedited mode) must not exceed 1,000 lbs. net weight. Air transportation is not authorized when an employee performs RAT, except when the additional tour of duty is served at a PDS in another OCONUS area and as authorized in JTR, pars. 7065-I and 7065-J.---------UNACCOMPANIED CIVILIANS are only authorized 350 pounds UB net weight.3. US AIR FORCE CIVILIAN EMPLOYEES: The authorized weight allowance is in the orders and may not exceed 18,000 pounds. The weight of UB is part of the HHG weight allowance.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

ROK customs information: a. Authorized personnel may import goods duty-free if, at the time of importation, they are employed as members of the civilian component, invited contractors, technical representatives of other authorized United States Forces Korea (USFK) supported organizations or activities. POV importation will also be in compliance with paragraph 8a(1), below. Additionally, personnel not authorized duty-free importation, may import goods and pay Korean customs duty only if they receive authorization from their Embassy certifying they will remain in Korea for a period of at least 24 months. b. Reasonable Quantity: Personal property shipments by PCS or other personnel authorized duty-free importation must be 'reasonable'. 'Reasonable' is defined as personal effects and household goods of a type and quantity which would ordinarily be purchased in the US for the private use of the member and authorized dependents. Quantities may be increased based on family size, professional/personal interest (such as cameras), or as requested by the importer and certified by the commander/supervisor and approved by the USFK Customs Officer, prior to clearance for importation. c. Unreasonable Quantities: Shipments of unreasonable quantities of new or like-new HHG and high-value items (e.g. VCRs, Stereos, TVs, cosmetics, vitamins, golf clubs, appliances, etc.) may be construed to be not for personal use. ROK customs laws are strictly enforced. Violations may result in delay of shipments, levying of ROK customs fines, seizure of property and/or prosecution. Additionally, your duty-free import privilege is good only for 6 months after the date you arrive to serve with USFK, or the date your authorized dependents arrive for reunion with you, WHICHEVER IS LATER. Shipments arriving after this 6 month period are subject to Duties/Taxes (most products, 8% Customs Duties and 10% Value Added Tax), or the shipment must be returned to the sender, or shipped out of Korea, abandoned, or sold at public auction. After the 6 month period has expired, you may only import items Duty Free through APO channels, not through international mail channels. (CH 07-Nov-2019 TCJ9-PAC RB)

3. CONSUMABLES

OTHER: Shipments of unreasonable quantities of vitamins, etc., may be construed to be not for personal use. Refer to para 2c above.

a. ALCOHOLIC BEVERAGES

Reference Korean Customs Law: Importation limited to 2 (two) bottles of liquor not to exceed 2 (two) liters with a total commercial valueof $400 or lower. (CH USTC Pacific J9, 21JUN23, TF).

b. CIGARETTES/TOBACCO PRODUCTS

Ref USFK Reg 190-41, Para 2-3, 4 (4) (b): Importation limit not to exceed 200 cigarettes, 50 cigars or a 'small quantity' of bulk tobacco. (CH 07-Nov-2019 TCJ9-PAC RB)

c. COSMETICS

Shipments of unreasonable quantities of cosmetics, etc., may be construed to be not for personal use. Refer to para 2c above.

d. FOOD STUFFS AND MEATS

You may not import fresh fruit, vegetables or meats without the permission of the Ministry of Agriculture.

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

Ref Article 3-7, Travelers and Crew Members Customs Clearance Regulations Importation of narcotics and aphrodisiacs (such as deer horn, Chinese medicine, or cannabis-based products/medical marijuana etc.) are prohibited. Prescription medication found during examination/inspection will be checked to ensure the name matches the individual carrying/shipping the medication and checking the expiration date. (Medication amount by prescribed usage equals the expiration date). Illicit drugs such as cocaine, hashish, steroids, etc. are prohibited Cannabis-based products are illegal in Korea and a violation of the ROK Narcotic Control Act and Korea Customs Laws. (CH 07-Nov-2019 TCJ9-PAC RB)

4. ELECTRICAL EQUIPMENT

--UNMANNED AERIAL VEHICLES (DRONES)--South Korea has restrictions, regulations, and registration requirements to fly drones, which vary based on the location of intended flight. For more information (in Korean only), please visit: http://www.molit.go.kr/USR/policyTarget/dtl.jsp?idx

a. HOME COMPUTERS

No restrictions identified.

b. TVs/VCRs

Shipments of unreasonable quantities of VCRs/TVs, etc., may be construed to be not for personal use. Refer to para 2c above.

c. OTHER (i.e. COMPATIBILITY, ETC)

Shipments of unreasonable quantities of appliances/stereos, etc., may be construed to be not for personal use. Refer to para 2c above.

5. FURTNITURE, OVERSIZED

No restrictions identified.

6. PETS/QUARANTINE

Customs clearance is required upon entry into Korea. Service members must present travel orders and pet documentation to request the SOFA import tax waiver.(CH USTC Pacific J9, 22MAY24, TF)

PET TRAVEL: 1. Recommend advance confirmation with the assigned installation Housing office regarding local pet restrictions on and off-base residential areas. CONFIRM HOUSING OPTIONS BEFORE TRANSPORTING PETS. 2. Availability of on-post veterinary care may be limited due to military operational requirements and local capacity to treat certain conditions. Emergency and after-hours veterinary care for privately owned animals is not available at military Veterinary Treatment Facilities. Please be prepared to pursue host nation veterinary care if necessary. 3. The PATRIOT EXPRESS (PE), military contract flight, is the authorized means of travel for travelers on official duty orders to and from the Republic of Korea (ROK). Personnel traveling to and from the ROK on the PE are authorized to travel with their pets (dogs and cats). Whenever the PE pet-travel capacity is reached, military installation travel offices will schedule service member's travel on a pet-

friendly commercial flight via the Incheon International Airport. Pet owners traveling on commercial flights are responsible for booking pet travel directly with the airline. 4. ***PLEASE NOTE: Pet spaces on the PE flights are limited. Due to increasing commercial airline restrictions impacting pet travel, many families are running into trouble getting their pet OUT of Korea. The cost to ship your pet using a commercial pet shipping service, depending on the destination and size of the animal, can exceed $15,000. Before deciding to bring your pet, please do your research and decide if the risk of high exportation costs is worth it. Abandoning your animal in Korea is punishable via UCMJ IAW USFK 40-5. 5. Reimbursement for relocating one household pet (cat or dog) to Soldier's next permanent duty station is authorized, up to a maximum of $2,000. This covers mandatory microchipping, quarantine, boarding, hotel service charges, licensing fees at the new location, and testing titer levels for entry. If the member flies or the pet is shipped separately, pet shipping fees are also covered. Government transportation must be used for transoceanic travel if available. It is the Soldier's or owner's responsibility to comply with the destination country's import/export regulations. Failure to do so may affect reimbursement eligibility. For specific reimbursement limits, refer to the JTR 050107. Pet travel arrangements, to include pet transport from the military or commercial arrival Port to the assigned installation, are the responsibility of the pet owner. Pet containers 18"L x 12"W x 8 1/2"H or smaller may use free service buses. Travelers with larger containers must arrange for alternate transportation. QUARANTINE: 1. For the most current information on PCSing with pets, visit: https://8tharmy.korea.army.mil/site/newcomers/traveling-pets.asp. 2. Reference UNC/USFK Regulation 190-41, Chapter 2, para 2-1, f. (11): The following documents are required for import of pets to the Republic of Korea: (a) ORIGINAL SIGNED COPY of a health certificate issued by a veterinarian within 10 days of arrival to the Republic of Korea, and endorsed by a USDA APHIS official veterinarian, US Army Veterinary Corps Officer, US Army Veterinary Medical Officer, or equivalent host nation official veterinarian. The health certificate MUST list the animal's microchip number and rabies vaccination details. (b) ORIGINAL SIGNED COPY of a rabies certificate issued by a veterinarian showing that vaccination is current (administered within the past 1 – 3 years, based on vaccine labeling) and was administered at least 30 days prior to arrival. (Not required for pets less than 90 days old.) (c) ORIGINAL SIGNED COPY of rabies neutralizing antibody (FAVN) test results reflecting a result >0.5 IU/mL. (Not required for pets less than 90 days old.) (d) ORIGINAL copies of all required documents MUST be presented upon the animal's arrival to Korea (owners are encouraged to make multiple copies). Failure to comply with all pet importation requirement may result in the pet being returned to the point of origin at the owner's expense. 4. Pets not in compliance with importation requirements that are not returned to their origin point will be placed in quarantine at the port of arrival. Quarantined animals will be housed at a ROK approved Quarantine Facility at the owner's expense until compliance is met. Quarantine release is at the discretion of ROK quarantine officials, and is dependent on resolution of deficiencies.Korea Additional Pet Information***For the most current information, contact your local VTF or the Camp Humphreys VTF at https://phcp.health.mil/Commands/Veterinary-Readiness-Activity-Korea/Camp-Humphreys/.***UNACCOMPANIED SERVICE MEMBERS – PETS ARE NOT ALLOWED IN SENIOR LIVING QUARTERS. Do not bring pet(s) with you to Korea. ***Limitations to Consider Before Travel:Service members must present travel orders and pet documentation to request the SOFA import tax waiver. (CH 07-Nov-2019 TCJ9-PAC RB). It is recommended to give advance confirmation with the assigned installation Housing office regarding local pet restrictions on and off-base

residential areas. 7. PRIVATELY OWNED FIREARMS (POF)

Ref USFK 190-41, USFK 190-16 and ROK Law: Korea has extremely restrictive POF and weapons laws that differ significantly from the United States. No recreational use, home defense or collecting POF or weapons is authorized and/or is exceptionally difficult to obtain the proper authorizations through the Korean Government. Although authorized, USFK HIGHLY RECOMMENDS DOD personnel NOT bring any firearms to Korea. If weapons are shipped they MUST be authorized on official orders, declared upon shipment and in reasonable quantities, (i.e.-a number/type normally found in the home for private use by the owner and/or dependents). Unauthorized POFs or weapons not on official orders will be confiscated and may be destroyed within 30 days of confiscation. It is the RESPONSIBILITY of the owner to coordinate with the gaining unit for storage of weapon(s) prior to arriving or shipping POF(s) or weapons. Importation of AMMUNITION IS NOT AUTHORIZED.(CH 07-Nov-2019 TCJ9-PAC RB) The 51st Fighter Wing Commander, Osan AB has imposed a ban on shipping Privately Owned Firearms (POF), due to the limitation of proper storage facilities. POFs include, but are not limited to: handguns, rifles and shotguns that can be readily used for hunting, by driving a projectile through a barrel. Members are expected to comply with this policy or face the possibility of the POF being destroyed.WEAPONS PROHIBITED FOR IMPORT INTO ROK- Fully automatic firearms.- A shotgun with the barrel length less than 18” length.- A weapon made from a shotgun (for example, by modification) having an overall length less than 26” or a barrel less than 18” length.- A rifle having a barrel less than 16” length.- A weapon made from a rifle (for example, by modification) having an overall length less than 26” or a barrel less than 16” length.- Any type of BB guns, pellet gun, or slingshot.- Other weapons,

except a pistol or revolver, from which a shot is discharged by an explosive if the weapon is capable of being concealed on the person.- A noise suppresser for any weapon.- A Molotov cocktail or any gasoline or other flammable or combustible substance in a glass container or otherbreakable container configured with a fuse-type device.- A straight razor, a knife with a razor blade, a switchblade knife, a t-handle push knife, a hooked blade knife(carpet-type knife), a box knife, a butterfly knife with hinged handle sections that collapse around the blade, or any knife, sword or dagger with a 4" or longer blade.EXCEPTIONS:Ref USFK 190-41/USFK 190-16: (1) Kitchen knife with a 4-inch or longer blade may be acquired, owned, possessed, and transported when used exclusively for cooking, and eating activities. (2) A sheathed knife with a 4-inch or longer blade if required to perform military duties and carried or worn immediately to or from work. Which requires to be in military orders. (3) Ceremonial/decorative knives, swords, and daggers, regardless of size, may be acquired, owned, possessed, and displayed in home, office, or at official functions, but will not be carried or possessed in public places except to transport them to and from home, office, or an official function. (4) A straight razor, when used for shaving only.Note: CUSTOMERS ARE RESPONSIBLE to provide certification from the gaining commander to USFK Customs of intended use and storage for all exceptions.(CH 07-Nov-2019 TCJ9-PAC RB)

a. HAND GUNS

Ref USFK Reg 190-41 and USFK Reg 190-16: Although authorized, USFK HIGHLY RECOMMENDS DOD personnel NOT bring any firearms to Korea. If weapons are shipped they MUST be authorized on official orders, declared upon shipment and in reasonable quantities, (i.e.-a number/type normally found in the home for private use by the owner/and or his/her dependents) and with no ammunition. When arriving at the Korean POD, weapons may be seized whether or not the weapon(s) is authorized on official orders. Unauthorized, or weapons not on official orders, will be confiscated and may be destroyed within 30 days of confiscation. All firearms and other weapons, to include any weapon which fires/ejects projectiles of any kind by means of an explosive force (except for children's toys that eject a plastic projectile) will be stored in a unit arms room. No weapons will be stored in government or private housing, on or off post. It is the RESPONSIBILITY of the owner to coordinate with the gaining unit for storage of weapon(s). Weapons will be registered within 3 working days of receipt within assigned area. Military personnel on leave and US civilians on leave to Korea have no Status of Force Agreement (SOFA) rights to import weapons. All customers MUST comply with ROK domestic law (i.e.-obtain import permits through a Korean Embassy/Consulate or the Korean Government prior to importation). Under NO CIRCUMSTANCES may a weapon be sold or given to a Korean National. SEVERE criminal penalties will be imposed by the Korean government for any personnel who violate this law. Any weapons, once imported, will be registered/stored as outlined above.(CH 07-Nov-2019 TCJ9-PAC RB)GOVERNMENT-OWNED FIREARMS (GoFs) GoFs are authorized import in a HHG or UB shipment as long as the Make, Model, Caliber, and Serial Number is listed on the CUSTOMERS ORDERS as well as the HHG OR UB SHIPMENT INVENTORY.(CH 15-OCT-2018 TCJ4-HB-PAC RB).

b. RIFLES/SHOT GUNS

Please see above paragraph relating to Hand Guns as the same rules apply to Rifles/Shot Guns.(CH 07-Nov-2019 TCJ9-PAC RB)

c. TOY RELATED GUNS

No restrictions Identified.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

(CH 07-Nov-2019 TCJ9-PAC RB) Entire paragraph updated Ref USFK 190-41 and USFK 190-16: Ammunition and explosives of any kind are PROHIBITED. "Ammunition" is defined as cartridge cases, primers, bullets, or propellant charges in assembled form designed to be fired from any weapon. "Explosive" is defined as a substance which is incendiary in nature or can be made to explode, able or likely to shatter violently or burst apart when provided by a stimulus such as ignition, shock, or combustion. Explosive items include, but are not limited, to: Molotov cocktails, fireworks, detonators, fuses, black powder, grenades, ignitors etc.OTHER PROHIBITED WEAPON is defined as anything designed or used for inflicting bodily harm or physical damage and includes, but are not limited to:---Archery Weapons (includes crossbows, blowguns, spear guns), ---TAZERs type stun devices that produce an electric shock to incapacitate, --- Straight razors, ---A knife with a razor blade, ---A switchblade knife, ---A T-handle push knife,

---A hooked blade knife (carpet-type knife), ---A box knife, ---A 'butterfly' knife with hinged handle sections that collapse around the blade, ---A knife, sword or dagger with a 4-inch or longer blade, ---Club-type hand weapon (blackjack), ---Brass knuckles and gloves or bracelets studded with hard or sharp metal objects, ---A shooting pen (fountain pen or automatic pencil-style pen capable of discharging tear gas or similar substances) or any weapon capable of discharging any chemical agent,---A shooting weapon or blade that can collapse, be telescoped, or shortened, or that is stripped beyond the normal extent required for hunting or sporting or is concealed in other devices (for example, walking sticks, umbrellas, tubes, and others), ---Kung Fu or Chinese fighting stick(s) or nunchakus or similarly constructed items, ---Metal Chinese throwing stars or similarly constructed item having multiple sharpened appendages, ---Slingshot, Blackjack Sap, Saber, Sword, Spear, or Machete. All Category A weapons are PROHIBITED from being stored in Government or Private housing, On- OR Off-Post. It is recommended customers store their archery weapons in Non-Temporary Storage (NTS) at origin.

8. PRIVATELY OWNED VEHICLES (POVs)

(CH Entire Section 24-May-2019 TCJ4-HB RB)1. For shipment authorizations by Branch of Service and restrictions, see applicable paragraphs below. a. ARMY ACTIVE DUTY MEMBERS: (1) Unaccompanied Tour. Shipment of a POV is NOT AUTHORIZED....REGARDLESS OF RANK, TOUR LENGTH, and regardless whether the POV IS A MOTORCYCLE (shipped as a POV or in a HHG shipment). Per 8th Army G1, Korea, POV shipment authorization to or from ROK is directly tied to whether or not Army personnel has command sponsorship, and is not tied to the length of tour. (2) Accompanied COMMAND-SPONSORED TOUR: Shipment of ONE POV is authorized. (3) Extended Tour (i.e.-Assignment Incentive Pay). Shipment of a POV is NOT AUTHORIZED. (4) Storage. Storage of ONE POV is authorized when a member IS NOT authorized to ship a POV. (5) Joint Domicile Couples: Shipment of ONE POV authorized for the Soldier Service Member whose orders state joint domicile. The other Soldier Service member is authorized storage of ONE POV in CONUS. A dual military couple, without dependents, serving a 24-month Joint Domicile tour, will be allowed to ship one POV. Per determination by 8th Army G-1, 31-Jul-2025.(CH USTC/J9, 31JUL25, TF) (6) Per JTR, Par. 5380-B4, Customers who stored their POV at Government expense in CONUS, then receive Command Sponsorship approval while in ROK, are NOT authorized to ship their stored POV to ROK. (7) Army Civilian Employee. See paragraph 7.e. below. (8) Authority to ship or store a POV must be stated in the service member's PCS orders. (CH USTC/J9, 31JUL25, TF). b. AIR FORCE ACTIVE DUTY PERSONNEL: Shipment of ONE POV, as defined in paragraph 2 below, is authorized for persons on an

accompanied tour and E-7, GS-5 and above who are on an unaccompanied tour in ROK. Advance approval is not required unless member is assigned to specified units below: (1) Camp Red Cloud: 607th Weather Sq. (2) Camp Casey: Det 1, 604th DASS; Det 20, 30th Weather Sq. (3) A request to possess and operate a POV in these areas must be forwarded through CBPO channels to the CDR of the parent unit (607th WS, 604th DASS, or 83ALD). Authority to ship a POV must be stated in the members PCS order and must cite authority's correspondence. c. NAVY ACTIVE DUTY PERSONNEL: Shipment of ONE (1) POV, as defined in paragraph 2 below, is authorized for: (1) All ACCOMPANIED tour personnel (regardless of grade). (2) All UNACCOMPANIED tour personnel in grade E-7/CPO (Chief Petty Officer) and above serving in Korea. NOTE 1: POV shipment NOT AUTHORIZED for UNACCOMPANIED tour Navy personnel E-6/PO1 (Petty Officer First Class) and below UNLESS the Sailor obtains a statement of non-availability from the Military Housing Office or any other documentation indicating the Service Member was command-directed, or received an exception to policy, to reside off-post at government-expense AND provides the document to the counseling office or the Vehicle Processing Center (VPC). (CH USTC-Pacific J9, 12DEC24, TF) NOTE 2: Navy employees POV discretionary transportation allowances to Korea are dependent on guidance in the Joint Travel Regulation (JTR) Chapter 5 Part F, local Civilian Personnel Advisory Center (CPAC) rules, and employees signed Transportation Agreement and official order. (CH, 06 Feb 2023 TCJ9 PAC MSO). d. MARINE CORPS ACTIVE DUTY PERSONNEL: Shipment of ONE POV, as defined in paragraph 2 below, is authorized for persons on an accompanied tour and E-7 and above who are on an unaccompanied tour in Korea. Unaccompanied personnel must comply with the provisions of paragraph a.(1) above when contemplating shipment of a POV. e. DoD CIVILIAN PERSONNEL: Queries concerning POV allowances should be IAW the JTR, Vol. 2, Chapter 5, Part E and addressed to one of the following addresses: (1) Department of the Army and Navy Civilian Employees: Seoul Civilian Personnel AdvisoryCenter, Attn: EANC-SA-CPAC, Unit 15333, APO AP 96205-0177. (2) DoD Dependent Schools: Contact the DoD Education Activity, Arlington, VA, as listed in the employees orders.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(Continued from above)2. USFK Reg 190-5 defines a POV as any motorized vehicle, including combustion engine or motor driven cycles of any engine size, including but not limited to, automobiles, trucks, station wagons, jeeps and motorcycles, moped, and Scooters owned or operated for personal use. (CH 07-Nov-2019 TCJ9-PAC RB)3. USFK policy restricts operation and registration to 1 POV per family without regard to whether the vehicle is shipped as a POV or as household goods (HHG). Exceptions to the 1 POV limitation must be directed to the member's gaining unit for approval by the appropriate authority.4. Registration and Operation. Paragraphs (a) and (b) effective 15 Jan 09 HQ, USFK (FKCS), memorandum dated 30 Jan 09, subject: Second Interim Driving Policy Regarding Privately Owned Vehicle Driving Privileges: a. USFK Drivers License. All service members are eligible to apply for a USFK driver's license. Service members E-6 and below on an unaccompanied tour require approval from the first O-5 in their chain of command. b. POV Ownership and Registration. (1) Service members in the grades of E-7 and above and all personnel on an accompanied command-sponsored tour may own and register a POV with USFK. (2) Service members on an unaccompanied tour in the grades of E-6 and below may be granted an exception to policy to own and register a POV with USFK by the first O-6 in the chain of command and the responsible O-6 Area Commander. (3) The service member must actually be assigned on a command-sponsored tour "with family members" and those family members must be living in ROK with the service member. Occupation of a billet that is on the Command Sponsored Position List (CSPL) is insufficient. (4) Registration and operation of a

POV is restricted in many geographical areas. This is due to mission constraints as well as physical location.5. ROK DOES NOT have commercial POV storage facilities.6. Unleaded fuel is available at all major installations in ROK and is generally available at most service stations on the local economy. Catalytic converters do not need to be removed. If the catalytic converter is not removed, unleaded fuel must be used. Removal of the catalytic converter is at the customer's option and expense.7. There are no specific ROK safety requirements for POVs; however, USFK requires a local safety inspection as part of the POV registration procedures. AAFES is the primary source of general automotive repair in ROK. Very little automotive repair is available on the local economy. AAFES repair facilities service all makes and models of POVs; however, AAFES does not always have the capability to deal with technological advancements that are in newer models. The problem of servicing new models is intensified due to the lack of mechanic experience, equipment and part availability.

b. MOTOR CYCLES/MOPEDS

Motorcycles/Mopeds fall within the USFK definition of POVs, paragraph 8a (1) above. Mopeds or motor driven cycles can only be registered and operated by personnel authorized to possess a POV. (CH) (1) Personnel in the grade of E-7/GS-5 or above and authorized dependents desiring to register or operate a two-wheeled motorized vehicle (including mopeds) in the ROK must have in their possession proof of completion of a 'hands-on' riding course. The following courses are acceptable: Better Biker Program (BBP), Experienced Rider Course (ERC), Motorcycle Riders Course (MRC) and Riding and Street Skills (RSS). Upon completion of one of the above courses, members must obtain and keep in their possession a Motorcycle Safety Foundation (MSF) Course Completion Card. The MSF Course Completion Card must be presented along with a valid inspection sticker for your vehicle to be registered and operated. These courses are not offered in the ROK and must be completed prior to arrival. A motorcycle safety training course is taught on Camp Humphreys. Limited slots are available.(CH 07-Nov-2019 TCJ9-PAC RB) (2) ROK law prohibits the travel of two wheeled vehicles on all expressways (no exceptions). (CH) (3) Personnel contemplating shipment of a two-wheeled motorized vehicle in their HHG should contact their gaining unit regarding registration and operation procedures. DO NOT use DPM HHG or Code T for shipment of motorcycle to Korea. If a motorcycle is shipped by DPM or Code T, the member may have difficulty registering the motorcycle because they do not have proper Korean Customs Clearance and Import documents which are required, it will then be the member's expense and responsibility to provide. MAKE SURE TO SHIP MOTORCYCLES BY Code 3 OR Code 4 ITGBL ONLY. (CH SDDC-PAC, 06-Apr-2011 RB) (4) In order for two-wheeled vehicles shipped in HHG to properly and expeditiously clear through the ROK customs the following information must appear on the inventory: year, make, model, body number, cc capacity, mileage, serial number and price. (CH)

c. GASOLINE/CATALYTIC CONVERTERS

Unleaded fuel is available at all major installations in the ROK and is generally available at most service stations on the local economy. Catalytic converters do not need to be removed. If the catalytic converter is not removed, unleaded fuel must be used. Removal of the catalytic converter will be at the member's option and expense.

4. ELECTRICAL EQUIPMENT

No Restrictions Identified.

a. HOME COMPUTERS

May be imported.

b. TVs/VCRs

Standard American-Made television and video cassette systems (National Television Standard Committee-NTSC) will operate in Malaysia but will not play locally recorded tapes. American made TV sets will pick up the video portion of local broadcasts but not the sound. Local systems (Phase Alternate Lines-PAL) are available, and there is an abundance of shops which rent video tapes. A multiple system TV and or VCR will work with no problem. While there is a mixture of tapes

available, most Embassy personnel currently have VHS systems.

c. OTHER (i.e. COMPATIBILITY, ETC)

The electrical currant is 240 voltage and 50 cycles. Transformers may be provided to those assigned to Embassy housing. Suggest contacting the GSO prior to departure.

5. FURTNITURE, OVERSIZED

No restrictions identified.

6. PETS/QUARANTINE

-----A 30 day quarantine period is required for all pets; however, pets can be released after a 7-day mandatory quarantine requirement upon special request. If you plan to ship a pet, you must contact the American Embassy Kuala Lumpur, General Service Officer (GSO) 30 days prior to shipping. -----Member must submit a request to the American Embassy, ATTN: GSO (KualaLumpurGSOShippingandCustomsDL@state.gov) and provide the following information: quantity, name of pet(s), species, age, sex, breed, color and picture; in addition to the name of the air carrier, flight number, time of arrival, and air waybill number. Upon receipt, the GSO will initiate action to reserve kennel space and upon confirmation will provide member with approval to ship.

-----DO NOT ship your pet until you receive confirmation kennel space is available. -----If planning to ship other than a dog or cat, follow procedures as outlined above requesting advice on GOM restrictions. Inoculation and health certificate must accompany the pet and be attached to the outside of the shipping container. Please note any overtime costs associated directly with the arrival of a pet and associated quarantine processing will be at the member's expense.-----Further information can be obtained from the GSO: KualaLumpurGSOShippingandCustomsDL@state.gov(CH 12-NOV-2020 TCJ9-OH-Pac RB)

7. PRIVATELY OWNED FIREARMS (POF)

c. TOY RELATED GUNS

Importation is PROHIBITED.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

Importation is PROHIBITED.

8. PRIVATELY OWNED VEHICLES (POVs)

.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) Vehicles more than 5 years old are permitted to enter into Malaysia, but MUST be exported out of Malaysia upon tour completion. Ship in sea container to Port Kelang. (2) Consign to: Name of member, c/o GSO, American Embassy, 376 Jalan Tun Razak, 50400, Kuala Lumpur, Malaysia. (3) The bill of lading for a POV should provide complete description including: make, type, year model, engine capacity, engine number, chassis (serial) number, and color. This information MUST also be sent IMMEDIATELY to the GSO by message for advance approval to import a vehicle. Email: KualaLumpurGSOShippingandCustomsDL@state.gov(CH 12-NOV-2020 TCJ9-OH-Pac RB) (4) The average time required to process paperwork for the POV is two months. POV procedures are longer because another agency, the Road Transport Department, is involved in the registration and licensing process. (5) The original car title, or a certified true copy is required for the import permit to be issued.(CH 11-Apr-2016 SDDC-PAC RB)

b. MOTOR CYCLES/MOPEDS

---Motorcycles are considered POVs by The Government of Malaysia, so separate custom declarations are required. ---Customs requires motorcycles be shipped as a separate shipment for Customs clearance and inspection. ---Motorcycles can be imported Duty-free. However, an individual may only import ONE duty-free vehicle be it a car/motorcycle/moped. If both are shipped, individual will be required to pay importation fee for one of the two vehicles. Import Duties and registration fees are costly.(CH 11-Apr-2016 SDDC-PAC RB)

c. GASOLINE/CATALYTIC CONVERTERS

There is no requirement to remove catalytic converters. Leaded and unleaded gasoline are available locally.

d. INSURANCE AND SAFETY REQUIREMENTS

Third party insurance is required and can be obtained upon arrival. With a letter from your previous/current car insurance company stating how long you have had no claims, reduced insurance rates may be obtained. The following is a basic listing of POV inspection standards required: (1) Serial numbers of motor and chassis must be the same as stated on vehicle registration. (2) All tires must have at least 1mm tread over the complete tire surface. (3) Exhaust system: No rusted out or leading exhaust system components allowed. Exhaust systems with cutouts, fiberglass-packed, or straight through exhaust system are not allowed. (4) Brakes: A mismatch of 20 or more between wheels, as measured on the brake wheel drag machine. Hand brake must hold vehicle on incline. (5) Wheel Alignment: Wheels must be able to be turned to full right or full left without jamming or rubbing any part of vehicle. Tierod steering arm assemblies must not be damaged or worn. (6) Lights: All installed lights must be operational. All automobiles must have a third brake light mounted inside the rear window. All automobiles must have a center high-mounted brake light. (7) Exterior Condition: Missing fenders, broken windows, extensive body damage, deterioration, broken springs, or oil leaks are not allowed. (8) Horns: Must be equipped with a horn and it must be operational. Horns must not be extremely loud or be confused with emergency vehicles or police. (9) Seat Belts: Required for the front seat of the vehicle. (10) Tinted Windows: Vehicles with windows and windscreens tinted more than fifty percent visibility are not

allowed in Malaysia. (11) Traffic in Kuala Lumpur is heavy and disorganized and it moves on the left with the steering on the right, i.e., cars are right-hand drive (RHD). Motorbikes are abundant and generally do not follow traffic rules. For these reasons small or medium-size cars are more practical. Japanese and European automobiles may be ordered locally from their manufacturers. Many employees have ordered reconditioned cars from Japan with good results. (12) Left-hand drive cars are permitted in Malaysis but are not recommended due to the traffic conditions in Kuala Lumpur. They also have limited resale value. (13) If you plan to import an American car, bring along extra belts, plugs, windshield wipers, oil and fuel filters, etc., as spare parts are often expensive or difficult to find. Parts, for most foreign makes and service are readily available. While service is relatively inexpensive, parts are expensive. (14) Members who will drive in Malaysia must obtain a Malaysian driver's license after arrival. If you possess a U.S. or other foreign driver's license, conversion to Malaysian driver's license will be issued upon Ministry of Foreign Affairs approval. (CH 11-Apr-2016 SDDC-PAC RB)

Kwajalein is serviced two times per week by AMC flights via 757 aircraft and once per month via C-17. To expedite service, request TSP/agents utilize maximum-height UB/HHG containers to 80 (eighty) inches to allow for movement on 757 aircraft . The monthly C-17 flights can accommodate Type II containers. – DPM/AMC shipments should be routed via APOE-SUU, 60 APS, 90 RAGSDALE ROAD, BLDG 977, TRAVIS AFB, CA 94535-2941, consigned to Transportation Office, US Army Kwajalein Atoll, Marshall Islands, marked for customer and unit of assignment, with final destination APOD as KWA-Kwajalein, MH. – All DPM shipments must be properly packaged/documented IAW DTR Part IV, Appendix G and HHGs must be advanced into the airlift system IAW DTR Part II prior to arrival at SUU. – In the event the origin PPSO does not have DPM contractor capabilities, the PPSO should consider one of the following options: -----1. Obtain required packing/crating services under local purchase provisions before shipping to SUU for entry into the airlift system. -----2. Ship via DPS (Code D, intrastate/interstate) to the nearest DPM contractor within the PPSOs respective AOR to obtain required DPM services before shipping to SUU for entry into the airlift system. -----3. Containerized Code 2 shipment via DPS provided TSP acknowledges TSP-owned containers may not return from the overseas area. When utilizing Code 2, PPSO must prepare and provide the TSP origin agent with Military Shipping Label(s) for container markings and a packing list containing TCMD, DD Form 1299 and Travel Orders to avoid refusal/delays at the SUU APOE. Ensure shipment has “No SIT authorized” so the destination agent is more apt to direct deliver to Travis AFB (SUU). – IN ALL CASES, PPSO must forward a copy of advanced documentation (e.g.-TCMD, DD Form 1299 and Travel Orders, etc.,) to the APOE (SUU-Travis AFB, CA) prior to shipment arrival to: 60APS.TROTD.TMODocumentation@us.af.mil and 60aps.csb@us.af.mil – DPM UB/HHG shipments from the Far East (e.g.-APOEs: MSJ, OKO, DNA, OSN, UAM, RCM, ASP---transiting HIK) and other overseas activities should reflect the origin APOE and reflect APOD as KWA noted above. 2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. The Government of Mexico requires a detailed item listing of the contents of each container. To satisfy this requirement, the Embassy GSO must be provided a legible copy of the inventory which is translated into Spanish and included with the request for free entry. b. It is imperative origin ITOs forward this legible copy of the inventory and a copy of the PPGBL showing the number of outer containers, total weight of shipment (either net or gross), estimated value of shipment, and port of entry to the Embassy GSO as soon as available. It takes approximately 5 6 weeks after

receipt of this data to obtain the import permit and nonreceipt of the above documentation or omission of any of the required information will cause delay and serious hardship for member and family. c. Although the initial destination is to a point in CONUS (Brownsville, Texas), this is only a transfer point for onward movement to Mexico. Shipments must be packed for overseas delivery. Shipments remain in Brownsville, Texas until the Mexican Government processes and approves this request for free entry. d. After approval, it normally takes 2 3 weeks for delivery of HHG to owner. New arrivals should anticipate spending 5 to 9 weeks in temporary quarters without HHG and should plan accordingly. e. In order to avoid storage charges, please ship HHG, UAB and POV to coincide with the arrival at post of the member. The GOM will not issue any import permits, nor release any shipments until member is country and has been accredited.

3. CONSUMABLES

No restrictions identified.

a. ALCOHOLIC BEVERAGES

No restrictions as long as no excessive quantities are shipped.

b. CIGARETTES/TOBACCO PRODUCTS

Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

6. PETS/QUARANTINE

Veterinarian's certificate of good health and rabies vaccination certificate are required. These documents must be certified, for a fee, by a Mexican Counsel. To avoid duty fees, a free entry permit, which takes from 4 to 6 weeks to secure, is required. This permit may only be requested when member is in country and has been officially reported to Mexican Government. We recommend member bring pet in POV or as excess baggage in order to avoid customs brokerage fees and the need to leave it in customs overnight.

7. PRIVATELY OWNED FIREARMS (POF)

NOT AUTHORIZED FOR IMPORTATION INTO MEXICO (ch:11/7/2018)NOTE: If any government military or civilian member imports any weapons (firearms, ceremonial sabers, swords, bayonets, etc) into Mexico their HHG/UAB will be seized by the Government of Mexico Customs authority and possible charges levied against the DoD member.

a. HAND GUNS

b. RIFLES/SHOT GUNS

See above.

c. TOY RELATED GUNS

Non-firing replica’s of military pistols, grenades (to include “take a number toy grenades”), rifles, and etc are not authorized for importation in HHG/UAB or mailing via any U.S. Embassy mailing services.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

Not Authorized for importation

8. PRIVATELY OWNED VEHICLES (POVs)

Effective immediately POVs of any age can be imported into Mexico for any member arriving in diplomatic status. There is longer a required waiting period of three years between the time that an imported vehicle is purchased or imported by a U.S. Direct Hire (USDH) employee at post and the time they are able to nationalize the vehicle for sale on the local market in Mexico. POVs may be nationalized at any point after they are imported or purchased but no less than six months before the owner’s departure from post. Please see below for more details on the nationalizing process.(1) Following are the Government of Mexicos (GOM) laws concerning importation of privately-owned and official vehicles. These laws were implemented on January 1, 1992, and are still current. (a) Within certain dollar limitations which must be verified with post management, all types of vehicles

can be imported and sold. (c) All other accredited US personnel are allowed to import one US vehicle of any model or make. Also, these employees are allowed to purchase one Mexican made vehicle, which is exempt from value added taxes (IVA). According to GOM law, it is illegal to import vehicles under a Temporary Import Permit (TIP) and keep them in country. (d) Vehicles should be shipped and consigned to: US Logistics Center, 225 South Vermillon Avenue, Brownsville, TX 78521; telephone: 956-725-6803; FAX: 011-525-207-5080. (e) Following are the documents needed to register a personal (imported) vehicle in Mexico. (1) Import Permit issued at the border by the Mexican Government at the time of your entrance into country. (2) Original Title or Certificate of Origin. These documents must be under the employees name. (3) Copy of bill of sale, also known as an invoice. If the original document is not available, a certified and notarized copy of the bill of sale must be provided to SRE. Bill of sale must contain name of owner, VIN or engine number, year, color, make, and model. If the vehicle was purchased through a credit union or bank, these institutions must issue a letter stating that the original document is being held by them. The price must appear in the letter. The letter must be signed and notarized by a notary public and attested to by a Mexican Consulate in the United States. (4) Proof of Mexican third party Liability insurance.

(f) Once all the necessary and completed documents have been turned in to GSO, Customs and Shipping will begin the process to register your vehicle. Expect to wait four to six weeks to receive your diplomatic license plates. During the Christmas and Easter holidays, this process can take considerably longer as the SRE is closed for business during these times. (2) Vehicle Purchased in Mexico: The following documents are necessary to register a vehicle purchased in Mexico. (a) A photo copy of the bill of sale or invoice endorsed to the employee. (b) Proof of third party insurance. As with imported vehicles, it will take three to four weeks for the SRE to issue the diplomatic plates for a locally purchased vehicle. Please refer any questions or requests for assistance to your post’s Customs and Shipping team or to the Customs and Shipping team in Mexico City at MexicoCityCS@state.gov.

(1) Following are the Government of Mexico's (GOM) laws concerning importation of privately-owned and official vehicles. These laws were implemented on January 1, 1992, and are still current. (a) Within certain dollar limitations, all types of vehicles can be imported and sold. (b) POV's for the Chief of Mission can be imported for the term of assignment, but the value cannot exceed 60,000 US dollars. Additionally, these employees are allowed to buy two Mexican made vehicles which are exempt from value added taxes (IVA). (c) All other accredited US personnel are allowed to import one US vehicle of any model or make, as long as the value does not exceed 30,000 US dollars. Also, these employees are allowed to purchase one Mexican made vehicle, which is exempt from value added taxes (IVA). According to GOM law, it is illegal to import vehicles under a Temporary Import Permit and keep them in country.

b. TVs/VCRs

Both Star Apartments & Shangri-La apartments provide the IPTV cable /triple service/ television package. Armed Forces Network (AFN) channels are currently not available. Multi-system televisions are recommended. The American Embassy provides TV until your HHG arrives. (CH 05-JUN-2019 TCJ4-HB RB)

c. OTHER (i.e. COMPATIBILITY, ETC)

Electric current is 220-240 volts, 50 cycles. Post will provide up to four (4) transformers. The American Embassy and residences are connected to generators. Therefore, the American Embassy encourages surge protectors for expensive electrical equipment and an uninterruptible power supply for computers shipped with household goods.(CH 21-Mar-2016 SDDC-PAC-RB)

5. FURTNITURE, OVERSIZED

No restriction on shipping furniture. However, Embassy housing is furnished, therefore shipment of furniture is not necessary, as Embassy does not have any space to store personal items. Best recommended to put your extra furniture into Non-Temporary Storage. For more information, please contact UlaanbaatarHousing@state.gov & Ulaanbaatar-Property@state.gov(CH 05-JUN-2019 TCJ4-HB RB)

6. PETS/QUARANTINE

It is important to check with individual airlines before shipping a pet. Normally, there are no quarantine checks on pets. However, during the COVID Pandemic on repatriation flights, a 21-day MANDATORY pet quarantine is required. Once you know that you will be traveling to Ulaanbaatar with a pet, please contact the GSO and provide all necessary information: UlaanbaatarGSOShipping@state.gov(CH 30-Nov-2020 TCJ9-OH-Pac RB) Individuals should provide an international health certificate and proof of vaccinations upon arrival. There is a $4.00 charge per pet to obtain import certificate upon arrival. Post will provide an expeditor to assist you with pet import at the airport. Please contact GSO Shipping via

8. PRIVATELY OWNED VEHICLES (POVs)

All POVs are required to pass a vehicle inspection before obtaining a local license plate. There are currently no restrictions from the Government of Mongolia regarding POV importation. For anyone considering selling their POV on the local market prior to departure from Mongolia, POVs imported Duty free face considerable additional taxes if the POV is more than 10 years old at the time of sale. Tax rates vary based on POV age and engine size. Post PROHIBITS the importation of right-hand drive (RHD) POVs due to safety concerns. As regulations change frequently, check with the GSO prior to POV shipping. Please contact GSO at the time of POV booking by sending a DRAFT O/BL to UlaanbaatarGSOShipping@state.gov Like HHE (surface shipment), POVs must be routed via Xingang Port, China. O/BL must read as follows: "This is a transit shipment to Uaanbaatar, Mongolia via Port of Xingang, China. Final destination for this shipment is Ulaanbaatar". Fuel level must be close to empty and batteries MUST be disconnected. O/BL should not be marked as a DANGEROUS GOODS.(CH 05-JUN-2019 TCJ4-HB RB)

a. POVs (includes data on prohibited vehicles, colors, etc.)

There are no restrictions regarding the type or color of vehicle. However, due to the poor road conditions and extreme weather, a four-wheel drive vehicle is recommended. If the POV is more than 10 years old, please contact UlaanbaatarTransportation@state.gov to ensure the POV can be imported.NOTE: it has become VERY difficult to sell Diplomatic-Imported vehicles to non-diplomats in Mongolia. If you do not plan to take your POV with you at the end of your tour, please reconsider shipping your POV into Mongolia. (CH 21-Mar-2016 SDDC-PAC RB)

b. MOTOR CYCLES/MOPEDS

Recommend customers check with GSO before shipping a POV or motorcycle. If motorcycle shipped in HHE, VIN required on O/BL and on inventory. O/BL must read: "This is a transit shipment via Port of Xingang, China to Uaanbaatar, Mongolia. Final destination for this shipment is Ulaanbaatar". Loaded cargo MUST be well balanced. If necessary, fix the cargo to prevent displacement. Tianjin (CHINA) railway station has strict container balance detection. Containers with serious imbalance in weight will be rejected by the railway.(CH 05-JUN-2019 TCJ4-HB RB)

c. GASOLINE/CATALYTIC CONVERTERS

Unleaded fuel is readily available, so vehicles should be shipped with catalytic converters.(CH 23-Jan-2018 USTCJ4-HB-PAC RB)

d. INSURANCE AND SAFETY REQUIREMENTS

Local third party liability insurance is required. Cost is between $50.00-$80.00 US Dollars per vehicle per year. Customers should obtain additional collision insurance through a US insurance agency before departing for Post assignment. US third party liability is STRONGLY recommended. (CH 21-Mar-2016 SDDC-PAC RB)

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

Prohibited.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

Contact with UlaanbaatarGSOShipping@state.gov in advance.(CH 05-JUN-2019 TCJ4-HB RB)

11. TRANSMITTING EQUIPMENT

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

Personnel contemplating retirement or separation to Ulaanbaatar should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Mongolia.

13. OTHER

International Direct Dialing is available in Embassy quarters. The country code for Mongolia is (+976); city code for Ulaanbaatar (UB) is 11. Calls made to cellular phones in UB do not need the 11 prefix; however, calls made to land lines in UB require the 11 prefix. The Embassy has International Voice Gateway (IVG), with an off premises exchange (OPX) which are telephone trunk lines directly connected to the Embassy IVG that link to Beltsville, Maryland. IVG calls to both the greater Washington, D.C. area (area codes 202, 703, 301, 410 and 571) and to toll-free numbers are not charged to Embassy employees. For non-official calls to other area codes, callers will be billed monthly based on post call accounting records. The Embassy also has VoIP trunks (aka Netbox). This provides free direct calls to toll-free numbers in the U.S. and access to other long-distance calling with the use of calling cards. Embassy personnel are provided a phone in their residences, however employees will need to pay for their own local home phone service in most cases. Some Embassy homes are equipped with an IVG line. The embassy's OpenNet+ includes Internet, although bandwidth is limited. High-speed Internet service can be arranged through the landlord at all Embassy housing. Incoming personnel may choose to bring their own router. Modems and routers can also be rented or purchased through the service providers.(CH 05-JUN-2019 TCJ4-HB RB)

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. HHG and POV should not be sent to arrive in advance of the employee, since customs clearance cannot be arranged unless the employee has arrived at Post. If necessary, please arrange temporary storage at Elso Antwerp. Post will advise Elso Antwerp when employee is ready to receive his effects and POV; surface shipments from Antwerp generally arrive within two to three weeks of the request. If all the documentation is in order, local moving company normally clears and delivers HHG and POV from port within 10 working days. b. Original ocean bill of lading and complete packing list should be sent to the Embassy Rabat, ATTN: GSO, as soon as possible, preferably by air courier, since duty free entry requests from the Moroccan authorities cannot be initiated without them. Inbound customs clearance arrangements for all DOD shipments to Morocco have been coordinated and effected with American Embassy, Rabat, Morocco. c. DUTY-FREE IMPORTATION: Shipments of personnel not on the diplomatic list must be shipped sufficiently far in advance to ensure arrival in Morocco within 6 months from date of employee's anticipated arrival in country. Staff members are only allowed one duty free HHG, one UB. Shipments must arrive in Morocco during first 6 months of tour. Duty free clearance of subsequent shipments is not routinely granted by the MFA, even if authorized by new orders (i.e., home leave and return to post orders). Staff members who need to ship separate shipment of HHGs (i.e., from post of origin and from permanent storage) should instruct Antwerp to consolidate shipment prior to forwarding to Rabat. d. DIRECT SHIPMENTS: POVs and HHGs may on occasion be shipped direct to Rabat rather than via Elso Antwerp provided employee will arrive before shipment and routing and costs are advantageous to the Government. Advise Embassy in advance with proposed routing. Also POVs and HHGs may be shipped directly as long as they are really shipped directly. Past experience has been that such shipments from CONUS are transferred to other ships, usually in Spain, and the shipment arrives on an unknown vessel, such shipments often remain at Casablanca Port for long periods of time before being located. However, if accurate timely trans-shipment information on such shipments is provided, the Embassy has no objection. e. RESTRICTED ITEMS: Shipments containing restricted items cannot be declared until employee has arrived in country, been declared to the MFA and been issued a Moroccan ID Card (process can take 4 to 6 weeks). Employee should be instructed not to ship restricted items in UB shipments. This will avoid prolonged delays in customs clearance upon arrival in Rabat. Restricted items: firearms, and video tapes; will be removed by customs official for inspection and further delay clearance process.

3. CONSUMABLES

DOS arranged shipment and DOD arranged shipments: Rabat is not a consumable post, please don’t ship consumable items in personal shipments.

a. ALCOHOLIC BEVERAGES

Alcoholic beverages should not be shipped with UB but can be combined with HHG. The Foreign Ministry stated, informally, quantities imported should not exceed a reasonable amount for personal use and specified one case was considered reasonable.

b. CIGARETTES/TOBACCO PRODUCTS

Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.

a. WEIGHT RESTRICTIONS

In accordance with governing regulations.

b. CONTAINER/CRATING REQUIREMENTS

HHG and UB should be shipped to Nepal by INTL/AIR/COMM/DPM. Containers should be in good condition, plastic-lined and properly caulked and banded with metal bands. A complete inventory and box count is required by the Government of Nepal for all incoming shipments.

c. HARD LIFT AREA

Hard lift area for all military services. Air clearance when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. UNACCOMPANIED BAGGAGE

No restrictions identified.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

6. PETS/QUARANTINE

Nepal requires an import exemption permit to bring pets into Nepal. Please send the health certificate (endorsed by United States Department of Agriculture-APHIS or government authority of country of origin) and recent rabies vaccination chart to:

kathmanduGSOCustomsandShippingRequests-DL@state.gov as soon as possible but no less than 5 working days before your pet's arrival in Kathmandu. The health certificate must indicate that the pet has been vaccinated and is good for at least six months after the pet's arrival in Kathmandu.

Please contact GSO for supplementary information if you intend to import anything other than a cat or dog.Please contact GSO at for supplementary information if you intend to import a pet as a cargo, or if you intend to import anything other than a cat or dog.(CH 13-JUN-2019 TCJ4-HB RB)

7. PRIVATELY OWNED FIREARMS (POF)

The Government of Nepal allows diplomats to import certain types of firearms. However, GSO must be notified for supplemental instructions before, repeat, BEFORE shipment is made.

a. HAND GUNS

No Restrictions Identified.

b. RIFLES/SHOT GUNS

No Restrictions Identified.

c. TOY RELATED GUNS

No Restrictions Identified.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

8. PRIVATELY OWNED VEHICLES (POVs)

The Government of Nepal (GON) allows each customer to import one POV duty-free. Diplomats may import a new vehicle as long as they have a conformity of production (COP) certificate indicating the vehicle meets or exceeds Euro-3 vehicle emission standards. The vehicle must also be ordered direct from the manufacturer and shipped direct with a Certificate or Origin.

A vehicle that is imported new may be sold locally at the end of the customer's tour. A recent concession has been made by the GON which allows diplomats to import a used vehicle that meets EURO-3 vehicle emission standards. Used vehicles imported into Nepal CANNOT be sold locally. They must be re-exported at the completion of the customer's tour. There is no waiver to allow imported used vehicles to remain in Nepal upon completion of tour. There is no age limit on used vehicles.(CH 21-Mar-2016 SDDC-PAC RB)

a. POVs (includes data on prohibited vehicles, colors, etc.)

For US-made vehicles:Since the GON does not have the tools or equipment to compare U.S. EPA and EURO standards, Post requests the importing customer obtain a certificate from the manufacturer (or its dealer) certifying current U.S. EPA emission standards of the vehicle being imported is equivalent to EURO-3 vehicle emission standards.(CH 30-Nov-2020 TCJ9-OH-Pac RB)NOTE:1. It is mandatory that prior approval from GON be obtained before shipping POV to Post.Although Nepal is a right-hand drive (RHD) country, left-hand drive vehicles may be imported on a case-by-case basis. Vehicles with tinted glass MAY NOT be imported to Nepal. Before shipping a POV to Post you should contact the GSO for the latest information on POV import regulations, as the regulations change often. Email: KathmanduGSOCustomsandShippingRequests-DL@state.gov 2. POVs should be containerized in a 20 ft. sea container, marked and consigned as follows:EMPLOYEE NAMEAmerican Embassy, Kathmandu, NepalPort of discharge: KolkataNotify Party:American EmbassyGeneral Services OfficerKathmandu, NepalTel: 977-1-4234000, ext. 4586Fax: 977-1-40072773. Upon arrival at Kolkata port, the vehicle will be cleared from Indian customs and container-trucked to Kathmandu.4. The original bill of lading should be forwarded directly to Post (American Embassy, Kathmandu, ATTN: GSO, Maharajgunj, Kathmandu, Nepal) via air courier in advance of the POV's arrival at Post.5. Customers who decide to ship a new vehicle should consider bringing spare parts, particularly air and oil filters, a set of shock absorbers, and an extra set of tires. A four-wheel drive vehicle is not necessary for Kathmandu. Large sport utility vehicles such as Ford Explorers, Lincoln Navigators, Hummers, and the like, are not good options for Kathmandu due to narrow roads and lanes leading up to houses, as well as narrow or awkward entrance gates. Vehicles of this size should be avoided.6. There are Ford, Chevrolet, Toyota, Honda, Subaru and many other vehicle dealerships in Kathmandu. Vehicles may be purchased locally but will most likely have to be shipped in from the point of manufacture in order to be sold duty free. This will take, on average, two months.7. Motorcycles and scooters are considered POVs. Do not ship motorcycles or scooters in your HHG until you have contacted the GSO for special importation and clearance instructions.8. In order to register a vehicle in Nepal, please ensure the VIN and engine numbers are clearly visible for inspection and photography by GON Department of Transportation officials. If these numbers are NOT visible for photography, you will not be allowed to register or use the POV in Nepal.(CH 21-Mar-2016 SDDC-PAC RB)

b. MOTOR CYCLES/MOPEDS

There are no restrictions on importation of motorcycles or mopeds in personal effects. However, these must be crated separately and the airway bill must describe the shipment as "personal effects and motorcycle/moped". The packing list/inventory should also contain the serial (VIN) and engine number of the cycle. Motorcycles/mopeds are considered to be motor vehicles by the GON and therefore, if any customer intends to ship or buy a POV, a motorcycle/moped should not be shipped until importation permission is granted by the Ministry of Foreign Affairs. A recent concession has been made by the GON which allows diplomats to import a used motorcycle that meets EURO-3 emission standards. Used vehicles imported into Nepal CANNOT, be sold locally. They must be re-exported at the completion of the customer's tour. There is no waiver to allow imported used vehicles to remain in Nepal upon completion of tour. There is no age limit on used vehicles.(CH 13-JUN-2019 TCJ4-HB RB)

c. GASOLINE/CATALYTIC CONVERTERS

No restrictions identified.

d. INSURANCE AND SAFETY REQUIREMENTS

Insurance is required before vehicle registration. There are many local Insurance companies who offer third-party and comprehensive insurance for POVs. (CH 21-Mar-2016 SDDC-PAC RB)

5. FURTNITURE, OVERSIZED

Government and Economy living quarters are generally smaller than those in CONUS. Economy housing in Germany may accommodate more HHG than government quarters, but are still smaller than homes and apartments in the United States. Many have narrow doorways and tight stairwells that cannot accommodate furniture that would fit easily into an American home. Service members shipping large items such as king and/or queen size box springs and mattresses, oversized sofas, or other large furniture items that cannot be disassembled, may encounter problems when residing in government or economy housing due to narrow stairwells. Washers, dryers, ranges, refrigerators, kitchen cabinets, and wardrobes are furnished for Government and Economy quarters. There is no Non-temporary storage in Europe authorized for HHG shipped in excess of what will fit, or is too large to be placed in,the Soldiers living quarters. Excess property shipped will not be stored at Government expense. Storage will be at the Soldiers expense.

6. PETS/QUARANTINE

Standards laid out in the following document address requirements for shipping dogs, cats, and ferrets from the United States. PLEASE NOTE: Ferrets are not accepted as pets for movement on AMC military or commercially contracted aircraft. If you require information on shipments for ferrets or other exotic pets please contact your local USDA field office. NOTE: For the remainder of this document the term pet or pets refers to dogs and cats only. ATTENTION: An examination fee of 55 Euro per pet will be implemented February 1, 2013, for all non-EU citizens who import a pet into the country. A. Quarantine Period - There is no quarantine period for pets entering Germany. B. Identification (Via standard electronic identification system with a read-only passive radio frequency identification device known commonly as a transponder Microchip): (1) Complies with ISO standard 11784 and 11785 (2) Where the microchip does not comply with ISO standard 11784 or 11785, the owner or the natural person responsible for the pet on behalf of the owner must provide the means necessary (Microchip Reader/Wand) for reading the non-ISO compliant microchip at the time of inspection (3) The microchip must be implanted before the primary rabies vaccination or valid rabies booster is given to the pet before traveling: a) Primary Rabies Vaccine - This is the first rabies vaccination a pet ever receives; for EU countries this also applies to the first rabies vaccine given after the microchip was implanted; that is, rabies vaccinations received prior to the pet being microchipped are NOT recognized by the EU. b) Valid Rabies Booster - This is a rabies booster that was given to the pet before the previous (Either the primary rabies vaccine or another rabies booster) rabies vaccination expired

C. Rabies Immunization: (1) Please refer to "http://www.aphis.usda.gov/regulations/vs/iregs/animals/ (Enter the destination country you will be residing in under "Search APHIS") (2) Pets less than three months of age coming from the United States may not always require the rabies vaccination IF: (a) These pets have pre-authorization from the EU member state BEFORE entering the country (3) Any one year dose or three year dose rabies vaccine is valid as long as it is a U.S. approved vaccine, and was administered according to the manufacturer's specifications (for instance, a vaccine labeled for 1 year use cannot be utilized as a 3 year vaccine) (4) A valid rabies vaccine must occur after the animal has been microchipped to be valid for entry into an EU member state (5) At least 21 days must have elapsed between the completion of the primary rabies vaccination (as specified above) and before the pet enters the EU member state. (a) However, if the animal received a valid rabies booster - - 21 days does not have to elapse before travel. (6) If a pet has received a non-ISO compliant microchip and then received a valid rabies vaccination with 21 days having elapsed since that vaccination and entering the EU member state; they: (a) Do not require

implantation of another ISO compatible microchip, but are required to carry with them a microchip reader/wand capable of reading the non-ISO compatible microchip implanted in their pet (b) Do not require administration of another rabies vaccination before traveling as long as the rabies vaccination received is still valid (c) Can have an ISO compatible microchip implanted in their pet so they do not have to carry the reader/wand with them 1. If they get this ISO compatible microchip implanted, they do not have to receive another rabies vaccination following this second microchip implantation. They are only required to document both chips on the required forms with their implantation dates D. Documentation (Verify the correct required documentation with your local USDA office): (1) APHIS Form 7001 (Nov 2010) Acquired from any Army veterinarian, local veterinarian or USDA office (a) Valid for only 30 days after issuance

1. Timeframe the form is valid can be shortened per the requirements of the Airline the service member is traveling on (b) Requires certification by a USDA Accredited Veterinarian, Army Veterinarian, or GS 0701 Veterinarian before travel (c) This form is not required to enter the European Union (EU) 1. However, it's highly recommended that service members acquire this form before travel from their on-base Army veterinarian to preclude the following: a. If a member flies on a commercial carrier they may be required to have this form b. If a member is scheduled to fly Patriot Express and somehow has to divert to a commercial carrier, having this form in advance alleviates last minute costs ($200) or delays 2. This form is not required to travel on Patriot Express (2) EU Non-Commercial Pet Form (Bilingual Health Certificate) (a) For "Pets Dog, Cats, and Ferrets" destined to Germany, see link Under Pets heading Pets Dog, Cats, and Ferrets) Please refer to "http://www.aphis.usda.gov/regulations/vs/iregs/animals/ (Enter the destination country you will be residing in under "Search APHIS") (b) Valid for 10 days to enter European Union and 4 months once inside the European Union 1. Timeframe the form is valid can be shortened per the requirements of the Airline the service member is traveling on

(c) Requires certification by a USDA Accredited Veterinarian, Army Veterinarian, or GS 0701 Veterinarian before travel E. Helpful Hints: (1) As soon as you know you are going to travel and no later than 22 days prior to travel, get your pet microchipped first and then vaccinated for rabies if you have not already done so. Remember: A VALID RABIES VACCINE MUST OCCUR AFTER THE MICROCHIP IS IMPLANTED (a) This will ensure the required 21 days has elapsed post vaccination prior to travel (2) When completing your required documentation (before you mail the forms or travel to your local USDA office to get them certified, if not using your on base Army veterinarian), fax or over-night ship them to your local USDA office to ensure they are filled out correctly before traveling to their office (a) This will ensure you do not waste travel time or postage only to have to redo the paperwork (3) Many overseas bases have a full-time veterinarian on staff as well as commercial veterinarians available on the economy (a) Most bases require pets to be registered with the base veterinarian after arrival. Check with base veterinarian for details (4) The pet cage or carrier (See carrier shipping rules for correct cage dimensions based on pet size) used for shipping the pet must be labeled with the owner's name, pet's name, owners (or nominated persons) address, contact number and contact number at the final destination. (5) Since 21 Apr 2001, Germany has had a law in place prohibiting importation of certain dog breeds regarded as dangerous. For more information consult http://www1.zoll.de/english_version/a0_passenger_traffic/e0_vub/h0_dangerous_dogs/index.html. You may also contact the base veterinarian at your destination. F. Unauthorized Pets: The import of Pit bull Terriers, American Staffordshire Terriers, Staffordshire Bull Terriers and their crossbreeding is prohibited. G. Fees: (1) The USDA form certification fee (approximately

$70+, plus any shipping and handling if by mail) (2) Transporting pets to and from the PCS destination is at the member's expense and cost is based on the size of the pet being transported. Connecting flights may have fees in addition to AMC fees from BWI. (3) EFFECTIVE 1 February 2013, The fee for the import examination is 55 EURO. (4) All pet requirements are at the member's expense

7. PRIVATELY OWNED FIREARMS (POF)

"Shipping a privately owned firearm (POF) into the Netherlands by US personnel or their dependents is not prohibited outright, but as a practical matter it is almost impossible to accomplish legally. Prior to shipment, permission to import the POF into the Netherlands is required from Dutch customs. If the requester does not have a valid Dutch weapons permit, Dutch customs must refuse permission to import the POF unless it will remain under the control of Dutch customs upon its arrival. A Dutch weapons permit is not likely to be granted, as the application requires documentation that few American citizens can provide. Given these difficulties, we recommend that personnel moving to the Netherlands do not attempt to ship a POF into the country."In order to ship a POF, Department of Defense personnel must have in their possession a document showing authorized consent from the Netherlands Minister of Security and Justice. Information for obtaining this consent can be provided by using the website shown below:http://www.belastingdienst.nl/wps/wcm/connect/bldcontenten/belastingdienst/customs/safety_health_economy_and_environment/cdiu_cluster/weapons_ammunition_consent_export_licences/wapons_and_ammunition_consent_and_export_licences%29a. Personnel who reside on the economy must register weapons with local police authorities. Failure to register firearms may result in confiscation of weapons. The use of firearms in the Netherlands is uncommon because of hunting formalities, availability of shooting ranges and stringent laws governing there use. b. Host nation policy is to absolutely minimize the import of weapons. Although there is no restriction on import quantities, the need for having a weapon must be proven to local authorities. Military installations might have restricted storage facility for POFs, due to lack of adequate storage facilities. c. Membership with a local (Dutch) rod and gun club is mandatory. Firearms must be fired (at least 8 times a year) at an authorized range. d. Firearms may be shipped in HHG or UB. However, they must be clearly identified on the carrier's descriptive inventory.

a. HAND GUNS

Shipping a privately owned firearm (POF) into the Netherlands by US personnel or their dependents is not prohibited outright, but as a practical matter it is almost impossible to accomplish legally.

b. RIFLES/SHOT GUNS

Shipping a privately owned firearm (POF) into the Netherlands by US personnel or their dependents is not prohibited outright, but as a practical matter it is almost impossible to accomplish legally.

c. TOY RELATED GUNS

The possession of a BB gun is not prohibited, provided that the maximum shooting power is limited to 3.5 Joule.The owner of the BB gun must be 18-years or older.A second rule is that the owner of a BB gun must be registered with a certified Airsoft sports club.(The problem is that the MBR will bring the BB gun into The Netherlands before he is registered to an Airsoft sport club which makes it illegal to have one.)For further questions please contact PPPO Brunssum:

8. PRIVATELY OWNED VEHICLES (POVs)

Diesel POV Owners/Shippers: Environmental Emissions Restrictions on Diesel POVs operated within various German/Belgium/The Netherlands city limits are changing "daily". BEFORE SHIPPPING A DIESEL POV, Personnel should email USTRANSCOM-Europe Personal Property Office at <usarmy.sembach.598-trans-bde.mbx.ppd@mail.mil> and provide Make, Model, Year, and VIN #. USTRANSCOM-Europe will call their local RMV and obtain the most current information. Check back often, once we receive more concrete advice, this note will be updated.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) General information: Local customs permit registration of more than one POV, tax/duty free. Other than HQ JFC Brunssum eligible registration of POVs might encounter to pay more registration fees than used to in the US to license and register a POV. AAFES auto service will reduce service to light maintenance (sample: oil change, etc.) Heavy duty maintenance is no longer available through AAFES, only local economy vendors/dealers/garages. Large American vehicles can and may be operated in the Netherlands, but member may encounter challenges when parking.(2) Eligibility for licensing: Driver must have a valid US driver's license in possession. Minimum age to drive a moped is 16 years. Minimum age to drive a motorcycle or automobile is 18 years. Special requirements are applicable for members who have no valid US driver's license in possession.(3) Long Term Lease Vehicles: Because a leased vehicle is not registered nor owned in the member's name, import is not allowed by Netherlands customs as a tax-free vehicle. It is recommended that the member's destination sponsor contact the Military Base Vehicle Registration Office for update information and requirements.(4) Automobiles, Mopeds, and Motorcycles must be registered at local military authority, and a drivers license must be obtained prior to operation of the vehicle.

b. MOTOR CYCLES/MOPEDS

Mopeds/motorcycles can be imported in personal property shipment duty free. There is no restriction on the number of vehicles imported.

c. GASOLINE/CATALYTIC CONVERTERS

Unleaded gas is available, however, not in all European communities. Members no longer have to remove catalytic converters from their POV prior to shipping. However, members must have their catalytic converter systems tested annually to ensure their POVs have not been run on leaded fuel while overseas. In addition, a final test will be required 10 calendar days prior to the POV being turned in for shipment back to the Customs Territory of the United States. This requirement is to confirm the POV is in conformity with EPA Federal and Regulatory Emission Control Standards.

d. INSURANCE AND SAFETY REQUIREMENTS

(1) All vehicles must be in sound mechanical condition, have no protruding parts, and tires must have sufficient tread; i.e., automobiles may not have tread less than 1.6 millimeters.(2) If a car is intended to be used, or could be used, to pull a trailer, it must have two outside mirrors (1 left/1 right) and a directional signal on each side of the vehicle. (3) Vehicles equipped with tinted windows are accepted if installed by vehicle manufacturer. Vehicle windows equipped with folies-tinted windows by others than the vehicle manufacturer, the folies must be removed prior to registration.

AFTER SUBMISSION OF REQUIRED DOCUMENTS TO DOS, PLACE THE DPS SHIPMENT RECORD IN A ---CANCELLED--- STATUS.OTHER: 1 - Active duty military and military sponsored civilians on PCS to New Zealand. All personal property is imported duty free with the stipulation they are for the members personal use and will not be sold or otherwise disposed of. The responsible transportation office for active duty military and DoD sponsored civilians on PCS to New Zealand is the 337 ASUF, Canberra Australia, RAFK. Refer to Australia international PPSO for consignment and contact information. 2 - All personnel must obtain a New Zealand Diplomatic Exemption Visa (DEV) in their passport prior to arrival to be officially recognized and confirm their right to enter New Zealand. Application can be made to the nearest New Zealand Embassy/High Commission for a DEV.3 - MEDICAL CLEARANCES--A medical clearance issued by the Department of State Office of Medical Clearances (MED) is required for everyone (besides Active Duty Military and dependents) before arriving at Post for a tour of duty. Active duty military and their dependents are given a medical clearance by DOD. Other civilians from all agencies who will serve a tour at post or will be TDY at post for more than 30 days need to contact MED at medclearances@state.gov. If you or your family members have not had a clearance before, please allow time for a full-physical exam that must be completed on the MED forms. Other forms or other physicals cannot be accepted. If you have had a prior clearance, it will probably need to be updated before coming to post and MED can give you guidance on how to do that. MED will assist with providing the proper forms and notifying you when you and all your family members are cleared medically to go to Post.If you have any questions that MED Clearances can’t answer, you can contact the RMO in Canberra, Australia, who covers New Zealand.4 - WHEN TO SHIP--
Because of very strict Bio-security requirements of New Zealand, shipments should not arrive prior to customer arrival at post. Shipping times vary but are normally a minimum of 6 weeks from ELSO for sea freight, for example, but can take up to 3 months. Losing posts are welcome to contact the Wellington GSO to inquire about transit times from their location. Wellington GSO organizes the receipt of personal effects shipments for all of Mission New Zealand.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

--New Zealand Ministry of Agriculture and Fisheries enforces strict adherence to regulations regarding importation of prohibited items. It is imperative customers comply with these regulations; failure to do so could result in lengthy delays in the clearance of effects, possible confiscation of prohibited items and potential fines.--Shipments will be inspected upon entry into New Zealand so it is important to clearly and accurately identify items on packing lists. It is a good idea to carry a copy of packing lists from UB and HHG pack-outs when entering NZ. Grouping items together that are permitted, but will require inspection or fumigation, when packing will save time when inspectors need to pull certain items from shipments for secondary inspection or treatment. Items such as hiking boots, camping gear, lawn chairs, golf shoes, dried plants, holiday ornaments made from natural materials, wreaths, baskets, and anything made from bone or feathers are often inspected for soil matter and contaminants. These items should be clearly labeled. If after inspection it is determined that these items require treatment they will be removed. Make sure outdoor items are free of dirt and dried plants. Plant-based objects such as dried flowers, leaves and pine cones will most likely be considered a biosecurity risk and destroyed. Recommend customers do not bring these items. Some things are better left in storage because they will be burned, fumigated or returned to the USA at customer expense. For a complete up-to-date list of prohibited items, visit website www.mpi.govt.nz.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

3. CONSUMABLES

-OTHER PROHIBITED AND/OR RESTRICTED ITEMS: PROHIBITED ITEMS include: straw packaging, straw handicrafts may be allowed after examination and treatment. Coral, clam, turtle shells, tortoise shells, and ivory in any form including curios, jewelry, souvenirs and handicrafts. RESTRICTED ITEMS include: unprocessed wool and animal hair; including yarns, rugs and apparel. Riding equipment including clothing, footwear and grooming equipment. Camping gear. Animal remedies, foots, and vaccines. NOTE: Restricted items must be declared and may require inspection and/or treatment. They may be prohibited depending on origin and packaging. --Please note certain food items such as honey and popcorn or anything that can be planted and grown, such as dried beans, cannot be brought into New Zealand or sent through the DPO. A full list of precluded items is available on request or through the website http://www.mpi.govt.nz/travel-and-recreation/arriving-in-new-zealand/goods-clearance/. Go to Travel and Recreation and carefully read the Moving to New Zealand: what you need to know pamphlet. Further questions can be

answered by contacting: CLOWellington@state.gov or info@mpi.govt.nz.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

a. ALCOHOLIC BEVERAGES

Importation in personal property shipments is not permitted.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

b. CIGARETTES/TOBACCO PRODUCTS

Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified. When undefined or in doubt, the TMO will request clarification by message from the responsible transportation authority at destination.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

c. COSMETICS

No restrictions identified.

d. FOOD STUFFS AND MEATS

The following items are prohibited: All fresh fruits and vegetables; egg cartons. Honey; including pollen, honeycombs and other bee products including propils and medications. Meat and meat products; fresh, cooked and small goods. Fresh water fish species including salmon and trout (canned products subject to examination). --FINES-The Government of New Zealand instituted fines for non-declared bio-security hazards for anyone found entering New Zealand with undeclared plant, animal or food material. Travelers found carrying these undeclared items can be issued an instant fine of NZ$400 (approximately US$300) at the point of entry. Bio-security is a serious issue to New Zealand and fines will be administered immediately and without warnings. Diplomatic status will not exempt customers from fines. For a complete up-to-date list of prohibited items, visit website www.mpi.govt.nz.(CH 23-Mar-2018 USTCJ4-HB-PAC RB))

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

Please take note that certain prescription medications containing controlled substances may not enter New Zealand. There are also restrictions on the importation of some herbal medicines/products. All medicines must be in clearly marked containers with corresponding dosage information and a letter from a doctor. If customers require further information on restricted medications, contact should be made with Post. Post will provide contact details for our local Embassy Medical Advisor and with the RMO based in Canberra. Most pharmaceutical products are available in country; some may cost more than in the US. New Zealand has a national health system which includes a subsidy on many pharmaceutical drugs if prescribed by a general practitioner. This subsidy is not available to foreigners. Some prescription drugs are not available locally. Instead, there may only be one or two options of prescription drugs available for a particular condition. If you have specific needs, we suggest you bring an initial quantity with you and arrange in advance for future shipments to be made by mail from the US. Again, customers will need to consult with the Embassy Medical Advisor and the RMO on any restrictions at the time.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

4. ELECTRICAL EQUIPMENT

No Restrictions Identified.

a. HOME COMPUTERS

No restrictions.

b. TVs/VCRs

New Zealand uses the PAL broadcast television system, and is going digital, so a TV designed for use in the US (NTSC) will not work in New Zealand. Post suggests bringing a multi-system (PAL and NTSC) unit, which will allows customers to watch NZ TV and take maximum advantage of local TV stations and DVD rentals. US DVD players generally only work with Zone 1 disc (USA). NZ players are Zone 4 and sometimes, Zone-Free, which will play both US and NZ discs.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

c. OTHER (i.e. COMPATIBILITY, ETC)

New Zealand voltage is 230 volts at 50 cycles. Transformers are required for American appliances of 110 volts. NOTE: Electronic digital clocks or washer/dryers which are designed to function at 60 cycles will not keep time properly in New Zealand. (CH 23-Mar-2018 USTCJ4-HB-PAC RB)

5. FURTNITURE, OVERSIZED

Housing in Wellington is government-owned or leased and furnished. In most cases, residences have very limited space (storage and otherwise), so please keep this in mind when packing out. Post has no storage facilities available, so customers should plan on government-provided furniture staying in the residence. Commercial storage is available, at the personal expense of the customer, but it is very expensive.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

6. PETS/QUARANTINE

Importation regulations change often. Members considering importing their cat or dog must contact the Ministry of Agriculture and Fisheries(MAF) Import Management and Quarantine office AT LEAST SIX MONTHS prior to intended importation date. The commercial number for the Ministry of Agriculture and Fisheries (MAF) is 011-64-4-498-9624. Current standards are as follows: a. The animal must have a microchip inserted or a tattoo implanted by a veterinarian for identification purposes (the chip that is currently preferable is the Trovan Destron Fearing chip and MAF can provide names and phone/fax numbers of suppliers. This must be done at least six months prior to export. b. Primary rabies vaccination must have taken place not less than six months and not more than one year prior to shipment. NOTE: The microchip/tattoo identification number should be on the rabies certificate. OR: Booster vaccination must have taken place not more than one year prior to shipment. c. Rabies Neutralizing Antibody Titration test results, showing antibodies of greater than 0.5IU/ml must be performed at least six months prior to the first day of quarantine in New Zealand. Time limits may vary depending on rabies vaccination history. Additional information is available at www.maf.govt.nz. d. A second Rabies Neutralizing Antibody Titration Test is also required to be performed within the 30 days preceding the first day of quarantine in New Zealand. To be permitted entry into New Zealand, animals must be issued with an Import Health Permit (application forms available from the MAF point of contact). You must already have CONFIRMED space arranged at a MAF approved quarantine facility, there are currently two in the Auckland area. Rates range from NZ$35.00 - $45.00 per day for a dog and the required period of confinement is 30

days. These facilities currently have a six month waiting list. There is only one quarantine facility in the Christchurch area. Also accompanying your completed application must be: (1) A check or money order for NZ$135.00. (2) Letter from the operator of the quarantine facility, co-signed by the supervising MAF Veterinarian confirming availability of space for the animal at the time of importation. (3) Rabies antibody titration test results. This needs to be greater than 0.5IU/ml, taken at least six months prior to the first day of quarantine in New Zealand. (4) Letter from the animals veterinarian stating the date blood was taken from the animal for the laboratory testing above. The pet owner must also contact the airlines they are traveling on, domestically within CONUS and international. This should be done well in advance of the planned travel dates. The cost is high and is based on excess baggage costs which go by size and/or weight of the animal, this varies from domestic to international flights. Once an animal has been in quarantine in Auckland for the required 30 days, further transportation costs are involved to get the animal to its final destination, again at the members expense. --IMPORTANT-- Costs associated with transporting pets out of the US to New Zealand along with meeting all requirements are approximately US$3,000. Post is experiencing increased difficulty in finding leased housing that will allow tenants to have pets – post cannot guarantee success. If a customer plans to import a pet, please notify Post promptly.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

7. PRIVATELY OWNED FIREARMS (POF)

Owners of guns must acquire a firearms license from a New Zealand Police Arms Office at a cost of NZ$123.75. The owner must then apply to the same office for a permit to import their gun.

The New Zealand Police hold a list of approved makes and models of guns, so members should apply before shipment to see if their gun is approved and to obtain a copy of the Firearms Code.

The commercial phone for the New Zealand Police Arms Office for Christchurch is 011-64-3-379-3999.

a. HAND GUNS

Strict requirements exists for ownership of handguns in New Zealand. Contact the New Zealand Police Arms Office for specific information. (CH 23-Mar-2018 USTCJ4-HB-PAC RB)

b. RIFLES/SHOT GUNS

Sporting rifles and shotguns may be imported but must be inventoried as a separate item on the household goods inventory. Member must have their original U.S. firearms license/permit for registration in New Zealand. Contact the New Zealand Police Arms Office for specific information.

(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

8. PRIVATELY OWNED VEHICLES (POVs)

Effective 1 March 2005, the 337th Air Support Flight, Canberra, Australia assumes this management responsibility. --IMPORTANT -Automobiles in New Zealand are right-hand drive. Left-hand drive vehicles may be imported, but they must be exported at the end of tour. ---Post discourages importation of left-hand drive vehicles---due to strict Ministry of Transport testing for compliance with New Zealand regulations. POV storage in the US for one left-hand drive vehicle is allowed if you choose not to bring your vehicle to post. It can cost up to US$2,500 and take several weeks to replace headlights required to meet the New Zealand right-hand drive standards to pass the vehicle compliance inspection. Please note not all models of headlights are available in country. These costs can be itemized and reimbursed within the limitations of the Foreign Transfer Allowance.--Importing a vehicle to NZ and if it left hand drive can be a very long and expensive process once the vehicle has arrived in NZ, first it will be inspected by NZ Customs and the Ministry of Primary Industries(MPI) this is the Biosecurity Team that will also inspect items in your UAB / HHE shipments, if MPI find any bugs, spiders, etc. in the Vehicle, it will be flagged for Fumigation, which will delay the process longer, after it is cleared by Customs and MPI it will then go to a Vehicle Testing Station (Compliance) where they will check everything on the vehicle to make sure it passes and it is good to drive on NZ roads.--Left Hand Drive Vehicles :

Most if not all left hand drive vehicles will need to have the heads lights adjusted or replaced to comply with NZ standards, the Compliance center can't tell by looking at the model of the vehicle on the system, the vehicle has to be physically here, as the head lights are hooked up to a beam light to check the direction they are pointing at. An estimated cost for compliance is$450 NZD, plus GST, if it needs headlights, etc. extra cost on top and first time Registration in NZ for the vehicle is around$100 - $250 NZD, it depends on the make / model of the vehicle as every vehicle is different.(CH 23-Mar-2018 USTCJ4-HB-PAC RB)

a. POVs (includes data on prohibited vehicles, colors, etc.)

All POVs must be cleared through New Zealand Customs. Members ordered PCS to New Zealand may import two POVs duty free, however, the cost of shipping the second vehicle is borne by the member. Origin must submit by facsimile the advance documents to the 337th Air Support Flight at commercial phone number 011-612-6273-5231 to expedite the Custom clearance. DSN is not available. Required documents are: a. Copy of official orders b. Copy of drivers license c. Copy of vehicle certificate of title or registration d. Shipping notices; CBL/GBL e. Copy of DD Form 788 f. Value of vehicle determined by using the Kelly Blue Book g. Global POV Contractor submits the completed New Zealand Quarantine Declaration. (1) Active duty military and civilians assigned to tenant activities. Member should hand carry to New Zealand (not place in HHGs) title and bill of sale as proof of ownership, purchase price, purchase date, POV identification number, etc. Member should also know cubic inch measurement of engine. Consignment of vehicle should be to Port Lyttelton, NZ, water port code (VE5). Importation is duty-free, with the provision the vehicle cannot be sold before 2 years in country and it would be converted to right hand drive before sale. Member also must declare POV will be reshipped if they are posted before a 2 year tour is fulfilled. (2) Active duty military and civilians assigned duty with the American Embassy, Wellington, New Zealand. Shipment of POV should be coordinated through the American Embassy, Wellington, NZ. Consignment of vehicle should be to Wellington, NZ (VE2). Importation is duty-free, with the provision the vehicle cannot be sold before 3 years in country and it would be converted to right-hand drive before sale. If thinking of selling the imported vehicle upon departure, please note that selling a vehicle that has been in the country for less than 3 years will require payment of Good and Services Tax (GST), currently 15%. Also, left-hand drive vehicles cannot be sold in-

b. MOTOR CYCLES/MOPEDS

Motorcycles/mopeds are considered POVs and may be shipped in personal property. Motorcycles should also be steam cleaned prior to shipment and member hand carry steam cleaning certificate to facilitate agriculture clearance. (CH 23-Mar-2018 USTCJ4-HB-PAC RB)

c. GASOLINE/CATALYTIC CONVERTERS

New Zealand has recently converted to unleaded fuel only. Catalytic converters need not be removed. (CH 23-Mar-2018 USTCJ4-HB-PAC RB)

d. INSURANCE AND SAFETY REQUIREMENTS

Any member under the age of 25 importing an American vehicle with engine power over 2 liter should know insurance companies in New Zealand will only insure them for third party coverage at very high premiums. Member will have great difficulty getting an insurance company to insure them. Cost of insurance on a left hand drive vehicle ranges from NZ$250.00 a year, with a NZ$1000.00 deductible, to NZ$1000.00 a year, with a lower deductible (NZ$500.00). A statement of record from a previous insurer shows an accident free and no claim history will greatly assist in obtaining insurance at a more reasonable price. SAFETY REQUIREMENTS: Part of the clearance process is the requirement to apply to the Land Transport Safety Authority (LTSA) for a permit to Import a left hand drive vehicle. Once this is obtained a physical safety and road worthiness check is performed by the same authority at a minimum cost of NZ$120.00, costs go up if modifications are required. After the safety inspection, a Warrant of Fitness (WOF) is issued. Generally, any vehicle meeting local state vehicle inspection criteria will pass a Warrant of Fitness inspection in New Zealand. Regulations covering seat belts require lap and shoulder restraints for the two front seats, i.e., the driver and passenger nearest to the door. Shoulder restraints must be the dual sensitive emergency locking retractor (Inertia reel) type. To replace these could cost NZ$485.00 to NZ$585.00. Also required are the same belts including shoulder restraints for back seat passengers nearest either door. All other seats require approved lap belts. Another requirement is at least one high-mounted stop light at driving eye level at the rear of the vehicle. On a convertible, this is to be no lower than 152 millimeters below the lower edge of the rear window. On other cars, no lower than 77 millimeters below the lower edge of the rear window. Once satisfying all of these requirements the member must register their POV. Fees are based on horsepower rating or cubic inch engine size and for the first time registration in country can cost from NZ$190.10 to NZ$368.60 for six months or NZ$265.20 to NZ$444.45 for one year (approx. US$129.27 - $250.65 and $180.33 - $302.25) Subsequent registrations cost NZ$82.65 for six months or $157.75 for a year (approx. US$56.20 or $107.27). The member should now have their Left Hand Drive (LHD) Import Consent, WOF, and Registration certificate. They must now apply to the LTSA for a Permit to Operate a LHD vehicle on the road. There is no cost for this permit. New Zealand Ministry of Agriculture and Fisheries may also require the vehicle be steam cleaned at port of entry if found to have excess dirt or bugs in wheel wells or about the engine. The cost is NZ$106.87 and is payable by the member. Recommend POVs be steam cleaned prior to shipment and receipt or certificate to verify cleaning be placed in the window of the car. There are many safety restriction, therefore, before shipping your POV, recommend a visit to www.ltsa.govt.nz.

Second hand vehicles are affordable and may be cheaper than shipping your own in the long term.

13. OTHER

a. BOATS: Boats imported into New Zealand fall under the same customs provisions as paragraph 8 above. Boats do not require registration; however, the boat trailer has to be registered and warranted at the owners expense. b. HOUSING: Floor plans of New Zealand homes are different from those found in most US homes. Long hallways with rooms leading off are standard. Most homes do not have a basement. Many of the homes lack storage space and sufficient electrical outlets. Also rooms and closets are small by US standards. Few homes have central heating, relying

instead on space heaters, wood stoves, or fireplaces. In rental properties, cooking ranges are provided by the landlord. Refrigerators, washers, and dryers are provided by the tenant. However, there are refrigerators, washers, dryers, available to active duty service members on a first come, first serve basis from the command. Personnel should check for availability through their sponsor.

c. STORAGE: Non-temporary storage (NTS) of household goods must be utilized at origin. (CH 23-Mar-2018 USTCJ4-HB-PAC RB)

1. SHIPMENT INSTRUCTIONS

DOD arranged shipments: Contact (GBLOC: WKAS, EURO Theater CPPSO Germany) DOS arranged shipments: Contact (TJDK US Cons, TJDL American Emb)"Effective 1 October 2013, DoD and U.S. Coast Guard (USCG) personnel assigned official duty to a diplomatic assignment under chief of missions and classified as permanent personnel or temporary duty (TDY) personnel more than 90 days, are authorized shipment of HHG/TDY weight allowance using DoS Transportation Services IAW Defense Transportation Regulation (DTR), Part IV, Appendix F. Upon completion of the following actions, customers must be advised to coordinate pickup and delivery directly with DoS Transportation. For shipments picking up 1 October 2013 or after, DoD and USCG Personal Property Processing Offices (PPPOs)/Personal Property Shipping Offices (PPSOs) shall follow the following instructions:1.Ensure customers are counseled within the Defense Personal Property System (DPS) IAW Joint Federal Travel Regulation/Joint Travel Regulation entitlements and Service regulations. Document counseling via the DD Form 1797.2.Ensure DD Form 1299 is accomplished for each shipment and contains the following statement in the remarks block "Department of State managed shipment". 3.Submit DD form 1299, DD form 1797, and a copy of the customer's orders via fax/emailed to U.S. Department of State Transportation and Travel Management division, Phone: 1-800-424-2947 or 202-663-0891/0892, Fax: (202) 663-3209, Email: DODPP@STATE.GOV.4.After submission of required documents to DoS, place the DPS shipment record in a "CANCELLED" status.OTHERShipment CANNOT arrive before the member's arrival. a. WEIGHT RESTRICTIONS

DOD arranged shipments: “In accordance with the Joint Travel Regulations.” DOS arranged shipments: Contact DOS.

b. CONTAINER/CRATING REQUIREMENTS

Size restrictions on lift vans/containers, crates of HHG, UAB, and consumables for air transportation can not exceed the following dimension: height 162cm, no limit for length or width. Crates taller than 162cm are sometimes laid on the side, which may damage contents, or crates can be refused by carrier.

c. HARD LIFT AREA

Hard lift area for Army, Air Force, and Marine Corps. Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. UNACCOMPANIED BAGGAGE

DOD arranged shipments: “In accordance with the Joint Travel Regulations.” DOS arranged shipments: Contact DOS.For UB only mark: American Ambassador (initials of employee), U.S. Embassy-Niamey, Niger(not Nigeria)West Africa. Routing usually via Paris, France.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. All airway bills for HHG shipments to Lagos must be consigned American Consulate, Lagos, Nigeria (first name, last name). It will be impossible for the ministry to approve in future any consignment that may be addressed to carriers inclusive or its local agents, who to the best knowledge of this ministry do not have any diplomatic status. The consignee of any consignment is the legal owner of the goods being imported. If the consignee, nature of commodity, and handling information are not completed in this exact manner, long delays in clearing shipments in Lagos are likely. b. Advance copy of airway bill, PPGBL, and packing list must arrive in Lagos 3 weeks before flight. PPGBL alone is not acceptable. The 3-week time lag between receipt of advance documents and arrival of goods provides Embassy time to get necessary approvals for the Nigerian Government and to begin customs processing. Also, send message to American Consulate providing shipping data, airway bill, and PPGBL number. In the case of ocean shipments, two originals of the carriers ocean bill of lading must arrive in the post 3 weeks before the vessel. Delay vessel booking to ensure this 3-week customs processing time to avoid demurrage charges pending customs clearance and member arrival. c. Member should arrive in country 1 week before the goods, as Foreign Ministry will not accept document until member is at post. Goods should not be shipped prior to member arriving in country and arrival message sent. Temporary storage of goods may be required to ensure member is in country and registered with the Nigerian Ministry of Foreign Affairs prior to shipment.

d. Send documents via DHL or equivalent commercial air carrier service, not air mail. Address documents to American Consulate General, ATTN: GSO Shipping, Lagos, Nigeria.

3. CONSUMABLES

DOD and DOS For: Abuja and Lagos Nigeria.JTR, par. 052002-F for Service members; par. 054310 for DoD civilian employees; App A definition.The JTR identifies Addis Ababa, Ethiopia as having a consumable goods allowance authorized. Recommend validating consumables allowance authorization within the JTR A. Uniformed Service Member 1.A member is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.). 2.Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized. B. Civilian Employee 1.A civilian employee is authorized to ship up to 1,250 pounds of suitable consumable goods per tour-year (i.e., 12-month tour-1,250 lbs: 18-month tour-1,875 lbs, etc.). 2.Two consumable goods shipments (totaling 1,250 pounds) per year are allowed if the consumable allowance is authorized.

DOD arranged shipments:"In accordance with the Joint Travel Regulations." DOS arranged shipments: Contact DOS.Islamabad-UAB consisting of 250 pounds gross weight.Karachi- UAB consisting of 250 pounds gross weight.Lahore-UAB consisting of 250 pounds gross weight for inbound travel.Peshawar-UAB consisting of 250 pounds gross weight for inbound travel.Please remember that as Pakistan is designated a one-year posting, usually following shipment limits are in effect: UAB 250 pounds, HHE 750 pounds by air, HHE 2,000 pounds by surface, and a POV. However, employees who are extended for a second year may be entitled to an additional HHE allowance of 4,450 pounds by surface equal to 7,200 pounds in total. Military personnel should consult with their Logistics Officers for specific weight allowances. (HR Tech can advise the authorized weight allowances)

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Customs clearance is handled by Embassy GSO upon arrival of property in country. Embassy cannot release the shipment from Customs unless the member has arrived at post. A copy of the commercial bill of lading and/or PPGBL is required prior to receipt of shipment in order to initiate customs clearance. If appliances are shipped, member must have purchase documents available. For duty free entry, property must arrive within 6 months of member's arrival. Personal electronic equipment, such as TVs, stereos, and home computers, must be itemized on inventory.The Government of Pakistan (GOP) grants permission for duty-free importation of UAB/HHE/POV only after an employee arrives at post and has been accredited by the GOP. The Ministry of Foreign Affairs is responsible for issuing a card which identifies the level of privileges and immunities to which the holder is entitled; this process may take up to 6-8 weeks. However, the UAB/HHE Air customs clearance process may take 8-10 weeks and HHE Surface customs clearance process may take 10-12 weeks. GSO Customs and Shipping cannot clear your shipments until you have applied for your MFA ID card and your exemption certificates have been received, regardless of the amount of time that you have been in Pakistan. Please be prepared for this delay either by packing urgently needed items in your accompanying baggage or shipping them to your employing office through the DPO. A&T Staff may only import personal effects duty-free within six months of arrival at post.

IMPORTANT NOTE: As per GOP law the personal effects of all non-diplomatic staff who don't have MFA I.D. Card, their stuff can be opened by the customs authorities at the time goods arrive in country.

3. CONSUMABLES

6. PETS/QUARANTINE

Pet information:Please send us below documents 7-10 days before your arrival (or 7 weeks in advance if your pet is travelling as cargo). Post will obtain a quarantine certificate before your pet arrives. 1.Color copy/scan of valid, legible vaccination record for pets with appropriate immunization 2.Copy of owner’s passport bio page3.Air Itinerary / Flight details 4.Host government vet fee (PKR 2800) – Your sponsor may pay this on your behalf.5. Airway Bill – for pets traveling as cargo only; please ensure that Airway bill number is correct asit cannot be changed after being submitted.All documents/information mentioned above must be sent to the shipping office at least 7 - 10 days prior to pet’s arrival at the Islamabad airport. Upon receiving these documents, the Shipping office will arrange import permission/prior release from Pakistan Customs and will provide this information to the veterinarian. The GOP veterinarian will issue the

Quarantine Certificate a day before arrival of pet at Islamabad airport. This certificate will be handed over to the sponsor office or airport expeditor for assistance at the airport. For pets traveling as cargo, do not ship the pet until you receive green signal from Islamabad. GSO Shipping will obtains the tax exemption certificate from the Government of Pakistan and will forward you the green signal from shipping your pet. If you would prefer for your pet to enter without waiting for the import exemption certificate, you can choose to pay the duties / taxes (approx. $150 – 350 USD depending upon the breed / species), on top of the service charges of the vendor and quarantine fee. A quarantine certificate would be still required. Upon arrival the pet's owner has to pay all customs duties and taxes incurred as part of the clearance process. In addition, the owner is required to pay the clearance services charges to the Embassy contractor.

8. PRIVATELY OWNED VEHICLES (POVs)

DOS:Islamabad: Option for POV shipment or emergency storage.Karachi: Emergency storage of POV is authorized.Lahore: Emergency storage of POV is authorized.Peshawar: Emergency storage of POV is authorized.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) The reciprocity issue with the Government of Pakistan has been cleared and the restriction on shipping vehicles to Pakistan has been lifted. However, prior to shipping any vehicles, make note that tinted windows in vehicles are illegal in Pakistan. If your vehicle currently has tinted windows and you plan to ship it; you must -- repeat must -- have the tinted windows replaced prior to shipment -- repeat -- prior to shipment. Due to the threat of terrorism and the use of vehicles with tinted windows in terrorist attacks, this issue is not negotiable with the Government of Pakistan. We also recommend that you ship a supply of spare parts that will require replacement due to normal wear and tear. POVs can be purchased locally but at very high prices. (2) Shipping/Transportation Costs: The U.S. Government will pay the shipping costs for your vehicle from the port of Karachi to Islamabad. Vehicles:All employees with Consular/Diplomatic status are entitled to acquire through importation or local purchase one duty free vehicle at any

time during their tours. In May 2005 the Government of Pakistan accorded the US Mission category III status, the most favorable category, with respect to vehicle sales. Vehicles now have 100 percent duty for the first three years of ownership in country; after that period the car may be sold duty free. NOTE: The Government of Pakistan processes vehicle import and registration documents at an EXTREMELY slow rate. Please note that vehicle cannot be driven and handed over to you until completion of its all-procedural processing i.e. import approval, registration insurance, license plates from GOP. All these processes add up to a minimum four to six months wait for the employee to get their POV after they arrive at post. The post has observed that many vehicles have gone the entire length of a tour (a year or more) without receiving official registration documents which are required to sell (but not to drive) a vehicle on the open market, therefore, employees should be made aware that selling to non-diplomats is not a practical option at this time.A&T staff members are entitled to import one vehicle within the first six months of arrival at post. At the end of the tour, this vehicle may only be exported or sold to someone else with diplomatic privileges. The periods of time that vehicles are owned by A&T staff do not count towards the ownership requirements for the duty-free status mentioned in paragraph five.

b. MOTOR CYCLES/MOPEDS

"No restrictions identified."

c. GASOLINE/CATALYTIC CONVERTERS

Cost of conversion. Unleaded gasoline is not available -- repeat not available -- in Pakistan so the Catalytic converter and oxygen sensor must be removed prior to shipment. The cost will vary depending on where the work is performed. You should obtain required paperwork from the local TMO and have the converter removed prior to shipping. (FYI: Midas charges approximately 125 USD for removal of these parts and will re-install it on your vehicle when you return as long as you have your receipt.)

d. INSURANCE AND SAFETY REQUIREMENTS

Insurance cost: Pakistan law requires liability coverage as a minimum. Cost of liability is based upon the number of cc's of the vehicle's engine. Full coverage is available and is based on the vehicle's declared value.

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

"Importation is PROHIBITED."

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

Importation is prohibited.

11. TRANSMITTING EQUIPMENT

b. AMATEUR/HAM RADIOS

"Importation is PROHIBITED."

c. MARS EQUIPMENT

"Importation is PROHIBITED."

d. DISH ANTENNAS

"Importation is PROHIBITED."

e. CORDLESS PHONES

"No restrictions identified."

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

Personnel contemplating retirement, separation or relocating dependents to Pakistan should be counseled that all customs entry requirements to include payment of duties and taxes remain the responsibility of the member and is a personal matter between the member and the Government of Pakistan. When processing application and gbl, shipment must be consigned to member's residence in country or to the destination agent facility. DO NOT CONSIGN PROPERTY TO AMERICAN EMBASSY OR AMERICAN CONSULATE.

a. Employees should insure that pets do not arrive at post before they arrive. The following documents are required by the Government of Panama for the importation of pets. A health certificate (valid for 10 days from date of issuance), a rabies vaccination certificate, a stamped certification from a Panamanian Embassy/Consulate, and a copy of your travel orders. These documents must be attached to the outside of the animal's cage. b. Pets should be sent to the following address: (your name) c/o American Embassy Panama City, Republic of Panama Telephone: 507-207-7000, EXT 7497/7360 c. Animals will be given a new rabies shot upon arrival ($4.00) at the quarantine area in Tocumen International Airport if the vaccination is not due. d. Animals may remain in the Panamanian National Quarantine Facility for 24 hours until it documents have been examined by GOP authorities. Thereafter, an additional forty days of "Home Quarantine" are required. e. Fees are: (approximate costs) $ 10.00 Complete examination for cat or dog $ 5.00 Importation permit $130.00 Cost for free home quarantineThe fees are payable at the Banco National De Panama Branch Office at Tocumen International Airport. f. Shipping Birds, wild animals or other exotic pets is more complicated. Please contact the Embassy shipping department before making plans to ship these animals to post. g. Please advise GSO via FAX (507) 227-2128, or e-mail of the flight number and date, name, age, breed, color and place of departure of your pet. h. Please remember that all pet expenses are at your personal expense. The post cannot advance money for pet fees. If your pet will arrive before you, send us a check, made out to the American Embassy, to cover the expenses. Please, If you have more questions or concerns, FAX us at 507-227-2128 or 507-225-2720.

7. PRIVATELY OWNED FIREARMS (POF)

Written permission must be obtained from the Chief of Mission to Import, possess or carry official or personal firearms. All weapons must be registered with the GOP. The GOP will issue a license to carry a handgun after several requirements have been met. Automatic rifles, submachine guns or other "weapons of war" may not be imported. To obtain com permission, send a telegram to the attention of RSO, Listing: make, model, caliber, serial number and intended uses of each weapon, along with a statement indicating that you are completely familiar with the safe handling and use of the firearm. Once permission is granted, firearms should be shipped (unloaded) in HHE.

Also extremely important that moving company receives complete address and telephone of owner, so that contact can be made as soon as shipment arrives to avoid demurrage charges. (3) Moving company will need a passport, retiree carnet, identification, and emissions test of vehicle. Moving company will process a special permit from customs to deliver the car to avoid demurrage charges. Afterwards, a customs liquidation is prepared which will take approximately one month to complete. (4) Government contract moving company will unstuff POV using service members orders, but retiree/dependent or anyone not assigned to Embassy must clear customs and pay import taxes.

(5) If employee is not in Panama at the time POV arrives, no documentation can be processed and expensive demurrage costs will be incurred. (6) For additional details, contact the above moving companies.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) No limitation on type of POV. The Government of Panama requires a safety inspection of all vehicles at time of registration and annually thereafter. Post will provide a list of authorized inspection facilities upon arrival. Cost of this inspection is generally $10. (2) If possible, vehicles should have license plates. Employees can sell or replace vehicles duty free 24 months after vehicle registration date in Panama or at the end of tour, whichever is first. (3) Original Certificate of Title and a commercial invoice showing the current value (if available) will be required to exonerate and register a car in Panama. If the car is new, the original Bill of Sale will be required.

Also, if the employee has a Certificate of Emissions Inspection, that should be brought as well to cover the possibility that, at some future time, the Government of Panama will not accept the Embassy certificate that all US cars shipped will have catalytic converters. This would prevent having to do the inspection here after arrival. (4) Bill of Lading (B/L) mark and consign to:

United States AmbassadorUnited States Embassy - Panama(Name of Employee)Notify: Shipping and Customs Office Telephone (507) 207-7000 (5) Original B/L should show name of the owner, make of the vehicle, model, year, color, and VIN number or engine number. (6) Post recommends that employees bring vehicles that will stay in good mechanical condition for the duration of their tours. Car repairs can be expensive and replacement parts for US made vehicles are not always available.

b. MOTOR CYCLES/MOPEDS

No restrictions identified.

c. GASOLINE/CATALYTIC CONVERTERS

(1) An emissions inspection certification is required to inspect vehicles in Panama. At present the Government of Panama has accepted the assurance of the Embassy that cars shipped from the United States will have a catalytic converter and is not requiring this certification. Catalytic converter should not be removed from vehicles. Should an emissions inspection certification be required, it can be obtained in Panama. Current cost is $15.00 for gasoline engines and $20.00 for diesel engines. (2) Both Unleaded and leaded gasoline are readily available in Panama. Post has an agreement for the purchased of duty-free gas coupons with Shell and Delta Gas of Panama. Check with the Administrative Section after arrival about the coupon program.

d. INSURANCE AND SAFETY REQUIREMENTS

Post requires all personnel to have adequate insurance coverage for their POV. Insurance must be with a company licensed to underwrite insurance in Panama. Not all US insurance companies will underwrite in Panama. Arriving personnel will be advised of required coverage upon arrival at post.

4. ELECTRICAL EQUIPMENT

The electric current in Papua New Guinea is 240 volts at 50Hz frequency. As a comparison, the U.S. electric current is 120 volts at 60Hz frequency.

a. HOME COMPUTERS

No restrictions identified.

b. TVs/VCRs

The American NTSC (National Television System Committee) television system is not used in PNG. A multi-system TV is recommended, or an adaptor (not available locally) will be necessary to receive television station programming/shows. Adaptors range at about $100 in the US.

c. OTHER (i.e. COMPATIBILITY, ETC)

All appliances used in Papua New Guinea use 240volts (50Hz frequency). Government-owned/Government-contracted quarters use step-down transformers for all American made appliances. Each residence is supplied with 3 transformers. Some appliances can be purchased locally (if needed), and are very reasonably priced (coffee makers, kitchen appliances), while some appliance prices are very high (computers and related hardware).

5. FURTNITURE, OVERSIZED

Many Government-owned and/or short-termed leased quarters will not accommodate Oversized Furniture. Some quarters are fully furnished with no space available for additional furnishings. Furthermore, the embassy has no (zero) storage space for the storage of issued furniture so personally-owned furniture can be used. Storage facilities to rent in town are rare, expensive, and not climate-controlled.

6. PETS/QUARANTINE

a. POVs (includes data on prohibited vehicles, colors, etc.)

(CH Entire Paragraph 11-Jul-2019 TCJ4-HB RB)- PNG Ministry of Foreign Affairs allows each employee to import a new or used POV and motorcycle duty free. - There is a restriction on the age of used POVs at the time of import into Papua New Guinea. •At the time of import, the age of a used vehicle must not be more than five (5) years for vehicles with gross weight not exceeding 3,500kg(e.g. A Diplomat arrives at Post without a POV and wants to import from a

Japanese used car dealers, than this five (5) years restriction will apply). This five (5) years restriction applies only to import of used cars and not on POVs that are owned for more than six (6) months.•For other vehicles – 15 years from the date of first registry in any country(CH 17-May-2021 TCJ9-OH-PAC RB)- There is also a restriction on the importation of left-hand drive POVs. Exceptions are granted to Diplomats if their country of origin uses left-hand drive POVs. U.S. Embassy personnel are allowed to import left-hand drive POVs under this arrangement. PRIOR APPROVAL from the PNG Department of Transportation (DOT) is MANDATORY BEFORE shipping the POV to Post. Certificate of title, Bill of Sale or Commercial Invoice, and registration details are needed in advance for submission to DOT for approval to import. Condition of allowance to import is that a left-hand drive POV MUST be exported at the end of the customer's term back to country of origin. Left-hand drive POVs are not allowed to be openly sold on the local market. (CH 17-May-2021 TCJ9-OH-PAC RB)- Both POVs and motorcycles can be consolidated and shipped in a 20- or 40-foot container or with HHG. - Final Port of Discharge (POD) is Motukea Port, Port Moresby, Papua New Guinea. GSO AT POST WILL SUBMIT TO MFA IN ORDER TO OBTAIN MFA APPROVALMOTORCYCLE CONSIDERED A VEHICLE BY PARAGUAY, USG PAYS FOR SHIPPING AND IMPORTING ON ONE (1) VEHICLE, EMPLOYEE MUST PAY SHIPPING AND IMPORTING ON SECOND. MOTORCYLCE AS SECOND VEHICHLE MAY SHIP AS HHE BUT MUST BE DECLARED AND DUTIES PAID BY EMPLOYEE. MOTORCYLCE USE RESTRICTED BY POST.POV IMPORT RESTRICTIONS: The

Government of Paraguay does not allow vehicles older than ten years to be imported into the country. This law applies to everyone regardless of diplomatic status. In order to avoid potential importation, registration, suitability, or security problems, Embassy employees are prohibited from importing into Paraguay for personal use any vehicle which may be considered "flashy," a luxury vehicle, or which otherwise draws unwarranted attention to oneself or the United States Government. Examples of ostentatious vehicles are large and expensive SUVs, luxury sports cars, and similar high-end vehicles. Employees should expect close scrutiny of any vehicle whose value when new is greater than $45,000.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) POVs should be shipped in a container covered by a through-bill-of-lading to Asuncion. If both HHG and POV must be shipped by surface, please DO NOT, repeat, DO NOT ship HHG and POV in the same container. The Embassy recommends shipment through Buenos Aires to Asuncion. To ease identification of property (POV or HHG), consign the shipping documents to American Embassy Asuncion, Paraguay, ATTN: Shipping Office, 1776 Mcal. Lopez Avenue, Asuncion, Paraguay.

(a) In the B/L, mark and consign USODC Paraguay c/o US Embassy Asuncion, Paraguay, FOR (Name of the Employee) only for those POVs property of the members of the Military Group (USODC). (b) In the B/L, mark and consign "DAO Paraguay c/o US Embassy Asuncion, Paraguay, FOR (Name of Employee)" for POVs of members of the DAO office. (c) If the DETCMDR of the US Marine Corps ships a POV, mark and consign "USMC DETCMDR Paraguay c/o US Embassy Asuncion, Paraguay for (Name of Employee)". (2) Advance documentation for POV shipment (original B/L, copy of GBL and especially a copy of the bill of sale) for personnel assigned to Asuncion should be sent by courier to: American Embassy Asuncion, ATTN: Shipping Office, 1776 Mcal. Lopez Ave., Asuncion, Paraguay. Original B/L should show name of the owner, make of the vehicle, year, color, and VIN number or engine number. Most of the time, the POV arrives in Asuncion before the Embassy receives the shipping documents causing extra storage fee charges as the POV cannot be picked up from customs. Embassy cannot start the clearance of the paperwork through the GOP in advance if Embassy does not receive the original shipping documents (B/L and bill of sale). (3) Driver License: The GOP requires each driver to have Paraguayan drivers license. Twelve US dollars is charged for the license. The employee should bring his/her US or international driver license and proof of his/her blood type in order to obtain the Paraguayan license. US driver license or international driver permits are accepted for 60 days from the date of arrival in country. (4) Selling a POV at Post: An employee shipping a POV must provide the original bill of sale to Post, if she/he plans to sell it in-country during the tour. When selling a personal vehicle, a married employee's spouse must also sign the transfer of title. If the spouse has to leave the country earlier for some reason, she/he should leave a power of attorney for his/her spouse. (5) Consular invoice is not required any longer. It requires the original B/Ls, a copy of the POV bill of sale, and a copy of the HHG packing list.REMARKS: If it is possible, provide all the shipping information and a copy of the B/L by FAX to the Shipping Office. The FAX number in GSO/Shipping Office is 011-595-21-213878. If you need any other information regarding shipping a POV or HHG to Asuncion, contact, Phone: 011-595-21-213715, e-mail address: .

b. MOTOR CYCLES/MOPEDS

Motorcycles/mopeds are not considered POVs and can be imported duty free.The Ministry of Foreign Affairs is imposing restrictions on diplomats who would like to import a motorcycle. In order to import a motorcycle, special authorization is required by the MFA and there is no guarantee that this would be granted. In the event that you would get approval to import a motorcycle, you would then not be able to sell it at the end of your tour unless you were to pay the duties.

c. GASOLINE/CATALYTIC CONVERTERS

In accordance with governing regulations.

b. CONTAINER/CRATING REQUIREMENTS

a. Cannot exceed door dimensions of C-141 aircraft, which is 123 inches wide and 109 inches high.b. Due to the use of commercial narrow-body aircraft, external shipping containers for Code T shipments moving to/from South and Central America in accordance with PPP-B-601, style A or B, must not exceed 60 inches in height. In accordance with Item 508, Personal Property International Rate Solicitation, special packing arrangements will be authorized by the PPSO for oversize items which will not fit into the restricted height container.

c. HARD LIFT AREA

Hard lift area for all military services. Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

d. UNACCOMPANIED BAGGAGE

No restrictions identified.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. UAB, HHG and POV shipments must be planned so as to arrive in Peru after the employees arrival. It is important to mention that HHG and POV shipments must be sent under two separate bills of lading. UAB, HHG, and POV must not/not arrive at post prior to employees arrival. Paperwork for tax exemption on import duties of UAB, HHG, and POV cannot/cannot be processed until employee is accredited to the mission. It is important to know that if a shipment arrives at Post before the arrival of the employee and it is not cleared from customs within 30 days, the Government of Peru (GOP) considers the shipment to be abandoned and will auction it. Clearance of UAB and HHG generally takes from 3 to 4 weeks. Clearance of POV generally takes from 5 to 6 weeks. Essential documents, medicines and clothing should be brought with you.b. The Peruvian MFA allows duty free entry for a maximum of three shipments: One UAB and two HHG, or two UAB (up to total allowable weight) and one HHG. Additional personal effects shipments will be subject to each employees limited annual quota of duty free importations (the quota varies depending on the diplomatic title). Employees specific quota can be obtained from Customs and Shipping Unit, and 80 percent of this quota is normally assigned for an employees commissary importations. In any event, the quota is very limited, and therefore, should not be used for UAB and HHG shipments. It is critical employees know what they are shipping to Post and provide the exact information regarding HHG and UAB shipments and copies of inventory lists to the Customs and Shipping Unit of GSO upon their arrival.

c. Additionally, employees should be aware the Peruvian MFA only grants duty free importation for the first six months from the date of arrival of employee. All shipments arriving after that time are subjected to the yearly quota. d. Post Lima is a fully furnished Post. Use of government provided storage in the U.S., or in Antwerp, for non-essential HHG/HHE is strongly recommended.e. Supplemental Shipments. The tax-free importation of supplemental and layette shipments are subject to the availability of the diplomatic quota granted by the GOP on a yearly basis. A packing list with the itemized value of the shipment is required. Please contact the Customs and Shipping Unit before planning all supplemental and layette shipments.f. Send questions as well as copies of all shipping documents to LimaGSOShipping@state.gov, telephone: +51-1-618-2193 or +51-1-618-2194, well in advance of your arrival at Post. Medication (Narcotics)/Pharmaceutical Products Please add the following to what already exists: Essential medicines should be brought with you on your person.

6. PETS/QUARANTINE

At least two months before bringing a pet to Post; pet owners should contact the Customs and Shipping C and S Unit via email at LimaGSOShipping@state.gov to obtain importation guidance. The C and S Unit will promptly make an initial review to determine if the listed animal may be imported and inform the employee. The GOP considers only dogs and cats to be household pets;

although the requirements may be lengthy and bureaucratic, importation of dogs and cats is possible. Other animals such as rabbits, snakes, and birds are not considered household pets, and it may not be possible to import such animals. The embassy advises employees not to consider

bringing animals other than a dog or cat to Post. The laws and regulations for importation of animals into Peru may change from day to day, due to viruses or diseases that might develop in other countries. SENASA, equivalent to the U.S. Department of Agriculture (USDA) maintains a database on each type of animal and the importation requirements.b. An employee must initiate all required pet importation paperwork prior to coming to Post and follow up with all required paperwork after arrival. Please note that once a pet has been imported to Lima, it must be registered in accordance with the municipal regulations in your district. Please see Embassy Management Notice 036-14: Municipal Pet Dog Registration Requirements (http://wha.p.state.sbu/sites/Lima/MGT/Notices%20%20Procedures/MN14-036.pdf), or contact the C and S Unit for a copy of this notice.c. In order to import a pet into Peru, SENASA requires that the owner provide a valid export certificate issued by the USDA. The link below will provide additional information required to bring pets to Peru: https://www.aphis.usda.gov/aphis/pet-travel.d. Employees bringing pets to Post from countries other than the United States should contact the C and S Unit via email at LimaGSOShipping@state.gov as soon as possible for an explanation of the importation requirements.e. Pets can arrive as accompanied baggage, checked luggage, or as cargo. If the pet is scheduled to arrive as accompanied baggage or checked luggage, the health certificate and vaccination certificate (issued by an authorized veterinarian) will be required by SENASA authorities to inspect and approve the pets entrance into Peru. On the day of the trip, the owner must hand carry the above-mentioned documents plus $35.00 USD in cash to cover SENASAs inspection fees. Arrival can be any day of the week for pets travelling as accompanied baggage or checked luggage. C and S recommends that employees importing pets request an expeditor through their sponsor to meet and assist them at the airport.f. Post does not recommend shipping pets as cargo, if at all avoidable. If the pet must arrive as cargo, please contact a pet relocation company at your point of origin to handle the shipment, customs clearance, and delivery of the pet to your residence in Peru. If not, you will have to contract a Peruvian company in advance for the clearance and delivery of the pet. Customs clearance of pets entering Peru as cargo takes approximately seven hours. Post recommends that pets shipped as cargo arrive Monday through Thursday to avoid weekend stays in the airport warehouse while the Peruvian Customs office is closed.g. All pet owners are reminded that the overall cost of relocating a pet to Peru is high, often more than $1,000 per pet, depending on the size and distance travelled. United Airlines PetSafe program allows U.S. Military and Department of State employees to ship pets weighing less than 100 lbs. as checked luggage on their flights. Additional details are available on United’s website at www.united.com and at https://www.aphis.usda.gov/aphis/pet-travel. Please note that air carriers flying from the United States may enforce a pet embargo due to the high temperature of air cargo holds during the summer months, usually from May 15 through September 15. Owners should check with their air carrier for specific details.

7. PRIVATELY OWNED FIREARMS (POF)

a. Any employee who wishes to import or acquire in-country any firearm must forward a written request to Post, attention RSO and GSO prior to shipping or purchasing the weapon. Approval will be limited to one handgun and one shotgun or rifle OR two shotguns/ two rifles per household. Law enforcement officers may request exceptions. Peruvian law provides that law enforcement, security,

and military personnel are authorized to import handguns in calibers up to .45 (pistol) and .357 (revolver). However, please note that the Government of Peru (GOP) is hesitant to issue permits for .40, .44, and .45 caliber handguns. The issuance process for these calibers requires special authorization from both civilian and military organizations and can be very lengthy. Permits are often issued for short periods of time (one year), which requires frequent renewals. Check with RSO for further information. b. Automatic weapons or firearms of larger caliber than cited above are not permitted. Personally owned weapons must be shipped to or from Post within an employees HHG or declared and shipped within personal luggage. An exception is available for Federal Law Enforcement Officers who may follow individual agency guidelines for the transport of weapons utilized in official duties.c. It is extremely important to note that NO firearm may be shipped or brought to Peru without first receiving written authorization, via the RSO, from the Government of Peru. Merely submitting the required forms does not constitute authorization. Employees who transport firearms to Peru ewithout first receiving government authorization risk seizure of the firearms by Peruvianauthorities. For more information on weapons, contact RSO at RSOLIMA@state.gov.

a. HAND GUNS

Peruvian law provides that law enforcement, security, and military personnel are authorized to import handguns in calibers up to .45 (pistol) and .357 (revolver). However, please note that the Government of Peru (GOP) is hesitant to issue permits for .40, .44, and .45 caliber handguns..

b. RIFLES/SHOT GUNS

Shotguns up to 12-gauge and rifles of .44 caliber or less are permitted.

c. TOY RELATED GUNS

8. PRIVATELY OWNED VEHICLES (POVs)

a) Restrictions Importation of vehicles more than 5 years old, vans with more than 9 passenger capacity, pick up trucks and motorcycles are not authorized to be imported into Peru.All military personnel with PCS orders permanently assigning them to Peru (DAO, MAAG or NAMRID) may import duty free one vehicle within six months after the member has arrived in country and is accredited to the Ministry of Foreign Affairs (MFA). Most tours are 24 or 36 months. If you are on a 36 month tour, you may import duty free vehicle every three years.b) Documents and information required for the customs clearance - All personnel bringing a vehicle to post must provide Customs and Shipping Unit copy of vehicles commercial invoice or bill of sale and copy of the certificate of title.The following vehicle information is required: Make, model, manufacture and model year, VIN,

engine number, number of cylinders, color, capacity of engine in liters or cubic centimeters. The engine number is very important for the customs clearance, as this information is not usually mentioned in the vehicle documents, Post strongly recommends employees obtain the engine number of their vehicles through a car dealer. The customs clearance of a vehicle takes approximately 5 weeks, after it arrives at the port of Callao. However, if the engine number provided by the employee is not correct, the customs clearance will take more than two months and the cost of correction to the shipping documents or customs manifest may be charged to the employee.Obtaining the license plates takes two weeks approximately after the vehicle is cleared out of customs.Remove pilferable items before shipment. Theft of windshield wipers, floor mats, radios, etc., occurs. It is a good idea to have a locking gas cap.Vehicles imported duty free by accredited employees can be sold locally tax-free after the vehicle has been three years in country. If the employee is transferred or finishes his official tour before three years, he/she will need to pay the import taxes for the remaining time to complete the three-year period. That amount will be calculated by the MFA dividing the import taxes by thirty-six (36), and the result will be multiplied by the number of months remaining to complete the three year-period.If an employee arrives in Peru with travel authorization for two years of duty only and is accredited accordingly to the Peruvian Ministry of Foreign Affairs (MFA), he/she can sell the vehicle tax free at the end of his/her official tour. But for this two-year exception to apply the employees tour must end without fail in exactly two years and the vehicle must have been imported within 6 months after the employee has been accredited to the GOP. Otherwise, the three-year rule applies.If you require additional information regarding the importation of POVs, please contact Mr. Edmundo Sarmiento, C and S Supervisor, telephone (511)618-2607, Email: sarmientea@state.gov or Flavio Palomino, telephone (511)618-2194, Email: palominofp@state.govParking spaces are small and garage doors tend to be no higher than 68 inches. Personally owned vehicles with height greater than 68 inches must not be shipped to Post without prior Post approval. If someone must ship a larger vehicle, they may have to be housed in an apartment building. Please contact Mrs. Cecilia Crisanto, telephone (511)618-2606, email: CrisantoCC@state.gov of housing office to verify if the vehicles height that you plan to bring to Post is accurate for the housing assigned to you. Any POV imported to Post over two years old or with more than 20,000 miles (32,000 KM) registered at the time of importation can no longer be sold locally. Additionally, all vans, trucks, motorcycles, and diesel vehicles are not eligible for local resale—regardless of age or mileage. You may still import the vehicle, but it must leave with you at the time of your departure—regardless of the circumstances of your departure or the condition of the vehicle. If you have a vehicle that was imported under prior law that you'd like to sell locally, please contact our GSO Customs and Shipping Section at LimaGSOShipping@state.gov to determine if your vehicle is eligible for resale. Additionally, provide in advance, copies of the Rated OBL or AWB and Commercial Invoice of the Vehicle, the Vehicle Title is also required for both POVs and Official Vehicles (OFVs).

a. POVs (includes data on prohibited vehicles, colors, etc.)

Restrictions: Importation of vehicles more than 5 years old, vans with more than 9 passenger capacity, pick up trucks and motorcycles are not authorized to be imported into Peru

b. MOTOR CYCLES/MOPEDS

Motorcycles are considered a POV by the Government of Peru (GOP) and diplomats are authorized to import only ONE POV. Administrative and Technical staff are also authorized to import only ONE POV, but A&T staff must clear their POVs through Customs within 6-months of arrival to Post as required by Peruvian Law. Motorcycle should be shipped separate from other shipments such HHE,

Supplemental Shipments, CNS, Supplies, etc.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. US military personnel and DOD civilian employees on official assignment to the Philippines are authorized duty-free importation of personal effects and POV. DoD personnel must be present and accredited with the Department of Foreign Affairs (DFA) to clear UB, HHGS, and POV through the Philippine Bureau of Customs (BOC). DoD personnel must have the appropriate 9e(1) VISA (for diplomats) and 9e(2) (for administrative and technical staff not on the diplomatic list) to be accredited by the DFA. It is important to note that no action can be done by the Embassy unless the Philippine Department of Foreign Affairs (DFA) has accredited the customer. Incorrect Philippine VISAs must be amended at the DFA, will also cause delay in the submission of a request for tax exemption, and would further result in additional port and storage charges for the U.S. Government. Both diplomats and technical staff are granted the same privileges and exemptions by the Philippine Government. DFA requires legible copies of advance documents for the preparation of request for free entry (RFE/tax exemption). (CH USTC Pacific J9, 12JUN23, TF). Please send e-mail to ManilaShipping@state.gov to receive shipment approval prior to commencing transport of shipments. No shipments should commence transport without approval from the Embassy's Transportation Unit. (CH 30-Mar-2016 SDDC-PAC RB) b. Origin PPPO/PPSO/TMO must ensure documentation mentioned in para a. above for UB, HHG and POV are e-mailed to ManilaShipping@state.gov or uploaded in T-Lite. Nov-2020 TCJ9-OH-Pac RB) (2) Government Bill of Lading (GBL) and Ocean Bill of Lading (OBL) must list complete description of the POV (make, type, model year, engine and VIN/Chassis numbers, color and number of cylinders). (CH 16-Nov-2020 TCJ9-OH-Pac RB) (3) There is no POV age limit for importation into the Philippines. (CH 30-Mar-2016 SDDC-PAC RB)COPY OF U.S. CERTIFICATE OF TITLE OR DMV REGISTRATION IS REQUIRED. If no title, previous local registration from your last post (with an English translation) or a translation done by the Ministry of Foreign Affairs from losing post. This is part of the requirements for local registration. The Philippine Bureau of Customs requires that the Certificate of Title of the POV should be under the name of the employee. POV cannot be shipped if the Certificate of Title is named under the spouse only and cannot be cleared at Customs even if a copy of the marriage certificate is presented. Customs only allows the POV with the spouse name if both names of the employee and the spouse are reflected on the Certificate of Title. The Philippine Bureau of Customs in conjunction with the Department of Trade and Industry (DTI) requires securing the DTI Certificate of Authority to Import prior to the vehicle's departure from origin. (CH USTC Pacific J9, 12JUN23, TF). DTI requirements are as follows: 1. Registered under the name of the qualified importer for at least six (6) months prior to the submission of the application 2. Certificate of Roadworthiness from country of origin duly authenticated by the Philippine Embassy abroad for non-members of the Apostille Convention or apostilled by the competent authority of Apostille-contracting countries, whichever is applicable. (under CAA, RA 8749) 3. Certificate of Emission Compliance (CEC) from country of origin duly authenticated by the Philippine Embassy abroad for non-members of the Apostille Convention or apostilled by the competent authority of Apostille-contracting countries, whichever is applicable. (under CAA, RA 8749) 4. Completely filled-out and notarized DTI-FTEB Application Form [form to be provided by the C&S Shipment Assistant] 5. Completely filled-out and notarized Affidavit of Undertaking [form to be provided by the C&S Shipment Assistant] 6. One (1) copy of 2x2 picture with signature. The term "Specimen" means a wet signature. (CH USTC Pacific J9, 12JUN23, TF) 7. Photocopy of passport bio page. (CH USTC Pacific J9, 12JUN23, TF) 8. Picture of the motor vehicle 9. Original or Certified True Copy of Car Title or Registration with English translation if necessaryNote: In very few cases, expect delays and additional expenses ($100-$500) in the registration for vehicles with an engine number difficult to access, as it may require a local dealership to remove some parts of the vehicle to get a physical imprint of the engine number, which is a requirement for local registration. We have found this issue with BMW, Mercedes Benz, Volvo, Volkswagen, and Nissan (Xterra/ Pathfinder). Shipping of SAAB is not recommended due to the inaccessibility of the engine number. (CH Entire Section 16-Nov-2020 TCJ9-OH-Pac RB) . When deciding whether to ship a vehicle, also consider possible unexpected changes to local regulations such as not being able sell your POV after your tour or being required to re-export your vehicle. (CH USTC Pacific J9, 12JUN23, TF) (4) The Republic of the Philippines exercises import restrictions on diplomatic, official, and all other POVs shipped into the country. There are no, repeat, NO EXCEPTIONS to these restrictions. The customer may import into the country a gasoline-powered (including hybrid and fully electric) passenger car of any weight and engine displacement.(CH USTC Pacific J9, 12JUN23, TF) . (5) Customers are only authorized to sell their POV after their tour of duty, or after two years of initial local registration at the Land Transportation Office (LTO). Permission MUST be received from the DFA-------PRIOR TO-------selling the imported POV. Customers must ensure appropriate Duties and Taxes have been paid if the POV is sold to a non-privileged buyer prior to releasing the POV to the buyer. (CH USTC Pacific J9, 12JUN23, TF) . (6) The Philippine government requires the following before we can ship your POV to post: officer must be physically at post, accredited by the Department of Foreign Affairs (DFA), and have obtained the Certificate of Authority to Import (CAI) from the Department of Trade & Industry (DTI). These processes usually take up to 6 weeks after

the employee's arrival at post. If you plan to ship a vehicle in the Philippines, please contact us immediately at: MNLCustomsShipping@state.gov for a list of documents required for these authorizations. Processing time for vehicles from shipping at the origin up to delivery may take 6 to 8 months. Post highly recommends purchasing a vehicle locally rather than waiting for the arrival of a shipped POV. (CH USTC Pacific J9, 14JUL23, TF)

b. MOTOR CYCLES/MOPEDS

Motorcycles/mopeds/motorized bikes whose engine size is above 49cc are considered POVs for import purposes. A motorcycle/moped/motorized bike above 49cc must be shipped as a POV (please see paragraph 8.a. above) to be authorized use on the local highways/streets and MUST be registered with the Philippine Land Transportation Office (LTO). DO NOT CONSOLDATE HHG and POV (Motorcycles/Mopeds/motorized bikes above 49cc) into one container. If a customer ships a motorcycle/moped/motorized bike above 49cc as a second POV, the customer is responsible to pay for a licensed Customs Brokerage Fee as the second POV would be processed separately from HHG items by Philippine Customs. Motorcycles/mopeds/motorized bikes 49cc and below are not considered a POV, can be cleared as part of HHG in the same container as HHG, do not need to have a separate BL issued, do not need to be registered with Philippine LTO, but must only be driven within the US Embassy compound. (CH USTC Pacific J9, 12JUN23, TF) .

c. GASOLINE/CATALYTIC CONVERTERS

Unleaded gasoline is available.

d. INSURANCE AND SAFETY REQUIREMENTS

Local Insurance for CTPL & Bodily Injury coverage is required.

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

Restriction is identified on written or printed representations of an obscene or immoral character.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

Importation is Restricted. E-mail the GSO Customs and Shipping Unit at: ManilaShipping@state.gov if you intend to import these items.(CH 16-Nov-2020 TCJ9-OH-Pac RB)

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

JPPSO Hawaii, MLNQ is the response origin and destination office for all non-embassy shipments into and out of the Philippines.(CH USTC Pacific J9, 26FEB25, TF)a. SHIPMENT INSTRUCTIONS: 1. Ship unaccompanied baggage (UB) via OTO Code 8 and household goods (HHG) via OTO Code 4. All UB MUST arrive Manila airport and ALL HHG and POV MUST arrive Manila water-port. Origin TO MUST ensure that all shipping documents (PPGBL, OBL, AWB and packing list) MUST reflect the name, address and telephone number of the member in the Philippines; mark for destination agent's name. DO NOT, repeat, DO NOT, and in any form of document identify the name of the US Embassy Manila as the responsible destination transportation office for non-Embassy members. Instead identify the name of the destination agent of the carrier, address, point of contact and telephone number. The Embassy is not responsible for any shipment belonging to non-Embassy members. Further, TOs MUST ensure the advance shipping documents are mailed to the carrier's destination agent and not to the Embassy. 2. To preclude undue hardship to the member, the origin TO must provide copies of all shipping documents (PPGBL, AWB for UB and OBL for HHG and POV) and ensure member is provided with the name of the carrier, name of destination agent, destination agent address, telephone number and point of contact to the Philippines. If the shipment is consigned to the member, he must be physically present in the Philippines to process clearance of his UB, HHG and POV to get full tax and duty-free exemption. In the event that the member is not able to come to the Philippines and issues a power of attorney, the member is not entitled to any exemption and is subject to full duties and taxes imposed on his household goods/personal effects. If the member is not relocating to the Philippines and is only the spouse and/or children, the UB, HHG and POV can be consigned to the spouse. The spouse of the member must present the following documents to obtain full tax and duty free exemption: 13G Philippine visa obtained from the nearest Philippine Embassy or consulate at the origin, passport spouse and/or member (if requested by Customs), copy of bill of lading and packing list, and a copy of member's travel order (if required by Customs). If a member is not arriving to the Philippines and a power of attorney will be given to a relative(s) or friend(s), the member shall pay the corresponding duties and taxes at BOC. In addition, a member's authorized representative can accept delivery of shipment, but the member has to pay the duties and taxes. The shipment may be declared abandoned and eventually auctioned by BOC if not released within 7 (SEVEN) days from arrival date. Origin TO must instruct and inform the member that it is his/her responsibility to contact the carrier's destination agent and submit the necessary requirements (i.e. original passport and documents for signature) to facilitate clearance of shipment. 3. The ONLY acceptable consignee for non-Embassy member is: Name of Shipper as it appears in the passport and his/her complete address in the Philippines and contact details. NO need to include "C/O Destination Agent" in the consignee box. The destination agent details will be shown at the "Notify Party" box of the BL. (CH 10-JUN-2019 TCJ4-HB RB) 4. All shipping containers must have a shipper's export

declaration and packing list. The statement below must be incorporated with the shipper's export declaration and packing list: "This is to certify that I am the consignor/sender of these items which is a true and correct description of the goods contained in this shipment being sent to the Philippines. I also certify that there are no undeclared, restricted, illegal or banned items, including firearms, ammunition, illegal drugs, combustible goods included in this shipment." PRINT NAMES, DATE, AND SIGNATURE. b. CUSTOMS CLEARANCE REQUIREMENTS: Members should be counseled all customs entry requirements remain a personal matter between the member and the Philippine Government. The member is responsible for paying Duties, Taxes, AND Demurrage Fees, if/when applicable. HHG shipments may be subjected to a thorough inspection at BOC. Member must be counseled that it is their responsibility to settle ALL port, storage, and demurrage charges incurred to release his shipment. Member must be warned that port, storage, and demurrage charges in the Philippine are expensive. (CH 10-JUN-2019 TCJ4-HB RB) For UB, storage begins on the date of its actual arrival date while HHG and POV begin after six days from arrival to the Port of Manila. Member MUST be counseled that the Embassy is not responsible for their shipment. The Embassy recommends that non-embassy member's shipments MUST arrive after the member's actual arrival to Manila. It is recommended that the Origin TO hold shipment at origin until member initiate a request to forward shipment to Manila.c. DOCUMENTATION/CONSIGNMENT: The origin TO must ensure advance-shipping documents for HHGs and UB is mailed to the carrier's destination agent. The advance documents must include the ocean bill of lading (OBL), air waybill (AWB), government bill of lading (GBL) and packing list. Origin TO must mail the original OBL to the destination agent since this is a mandatory requirement by the shipping lines for all Code 4 shipments. The original OBL for POV MUST be provided to the member, as it is his responsibility to hire an agent to clear his POV. All shipments must be properly declared/described on the AWB and OBL as: "Used Unaccompanied Baggage and Personal Effects", "Used Household Goods and Personal Effects" and full description of vehicle (see paragraph 12.d (1)) for Code 8, Code 4 and POV, respectively. Consignee and description other than above are considered miss-consigned and miss-declared. The agent is required to process an amendment prior to filing entry to BOC. DO NOT CONSOLDATE HHG and POV into one container. DTI permit for POV needs to be secured prior to shipping (refer to Privately Owned Vehicles, page 4). (CH USTC Pacific J9, 12JUN23, TF). DO NOT CONSOLIDATE SHIPMENT WITH OTHER MEMBERS. (CH 30-Mar-2016 SDDC-PAC RB) d. VISA REQUIREMENTS/PRIVILEGES: American passport holders must have returning residence VISA (13G) stamped to his passport in order to receive full exemption for his shipment provided that it consist of one of each used appliance. Philippine passport holder (returning residents) can avail of Php10,000.00 pesos exemption per passport of each family member provided that each passport holder had stayed outside the Philippines for at least six months. Also, for American passport holders as well as Philippine passport holders, shipment must arrive within 60 days from the member's last arrival into The Philippines to avail of the exemption. (CH 10-JUN-2019 TCJ4-HB RB) These privileges have been approved by the Department of Finance and endorsed to the BOC. All privileges are subject to change without prior notice. Since there are now X-Ray Examinations, containers are no longer opened for physical inspection. X-Ray Examinations reliably spot any prohibited items inside containers. 100% physical examinations are no longer conducted, only boxes near the container door are randomly checked. Final computation of the duties and taxes after inspection will be established by BOC and the member must pay applicable Duties and Taxes. Also, an Alien Certificate of Registration (ACR) is a MUST requirement if member is shipping a POV to the Philippines. Obtaining a 13G VISA and ACR in Manila is a long process. Suggest that the member contact the nearest Philippine Embassy or Consulate near their area to obtain proper entry requirements to avoid undue hardship.e. PRIVATELY-OWNED VEHICLES (POVs): 1. Right-hand drive vehicles, whether brand new or used, are STRICTLY PROHIBITED. 2. The importation of a brand-new motor vehicle of all types, including

motorcycles no longer requires prior authority to import (PIA). A motor vehicle is considered brand new when it meets the following criteria: The vehicle is of current or advance year model; it has never been registered or used; and a certificate of first ownership covers it. 3. The importation of used motor vehicles are regulated and requires Prior Import Approval (PIA) from the Fair Trade and Enforcement Bureau (FTED), Department of Trade and Industry (DTI). The PIA is obtained by submitting to the Bureau of Import Service (BIS) a completed application form which may be obtained from the BIS and the following documents authenticated by the nearest Philippines Consulate abroad where the car owner resides: Proof of continuous stay abroad for at least one (1) year; copy of the registration papers showing the vehicle is registered in the owner's name for at least six (6) months; and proof that the vehicle was acquired out of earnings. BIS address: Bureau of Import Services, 3rd Floor, Welding Industries of the Philippines Building, 349 Sen. Gil Puyat Avenue, Makati City, Metro Manila, telephone number (632) 8-896-4431, (632) 8-895-7466 & (632) 8-890-5418. (CH 16-Nov-2020 TCJ9-OH-Pac RB) 4. All imported vehicles whether brand new or used, purchased or donated, is subject to 40 percent customs duty, 12 percent VAT and Ad Valorem Tax from 15 to 100 percent depending on the piston displacement. The book value is sourced from universally accepted vehicle reference books such as: Red Book, Blue Book, or World Book depending on the origin of the imported vehicle. 5. Depreciation of value is accorded to a used imported motor vehicle. The depreciation schedule is 10 percent per year up to a maximum of 50% regardless of the piston displacement. (CH 30-Mar-2016 SDDC-PAC RB) 6. Taxes and duties are subject to change. Inquiry prior to importation can be obtained by writing and providing information about the vehicle such as: make, year model, piston displacement, vehicle identification number (VIN) or chassis number or sending a copy of the certification of registration to: Valuation and Classification Division, Bureau of Customs, South Harbor, Manila, Philippines, telephone number (632) 8-527-4549 or One Stop Processing Center for Motor Vehicle, Manila International Container Port, North Harbor, Manila, Philippines, telephone number (632) 8-245-4101, local 2455(Stalag) and ask for Section 5. 7. Vehicle spare parts sent with POVs are also taxable and are taxed separate from the POV. 8. Member must have the original OBL in hand prior to arranging clearance of his POV. USGBL and OBL MUST reflect the correct consignee (see paragraph 12.a (3). Shipment MUST be properly declared - complete description of the vehicle (make, type, year model, number of doors, engine and serial number, color number of cylinders and piston displacement).f. PETS: There are quarantine and regulatory agency restrictions and conditions on the importation of pets. A health certificate must be obtained at origin prior to importation. The Veterinary Quarantine Officer at the airport/port of disembarkation will require the certificate. The Bureau of Animal Industry (BAI) will detain any pet without a health certificate until cleared. For pet fish(es), in lieu of a health certificate, a prior import permit must be obtained from the Bureau of Fisheries and Aquatic Resources (BFAR), address 860 Arcadia Bldg., Quezon Avenue, Quezon City, Philippines, telephone number (632) 7-372-5048, (632) 7-372-5046 or (632) 7-273-7453. (CH 16-Nov-2020 TCJ9-OH-Pac RB)g. SHIPPER CERTIFICATION: The customer must be counseled by the origin ITO/TMO that the Government of the Philippine Customs/Importation requirements is a personal request by the customer to the Philippines Government. The certification below must be in a memorandum form with one copy given to the customer, one copy retained by the origin ITO/TMO, and a third copy attached to the shipping documents and packing list (DD Form 1299 or DD Form 788) on all shipments."I, (customer's name), certify that I am aware that all customs entry requirements remain a personal matter between me and the Philippine Government. I am, further, aware that my shipment is subject to a thorough inspection. I will pay corresponding duties and taxes as determined by the Bureau of Customs and storage charges my shipment will incur. This extends and applies to, and also covers and includes, all unknown, unforeseen, unanticipated and unsuspected Customs Duties, Taxes, Port Storage and/or Demurrage Charges. I am aware that I am entitled to 90 days of storage in transit, for

HHGS and UB, at the carrier's agent warehouse upon release of my shipment from Philippines Customs. The carrier's agent can assist with customs formalities and will arrange for delivery, perform unpacking, and upon my request will do a one time placement of furniture in my residence, at no cost to me." (CH 08-May-2015 SDDC-PAC RB)h. CLAIMS: Origin ITO/TMO must provide the address of claims officer (NLSO/JAG) to all members at time of counseling and suggest the member obtain a claim packet of information from the origin legal/claims office. When member arrives in Poland, member must contact the carrier and PPPO and give them the green light to release the UB from storage and ship it to Poland.

(2) Due to local customs regulations in Poland, member is required to be physically present in the country to sign Polish customs form before Code 8 UB can be processed and cleared by customs.For code 8 shipments please upload copy of orders and picture of passport to clear Polish customs.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Poland strictly enforces laws and regulations which prohibit the exportation of all artwork (including paintings and sculptures), china, silver, brass, copper, and crystal which was or may have been produced prior to 9 May 1945. Service members should make a detailed list of all such items (to include the number of boxes in which they are packed) and bring it with them for presentation to the Embassy, GSO, for customs declaration and documentation to avoid difficulty with customs for free entry and re-exportation. Until Poland joins the EU in May 2004, an Embassy's expeditor will come to your home to take photographs of the items to be added to the import customs clearance paperwork for your consignment. Without customs certification upon arrival of the goods in Poland, anything which may have been made before 1943 cannot be taken out of Poland.HHG: Mail one copy of bill of lading and 2 copies of the packing list to American Embassy (GSO) Warsaw, Department of State, Washington, DC .Form 302 is required to clear European customs please refer to the Ref: United States European Command (USEUCOM), Part V, Chapter 510 (ustranscom.mil)Personal Property: All DoD Personal Property HHG, Unaccompanied Baggage/POV shipments will be cleared via U.S. Forces Form 302. The commercial carrier will provide the CBL, arrival notification with goods number, and supporting shipment documentation to effect Host Nation tax-free clearance.

5. FURTNITURE, OVERSIZED

Please advise member most local economy housing will not accommodate oversize furniture. Apartments in Old San Juan are typically of historic colonial architecture with narrow entryways and stairwells and will not allow for the delivery of oversize furniture items, members must consider Non Temporary Storage for oversized furniture at origin. Members must be made aware it is their responsibility to secure a parking spot for the moving shuttle truck during delivery of HHG in the Old San Juan area.

6. PETS/QUARANTINE

Member must consider the pet's travel requirements during the overseas screening process. Pets do not need to be quarantined when coming to Puerto Rico. They can travel by air as cargo, baggage, orin the cabin under the seat for a fee. Each airline has its own requirements regarding pet travel depending on the animal's breed and size, requirements can be found on the airline's website and it is advisable for members and employees to contact them directly early in the relocation process. Average felt temperatures in Puerto Rico are usually high and airlines may not fly the pets due to the risk of overheating during certain times of the day.Veterinary services are available at cost on Fort Buchanan. Advise member to call 787-707-2038 before shipping pets to get current entry requirements.

7. PRIVATELY OWNED FIREARMS (POF)

A. Personnel shipping firearms with the HHG's to Puerto Rico must be made aware of the provisions of the "Puerto Rico Weapons Act of 2020", any person who has or possesses a firearm without holding a firearms license shall be guilty of a felony and, upon conviction shall be punished by imprisonment for a fixed term of (5) years. If there should be aggravating circumstances, the penalty established may be increased up to a maximum of ten (10) years; if there should be mitigating circumstances, it may be reduced to a minimum of one (1) year. If the firearm has been reported stolen or illegally taken or unlawfully imported into Puerto Rico, it shall be deemed an aggravating circumstance. B. When a shipment of HHG's containing firearms arrives in Puerto Rico, the firearms will be impounded at the agent's warehouse in the presence of the member by a PR Police officer, storage and custody fees willbe paid by the member. Firearms may not be retrieved from PR Police Headquarters until the firearms license to possess the weapon(s) is granted and the weapon(s) are registered by the Firearms Licensing Office. the Firearms Licensing Office shall have thirty (30) days to complete the investigation and issue or deny the license. We strongly recommend weapons be stored in NTS for the duration of tour in Puerto Rico.C. To facilitate identification of shipments including firearms, such items should be specifically listed on the descriptive inventory and shipping documents (GBLs). POF's MUST be packed in container/liftvan number one (1) to expedite the firearms compliance processing and inspection by local Puerto Rico Government authorities.

Account will transfer over to a commercial account. An extension of up to six months may be granted in unusual cases. Local government fine will have to be paid after 30 days if vehicle is not removed from VPC. (4) Excise taxes will have to be paid prior to release of vehicle. The excise tax must be paid by members not exempt under paragraph 8a(1) before the motor vehicle is moved from the Vehicle Processing Center. The Commonwealth of Puerto Rico excepts only one (1) vehicle per Active duty Service member or authorized DOD Civilian from the excise tax. RETIREES AND SEPARATEES DO NOT HAVE ANY TAX EXEMPTIONS IN SHIPMENT OF POVS (Unless vehicles are fully electric) INCLUDING MOTORCYCLES. Member may ship motorcycle as part of HHG Shipment. (a) These taxes are based on the "Black Book" value of all new and used cars imported into the island. Payment of the taxes need to be completed prior to delivery to the owner. Estimated payment amount and payment process needs to be verified under Hacienda Local Tax office site.(https://ww.suri.hacienda.pr.gov).” (b) There is a minimum tax of $750.00 if the book value of the car is $5,844.00 or less. (c) Book value from $5,844.00 up to $10,130.00, tax is $750.00 plus 13% of the excess over $5,844.00. (d) Book value from $10,130.00 up to $20,260.00, tax is $1,307.00 plus 25% of the excess over the $10,130.00. (e) Book value from $20,260.00 to $42,546.00, tax is $3,840.00 plus 40% of the excess over $20,260.00.(f) Book Value over $42,546.00, tax is 30% of value. (g) Multiple use vehicles, such as SUV's, 4X4, "Minivans", pay 13% provided the Black Book cost does not exceed $20,000.00. If it does, the tax is $2,600.00 plus 20% of the excess over $20,000.00. (h) Tax information is provided by the Commonwealth Tax Bureau (Hacienda). It is highly recommended that prior to taxable POV shipment, the decision-making individuals double-check with Hacienda on the excise tax due. Call Hacienda at (787) 721-2020 before release of any imported taxable POV from the SDDC Terminal San Juan, PR. This does not apply to members with authorized shipment of POV

b. MOTOR CYCLES/MOPEDS

Mopeds or motorcycles to include ATVs, three-wheeled motorcycles and UTVs shipped as HHG's must be packed separately from other HHG's since they must be cleared by the Puerto Rico Department of Treasury (Hacienda). The service member or DoD employee will have to obtain documentation from the delivering moving company and request an exemption of taxes from Hacienda before shipment can be cleared for delivery. Upon shipment arrival to Puerto Rico, the following documentation is mandatory and must be hand-carried and NOT shipped with either HHG or UB in order to obtain a release from the Department of Treasury inspectors: Bill of Sale, Title, registration and other related supporting documents.

c. GASOLINE/CATALYTIC CONVERTERS

Regular, premium unleaded gasoline and diesel fuel are available in Puerto Rico. All internal combustion engine powered POVs must have catalytic converters.

d. INSURANCE AND SAFETY REQUIREMENTS

(1) ACAA sticker, can be purchased at any tax office (Colecturia). All motor vehicles are required to have Puerto Rico Medical Liability Insurance, called "ACAA" at a cost of $35.00 per year. No vehicle is released to the owner until this fee is paid. In addition to the ACAA, each vehicle must have a mandatory liability insurance (Seguro compulsorio) that costs $99.00-$150.00 (depending on vehicle model) a year. (2) The owner must get plates and registration sticker and safety inspection within 72 hours of the individual picking up the vehicle.

B. All DD 1299's MUST include member current personal email address and personal telephone number including alternate telephone number. Members need to be reminded of the requirement to contact the personal property office immediately upon arrival in the area. C. An OTO is required for direct shipments into the Caribbean Islands of: Anguilla, Antigua, Aruba, Bahamas, Barbados, Bermuda, Caymen Islands, Curacao, Dominica, Grenada, Guadeloupe, Guyana, Haiti, Jamaica, Martinique, Montserrat, St. Barthelemy, St. Eustatius, St. Kitts and Nevis, St. Lucia, St. Martin, St. Vincent, Trinidad and Tobago, the US Virgin Islands and Tortola. Do not ship HHG's into Puerto Rico for further transfer. Please advise all members, any and all customs requirements for local taxes and awareness of local firearms laws and requirements for permits, etc., will be the responsibility of the member. All shipments with the destination of any of theabove islands must be routed through the "OTO" system. Annotate your ITGBL, block 18, to the specific island desired.(1) Do not send the shipment directly to Puerto Rico because it will take a new OTO request to re-route it to its destination.(2) If any questions arise when processing a member to one of the above, please call the transportation officer in Fort Buchanan, at DSN: 740-4003, comm.: 787-707-4003, FAX 787-707-3007. Telephone calls are much cheaper than misrouted shipments. d. Ensure retirees, separatees and members shipping designated location shipments to Puerto Rico, are thoroughly counseled on excise tax information. Please refer to: 13

13. OTHER

EXCISE TAX INFORMATION:(1) Only DoD, DHS USCG civilians and US military who have PCS orders to Puerto Rico will be exempt from Puerto Rico excise tax on their personal property to include POVs. Personal property of service members, DOD and DHS USCG civilians and dependents imported into Puerto Rico under other than PCS orders e.g. Retirement, Separation, REFRAD and RELAD orders, will be subject to the excise tax, however, only the following items (not limited to) are taxable: Internal combustion/fossil fuel powered POV’s, motorcycles, mini-bikes, mopeds, scooters, three wheeled motorcycles, ATV’s, UTV’s, karts, and watercrafts to includefull size pleasure boats. The excise taxes must be paid prior to scheduling the property for delivery to the member via the SURI website. Taxes to be collected are based on the vehicle’s taxable price determined by Hacienda inspectors. The Departamento de Hacienda is the Treasury Department agency of the Commonwealth of Puerto Rico.(2) The excise tax on motor vehicles of internal combustion/fossil fuel powered (POV) is from a minimum of $750.00 and up, depending on the type of vehicle, year of manufacture, make, model and trim. To obtain actual tax amount members and employees must submit their POV’s VIN at the Hacienda SURI link here: https://suri.hacienda.pr.gov. In order to pay the excise taxes on POV’s members and civilian employees must physically take the POV shipping paperwork provided by the VPC to Hacienda, once payment has been completed Hacienda will provide the release and the member or civilian will be able to retrieve his/her POV from the VPC.(3) Fully electric POVs (EV) are exempt of the excise taxes, Hybrid POVs (electric and fossil fuel powered) are partially exempt of the excise taxes.(4) To obtain Puerto Rico excise tax exemption on motor vehicles including watercrafts, the service member or civilian employee must physically present to Hacienda with a copy their PCS orders, Government ID card and shipping paperwork provided by the delivering moving company. Members and civilians must be aware that

the VIN must be visible and match with the trailer when applicable, e.g. JetSki & corresponding trailer. The following documents MUST be hand-carried by members and civilians: motor vehicles including watercrafts Bill of Sale, Title, registration and other related supporting documents. Failure to have these documents on hand will preclude the release and delivery of the shipment, do not ship these documents with the HHG or Unaccompanied Baggage. In the case of POVs under PCS orders, the Puerto Rico Vehicle Processing Center (VPC) will obtain the tax exemptions from Hacienda.(5) For retirees and separatees, the Puerto Rico Department of Treasury (Hacienda) will not clear or release the shipment for delivery until taxes are paid in full.(6) Effective 6 September 2024, for all maritime HHG shipments (code 4), the Department of Treasury (Hacienda) is requiring for all members and civilians on any type of orders to Puerto Rico to register in Hacienda SURI system, full SSN of the member or civilian employee is required and step by step instructions will be provided by the delivering agents/movers or the TSP. It is also a requirement for all members and civilians to fill out Hacienda agency-specific forms which again will require their full SSN, there is currently no alternate identification numbers accepted by Hacienda. Refusal of members and civilians to provide their full SSN will preclude the delivery of their personal property HHG or Unaccompanied Baggage shipments as release will not be granted to the agent/movers. It is imperative that the SURI registration and Hacienda specific forms are completed by members and civilians before containers arrive to the port of Puerto Rico, this will prevent containers hold-ups at port and demurrage charges. Holding of a single container at port will negatively affect and impact shipments belonging to different members.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Government bill of lading is required on all personal property shipments. Send advance PPGBL to TO ARCENT-Qatar, Doha, Qatar. Provide airway bill (AWB) number, PPGLB number. UB must be declared: Used Personal Effects for Personal; on AWB and PPGBL. All inbound shipments are subject to a cursory inspection by Qatar Customs Officials. All carrier agents in CONUS must use the Special Solicitation carrier that HQ SDDC has determined as Best value for Qatar to avoid UB being stuck in customs warehouse for a long time and to avoid this transportation office having to go through extensive clearing procedures at customs warehouse.For shipments being sent to the U.S. Embassy, Doha, Qatar, send advance documentation, PPGBL, Airway bill (AWB), to GSO, Shipping Unit, U.S. Embassy, Doha, Qatar APO AE 09898.Military Surface Deployment and Distribution Command Customer and Carrier Advisory July 31, 2024, CA-23-06-20/0048 Update 1SUBJECT: Updated Country Advisory - QatarPURPOSE: To provide updated guidance for importing and exporting cargo to/from military installations in Qatar. This advisory supersedes previously

published guidelines on customs clearance processes for Qatar.BE ADVISED: Effective 11 August 2024: Container Terminal 7 operations at the Port of Mesaieed (PK6) will cease. All USG/M cargo entering, exiting, or transiting Qatar via water should only be routed through the Port of Hamad

(PK7).All other guidance in this CA still applies and will be utilized for import/export cargo in Qatar. Failure to follow guidelines for importing and exporting couldresult in port detention charges, custom clearance fees, and the inability forvessels to berth into Port of Mesaieed and/or Port of Hamad. Failure to adhere to these guidelines will also result in the inability of consigned shipments to enter or exit military installations in Qatar.1. GENERAL INFORMATION:a. Advanced written approval, called a Customs Waiver Request (CWR), from the General Headquarters of Qatar (GHQ) is required for all cargo entering/exiting the country of Qatar regardless of mode of transportation. GHQ approvals have a baseline of about 30 days from the

date of initial submission to final approval. This means all surface movements must be planned accordingly to provide the required information early to avoid any cargo movement delays/movement denials. There are two (2) signatures that go on the GHQ. The first approval signature is from GHQ. The second approval signature is from Qatari Customs. The US Government has no visibility on the second approval process. The second approval is coordinated exclusively between the Qatari government and each the carriers the Clearing Agent.b. All drivers must be vetted through 379th Expeditionary SecurityForces Squadron before entering Camp As Sayliyah (CAS) and Al Udeid Air Base (AUAB). The vetting process requires appointments that must beattended at designated time, or the driver risks being refused future access to the requested installation.1. In Order for the Driver and truck to access the installation, the

following documentation shall accompany the driver at the designated appointment time.2a. Copy of the Driver IDb. Passportc. Truck Serial Numberd. Truck insurance card2. For scheduling of the appointment, please reach out to the 831st TB's Qatar Detachment for assistance at usarmy.bahrain.sddc.list.831-qatar-det@army.mil. 2. CUSTOMS WAIVER REQUEST (GHQ) PROCESS:a. To initiate the CWR process the carrier/shipper must provide the followingto the SDDC Qatar Detachment (POC information below) at the time of lift from Port of Embarkation (POE), with additional details provided by the shipper/consignee or upon booking as applicable:¦ Cargo Data Sheet (CDS)¦ Vessel name with estimated time of arrival (ETA) and departure (ETD)¦ Port of Embarkation (POE) and Port of Debarkation (POD)¦ The military installation in Qatar (i.e. CAS, AUAB, CAS-South, etc.) that the cargo will be delivered to or originate from(1) Import: CDS which must contain (at a minimum) complete and accurate container numbers, Transportation Control Numbers (TCNs), piece counts, weight, cube, approximate dollar values (commercial invoice packing list) international harmonization (HS) codes, and general description that identifies the contents of the shipment. Photos are required

for all Rolling Stock(R/S)/Break Bulk (BB) cargo. The COO is required for all cargo not originating from Qatar. Additionally, cargo being delivered to AUAB requires a Transit Bayan from the port.(2) Export: The same procedures as import cargo should be used. Additionally, the transport vehicle's serial or chassis numbers should be included in all requests since a transit is required for all shipments originating at AUAB. A COO is required for shipments consigned to the

United States.*NOTE: A transit bayan is required if cargo is moving from one port to another. AUAB is considered a Port of Entry and requires customs documentation unlike CAS. Thus, a Transit Bayan is required if cargo is moving from AUAB to another port or vice versa.(a) Exporting containers through Hamad Port. Ensure sealed container doors are accessible for Port Customs to inspect. Depending on size and location of doors of the container, limitations of number of containers on a single trailer may vary.) Hamad Port restricts cargo to 1x containerized

cargo per trailer due to customs inspections at the port. Hamad Port is considered highly restricted and can take 2-4 hours per truck to go through the process of inspections and download/upload of cargo.3(b) Hamad Port's Customs Office is open 24/7 and import/export bayans arecapable of being approved Saturday-Thursday, 24hrs a day. The customsoffice is closed on Fridays. Import/export bayans can also be made andapproved 48hrs in advance of cargo movement. (Source: Qatari Customs)(c) Any food items that contain pork must be declared as such on the CWR in order to clear customs. This includes items designed to taste like pork but lack any pork-based ingredients.(d) For all commercial wheeled vehicles (to include trucks, cars, vans, allterrain vehicles, dirt bikes, etc.), the carrier must ensure that the following vehicle details are provided by the origin/shipper/customer in the CIPL/COO prior to lift at POE: make and

model, wheel plan (number of tires), color, engine number, VIN/chassis/frame number, serial number, type of fuel, manufacturing country, manufactured year, and approximate cost of vehicle. This applies to palletized and containerized vehicles.(e) Privately Owned Vehicles (POVs) require the same information as above but should not be shipped to arrive before the owning member. Due to clearance processes at the port, owners must have already completed their Qatari residency in person, and have the original title in hand, to finalize customs for POVs. Qatar residency is completed through Host Nation Coordination Cell (HNCC) at an approximate cost of 100 QAR and takes between 3-5 weeks to complete.(f) Upon receipt of the above listed information, 831st TB's QatarDetachment initiates the CWR by submitting documentation within 3-5 business days to the customs section of the HNCC.(g) HNCC approves the CWR and translates it into Arabic and submits to the GHQ for approval on Mondays and Wednesdays. This process can takebetween 5-10 business days depending on the day of submission. GHQthen processes the CWR and returns a copy to HNCC called the "first approval", which is a confirmation copy showing that GHQ has approved the CWR.(h) SDDC Qatar Detachment receives a copy of the "first approval" from HNCC. The Detachment sends the first approved CWR to the carrier and the consignee. The Carrier then submits the first approved CWR to GHQ Customs-Doha once they receive the original from GHQ. This starts the "second approval" which initiates the import/export bayan approval. This bayan is given to the port Customs Office and is saved digitally. The original document usually remains with the port customs office until cargo

movement. This process takes anywhere between 5-10 business days.(i) AUAB requires a transit bayan for all cargo being exported via surface movement. To receive the transit bayan under "Door to Door" terms, the4carrier will be required to pay the AUAB Customs account for the seals.This reference is specific to export shipments where the carrier is receivingthe cargo inside AUAB. Seals are 50 QAR each and each container willreceive a single seal. The account number for AUAB customs is: 0787-749002-060. This must be paid through Qatar National Bank (QNB). A receipt, seal, and transit bayan approval will be provided at the AUAB customs office after the cargo is ready to depart the base.(j) Camp As Sayliyah (CAS) does not require any special customs documents.3. DOCUMENTATION REQUIREMENTS FOR CUSTOMS:Carrier must ensure the following documents are received from the shipper prior to lift at POE:a. Cargo Data Sheetb. Commercial Invoice Packing List (CIPL), with international Harmonization (HS) Codec. Certificate of Origind. Pictures of cargo (R/S and BB only)e. HAZMAT documents (if applicable)4. BOOKING INFORMATION:During the booking process, customers should make special booking requests as required for their needs. This includes the following terms of service: Port to Port, Port to Door, Door to Port, and Door to Door. If a customer has no preference on terms of service, the cargo will be booked on DOOR-to-DOOR terms due to the ever-changing operating area and the local currencies used by various organizations involved in the movement process.If cargo is booked on PORT terms, inland transportation is determined by the consignee (destination) at each base. Consignees must utilize local base assets before reaching out to SDDC for inland transportation. If you are unable to reach a consignee, please contact the Qatar Detachment (POC information below).a. Door Terms Accessorial Services (containerized, general, rolling stock or breakbulk).(1) Shipper owned containers: Cargo Clearance Import/ Export.(2) Carrier owned containers/flat racks: Cargo Clearance import/ export, Transloading (Out of Gauge flat racks only) and cargo handling import/ export (if required to stuff/unstuff the cargo at the port by the carrier and return empties immediately to avoid detention charges, import only). All import and export vehicles and oversize equipment via Hamad port are

required to be booked on low bed trailers/ double drop only. Carrier must provide low-bed trailer/ appropriate transport accordingly.5(3) Breakbulk: Cargo Clearance Import/ Export. All

All import and export vehicles and oversize equipment via Hamad port are required to be booked on low bed trailers/ double drop only.

Consignee must arrange low-bed trailer/ appropriate transport accordingly.*NOTE 1: Port arbitrary will be applicable, as necessary.*NOTE 2: Tarping of equipment is not a requirement for movement of military cargo in Qatar. It is recommended that tarping is only requested in special

circumstances (on a case-by-case basis).5. ADDITIONAL GUIDELINES:a. All exported cargo must be staged at the seaport of embarkation for a minimum of 48 hours prior to the planned upload onto the vessel.b. All imported cargo will remain at the port of debarkation for ~24-96 hours tofacilitate customs clearance processes.c. A commercial invoice and packing list (CIPL) is required for all cargo to clear customs at the seaport of embarkation/debarkation. Standard international harmonization (HS) codes should be listed for all cargo being moved.d. Qatari Military Police (QMP).According to Qatari/U.S. agreements, cargo transporting to/from seaports and other in-country port locations must be escorted by Qatari Military Police if it meets any of the following criteria:Cargo that has a military appearance (painted desert-tan/olive drab

green/camouflage, etc.).6 Military vehicles being transported on low-bed trailers (MRAPs, HMMWVs, trucks, vans, buses, etc.).Cargo that will be transported by five (5) or more trucks traveling together (i.e., if there are 5+ SEAVAN containers of military cargo being delivered by

5+ trucks traveling simultaneously, an escort is required).Ammunition or Explosives.*NOTE: If a container/cargo states “U.S.” on it, it will need a QMP escort. 2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. Embassy employees' shipments are subject to the Russian Ministry of Culture's regulations on the import and export of cultural items. The GSO/shipping section will assist you with the registration of items such as antiques and works of art, which must have an export permit for outgoing shipment at the end of your tour. The Ministry has denied a few export permits; therefore, the Embassy recommends that you do not bring extremely valuable or rare antiques and art works into the Russian Federation. b. Losing posts are directed to not ship personal effects until the person has a valid Russian Federation Visa, specifically for the PCS in hand. Customs regulations prohibit the clearance of personal effects unless the person is physically in the country and registered with the Ministry of Foreign Affairs. Losing posts are requested to time shipments so that the shipments arrive after the duty reporting date to coincide with the duty reporting date of personnel assigned to Russia. If personal effects arrive in Moscow before the owner, they are stored at Russian Customs accruing expensive storage. All losing posts are requested to pouch a copy of Transfer Travel orders, GBL and DD Form 1299 to American Embassy Moscow, PSC 77 (GSO), APO AE 09721 ASAP after the assignment. c. The US Embassy is responsible for clearing shipments through customs. Provide a copy of the PPGBL, AWB, inventory, estimated customs value of each shipment (UB, HHG and POV) number of pieces, cube and the weight (gross and net). (CH)

a. Russian regulations permits must be obtained for items of cultural value(ICV) that are exported from Russia. ICV are: paintings, sculptures, icons, hand-made carpets, books and editions more than 50 years old, musical instruments, samovars, objects of decorative art, etc.b. The representative of the moving company visits the employee's residence, identifies, lists and photograph ICV, takes the list and photographs to the Ministry of Culture. According to the contracts, that the Embassy currently has with three moving companies for shipments of HHE/UAB for non-military personnel we pay, on average, USD 188 per one shipment for this service. Please note that some items the Ministry of culture can send for expertise to an appropriate museum in Moscow and this will create additional costs. c. As soon as the moving company will submit the DD619 form for us, we will verify, on case by case basis that this service has been rendered and will return them the signed form.DOS Arranged ITBL Local Agents: RussiaPost: Moscow Bureau: EURLocal Agents:1) PickfordsDnepropetrovskiy proezd 1Moscow, RussiaPOC: Dmitry Degtyarev, GeneralManagerTel: 7 495 796 9325Email:Dmitry Degtyarev Dmitry.Degtyarev@pickfords.com2)AGS FROESCHOchakovskoye Shosse 36,Building 2119530 Moscow / RussiaPOC: Olaf Blaesig <olaf.blaesig@agsglobalsolutions.com>Office: +7 (495) 989 6664Mobile:+7(906)05785933)Gosselin GroupMoscow Office48A, Otkrytoye Chausse107370 Moscow, RussiaPOC: Oleg Yashenko <O.Yashenko@gosselinmoving.com>Office: +7 (495) 989 7304Mobile: +7(917) 5790278Post: St. Petersburg Bureau: EURLocal Agents:AAA Logistics192236, Russian Federation, Saint-Petersburg,Sofiyskaya street, 6, liter S, pomeshenie 1-NPOC Norbert GoorenTel. shipments moving from CONUS TO AND FROM SAUDI ARABIA CODE 8, use SPECIAL SOLICITATION RATES, to book these shipments. For shipments from all other areas, use One-Time-Only (OTO) rates.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

a. EMBASSY ONLY: All personal property shipments for DOD personnel on PCS orders are cleared through Saudi Arabia customs under a special exemption. All other shipments are subject to inspection and/or examination at the point of entry into the Kingdom. Saudi Arabia is a strict Muslim country and items shipped which are offensive to the Muslim religion may be confiscated and may subject the entire shipment to confiscation without retribution. b. Shipping papers: Saudi customs officials do not, repeat, not release shipments as duty free when they are misconsigned or when shipping papers identify the commercial agent as "notify party." Place member's PCS orders inside member's personal property shipping containers. c. Shipping Documentation Pouch Requirements: Ensure PCS orders and DD1299's and related documents are placed inside the shipping containers. d. Mail: Saudi customs officials may open and inspect packagescoming into the Kingdom. This includes packages coming through APO. It is illegal to import alcoholic beverages, pork products, firearms, non-Muslim religious material, or material deemed pornographic. Videocassettes sent through APO mail are subject to screening and confiscation. If considered unacceptable, tapes may be partially or completely erased, or destroyed. Books and magazines are also checked for "pornographic" pictures or politically sensitive material. Pages may be destroyed or removed if considered unacceptable. Record jackets, cassette labels, and compact discs may also be confiscated. US EMBASSY/CONSULATES ONLY: To avoid confiscation, you may mail certain items via State Department pouch or include them in your HHG. (While HHG are subject to inspection, customs officials rarely open HHG shipments. You may send the following items by state department pouch: videocassettes (maximum ten per package, clearly labeled "video tapes"), DVD's, CD's, cassette tapes, prescription medications, and religious materials. Quantities should be limited. Pornographic material may not be sent through the pouch. e. Size Requirements: The U.S. Postal Service has issued a size restriction on all parcel mail addressed to Saudi Arabia. It must fit in a mail sack. Therefore priority mail may not exceed 70 lbs. or 108 inches, measuring length and girth combined. Space available mail (SAM) may not exceed 70 lbs. or 100 inches, measuring length and girth combined. f. Restricted Items: Saudi officials may restrict the importation of the following items: Books, printed materials, communication equipment, audio cassette tapes, video cassette tapes, DVD's, CD's and computer diskettes. g. PROHIBITED ITEMS: Religious items contrary to the Islamic faith (such as Christmas trees), pornographic or R-rated movies/DVDs/Blu-rays/videos, anything that contains nudity, and certain types of military gear, such as weapons, weapon accessories like magazines and scopes, night vision goggles, handcuffs, body armor, canteens, and other gear of this nature. Saudi Arabian Customs may confiscate these items and hold the member's shipment until the member pays the non-reimbursable customs fees. If you have questions about certain items, please contact the appropriate personal property office in Saudi Arabia before shipping.

3. CONSUMABLES

DOD arranged shipments:Validate consumables allowance authorization within the JTR.

DOS arranged shipments: Contact DOS.

a. ALCOHOLIC BEVERAGES

You may not import alcoholic beverages.

b. CIGARETTES/TOBACCO PRODUCTS

Shipments of cigarettes/tobacco products between CONUS and overseas or within overseas countries may be shipped subject to host country requirements/restrictions identified.

c. COSMETICS

"No restrictions identified."

d. FOOD STUFFS AND MEATS

Pork products are prohibited.

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

Saudi Arabia recently increased the penalties for violating narcotic laws. Clearly labeled prescription drugs, in small quantities, should pose no problems. However, difficulties may arise if prescription drugs are shipped in large quantities, lack of clear labels or proper documentation (such as a copy of the prescription), or are considered illegal by Saudi authorities. EMBASSY ONLY: You may wish to send prescription medications via pouch.

6. PETS/QUARANTINE

a. You must have approval from the Saudi Ministry of Foreign Affairs to bring a pet into the Kingdom. Therefore, at least one week prior to the animal's arrival, you must notify GSO of the following information: breed, sex, color and weight of animal. (Dogs should be listed as "guard dogs"). You may send this information by e-mail to David Simons or Ali Jama Haid, or through front channel cable. With this information, GSO will prepare a diplomatic note for the foreign ministry.

While this is normally sufficient, the note may be held by the foreign ministry until the actual processed documents are faxed (see paragraph 6.f.).b. You should update your pet's vaccinations and obtain a USDA health certificate. (Rabies shots should be administered 30 days prior to your pet's arrival.) You may place several pets on one 3 certificate if you wish. Vets in the Washington, DC metropolitan area can be expensive, so you may wish to do this at your home leave address. If your pet has health problems or needs dental work, it is best to treat them as early as possible. You should do this at least 30 but not more than 10 days before arrival at post.c. Before you can authenticate your pet's health certificate, it must be certified by the USDA. If you are not in the Washington, DC Area, check with your vet for the nearest USDA office. If you are in the Washington area, the locations are as follows: USDA-APHIS4700 River Road, Unit 39Riverdale, MD 20737-1231301-734-8383 or 8170(This office is located off the beltway, use Kenilworth Ave. Exit).OR 2568A Riva Road, Room 207Annapolis, MD 21401410-962-7726OR Washington Bldg., Suite 6001100 Bank St.Richmond, VA 23219804-771-2774d. After the health certificate is certified by the USDA, the State Department Office of Authentication's must authenticate it. That office is located at Colombia Plaza on 23rd Street (SA-1, phone: 1-800-688-9889 or 647- 5002 or 663-3868). The office is located on the plaza or ground floor next to the drugstore. The office attaches a letter of authentication to your health certificates. Cost is $4.00.e. You must take the certified health certificate and letter of authentication to the visa entrance of the Saudi Embassy. It is located at 601 New Hampshire Ave., NW, a short walk from the authentication office, across from the Watergate plaza. You must obtain an official Saudi stamp on the health certificate. It may be necessary to leave the documents overnight. There is an $8.50 fee, which you may pay in cash if you have the correct change. Otherwise you will need a money order or cashier's check made out to "the Royal Kingdom of Saudi Arabia" or "the Embassy of Saudi Arabia." Be aware that the Saudi Embassy closes for extended periods of time for the Eid and Hajj religious holidays.f. After your USDA certificate is authenticated by the State Department and stamped by the Saudi Embassy, fax copies of all these documents to the GSO/customs & shipping section in Riyadh, 011-966-1-488-7939. The section will prepare a diplomatic note for the Ministry of Foreign Affairs. The MFA will endorse the diplomatic note, directed to the Director of Airport Customs. This can take up to four days.g. If you do not follow the process described above, airport authorities will not release your pet until checked by a Saudi veterinarian. You may want to avoid arriving on the Saudi weekend, which is Thursday and Friday, as the vet does not work on these days. If your pet is not accompanied, it will be held at the airport for up to four hours until a vet can check it. There is no charge for this service.h. Reminder: Your pet must have reservations with the airline and you must bring all their documents with you to the airport. Be prepared to pay for your pet's passage when you arrive at the airport. Currently, you may only pay for pet travel at the counter -- it cannot be prepaid. Most airlines require that your pet travel in a sturdy cage with strong bolts and air ventilation on three to four sides of the cage. All cages must have a water dish. A piece of old carpet fixed to the bottom of the cage allows your pet to dig in claws and hold on tight when transported.i. If you plan to book your pet inside the cabin, please check well in advance with the airline. The availability of this option is normally limited and the airline may have additional requirements concerning the date of the health certificate and other documentation.j. If the pet is sent by airfreight, the shipment should be consigned as follows: American EmbassyRiyadh, Saudi ArabiaContact Tel: 488-3800, EXT 1512/1500k. If you send a dog by airfreight, the description of the shipment in the airway bill should state that it is a "guard dog."l. If shipping a pet by airfreight, please notify GSO, as soon as transportation arrangements are made, of the following: airline, flight number, and airway bill number assigned to the shipment.

8. PRIVATELY OWNED VEHICLES (POVs)

Updates: They advise vehicles older than 5 years may only be imported by Diplomatic staff (prohibited for Administrative and Technical staff), and vehicles older than 30 years may not be driven on public roads. The 5 year restriction is included in the ILMS country guidelines. Currently the guide does not appear to reflect either of those restrictions. (1) Pickup Trucks: Saudi Ministry of Foreign Affairs has approved pickup trucks imported and registered under diplomats' names with diplomatic tags for their personal use. (2) Motor Vehicle Color: Do not, repeat, not ship a yellow vehicle. Yellow is reserved for taxis. If you import a yellow vehicle, it will be repainted at your expense. (3) Vehicles With Tinted Glass: Do not, repeat, not ship a vehicle with a tinted windshield or with tinted front side windows. Motor vehicles that have tinted glass on either the windshield or the front side windows can not be registered with the Saudi police until the tint is removed. Rear windows and rear side windows may be lightly tinted, as long as the tinting does not interfere with the driver's ability to see objects behind him or with Saudi security concerns. To determine if your tinting is acceptable, stand 15 to 30 yards behind the vehicle. If you can see well inside the car, then your rear window tinting is okay. If you cannot see into the car, the vehicle will most likely fail the Saudi inspection. (4) Vehicle Titles: Saudi officials require proof of ownership before clearing vehicles through customs. Please send or bring a copy of your vehicle title to post. The title must be in English or Arabic. If your title is not in English or Arabic, please have it translated before coming to post. (5) Vehicle Registration and License: The process of licensing a vehicle with diplomatic (CD) tags normally takes two weeks. You must pay the registration fee, which is about $8.00.

a. POVs (includes data on prohibited vehicles, colors, etc.)

Personnel not assigned to a US Embassy or Consulate are not authorized a POV shipment.1. Active duty personnel, other than Defense Attache Office personnel and the US Embassy Marine Security Guard Detachment Commander, are prohibited from importing privately-owned vehicles. Open bed pickup trucks cannot be registered to non-Saudi and should not be shipped. Do not ship a pickup truck as a POV. If a yellow sedan is shipped, Embassy guidance should be sought prior to shipment as this color is reserved for taxis in Saudi Arabia, so it is discouraged. All types of vehicles can be shipped, but spare parts are still difficult to obtain for pre 1988 vehicles. There are no specific

safety standards imposed by Saudi Arabian Government.2. Shipments of POV should not, repeat, not be scheduled to arrive at Post prior to employee's arrival. Post cannot obtain clearance until employee arrives and is granted an identification card by the Saudi Ministry of Foreign Affairs. Saudi Arabian Customs do not, repeat, do not release shipments as duty free shipments when shipments are misconsigned.3. Drivers License: Women may not repeat not legally drive in Saudi Arabia. Therefore, Saudi police will only issue diplomatic driver's licenses to men. Prior to applying for a drivers license, you must obtain your Saudi ID card (IGAMA). To qualify for a diplomatic driver's license, you must have a valid, repeat, valid driver's license, preferably one issued in the United States. When applying for your driver's license, you must submit four (4) nonglossy, non-Polaroid black/white or color photos (1 x 1 in). If you do not have a valid driver's license, but would like to obtain one in Saudi Arabia, you should be prepared to take driving courses and/or driving exams. While women are not permitted to drive in Saudi Arabia, they may import and register a vehicle. However, hiring a driver is expensive, so most female employees rely on the embassy's extensive motor pool operation for transportation.a. Surface shipments of POV should be sent directly to Riyadh dry port via Port of Dammam. Freight should be prepaid through to Riyadh dryport.b. For surface shipments please note the following:(1) Do not pack motor vehicles and HHG in the same containers.(2) Dammam Port and Riyadh dry port handle 20 foot and 40 foot containers.c. Post request that all shipments destined for Riyadh are sent directly through to Riyadh. To do this, please follow these instructions precisely:(1) The consignee block of the OCB/L must be completed as shown in para 8.a.3(3) above.(2) The notify party block of the OCB/L must remain blank or show "same as consignee."(3) The port of discharge block of the OCB/L must show "Dammam."(4) The place of delivery block of the OCB/L must show "Riyadh dry port."4. Embassy HHG and POV shipments should be marked and consigned as follows: American Ambassadorc/o American EmbassyDiplomatic QuarterRiyadh, Saudi ArabiaATTN: GSO; Tel: 488-3800, EXT 1512/1500FOR ()5. USMTM Personnel: Units/personnel sponsored by USMTM (AFELM-TAFT, AFELM SECURITY AST JD, AFELM SECURITY AST JA-DHAHRAN-AFM ADM, USCENTCOM USMTM, DCMA, USMC TAFT (Marines), DCAA, WR-ALC, Peace Shield, AAFES, Det. 1, 83, DECA, Eskan Security Forces Detachment, and 550th. Personal property must be shipped to King Khalid International Airport-RUH, Riyadh, Kingdom of Saudi Arabia. HHG are not authorized via Surface Mode. POV's are prohibited. ATTN: OUTBOUND BOOKING, IF YOU ARE NOT SURE, PLEASE SEND US AN E-MAIL: tmo@usmtm.sppn.af.mil FOR PROPER ROUTING INSTRUCTIONS.a. Important instructions for CONUS locations: Use DPM International Commercial Air Rates (DPM Code HF or BF).b. Important instructions for Overseas locations: Use OTO Code 8 or Code 6 as an alternative mode of shipment.c. Markings: See General Instructions pg 103-1, para 1d(2).6. The shipment should be routed through Port of Dammam to Riyadh dry port. Means of transportation from Dammam Seaport to Riyadh dry port must be stated on the OCB/L as "via railways customs terminal (RCT)."7. Forward original OCB/L directly to: General Service OfficeU.S. Embassy, Unit 61307APO, AE 09803-1307Or via registered international airmail to:General Service OfficeU.S. EmbassyP.O. Box 94309Saudi ArabiaATTN: Customs & Shipping8. Neighboring posts: Posts in neighboring countries (Jordan and GCC countries) may send shipments of HHG and POVs overland. If a post decides to send shipments overland, it should submit the following information at least three workdays prior to release.a. Full description of the truck designated to carry the shipment.b. Truck license plate number.c. Driver's name and nationality.d. Driver's passport number.9. NOTE: This information will help post obtain customs clearance approvals and border crossing permits in a timely manner. Post suggests caution in sending shipments overland, as the shipments are more likely to be opened and inspected.10. Customs clearance process: It normally takes two to four weeks for UAB shipments to arrive in country, while HHG shipments generally take two to four months, depending on the origin of the shipment, routing, and

other factors. Post can not, repeat, not pre-clear UAB, HHG, or POV shipments before they arrive in country. Nor can post begin the clearance process until after the member has arrived and received their ID card. (ID cards, or IGAMA, are usually received about two weeks after arrival.) It normally takes two weeks to finalize customs formalities, following receipt of the IGAMA. GSO will contact you to schedule delivery once your shipments clear customs. For military and DOD members, a clear copy of the passport, visa, and a Mission Relations Letter is required prior to clearing customs for HHG's and UAB thru King Khalid International Airport.11. Vehicles: No age or manufacturer restrictions apply to mission vehicles.12. Motor vehicles manufactured by American motors, previously on the boycott list, can now be imported. Also, Ford motor vehicles can be imported and are locally available, but spare parts are as yet difficult to obtain. General motors vehicles and services are available, as are Chrysler products, but the latter are in less plentiful supply. Also, do not/not import a POV with tinted glass windows. Vehicles with tinted glass windows cannot be registered unless the tint-is removed. The Saudi Arabian Customs may require proof of ownership upon clearance. Copies of vehicle titles translated into Arabic or English should be sent to Post.

b. MOTOR CYCLES/MOPEDS

EMBASSY ONLY: If you wish to send a motorcycle, include it in your HHG (HHE)shipment as a separate motorcycle crate with nothing else in the crate and describe it on the airway bill or bill of lading. Particulars required are: year/type/make, engine number, and chassis number.

c. GASOLINE/CATALYTIC CONVERTERS

Unleaded gas is now available in the Kingdom of Saudi Arabia. There is no longer, repeat, no longer any need to remove the catalytic converter.

d. INSURANCE AND SAFETY REQUIREMENTS

(1) Motor Vehicle Insurance: Motor vehicle insurance coverage is not mandatory in Saudi Arabia. However, post strongly recommends that you carry insurance on your motor vehicle. Motor vehicle insurance may be purchased locally at reasonable rates. (2) Motor Vehicle Service and Spare Parts: Service and spare parts are available for most popular vehicle brands. However, spare parts for vehicles more than fifteen (15) years old may be difficult to find. (3) Motor Vehicle Inspection: There are two types of vehicle inspections. (a) Standard Conformity Inspection: Imported motor vehicles should be inspected soon after clearing Customs. The Saudi Arabian Standards Organization (SASO) inspects vehicles to ensure that they meet Saudi specifications. The inspection is simple and almost all vehicles pass.Technicians check safety belts, lights, exhaust pipes, and other areas of the vehicle. When a vehicle passes inspection, SASO issues a certificate of inspection for use in registering the car. SASO does not charge a fee for inspecting mission vehicles. (b) Road Safety Inspection: Annual motor vehicle safety inspections are mandatory in Saudi Arabia. The inspection fee is about $20.00. (New vehicles, in the current year of manufacture, are exempt.) When a vehicle passes inspection, a circular sticker is placed on the windshield and a computer-generated, one-year certificate is issued. Saudi police require vehicle owners to have a valid copy of the inspection certificate when applying for issuance/renewal of vehicle registration, ownership transfer, or export permit.

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

a. Religious or sexually related material. Video cassettes sent through the regular APO mail or shipped as HHG's or UAB may be confiscated and viewed to ensure they are morally acceptable. If unacceptable, they will be erased entirely or in part and then are usually returned to the addressee. If mailing tapes to post, either send via registered APO or (US Embassy or Consulate only) send a maximum of two tapes per package via state department pouch clearly marked "video tapes" to avoid confiscation. Books and magazines are also checked for "pornographic" pictures or politically sensitive material and pages may be destroyed or removed if determined to be unacceptable. Record jackets, cassette labels, and compact discs are also subject to confiscation. b. Public Behavior: Anyone entering Saudi Arabia should be aware that Islamic Law in the foundation of the Kingdom's conservative customs and practices. Pork products, alcohol and items deemed pornographic are strictly forbidden. The norms for public behavior and dress are extremely conservative. For example, Saudi women are veiled and must wear a full-length black covering known as an Abayya. Guidance issued by the Saudi Embassy in Washington states that non-Muslim women are not required to wear an Abayya, but should dress conservatively (loose-fitting dresses that cover well below the knee, with long sleeves and a high neckline). The embassy echoes this guidance and embassy women do not, repeat, not wear Abayyas when out on official business. However, many western women, particularly those living in the Riyadh area and the more conservative central region, choose to wear an Abayya and carry a head scarf in order to avoid harassment by the religious police (known as the mutawwa'in). Even with the Abayya and scarf, harassment may still occur. When in public, personnel and dependents should dress conservatively. Men should wear long pants and avoid shorts or sleeveless shirts. Women should wear dress in accordance with the above guidance and avoid trousers when out on official business.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

No restrictions identified.

11. TRANSMITTING EQUIPMENT

No Restrictions Identified.

a. CBS

Importation is PROHIBITED

b. AMATEUR/HAM RADIOS

“Importation is PROHIBITED.”

c. MARS EQUIPMENT

“Importation is PROHIBITED.”

d. DISH ANTENNAS

“Importation is PROHIBITED.”

e. CORDLESS PHONES

“Importation is PROHIBITED.” (clearance must be obtained in advance from Ministry of Communication of Saudi Arabia.)

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

a. Retired/separated personnel are responsible for customs clearance of their personal property and POVs with the Saudi Arabian custom officials at the port of arrival prior to onward movement. The US Embassy, Riyadh, cannot assist with customs clearance for other than assigned Embassy personnel. Shipments for retired/separated personnel should not be consigned to the Embassy or GBLOC SWAP. b. Retirees may import privately owned vehicles. Private arrangements for customs clearance and payment of duty must be made after coordination with the appropriate PPSO. POVs should be shipped, containerized if possible, to the Port of Dammam or Jeddah.

13. OTHER

NOTE: This information applies only to US Embassy/Consulate personnel.a. VISAS: You must have a visa to enter Saudi Arabia. When you apply for your Saudi visa, please request a Diplomatic Visa annotated as an assignment visa, repeat, an assignment visa. Dependents require diplomatic visas annotated as resident visas. Neither you nor your dependent(s) should be issued a visitor's visa. Please check your passport before traveling to ensure that you have the correct visa. If you are not certain that you have the correct visa, please fax a copy of it to Human Resources for review. The fax number in Human Resources is 011-966-1-488-7765. If possible, bring with you a copy of the visa request submitted to the Saudi Embassy. An incorrect visa may cause long delays in customs processing of unaccompanied air baggage (UAB) and household effects (HHG). Also no resident ID (IGAMA), multiple exit reentry permits, or driver's license can be issued to you or your dependents unless you have, the correct visa.b. VISAS FOR DOMESTIC HELP: Domestic workers in Saudi Arabia require a work visa. To obtain a work visa, domestics must be "sponsored" by their employers. According to Saudi regulations, the Embassy cannot arrange sponsorship for your domestic worker prior to your arrival. When you arrive in Riyadh, the Human Resources Office will first obtain resident permits (IGAMAs) for you and your family. Only when you have your IGAMA will Human Resources be able to apply for your domestic's work visa. Processing time for the work visa ranges from two to four weeks. To facilitate processing of the work visa, you should bring a copy of your domestic's passport and two passport size photos of him/her (black/white matte). Generally, the Saudi Government does not grant work visas for single female domestic help under the age of thirty years. The Ministry of Foreign Affairs allows entry of one domestic for each direct-hire American employee.c. PHOTOS: Please bring four(4) non-glossy, color photos (2 x 3 in) for your Saudi residence permit (IGAMA). Children 17 years of age and under must be photographed with their mother. Men who wish to obtain a Saudi driver's license should also bring four(4) non-glossy, non-Polaroid black/white or color photos (1 x 1 in). The photos employees obtain at the Department of State during consultations are usually not, repeat, not acceptable for the IGAMA, but may be used for the driver's license and other documentation requirements. Photos may be obtained locally in Riyadh, if you prefer. Photo expenses may be claimed on your travel voucher.d. EMBASSY COMPUTER SOFTWARE APPLICATIONS: The embassy uses a Windows NT local area network for its unclassified computing needs. The PC client operating system is Windows NT 4.0 for workstations on both the unclassified PCs and classified PCs. The software, Microsoft Office PRO 97, includes Word 97 for Word Processing; Excel 97 for spreadsheet applications. Outlook 97 for e-mail, contacts and scheduling; Accesses 97 for databases; and PowerPoint 97 for presentations. Post recommends you have training on this system before arrival in Riyadh.e. HOUSING: All embassy personnel reside in the diplomatic quarter, within one half mile of the Chancery. You will occupy either an FBO townhouse (American designed and built) or a government leased townhouse. All housing is furnished and is assigned by post's interagency housing board on the basis of rank, family size and availability. Ordinarily, you should move directly into your assigned housing upon arrival at post. All

residences are air conditioned and are furnished with the following: Refrigerator, freezer, range, oven, microwave oven, water dispenser, washer/dryer, vacuum cleaner, and a complete set of basic furniture, including one set of plastic patio furniture. Post does not provide computer stands, microwave carts, reclining chairs, card tables, or other specialized furniture. Please plan for your individual needs accordingly. Storage space is limited. Post does not provide extra storage space for personal effects that will not fit in your assigned housing. Upon arrival, you will receive a hospitality kit containing basic household items, such as dishes, cooking utensils, iron, ironing board, and linens. The welcome kit should be returned to GSO upon arrival of your UAB shipment.f. SCHOOL: The American International School - Riyadh (AIS-R) is a private school with an application and registration process similar to that of a private school in the United States. The Community Liaison Officer will inform the school in advance of the number of new students to expect and their approximate grade, but children must be physically present in Riyadh to register. Applications are not accepted through the mail or from a second party. All records and transcripts from schools previously attended must be presented in person to the registration office. Post recommends all documents be hand carried. Entrance testing to determine grade placement is required. In addition to AIS-R, Riyadh has a Multinational School and schools that offer British, French, and German curricula.g. STORAGE SPACE: As previously indicated, storage space is limited. Be advised that storage areas are limited in post housing and no commercial storage facilities are available. Discretion should be used in selecting which HHE items you send to post.h. As per Department's recommendation (State 178721) and post policy, Embassy Riyadh is a smoke free work place.i. 6. PETS/QUARANTINE

(a) For USDAO and ODC, Republic of Singapore (RIDK): Personnel planning to bring a cat or dog to Singapore should contact GSO Shipping at email GSO_Singapore@state.gov for information. More detailed and the latest step-by- step guidelines on pet importation can be found on the Animal and Veterinary Service (AVS) website at:https://www.nparks.gov.sg/avs/pets/bringing-animals-into-singapore-and-exporting/bringing-in-and-transshipping-dogs-and-cats/general-information(CH 18-Nov-2020 TCJ9-OH-Pac RB)
(b) For SINGAPORE AREA COORDINATOR (QENQ): Personnel planning to bring a cat or dog to Singapore must contact the gaining sponsor at least 6 weeks prior to their departure to obtain an import license and making arrangement for booking quarantine space at Jurong Animal Quarantine Station. Provide your gaining sponsor with the sex, age, breed, color and name of pet. (c) Dogs and cats coming from a few countries and the USA (except Guam and Hawaii) can be eligible for 10-day quarantine. Most animals from other countries are subject to 30-day quarantine. Clearance and quarantine costs are quite expensive. The Government of Singapore in 2011 implemented further rules regarding the importation of certain types of domesticated animals, and as a result, certain breeds of dogs are not allowed to be imported into Singapore. Other breeds, while permitted, require the owner to purchase an insurance policy for a minimum sum of S$100,000 coverage against injury to persons and damage to property, with a S$2,000 banker¿s guarantee. A pet owner of one of these breeds may also need to undergo basic obedience training by an AVA-accredited dog trainer. The owner will have one year from the issue date of their dog license to complete the training. The import requirements are strict and in some cases require steps that need to be taken 4-6 months prior to arrival. All pets imported must comply with Singapore AVA's veterinary condition which includes requirements such as health certification, quarantine and inspection by AVA. Starting 1 January 2010, AVA has implemented a new set of import and quarantine requirements as part of their rabies risk management approach to the importation of dogs and cats into Singapore. The new import requirements involve re-categorizing countries according to the rabies risk posed by different countries. As there is only one quarantine station and is always heavily booked, you are advised to submit your reservation early. It is always advisable to use the services of a pet company, who will coordinate the whole importation process. Recommend you plan your pet's arrival on a weekday. Pets arriving on Sundays or public holidays

will be kept at the airport airfreight center and will only be transferred to the Changi quarantine station on the next working day.(CH 18-Feb-2016 SDDC-PAC RB)

7. PRIVATELY OWNED FIREARMS (POF)

No firearms may be shipped into Singapore without prior approval from the appropriate agency the member is assigned to. Based upon an individual's official duty requirements, approval may be obtained to ship a maximum of one shotgun or rifle. Further requirements imposed by the Government of Singapore include advance approval and an import permit which can be obtained from Arms and Explosives Branch, where all firearms are held without license or until license is granted. Applicants for a firearm license must be members of either the Singapore Gun Club or the Singapore Rifle Association and, at time of application, must indicate where and under what control the weapon will be stored. If the firearm is not required for official duty, members are prohibited from shipping POF.

A safety officer assigned to the Regional Office will provide training to all incoming personnel on guidelines, safety rules, and requirements for driving a POV and riding motorcycles in Singapore. (CH)

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

Videotapes/tapes/magazines: Government of Singapore enforces very stringent censorship laws of printed and videotaped materials. The law goes beyond limiting "X" rated materials, even generally accepted magazines are not available in Singapore and importation is prohibited. The Censorship Board implements high fees for review and erasure of videotapes. Recommend these items not be shipped into Singapore. Importation of tapes/videotapes for personal use is authorized, but care should be taken to discuss the limits with your sponsor, but should be strictly discouraged. If authorities demand to review or erase videotapes, a very high fee is charged. It should be highlighted there were some instances where members had one too many videotapes in their personal property shipment and were required to appear personally at a Censorship Board to rectify the issue. (CH)

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

PROHIBITED ITEMS INCLUDE:Rhinoceros horn (worked, unworked or prepared and any part, power or waste of such horn) Endangered species of wildlife and products derived from the body of such animalsFor more detailed information, please visit the following website:https://www.customs.gov.sg/businesses/importing-goods/controlled-and-prohibited-goods-for-import

d. UNACCOMPANIED BAGGAGE

ACCOMPAINED AND UNACCOMPANIED BAGGAGE.1. Reference the Ministry of Foreign Affairs and External Trade (MFAET) Protocol Handbook. 2. Accompanied Baggage: Searches are authorized under Article 36 of the VCDR and Article 50 of the VCCR. The personal baggage of members of the Corps or diplomats shall be exempt from inspection, unless there are serious grounds for presuming that the baggage contains articles prohibited by law from import or subject to quarantine regulations of the receiving state. Members of the Corps are asked to cooperate with any requests to inspect baggage, in circumstances where it is determined that an examination of personal baggage is necessary. A search will be carried out as quickly and discreetly as possible. A diplomatic or career consular officer is entitled to refuse permission to airline security personnel to search his or her personal baggage prior to departure but, as would be the case for any other travelers, the airline would be under no obligation to carry officers refusing a search and may refuse to allow that person to board the aircraft. MFAET understands that it is practice of airlines to refuse to carry any passenger who will not give permission for searches. The only exception is the official diplomatic bag which is sealed and clearly marked as such (refer to chapter 14). All other materials are subject to inspection. 3. Unaccompanied baggage: The Post appreciate details documents of the shipments to be received at least one week or more prior to arrival at destination so officials can help track the shipment and support customs clearance to avoid any issue that will cause a delay in customs clearance process.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

No Restrictions Identified. Clearances depends on which shipping agent was selected to do clearance for the shipment. The bill of Lading, Airway bill, and the list or inventory for the House Hold Effects (HHEs) or the cargo will be required in order to follow up. For a timely manner in processing, these documents must be provided as soon as possible. Once shipment is identified as "Diplomatic package," the shipping agent will then provide a C44 form. This form has to be certified by the Head of Mission and Ministry of Foreign Affairs for Customs to go ahead with Clearance and exemption. These documents must be faxed or emailed to Post prior to scheduled shipment arrival.

3. CONSUMABLES

c. OTHER (i.e. COMPATIBILITY, ETC)

On-base government quarters have 110V, 60 hertz cycles. Off-base residences have 220V, 50 hertzcycles. American refrigerators and washers may be operated in off-base quarters by using transformers.American electric dryers and clock radios operated off- base will be affected by the 50 hertz cycle. Only 50hertz cycle capable microwaves can be used off-base.NOTE: Individuals are encouraged to place non-compatible appliances and electronic items in origin NTS.An Appliance Loaner Program is provided by the Housing Office at NAVSTA Rota and Moron Air Base foron-base or off-base residents. Appliances can be used during the entire tour in Spain. NATO Commandpersonnel are eligible to use the Appliance Loaner Program at NAVSTA Rota, if supplies are available.Appliances that depend on a heating element, such as toasters, frying pans, boilers, etc., will not beaffected by the 50 Hertz Cycle electricity but will require a transformer to operate off-base. Americantelevisions, with NTSC system can only be used off-base with AFN Satellite Reception Dish and Decoder.Only PAL frequency television or multi-system televisions will operate off-base for Spanish services andother European transmissions.

5. FURTNITURE, OVERSIZED

a. Furniture:Extremely bulky items should not be shipped unless advised by sponsor. Government assigned quarters hasmoderate square footage. Apartments and houses off-base varies from small, medium and large, dependingon location and your monthly housing allowance.b. Appliances:PPSO Counselors should emphasize to all members that washers, dryers, refrigerators, and stoves arefurnished under the loaner furniture program by Housing Office, both on-base and off-base quarters for theentire length tour while assigned at NAVSTA Rota, Moron Air Base and NATO Commands. These appliancesshould be placed in origin NTS. Government NTS is not available at NAVSTA Rota Spain. Commercialstorage for the entire tour could prove cost prohibitive as well as transportation cost to ship items back to NTSin CONUS.

6. PETS/QUARANTINE

Standards in the following paragraphs address requirements for shipping dogs, cats, and ferrets from theUnited States to Spain. Ferrets are NOT accepted as pets for movement on AMC military or commerciallycontracted aircrafts. For information on shipments for ferrets or other exotic pets, please contact your localU.S. Department of Agriculture Field Office.NOTE: Throughout this document, the term pet or pets refers ONLY to cats and dogs.ATTENTION: An examination fee of 55 Euros per pet was implemented effective February 1, 2013, for allNon-European Union citizens, who import a pet into Spain.A. Quarantine Period: There is no quarantine period for pets entering Spain.B. Pet Identification (Standard electronic identification system with a read-only passive radio frequencyidentification device commonly known as a transponder Microchip):(1) Microchip should be compliant with ISO standards 11784 or 11785(2) For non-compliant ISO standard 11784 or 11785 microchips, the owner or the designated guardianresponsible for the pet must provide the required equipment (Microchip Reader/Wand) for readingnon-compliant ISO microchips at the time of examination.(3) The microchip must be implanted before, primary rabies vaccination or valid rabies booster is given to thepet, prior to travel.(a) Primary Rabies Vaccine - This is the first rabies vaccination a pet receives. For EU countries, this alsoapplies to the first rabies vaccine given after the microchip was implanted.

Rabies vaccinations received priorto the pet being micro- chipped are NOT recognized in the EU.(b) Valid Rabies Booster - A rabies booster thats given to the pet before the previous (Either after the primaryrabies vaccine or another rabies booster) rabies vaccination expires.C. Pet Rabies Immunization: Cats or Dogs under three (3) months of age that are not vaccinated for rabiesare not allowed entry into Spain.(1) Please refer to website andquot;http://www.aphis.usda.gov/regulations/vs/iregs/animals/andquot; (Enter thedestination country (Spain) you will be residing in under Search Animal and Plant Health InspectionServices (APHIS)).(2) Pets less than three months of age coming from the United States may not always require the rabiesvaccination IF: (a) These pets have pre-authorization from the EU member state BEFORE entering thecountry.(3) Any one year dose or three year dose rabies vaccine is valid as long as it is a U.S. approved vaccine, andwas administered according to the manufacturers specifications (for instance, a vaccine labeled for 1 year usecannot be utilized as a 3 year vaccine).(4) A valid rabies vaccine must occur after the animal has been micro chipped to be valid for entry into an EUmember state.(5) At least 21 days must have elapsed between completion of the primary rabies vaccination (as specifiedabove) and before the pet enters the EU member state.(a) However, if the animal received a valid rabies booster, 21 days does not have to elapse before travel.(6) If a pet received a non-ISO compliant microchip and then received a valid rabies vaccination with 21 dayshaving elapsed since that vaccination and entering the EU member state; they:(a) Do not require implantation of another ISO compatible microchip, but are required to carry with them amicrochip reader/wand capable of reading the non-ISO compatible microchip implanted in their pet.(b) Do not require administration of another rabies vaccination before traveling as long as the rabiesvaccination received is still valid.(c) Can have an ISO compatible microchip implanted in their pet so they do not have to carry the reader/wandwith them.1. Pets with ISO compatible implanted microchip do not have to receive another rabies vaccination followingthe second microchip implantation. They are only required to document both chips on the required forms withthe microchip implantation dates.D. Documentation (Verify the correct required documentation with your local U.S. Department of AgricultureOffice):(1) APHIS Form 7001 (Nov 2010) Acquired from any Army veterinarian, local veterinarian or U.S. DA office.a. Valid for only 30 days after issuance.b. Duration of the Form 7001 validity can be shortened per the requirements of the Airline the service memberis traveling.c. Requires certification by a U.S. DA Accredited Veterinarian, Army Veterinarian, or GS-0701 Veterinarianbefore travel.d. Form 7001is not required to enter the European Union (EU). However, its highly recommended that servicemembers acquire this form before travel from their on-base Army veterinarian to preclude the following:(1) If a member flies on a commercial carrier they may be required to have this form.(2) If a member is scheduled to fly AMC Contracted flight (Patriot Express) and diverts to a commercial carrier,having this form in advance alleviates last minute costs ($200 or more) or delays.(3) This form is not required to travel on Patriot Express. (4) EU Non-Commercial Pet Form (Bilingual Health Certificate)(5) For Pet Dog, Cats, and Ferrets ; destined to Spain, see link Under Pets heading Pets Dog,Cats, andFerrets) please refer to http://www.aphis.usda.gov/regulations/vs/iregs/animals/ (Enter the destinationcountry you will be residing in under Search APHISandquot;).E. Helpful Hints:(1) As soon as travel date is determined, but no later than 22 days prior, have the pet micro-chipped first andvaccinatedfor rabies, if not already completed. Remember: A VALID RABIES VACCINE MUST OCCUR AFTER THEMICROCHIP IS IMPLANTED. (2) When completing required documentation (before mailing the forms or traveling to your local USDA office,get documents notarized, if not using your on base Army veterinarian), fax or over-night ship to ensure theyare filled out correctly before traveling to veterinary office.(a) This will ensure you do not waste travel time or postage only to have to redo the paperwork.(3) Many overseas bases have a full-time veterinarian on staff as well as commercial veterinariansavailable on the local economy.(a)

Most bases require pets to be registered with the base veterinarian after arrival. Check with baseveterinarian for details.(4) The pet cage or carrier (See carrier shipping rules for correct cage dimensions based on pet size) usedfor shipping the pet must be labeled with the owners name, pets name, owners (or appointed persons)address, contact number and contact number at the final destination.(5) Spain has laws in place prohibiting importation of certain dog breeds regarded as dangerous. For moreinfo you may contact the base veterinarian at your destination. NAVSTA Rota Veterinary Clinic ¿ DSN:727-3149, or go to APHIS website http://www.aphis.usda.gov/regulations/vs/iregs/animals and click on thecountry of Spain tab for information on laws or requirements for owning dangerous dogs. (See paragraph G.below)F. Pet Fees:(1) The USDA form certification fee (approximately $70+, plus any shipping and handling if by mail)(2) Transporting pets to and from the PCS destination is at the members expense and cost is based on theweight of the pet being transported. Connecting flights may have fees in addition to AMC fees from NorfolkNaval Station.(3) EFFECTIVE 1 February 2013, the fee for the pet import examination is 55 Euros.G. The Pet Travel Scheme (PETS) is the system that allows pet animals from certain countries to enter Ascension without quarantine as long as they meet specific criteria. Properly documented cats and dogs coming from the United States will no longer have to go through the six-month quarantine period when entering Ascension. The scheme only applies to cats and dogs, including guide dogs and hearing dogs. b. To bring a cat or dog into Ascension under the Pet Travel Scheme you must carry out the following procedures in the order shown. Pet-owners should make sure that they have read and understood all of the information available before bringing pets to Ascension. A pet cat or dog will have to meet certain conditions to be able to enter Ascension without quarantine. It will have to be: 1. Identified with a microchip 2. Vaccinated against rabies (but not before it is 3 months old.) 3. Successfully blood tested at a laboratory recognized by DEFRA. 4. Issued with an official PETS Certificate. 5. Treated against ticks and a tapeworm treatment and issued with an official certificate of treatment between 48 to 24 hours prior to departure. (Vet completes Tick and Tapeworm Certificate.) 6. Pets may not enter Ascension under PETS until 6 months have passed from the date that the veterinarian took the blood sample that led to a successful test result. When the vet signs the PET certificate after the six month period has passed, the pet may enter Ascension immediately 7. On arrival, contact inspector and present papers for review. Provide microchip reader if needed.

6. PETS/QUARANTINE

Dogs and cats brought into Sweden are subject to a 4-month quarantine. The quarantine kennel charges are approximately $2,807 for dogs and $2,456 for cats. An advance deposit of $175 is required at the time of reservation is made or $1,053 one month prior to the arrival of the pet. The balance is required when the pet is released from quarantine. Space in the quarantine kennel must be requested several months in advance. Pets arriving in Sweden without reserved space will not be permitted entry into Sweden and will be sent back upon arrival. NOTE: Always contact GSO before shipping animals.

7. PRIVATELY OWNED FIREARMS (POF)

a. License may be obtained after customs entry. b. Firearms are duty free when shipped together with HHG. Declaring these items should be avoided, especially in instances where HHG shipments arrive prior to the arrival of the member and shipment has to be placed in storage in transit (SIT). 8. PRIVATELY OWNED VEHICLES (POVs)

"No restrictions identified."

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) They may be shipped unboxed. Difficulties and high costs are often encountered in modifying POV to meet stringent Swedish safety requirements. Therefore, we suggest you contact the Embassy General Services Officer (GSO) before initiating shipment of POV. Customs entry of HHG and POV of non-diplomatic staff members must be made within 4 months from date of member's initial arrival. Ensure airway bill(AWB) number is shown on GBL and advance shipping documents. A married member with accompanying spouse may import two privately owned vehicles (POVs) duty free. (2) Shipping/Transaction Costs: Each individual that PCS to Sweden is authorized to ship one vehicle at US Government expense. Private shipment of a vehicle to Sweden averages $1,200-$1,400; a 17-foot boat averages $1,200. These costs are recoverable if the vehicle is sold in Sweden. A US-manufactured vehicle does not meet Swedish specifications and can only be converted under the provisions outlined. If the vehicle is imported under diplomatic privileges, waivers can be obtained. However, such waivers are valid only for the individual importing the vehicle. This means the vehicle must be taken out of Sweden upon completion of tour of duty or alternatively sold to a person with diplomatic privileges. In addition to taking advantage of the possibility of importing a vehicle under diplomatic privileges, it is also possible to import a vehicle duty-free for personal use under the following provisions. The vehicle must have been owned and used by the imported at least 1 year prior to date of importation. If the vehicle is imported under these provisions, only minor modifications are required in order to meet Swedish specifications (outside rear view mirrors are required on both sides, speedometer scale must show kilometers only, stamping vehicle identification number into the trunk, and other minor modifications may be required). It is not possible to give an exact figure for these modifications as this can vary considerably to make and model of vehicle. However, the estimated cost is $500. If you intend to import a new or used vehicle, please contact the General Services Officer (GSO) for further details. NOTE: Always contact GSO before shipping POV.

c. HARD LIFT AREA

No restrictions identified.

d. UNACCOMPANIED BAGGAGE

No drug, weapon, alcohol and any other prohibited items in UB.(CH 15-MAY-2019 TCJ4-HB RB)

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

The American Institute in Taiwan (AIT) Shipping office is unable to proceed with customs clearance for shipments without tax-exempt import permit. In order to apply for tax exempt import permit, Shipping office requires:-Member's MOFA ID (it takes around 2 weeks for AIT HR office to complete the application after member's arrival)-Ocean Bill of Lading (OBL) or Air Waybill (AWB) - draft is acceptable-Packing listAs soon as the above documents are received, it takes 1-2 weeks to apply for tax exempt import permit from local authority. The total processing time would be around 3 weeks and even 4 weeks during summer transfer season. The advance shipping documents should be e-mailed to shipping assistant - Kitty Pao-Liu (Taipei_Shipment@state.gov) of AIT.(CH 15-MAY-2019 TCJ4-HB RB)

3. CONSUMABLES

Please refer to the JTR, AP-CG-01, to determine customer eligibility if the destination Country -AND- City is an Authorized Consumable Goods Allowance Location.(CH 05-May-2021 TCJ9-OH-PAC RB)

a. ALCOHOLIC BEVERAGES

The Government of Taiwan will allow the importation of alcohol for personal consumption but will take an extra two weeks for the application of alcohol import permits to be approved. Members with alcoholic beverages in household goods should contact Taipei_Shipment@state.gov as soon as packout is completed and is responsible for filling out Alcohol Import List to apply for import permit.(CH 15-MAY-2019 TCJ4-HB-PAC RB)

b. CIGARETTES/TOBACCO PRODUCTS

Importation is limited to no more than 200 cigarettes, no more than 25 cigars, and no more than one pound of tobacco.(CH 28-Dec-2017 TCJ4-HB-PAC RB)

c. COSMETICS

No import restrictions. (CH)

d. FOOD STUFFS AND MEATS

Meat or meat product is prohibited. Unopened canned food within personal consumption volume is acceptable.(CH 15-MAY-2019 TCJ4-HB RB)

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

Prescription is necessary if members plan to ship medication/pharmaceutical products.(CH 15-MAY-2019 TCJ4-HB RB)

4. ELECTRICAL EQUIPMENT

No Restrictions Identified.

a. HOME COMPUTERS

Importation is limited to one computer or laptop per person.(CH 28-Dec-2017 TCJ4-HB-PAC RB)

b. TVs/VCRs

Taiwan operates on 110v 60Hz. Television broadcasts from the National Television Standard Committee (NTSC) therefore a multi-system television is not needed. (CH)

c. OTHER (i.e. COMPATIBILITY, ETC)

Digital Video Discs (DVD) operates from a different zone and may not operate. DVD players purchased in the US operate in Zone 1. Most DVD players can be converted at local shops to play all zones or a cheap DVD player can be purchased from the local market for about 30 US dollars. Members should check with the dealer in the U.S. to determine if their DVD player can operate in Taiwan (Zone 3) before shipping. (CH)

5. FURTNITURE, OVERSIZED

Due to some apartments are in buildings with small elevators, it is recommended that oversized furniture is placed in Non-Temporary storage for the duration of member tour in Taiwan.(CH 28-Dec-2017 TCJ4-HB-PAC RB)

6. PETS/QUARANTINE

Importing a pet to Taiwan is a lengthy and complex process that requires your early attention. AIT can only provide limited assistance when importing your pet Ã¢â‚¬â€œ typically restricted only to assistance in obtaining the Import License. Although Taiwan is no longer a rabies-free island, local authorities remain extremely strict in regard to pet importation, documentation, and quarantine requirements. If you wish to import a pet, please contact the AIT GSO/Shipping Office via email: Taipei_Shipment@state.gov, ATTN: Edward Lin, to begin planning the travel of your pet. Pet owners should allow at least 8 months preparation. Please be aware, upfront, that all required shots and documentation must be completed before your pet is shipped. For the purpose of importing a pet into Taiwan the pet will need to be implanted with a 9-, 10-, or 15-digit ISO microchip. If your pet is not yet implanted, the OBC office recommends choosing the newer ISO 15-digit microchip. Pets MAY NOT be imported prior to customer arrival, since the Ministry of Foreign Affairs will not process such requests. The current length of Taiwan quarantine is 7 days. (CH 15-May-2019 TCJ4-HB RB) Lastly, please note: PETS SHIPPED OR TRANSITED THROUGH CHINA MAY NOT ENTER TAIWAN.(CH 28-Dec-2017 TCJ4-HB-PAC RB)

7. PRIVATELY OWNED FIREARMS (POF)

Shipment of privately owned firearms is not authorized. (CH)

a. HAND GUNS

Not authorized. (CH)

b. RIFLES/SHOT GUNS

Not authorized. (CH)

c. TOY RELATED GUNS

Not authorized. (CH)

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

Not authorized. (CH)

8. PRIVATELY OWNED VEHICLES (POVs)

No Restrictions Identified.

a. POVs (includes data on prohibited vehicles, colors, etc.)

Importation and Customs Clearance Process: According to Taiwan Ministry of Foreign Affairs (MOFA) procedure, your POV must be shipped to arrive in Taiwan AFTER your arrival. After arrival, customs clearance, POV registration and Licensing may take between 4-5 weeks. To prevent delay, please confirm the accuracy of all information related to your POV registration, specifications, and shipping documents. Parking spaces in leased housing are often narrower than full-sized American SUVs. Please notify GSO if you are thinking about shipping larger vehicles. Please note that Taiwan Customs PROHIBITS the importation of right-hand drive vehicles and requires vehicular emission testing. PRIOR to your arrival, please provide the following information to the Shipping Section: Taipei_Shipment@state.gov, ATTN: Eric Wu. -1- Owner Name-2- Model Year-3- Year of Manufacture-4- Make-5- Model-6- Color-7- Number of Doors-8- Seating Capacity-9- Vehicle Type (Sedan, Van, etc)-10- Engine Size (Cubic cm or liters)-11- Identification No. (VIN#)-12- Cylinders-13- Transmission type (auto, manual)-14- HID Head Light (Yes or No)-15- Current value (USD)-16- Copy of the POV Certificate of Origin or Title of OwnershipUpon your departure from Taiwan, you must GUARANTEE adherence to one of the four choices:1. Re-export POV2. Scrap POV locally.3. Sell POV to an AIT or other foreign mission employee who enjoys diplomatic/foreign office privileges (no import duties or vehicle tests required).4. If you wish to sell the car locally to a non-foreign office privileged individual, there are more restrictions. First, import duties may be applied. Second, you must complete local vehicle tests which can cost between 5,000 to 9,000 USD, including possible alterations, and may take 1-2 months to complete. If the POV does not pass the inspection, there is no refund, and the POV may not be sold on the local market.(CH 28-Dec-2017 TCJ4-HB-PAC RB)

b. MOTOR CYCLES/MOPEDS

New and used motorcycles can be purchased locally. However, the purchase will not be duty-free and taxes will normally be included in the purchase price. Due to local registration restrictions on Taiwan, shipping a motorcycle to Taiwan is STRONGLY DISCOURAGED. In addition, GSO/Shipping will not -greenlight- (approve) your shipment until the member confirms in writing that he will be responsible for paying import duty, registration fees, possible modification fees and understands there is no guarantee that AIT will be able to register the motorcycle for use on Taiwan. Post has not been successful in registering an imported motorcycle in the last five years, thus the employee assumes ALL financial liability for this decision and post recommends that you DO NOT ship a motorcycle.(CH 28-Dec-2017 TCJ4-HB-PAC RB)

c. GASOLINE/CATALYTIC CONVERTERS

No restrictions identified.

d. INSURANCE AND SAFETY REQUIREMENTS

Members must purchase the minimum insurance coverage (compulsory liability insurance) from a local insurance company. Additional insurance is optional and recommended. Employees should insure that their non-Taiwan insurance covers their POV while in Taiwan. (CH)

a. WEIGHT RESTRICTIONS

1. All personnel NOT assigned to Armed Forces Regional Institute of Medical Sciences (AFRIMS), the Regional Office In Charge of Construction (ROICC), the Naval Facilities Engineering Command (NAVFAC), or the Defense POW-MIA Accounting Agency (DPAA), are restricted to 25 percent of JTR weight allowance or 2,500 pounds, whichever is greater, as all Government Quarters for DoD personnel are fully furnished and loaner furniture is available during the overseas tour. (CH 16-Feb-

2021 TCJ9-OH-Pac RB)2. AFRIMS, ROICC, NAVFAC, and JPAC personnel are authorized to ship their full JTR weight entitlement as AFRIMS, ROICC, NAVFAC, and JPAC personnel are allowed to seek housing on the economy. (CH 16-Feb-2021 TCJ9-OH-Pac RB)3. Regardless of authorized weight entitlement, all incoming personnel receiving Living Quarters Allowance (LQA) or Overseas Housing Allowance (OHA) fall under Chief of Mission authority, and as such, are restricted to size limitations of quarters based on rank/grade (or equivalent) as follows (expressed in square feet): ... .SES/O7-O10.... .....GS13-GS15/O5,O6.. ..GS5-GS12/E1-O4Occupancy 1-2.....1,870..... .....1,426..... ....1,286Occupancy 3-4.....2,361..... .....2,057..... … .....1,870Occupancy 5-6.....2,712..... .....2,408..... .. ..2,174Occupancy 7+.....2,852..... .....2,548..... .. ..2,3144. Due to the above housing size limitations, incoming personnel should consider shipping an amount of personal property that will fit into the square footage indicated above. If incoming personnel ship an excess of personal property that will not fit into their quarters, shipping the excess personal property back to origin is not authorized, and storage for the excess items will be at their expense.5. Effective 10-JUL-2019, newly assigned personnel to the Joint United States Military Advisory Group Thailand (JUSMAGTHAI) in BANGKOK will no longer be authorized to receive LQA, will automatically be placed in the US Embassy Housing Pool, and will no longer be allowed to seek housing on the BANGKOK economy.

Newly assigned JUSMAGTHAI personnel are HIGHLY ENCOURAGED to contact the US Embassy BANGKOK housing office (BangkokGSOHousing@state.gov) for further information. (CH 17-Feb-2021 TCJ9-OH-Pac RB)(CH USTC Pacific J9, 01JUL24, TF) 6. U.S. Army Service Members, accompanied or unaccompanied, assigned to the following commands are authorized full HHG weight allowance:• Joint U.S. Military Advisory Group Thailand• Armed Forces Regional Institute of Medical Sciences• Regional Office in Charge of Construction• Naval Facilities Engineering Command• Joint Personnel Accounting Command7. U.S. Army Service Members, accompanied or unaccompanied, not assigned to the following commands are authorized 25 percent of the full HHG weight allowance:• Joint U.S. Military Advisory Group Thailand• Armed Forces Regional Institute of Medical Sciences• Regional Office in Charge of Construction• Naval Facilities Engineering Command• Joint Personnel Accounting Command8. U.S. Army Civilian Employees, accompanied or unaccompanied:a. Authorized 4,500 lbs. of HHG. b. Unaccompanied Baggage: Civilian employees and each dependent age 12 or older are authorized 350 lbs. of unaccompanied baggage and each child under age 12 is authorized 175 lbs. The combined weight of unaccompanied baggage is limited to a total of 2,000 lbs. Of this baggage, up to 1,000 lbs. may be transported by commercial air, if required.c. Note: If required to reside in Unaccompanied Personnel Housing (UPH) or Family Housing, consider shipping less than the authorized weight allowance due to the small size of the rooms.(CH USTC Pacific J9, 01JUL24, TF)

b. CONTAINER/CRATING REQUIREMENTS

No restrictions identified.

c. HARD LIFT AREA

Hard lift area for Army (UB only). Air clearance, when required, will be obtained from the appropriate Air Clearance Authority (ACA).

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

ITEMS PROHIBITED IMPORT INTO THAILAND UNDER ANY CIRCUNSTANCES: Goods with improper Thai flag design Fake currency, bonds or coins Fake Royal Seals/Official Seals Counterfeit trademark goods(CH 22-Dec-2017 TCJ4-HB-PAC RB)Personal property is cleared through customs duty-free only within 6 months after date of member arrival. Six months applies to POVs also. Restrictions do not apply if the member will have Diplomatic status.PASSPORTPlease ensure your diplomatic official passport is valid for the duration of your assignment. If your passport will expire before the end of your assignment, the Ministry of Foreign Affairs will only grant a long term residence permit to stay until the expiration date of the passport. Post strongly recommends you obtain a new diplomatic official passport if your current passport will expire before the end of your assignment.(CH SDDC-PAC 07-Nov-2016 RB)

3. CONSUMABLES

Please refer to the JTR, AP-CG-01, to determine customer eligibility if the destination Country -AND- City is an Authorized Consumable Goods Allowance Location.(CH 05-May-2021 TCJ9-OH-PAC RB)

a. ALCOHOLIC BEVERAGES

Alcohol may only be packed in HHG shipments, up to maximum of 15 bottles (or 1 case) per employee, and must be declared on the inventory list. No specification of bottle-size restriction or alcoholic content restriction.(CH SDDC-PAC 07-Nov-2016 RB)

b. CIGARETTES/TOBACCO PRODUCTS

The following are prohibited from importation under any circumstances: Baraku/Shisha/Hookah/E-Cigarette(CH 22-Dec-2017 TCJ4-HB-PAC RB)

c. COSMETICS

No restrictions identified.

d. FOOD STUFFS AND MEATS

If food stuffs or meats are to be shipped, Post recommends inclusion into HHG shipment only. Food is considered a restricted item and requires an import permit from the Thai Food and Drug Administration. Please note that shipping food items could cause a delay to your shipment delivery.(CH SDDC-PAC 07-Nov-2016 RB)

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

The following are prohibited from importation under any circumstances: Narcotics: any habit forming narcotics such as marijuana, opium, cocaine, morphine, heroin, and other drugs even if they have been prescribed by a doctor(CH 22-Dec-2017 TCJ4-HB-PAC RB)

4. ELECTRICAL EQUIPMENT

The following are prohibited from importation under any circumstances: IPR infringing goods e.g. musical tape, CD, VDO, computer software, etc.(CH 22-Dec-2017 TCJ4-HB-PAC RB)

a. HOME COMPUTERS

No restrictions identified. There are a number of Internet Service Providers (ISPs) in Thailand. Monthly costs are somewhat higher than in the U.S., but increased competition is driving prices down. ADSL connections with wireless capability are readily available. The quality of service and local connection speeds are generally good.(CH SDDC-PAC 07-Nov-2016 RB)

b. TVs/VCRs

No restrictions identified. Television runs on the PAL system and both local and cable channels are available in most locations. U.S. TV sets (unless designed for multi-system use) will not work with local TV or cable. DVD players bought in the US might not play local DVDs. Some programs on cable are broadcast in English; others are in both Thai and English. In order to receive the English sub-channel, one must purchase a dual-language TV locally.(CH SDDC-PAC 07-Nov-2016 RB)

c. OTHER (i.e. COMPATIBILITY, ETC)

No restrictions identified. Electrical appliances in Thailand run on the 220V/50 Hz standard. The Embassy provides three step-down transformers for each apartment. You may purchase additional transformers locally at reasonable prices.(CH SDDC-PAC 07-Nov-2016 RB)

5. FURTNITURE, OVERSIZED

No restrictions identified, however, quarters may have limited space.

6. PETS/QUARANTINE

a. To be imported into Thailand, all pets must have a microchip (same rule will be applied for export). Pets must be vaccinated at least 21 days prior to their departure against these following viruses: Dogs (5 Required Vaccines) – Rabies, Leptospirosis, Distemper, Hepatitis, and Parvovirus or have a negative test for leptospirosis within 30 days of travel Cats (2 Required Vaccines) – Rabies, Feline Panleukopenia Virus (FPV)Pets can be shipped either as accompanied baggage or cargo. All pet shipment expenses are the responsibility of the pet owner. Please contact GSO C and S for more information at BKKTravelTransport@state.gov b. Pets other than cats and dogs require special pre-clearance. Arrangements should be made in advance. Notify GSO Customs and Shipping Unit, American Embassy Bangkok, APO AP 96546-0001,(facsimile number 011-662-255-2913) at least one month in advance if bringing birds, reptiles or animals other than cats and dogs. Also, it is the owner's responsibility to comply with CITES (endangered species) regulations and have a valid CITES certification. The Customs and Shipping Unit will obtain information on Thai requirements if provided with the scientific name of an endangered pet.(CH 22-Dec-2017 TCJ4-HB-PAC RB)

7. PRIVATELY OWNED FIREARMS (POF)

Importation of personal firearms into Thailand is PROHIBITED.(CH 21-Dec-2017 TCJ4-HB-PAC RB)

a. HAND GUNS

See paragraph 7 above.(CH 21-Dec-2017 TCJ4-HB-PAC RB)

b. RIFLES/SHOT GUNS

c. TOY RELATED GUNS

No Restrictions Identified.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

See paragraph 7 above.(CH 21-Dec-2017 TCJ4-HB-PAC RB)

8. PRIVATELY OWNED VEHICLES (POVs)

NOTE For POVs of Retirees, Separatees, and DLDs, refer to Paragraph 12 below.DRIVER LICENSESThe Thai Government does not recognize U.S. driver licenses. Consequently, anyone planning on driving within the first three months of their tour should have an international driver license. The process for obtaining a Thai driver license is facilitated by post GSO can only submit paperwork to the MFA after the HR/Diplomatic Accreditation and Privileges (DAP) completes the process of reporting your assumption of duty and does the Staff Registration in MFA e-Privilege system. After GSO submitting paperwork to the MFA, it will take one month to obtain MFA approval.

The following documents are required: - a copy of a valid U.S. license - a copy of your passport and a health certificate (GSO will notify you when to obtain a health certificate since it is only valid for one month). (CH 29-OCT-2020 TCJ9-OH-Pac RB) Employee also has to sign up with GSO for a trip to the Land Transport to have photo taken and receives a Smart Card license on the same day. The initial Thai Driver License is valid for two years and the one-time renewal license is valid for five years.(CH 22-Dec-2017 TCJ4-HB-PAC RB)Consolidation of HHG and POV (motorcycles are considered POVs) in the same container IS NOT ALLOWED. Doing so will delay HHG clearance between 3-4 weeks and also increase storage fees since HHGs need to be held in the container until the POV import permit is received from the Ministry of Foreign Affairs to clear the contents of the entire container.(CH 18-SEP-2019 TCJ4-HB RB)

a. POVs (includes data on prohibited vehicles, colors, etc.)

(CH Entire Paragraph 29-OCT-2020 TCJ9-OH-Pac RB) The Ministry of Foreign Affairs (MFA), Kingdom of Thailand, requires the following POV informationto clear Customs: - make - model - year - engine number - serial number (VIN) - color - CC cylinders The GSO can only submit paperwork to MFA after receiving a copy of your Assignment Note from RHR AND your shipment has arrived at the Port in Thailand. It usually takes 3-4 weeks to get MFA approval and receive your POV. Once your POV is received, you must bring the POV to the Department of Land Transport for inspection, then the GSO will process your POV registration, which will take 3 more months to complete. There are no restrictions on age, color, lighting, or other requirements necessary for registration. The MFA must be informed of all transfer or sale requests before they can take place. Employees must also get approval from GSO prior to the sale or transfer of a vehicle to a third party. Car owners can sell or transfer a POV, imported using duty-free privileges, after they have owned the vehicle for at least 2 years (counted from the ownership date of each owner as shown in POV registration book). This two-year ownership rule

applies to each individual owner and prevents cars from being 'flipped' (where someone buys a car in order to hold it for/sell it to another incoming diplomat). In the event a POV owner needs to sell the vehicle within this 2-year period (due to an unexpected PCS, for example), approval to sell will be made on a case-by-case basis by the MFA. A POV owner who has a diplomatic title may import a replacement vehicle after selling their first one; however, there must be a two year-gap between the first and second importation. Administrative and Technical (A&T) staff are not authorized to import a second vehicle using duty-free import privileges. Only personnel with valid diplomatic privileges are eligible to purchase a vehicle duty-free: you may only acquire one duty-free vehicle per tour and will be given only one diplomatic license plate per tour. (There is no purchase limit on the number of non-duty free cars with local Thai license plates.) If you wish to sell such a vehicle to someone who does not have diplomatic status, and if that vehicle has been in Thailand for less than five years at the time of sale, it would be subject to taxes and duties ranging from 187% to 328% of the vehicle's value as declared upon its arrival or the market rate as determined by a Customs Officer. (Less a depreciated amount determined by the number of years that the vehicle has been registered in Thailand.) It is therefore highly recommended that you only sell a car within this 5-year period to another diplomat. Please note this does not apply to motorcycles, which are subject to duties regardless of the time in-country. Be advised that should your sale invoke such taxes, you would almost certainly lose money and may end up having to pay to sell your car. So please be very careful in your planning with regard to purchasing a vehicle and the length of your tour. POV owners can sell or transfer their POV anytime if: • The POV was acquired on a duty-paid basis, i.e. the vehicle was locally purchased (for example, bought from another diplomat after the 5-year limit had expired) and/or manufactured in Thailand. • POV owner can sell or transfer a POV in the event they receive PCS Orders (however the 5-year rule would still apply).The sale process may start within 6 months of departure date on the Orders.

b. MOTOR CYCLES/MOPEDS

Motorcycles or mopeds may be imported and are considered POVs. Only one POV can be imported duty free. Unlike POVs, a motorcycle or moped cannot be sold duty or tax free even after 5 years. Under no circumstances should motorcycles or mopeds be included as part of a HHG shipment.Thailand does not allow registration for a motorcycle that is 50CC or below OR has front/back wheels less than 10 inches in diameter; therefore, it cannot be operated on the main streets. Employee can only operate the vehicle in private area or keep it at the residence. Therefore, post does not recommend shipping the above mentioned motorcycle as a POV shipment. Please contact BKKTravelTransport@state.gov should you have question or need more information.(CH 22-Dec-2017 TCJ4-HB-PAC RB) Consolidation of HHG and POV (motorcycles are considered POVs) in the same container IS NOT ALLOWED. Doing so will delay HHG clearance between 3-4 weeks and also increase storage fees since HHGs need to be held in the container until the POV import permit is received from the Ministry of Foreign Affairs to clear the contents of the entire container. (CH 18-SEP-2019 TCJ4-HB RB)

c. GASOLINE/CATALYTIC CONVERTERS

Catalytic converters and seatbelts are required.

d. INSURANCE AND SAFETY REQUIREMENTS

POV must be inspected by The Department of Land Transport prior to licensing. Vehicles should be in top mechanical condition. Spare parts for most American-made cars are either unobtainable or expensive. The following are suggested for inclusion in HHG: extra spark plugs, oil/air filter, fan belt, extra points, condenser and heavy duty shock absorbers. The Royal Thai government requires all vehicles to be covered by third party liability insurance plus a compulsory insurance which MUST be purchased locally from a Thai company. As this policy provides minimum benefits and no property damage coverage, the Embassy strongly recommends additional insurance which may be purchased locally or through a US company licensed to provide coverage In Thailand. USAA no longer insures POVs in Thailand. Avoid insurance that may invoke a diplomatic defense.(CH 22-Mar-2016 SDDC-PAC RB) Vehicle makes and models not sold or manufactured in the Kingdom of Thailand and any vehicles over 7 years old may not be eligible for first class (comprehensive) insurance in Thailand. (CH SDDC-PAC 02-Nov-2016 RB)

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

Importation of any Pornographic materials are STRICLY PROHIBITED.(CH 22-Dec-2017 TCJ4-HB-PAC RB)

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

Items are inspected upon arrival. Plants requires a health certificate and import license. Several plants from many countries are prohibited. Inquire in advance at the nearest Thai Embassy or Consulate.

11. TRANSMITTING EQUIPMENT

Importation is restricted (not prohibited). Potential importation requires a permit from the National Broadcasting and Telecommunication Commission (NBTC). Post requires specifications of the item, and will submit the request through the Ministry of Foreign Affairs. Approval will take between 6-12 months, and importation approval is not guaranteed. Permission for import must be obtained prior to the date the shipment arrives in Thailand. Please contact BKKTravelTransport@state.gov prior to including these items in your shipments. Post recommends customers not import these type of items.(CH SDDC-PAC 07-Nov-2016 RB)

a. CBS

The Thai Government requires advance description of items as follows: wave, size, weight and cube, what items are to be used for, and reason for importation to Thailand. American Embassy and JUSMAGTHAI require the above information in advance in order to request import approval from the Post and telegraph department prior to arrival of shipment in country.

b. AMATEUR/HAM RADIOS

Permission is required prior to import. Recommend notifying the GSO/Customs and Shipping Unit, American Embassy Bangkok, APO AP 96546-0001, (facsimile number 011-66-2-255-2913) prior to shipment. Certain restrictions apply.

c. MARS EQUIPMENT

The Thai Government requires advance description of items as follows: wave, size, weight and cube, what items are to be used for, and reason for importation to Thailand. American Embassy and JUSMAGTHAI require the above information in advance in order to request import approval from the Post and telegraph department prior to arrival of shipment in country.

d. DISH ANTENNAS

The Thai Government requires a permit for antennas over 10 milli-watts.

e. CORDLESS PHONES

The Thai Government requires a permit for telephones over 10 milli-watts. Items must be shipped in UAB, not in hand-carried or checked luggage.

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

a. Personnel contemplating retirement/separation in Thailand should be counseled all customs entry requirements remain a personal matter between the member and the Thai Government. The member should contact the nearest Consulate or Embassy for information regarding customs and quarantine entry requirements prior to shipment. Computation methods to determine import taxes are complex and variable. It may be advantageous for the member to hire a local customs brokerage agent to process shipments. HHG for retired personnel must be cleared using member's passport and it must contain a current resident visa issued by Thai immigration department. Member must contact Customs and Shipping Unit at the American Embassy, Bangkok, as soon as possible for importation documents. b. Consign personal property directly to the customer at their address in Thailand. c. POVs:As of Dec 10, 2019, Thailand no longer allows importation of used cars for personal use, unless the owner is diplomatic-privileged personnel assigned to Thailand and obtains approval to import from Thai MFA in advance. Therefore, it is not possible for Retirees, Separatees, and Designated Location of Dependents (DLD) to import a used car to Thailand after this regulation was enacted. Otherwise, the car will be seized and destroyed instantly after arrival and the owners will be fined.https://www.dft.go.th/th-th/Detail-Law/ArticleId/13483/13483 (CH 29-OCT-2020 TCJ9-OH-Pac RB)

13. OTHER

BUDDHA IMAGES and religious objects being brought into the country as part of UB/ HHG shipments must be either specifically and individually listed on the inventory or declared to GSO Customs & Shipping once you check in at Post. BUDDHA IMAGES and religious objects are restricted items requiring an export permit from the Department of Fine Arts upon the next PCS. The cost of such permits will be covered by your travel orders provided you declared them in advance via one of the two methods described above. For any Buddha images and/or religious objects purchased during your tour in Thailand, regardless if bought in Thailand or a neighboring country, you will be personally responsible for any fees incurred to obtain the export permit. Also, the Department of Fine Arts will only grant export permits for a complete form of Buddha images. Parts of Buddha images such as the head, hands or feet OR the incomplete from of Buddha images (missing arm, broken finger etc.) are not allowed to be exported; therefore, we do not recommend you include such items in your inbound UB and HHG, as you will not be able to export them upon your next PCS.TELEPHONESMost Embassy buildings have touch-tone telephones capable of international direct dialing (IDD). Some are equipped with RJ-11 telephone receptacles identical to those used for phones and modems in the U.S. If you are planning to bring a phone or fax machine,

you may want to bring several RJ-11 receptacles in case your residence is not so equipped. Phone calls are easily made to and from Thailand. Although the cost of calling internationally from Thailand is decreasing, many employees use an internet based system like Skype, to reduce long distance call costs. On a limited basis, the Embassy switchboard may also connect your calls to the U.S. via the Embassy's Vonage phone service.(CH SDDC-PAC 07-Nov-2016 RB)

6. PETS/QUARANTINE

There are no restrictions on importation of pets. However, to avoid administrative delays, pets should accompany owners when possible. Owner should have documents indicating pet has been vaccinated against rabies and the vaccination is at least 30 days but not more than 1 year old. A health certificate not more than 14 days old is also required.

7. PRIVATELY OWNED FIREARMS (POF)

No Restrictions Identified.

a. HAND GUNS

No restrictions identified.

b. RIFLES/SHOT GUNS

Import restrictions: The Tunisian Government limits the importation of firearms to one hunting shotgun per household/family. The importation of all other firearms or weapons is prohibited. Newly assigned employees must obtain Chief of Mission approval (info to the Regional Security Officer and the Embassy General Services Officer) prior to bringing a shotgun to post and are prohibited from importing any other personally owned weapon/firearm. Additionally, newly assigned employees are discouraged from bringing a hunting shotgun to post due to the difficulty in obtaining a permit for its use. However, should an employee obtain the approval and elect to ship a shotgun, it must be packed in a separate, unmarked box with the employee?s air freight ? to facilitate customs registration ? the type, make, gauge and serial number of the shotgun should be listed on the inventory of personal effects. Registration of the shotgun will generally take at least six months and can take up to one year. Tunisian and European cartridges for hunting shotguns are available locally. Do not send ammunition with your shotgun or pack it elsewhere in your airfreight or seafreight.

c. TOY RELATED GUNS

Description block on the B/L should state: Privately Owned Vehicle: make, model, year, and VIN number.OFV with non-manufactured tinted windows are not accepted at post Original COO, vehicle specification certificate from the dealer, commercial invoice and weight certificate for the armored vehicles should be sent by DHL to Post / Customs & Shipping Unit.Description block on the B/L should state: Official vehicle: make, model, year, and VIN number.

a. POVs (includes data on prohibited vehicles, colors, etc.)

(1) POV cannot be cleared prior to employee's arrival at post. Government of Tunisia will not authorize the entry of any car with dark tinted windows. Unlicensed POVs should not be shipped to Tunisia. The POV should be registered in another country and have proper license plates before shipments. Original Bill of Lading, correct consignee data, shipper, RDD, type of vehicle, color, vin/serial number, license plate, name of vessel should be forwarded to American Embassy, ATTN: Shipping, Tunisia. (2) POVs should not be ostentatious. Air conditioning is recommended. Due to lack of competent mechanics for any make/model of POV, all systems should be in good repair. Recommend service member send basic replacement parts in HHG shipment (e.g., plugs, points, air/oil filters, belts, hoses). Non-Diplomatic personnel (i.e., Non-accredited) may ship, during their first year at Post, only one POV duty-free. Diplomatically assigned personnel are allowed to register two duty free POVs if the spouse resides at Post. Diplomatically assigned personnel may import only one POV but may buy a second POV (duty free) after arrival.

b. MOTOR CYCLES/MOPEDS

Any moped/motorcycle under 125cc does not have to be registered and there is no limit on the number that may be shipped. Any moped/motorcycle over 125cc is considered a POV and must be registered.1. Motorcycle should be shipped with HHE in a separate crate.2. In case motorcycle is more than 50Cc, it must be registered, and a diplomatic registration will apply later at post.3. Married employees with diplomatic title (blue), having their spouse dependents at post are eligible to 2 diplomatic registrations. They may ship 2 POVs OR a POV and Motorcycle over 50 CC (they won't be able to register a second POV, if they import one motorcycle over 50 CC)4. Single employees and non-title diplomat (A& T , orange card) are eligible to only one registration: a POV OR a Motorcycle.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

DOD ARRANGED SHIPMENTS: TDY Personnel: Turkish customs law does not allow customs clearance for members not permanently assigned to Turkey. Do not ship via ITGBL or DPM. TDY personnel are allowed to receive personal property only via mail. Use this paragraph as authorization for reimbursement of postage fees if member mails property to Turkey. Personnel must ensure the following items with serial numbers as appropriate, are listed on carrier inventory at origin, televisions, stereos (as sets or pieces including amplifier and speakers), refrigerator, washer & dryer, air conditioner, deep freezer, game consoles, DVD, blue-ray player, computer, laptop, tablets, photo and video cameras (this list is not inclusive). Items are customs controlled and require recording on the USAFE Form 554 official NATO Beyanname. Personal property must be accurately identified, and complete documentation provided including transshipment manifests furnished by processing activities. Insufficient or erroneous documentation will delay customs clearance. Property must arrive in Turkey not earlier than 2 months prior or 6 months after the arrival of the DoD member. Personal property arriving after 6 months requires permission from the Turkish Ministry of Customs. Obtaining this permission may take an additional 6 to 8 weeks after the property arrives. Turkish Ministry of Customs will not accept any request for permission to allow delivery of personal property that arrives after the 6-month period until after the property has physically arrived in country. In accordance with Turkish Customs regulations, individuals will be authorized to import their HHGs if such shipments arrive within 6 months of the special occurrences (like marriage or divorce) after arrival to Turkey. It is very important that TMOs use extreme prudence when determining shipment RDD. Any shipment that will arrive based on constructive RDDs either more than 2 months prior or later than 6 months after the member arrives should be afforded the opportunity to be placed in SIT at origin. Household goods or unaccompanied baggage are stored in customs bonded warehouses. Turkish Customs laws allow unchallenged storage for the first 90 days. If any shipment needs to be

extended, TMO will submit an Extenuation Request letter to the Customs Office to obtain permission from HQ Customs (for another 90 days) which can take a few months to receive approval. Therefore, shipments must be placed into SIT at origin if members reporting dates will be delayed because of TDY enroute or other extenuating circumstances, in order to avoid excessive waiting time for permission from Customs and even possible seizure of the property. All members inbound to Turkey must have a copy of the inventory of each shipment and be aware that all Beyanname items being shipped into Turkey must either be shipped out when PCSing outbound regardless of its condition, transferred to another DOD member that is authorized duty-free import, or turned-in to the Turkish Customs. Members may be charged 5x the cost of item if you do not PCS with them and must leave prior to DEROS expiration. Because of recent changes in Turkish laws, it is strongly advised that members be thoroughly briefed to not ship the following items to Turkey. Turkish Customs does not recognize these items as household articles nor privately owned vehicles; as such, they have not been allowing them duty-free entry into the country. To avoid additional handling and cost of returning these items to the states for storage, it is advised that these items be identified to go into NTS: Jet Skis, Snowmobiles, Golf Carts, Hang Gliders, Para Gliders, Ultra-Light Vehicles, battery powered Mopeds, Boats and Associated Trailers.

3. CONSUMABLES

6. PETS/QUARANTINE

Updates 7 May 2025,Per: HQ AMC/A4TP Turkey- Pet information*** For the most current information, contact the VTF at usaf.incirlik.39-mdg.mbx.vtf-vet-clinic@health.mil prior to making any travel arrangements. For additional information on pet travel, please refer to the Incirlik Newcomers FAQ sheet at https://www.incirlik.af.mil/Newcomers/. ***Limitations to consider before travel: Consider the following constraints before travel:Pets (only dogs and cats) are currently allowed travel to Turkey (two pet maximum), however, there is very limited U.S military veterinary support for pets in Turkey. Limited off-site civilian veterinary clinics are available if restriction to base is not in effect. In addition, there are several breed restrictions, or for those deemed “aggressive” or “potentially aggressive,” which can be found at https://www.incirlik.af.mil/Portals/4/39%20ABW%20-%20Pets%20Guide%20and%20FAQ%20v2%20CAO%2021MAR24.pdfTurkey is a high-risk rabies endemic country, and it may be difficult to re-enter the U.S. Re-entry requires that dogs must be at least 6 months of age with a valid U.S.-issued rabies vaccination certificate in order to re-enter the U.S. More information can be found at https://www.cdc.gov/importation/dogs/us-vaccinated-high-risk-countries.html. If the rabies vaccine is administered in a foreign country, there are additional requirements that can be found at https://www.cdc.gov/importation/dogs/foreign-vaccinated-high-risk-countries.html. In addition, a Turkish Health Certificate is required for return to the U.S., which must be administered within 48 hours before flight. These cannot be provided by the on-post veterinarian. It is recommended a U.S. health certificate is also completed by the Incirlik Veterinarian to help with interstate travel. Be prepared to spend over $200 per pet for permitting costs alone.Adoption/purchase of Turkish-origin animals (including strays) is strictly prohibited based on Wing Policy.During a NEO, one may encounter difficulties with the evacuation of pets.Transportation Considerations:Currently, only commercial airline is approved for pet

travel into Turkey. Pets are NOT approved for travel via rotator. Please check with the airline and destination to determine any additional pet travel requirements.A Turkish approved veterinarian/staff member must be present at Turkish customs for the pet to enter. There are only 30 approved sites which can be found at https://www.pettravel.com/information/pet-passports/turkiye-pet-import-requirements/#:~:text=Entering%20T%C3%BCrkiye%20by%20Air,your%20pet%27s%20crate%20IATA%2Dcompliant. If a representative is not available, the pet may not leave the tarmac.Should you choose to bring your pet to Turkey, despite the lack of veterinary care and the possibility of the pet not being able to return to the U.S., the following are required:Vaccination Requirements:1. Dogs:a. Rabies. Dogs over 12 weeks of age must present certification that the dog has been vaccinated by a U.S. veterinarian.b. Distemper, hepatitis, leptospirosis, and parvovirus.2. Cats:a. Rabies. Cats over 12 weeks of age must present certification the cat has been vaccinated by a U.S. veterinarian.b. Feline viral rhinotracheitis, panleukopenia, and feline leukemia.Additional Requirements:1. Pet must be microchipped or tattooed. The microchip must be a 15-digit ISO Standard. This must be placed prior to receiving their first Rabies vaccine.2. A passing rabies titer test (FAVN) is required to enter the country. This passing FAVN remains valid as long as they are in the country. A copy of the report must be presented. If a copy of the titer is not presented, Turkey may require a 21-day quarantine and rabies titer testing upon arrival. The owner is responsible for the incurred costs. In addition, the FAVN will be required if there is an evacuation through Germany.3. An APHIS endorsed health certificate (APHIS Form 7001) must be completed within 10 days of travel. A U.S. Army veterinarian CAN endorse the APHIS 7001 Health Certificate in place of the USDA veterinarian.4. Original rabies certificate5. An ectoparasite treatment effective against ticks to be administered within 30 days of travel.6. An anthelmintic treatment effective against tapeworms to be administered within 30 days of travel.Pets must be registered at the Incirlik Veterinary Treatment Facility (VTF) within 10 days of arrival. Contact information is 314-676-3119 or email usaf.incirlik.39-mdg.mbx.vtf-vet-clinic@health.mil. In addition, per Turkish customs, the animal also must be registered with the Ministry of Adana.End of tour, return to CONUSIt may be difficult to re-enter the U.S. due to travel restrictions from high-risk rabies endemic countries such as Turkey and requirement to use commercial air. Plan your return at least 6 months prior to your Turkey departure. U.S.-vaccinated dogs and foreign-vaccinated dogs from high-risk rabies countries have additional documentation requirements. Dogs must be at least 6 months of age. The U.S. requires a CDC Dog Import Form. They must have a valid U.S.-issued rabies vaccination certificate and a U.S.-issued Rabies Vaccination form in order to re-enter the U.S. The form can be found at https://www.cdc.gov/importation/brining-an-animal-into-the-united-states/apply-dog-import-permit.html. If the rabies vaccine is administered in a foreign country, the dog must have a Certificate of Foreign Rabies Vaccination and Microchip form completed by an official Turkish government veterinarian. Foreign vaccinated dogs must have a reservation at a CDC-registered animal care facility. If you do not have a valid rabies serology titer, this must include a 28-day quarantine reservation. The dog is only permitted to enter the U.S. Visit https://www.cdc.gov/importation/dogs/us-vaccinated-high-risk-countries.html for the most recent requirements.For a pet to exit the country via commercial flight, they will need a Turkish Health Certificate from a Turkish veterinarian and have it processed at the Ministry of Adana 48-hours prior to departure. These cannot be provided by the on-base veterinarian. It is recommended that a U.S. health certificate is also prepared by the Incirlik Veterinarian to help with interstate travel. Be prepared to spend over $200 per pet for permitting costs alone.

7. PRIVATELY OWNED FIREARMS (POF)

8. PRIVATELY OWNED VEHICLES (POVs)

In accordance with the Turkish Customs Circular, a POV is defined as all kinds of motor vehicles used for personal and non-commercial purposes, as well as caravans and trailers that can be used with them. Due to strict inspection regulations, POVs can't have modified vehicle parts, such as lift kits, Glasspack Muffler system, large vehicle tires, etc. Air Force:Advance approval is not required and authority to ship a POV must be stated in the members PCS order and must cite authority's correspondence. Contact PPSO Incirlik GBLOC: UQAZ 39 LRS INCIRLIK AB, ADANA, TURKEY for POV questions. Other Services, please contact your HQ Services for POV shipment information.

a. POVs (includes data on prohibited vehicles, colors, etc.)

DOD Personnel for INCIRLIK: AIR FORCE ACTIVE-DUTY PERSONNEL: Incirlik AB policy restricts operation and registration to (1) POV per active-duty member meeting the above criteria without regard to whether the vehicle is shipped as a POV or as household goods (HHG). : Shipment of (1) POV is authorized for person O-1, E-7, GS-5, and above regardless of tour length. Additionally, all personnel serving tour lengths of 24 months or longer are authorized shipment of (1) POV. Motorcycles and gasoline powered mopeds are considered POV's for Turkish Customs and can be shipped with HHG. IZMIR and ANKARA: All members are authorized (1) POV shipment, government storage is not authorized. If you chose not to ship your POV, storage fees are not reimbursable.According to Turkish Customs rules of the unity of family, joint spouse assignments to Turkey are considered one family unit and each family unit is only allowed a maximum two vehicles on their Turkish Customs records (USAFE Form 554 NATO Beyanname). Joint spouses may have the vehicles put on their separate Turkish Customs records (NATO Beyanname) and use their separate entitlements to ship their vehicles in and out of Turkey at government expense. Except motorcycles and gasoline powered mopeds shipped as HHG, second POV shipments of all other accompanied members are not entitled at government expense. Individuals who ship second vehicles to and from Turkey are required to comply with all Turkish Customs requirements concerning shipment of a POV at their own expense (such as hiring a commercial customs representative, paying transit, storage, and port fees, etc). Any additional POVs including motorcycles and 4-wheelers will have to be reshipped to the place of origin at the member's expense. Selling POVs in Turkey: Turkish Customs Beyanname laws state the Turkish Government

retains the right to approve or disapprove the sale and or transfer of POV. Members anticipating doing so while assigned to Turkey are required to submit a request to the Turkish Ministry of Customs. The decision process takes approximately 6-8 weeks at a minimum. For this reason, members must start the process a minimum of 3 months prior to their departure, otherwise, the member can anticipate delays when clearing Beyanname. Members shipping a vehicle that does not meet US Environmental Protection Agency (EPA) and the Department of Transportation (DOT) standards in addition to the above requirements are informed of the following options to consider when members are unable to sell and or transfer their vehicles: dispose of their vehicle by obtaining a Customs Broker, which fees can be very expensive, or ship the vehicle back to CONUS and pay the cost of conforming the vehicle back to US EPA DOT standards which is also very expensive. Turkey DOES NOT have commercial POV storage facilities available and will not allow POVs to be stored without being registered.Registration and Operation. POV registration (including motorcycle and MOPED) is a lengthy and costly process. It can take up to 3 months to register and cost around $1,500. Member must possess a valid driver's license and apply for a NATO smart card immediately upon arriving on station and notify the Pass & ID Office to begin the POV registration

b. MOTOR CYCLES/MOPEDS

Motorcycles and mopeds are considered POVs and must adhere to the same policies stated above in section 8. (1) Motorcycle Moped Safety Requirements: At least one mirror is mandatory. (b) Brakes must work. (c) Lights: Any installed light system must work. (2) Motorcycles: Headlight, brake light, and license plate light are required. (3) Mopeds: Small (under 50 cc) mopeds are only required to meet bicycle standards (headlight and rear reflector); larger mopeds must meet motorcycle standards. (a) Body: Free of rust, dents, scratches, etc. (b) Windshield: Not required, but if installed it must be free of cracks, etc. (c) Horn: Must work. (d) Safety Items: Motorcycles require first aid kit. Mopeds no requirements. (e) Motor and chassis number: Same as automobiles. (f) Motorcyclist driver's license and Safety foundation course (specialty state equivalent) is required and must remain valid through the duration of their tour as a training program is not stood up for Incirlik.BE ADVISED: Member's motorcycle rider safety training must remain valid through the duration of their tour as a training program is not stood up for Incirlik. Registration timeline and cost mentioned in section (8a) also apply to motorcycles. E-Bikes & E-Scooters are not considered POVs and are authorized transportation in HHG shipment WITHOUT the batteries. Shipment of lithium batteries of all types and sizes are PROHIBITED.

c. GASOLINE/CATALYTIC CONVERTERS

Removal of catalytic converters is no longer recommended since unleaded gas is available throughout Turkey.

d. INSURANCE AND SAFETY REQUIREMENTS

A safety inspection is part of the initial vehicle registration process in Turkey. Re-inspections are conducted every 2 years for automobiles and every year for vans and trucks. If any deficiencies are noted during the initial inspection, inspection will start all-over. In addition to automobile requirements, trucks and vans must have mudflaps on both rear wheels. (1) Exterior: Must be free of rust, holes, dents, and scratches, and must be in good condition and clean. (2) Windshield: Free of cracks, holes, etc. (3) Lights: (a) Headlights must be identical in size and color. High beams must be capable of illuminating 20 meters. Low beams must be in working condition. (b) Safety lights must be in working order. (c) Turn indicators, parking lights, brake lights, and a license plate light are

required. (4) Exhaust System: The muffler must be free of holes and must be noiseless. The exhaust pipe should be pointing back or to the left side, not the right side (not bent down or up) and must extend to the edge of the rear bumper. (5) Trailer Hitch: Must be removed from the vehicle, unless you have trailer in Turkey, then you must register the trailer at the same time you register the vehicle. (6) A horn is required; however, air horns, musical horns, and excessively loud horns are prohibited. (7) Wheel Alignment: (8) Brakes: The brakes on all wheels must engage when the brake pedal is applied. (a) Hand Brakes: Must be strong enough to hold car in place when low gear is engaged, and gas is lightly applied. (9) Safety items required at inspection point: (a) Two warning reflectors. (b) First aid kit. (c) Flashlight. (d) Towing wire. (e) Snow chains for tires (unavailability acceptable at non-snow areas). (f) Spare tire. (g) Extra bulbs for headlight, parking, signal and stop lights. (h) Fire extinguisher. (10) Side and rearview windows: Must be free of cracks and in working condition. All windows glass must be transparent from inside and outside. (11) Windshield wipers: Must work. (12) Doors: Must work. (13) Motor and chassis identification numbers: Must have both numbers on vehicle, number must be readable, and vehicle owner must know where numbers are to show the inspectors at the inspection station. Indication of location of motor number on engine block on the DD 788 Form is advised non-availability of motor number on DD 788 may delay customs clearance at the entry ports. TURKISH CUSTOMS REQUIRES ACCURATE VIN AND MOTOR NUMBERS IN ADVANCE OF VEHICLE ARRIVAL - PLEASE HAVE THIS INFORMATION WITH YOU AT TURN-IN AND PICK-UP PROCESSING. FAILURE TO PROVIDE AN ACCURATE MOTOR NUMBER WILL SIGNIFICANTLY DELAY THE CUSTOMS CLEARANCE OF YOUR VEHICLE - TURKISH CUSTOMS WILL SEND YOUR VEHICLE TO AN OFFICIAL MECHANICAL ENGINEER FOR MOTOR NUMBER VERIFICATION. YOU WILL INCUR ALL ASSOCIATED COSTS FOR THIS SERVICE (APPROXIMATELY 120-150 TL). (14) Windows should not be filmed. Factory tint (smoke or light tone) is permitted.

9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

Special considerations and appeals are not permitted under Turkish Customs laws. Turkish Customs law prohibits pictures, engravings, publications, advertisements, photographs, movie pictures, or other obscene documentation against decency and shame. Personnel should be counseled on this prohibition. Turkish customs may seize pornographic material, if shipped.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

12. SEPARATEES/RETIREES ENTITLEMENTS/LIMITATIONS

Transportation Officers must ensure the GBL states Retirement Shipment Separation Shipment or Early Return of Dependent (ERD) as applicable. DoD personnel who are shipping under ERD, retirement or separation orders and ship their personal property on a GBL, are exempt from the customs agreement between the United States Government and Foreign countries. ERD, separatees, or retirees will clear HHG thru Turkish Customs on their own. Members in these categories must contact the nearest Turkish Consulate or Embassy or call destination TMO in Turkey to verify the updated responsibilities and restrictions. If the seperatee retiree has a spouse or dependent who holds a Turkish Passport and wants to use special privileges of importing household goods into Turkey duty-free; they should have the Turkish Consulate approval stamped on the residence and or work permission documents (of two years or over permanent residency stationing out of Turkey) before arriving in Turkey. Turkish passport holder name should be indicated in block 18 on the GBL and final manifest, and the origin port agent should indicate Turkish passport holder name on ocean bill of lading and final manifest, in order to clear customs. Members are to check with Turkish Consulate or Embassy for updated importing procedures on HHG and POV.

13. OTHER

DOD MEMBERS: Military and DoD Civilians should not relocate dependents to Turkey for a follow-on location assignment until they have PCS NATO orders. Dependents will not be covered under the NATO-SOFA agreement and will not be able to receive a NATO Beyanname to clear Turkish Customs. Members who send their dependents to Turkey without being assigned to Turkey and do not have NATO orders will be responsible for HHG, Vehicle shipment, customs broker, customs fees, and duties even if their dependents are Turkish citizens. Personal Property Offices should not process a DD Form 1299 for members unless the member has PCS NATO orders to Turkey. Intratheater household goods shipments destined to Turkey must be containerized. There is no commercial storage in-transit facilities suitable for storage of loose lot household goods within Turkey. 8. PRIVATELY OWNED VEHICLES (POVs)

POVs CANNOT arrive before the member's arrival.

a. POVs (includes data on prohibited vehicles, colors, etc.)

No restriction on size or weight. POVs can be cleared through customs before the arrival of the owner. Registration starts after the owner has been accredited by Ministry of Foreign Affairs of Turkmenistan.1. Turkmen law restricts the importing of vehicles into the country that are older than 5 years from the date of manufacture on the date of their arrival.Yes, the employee can ship the vehicle manufactured in 2012 (not the model) till the end of 2017. Keeping in mind that the transportation of vehicles from the U.S. to Ashgabat takes 2-3 months we DO NOT recommend that you ship vehicles manufactured in 2011 in order to try to catch the deadline which is the end of 2016.2. Turkmen law also restricts vehicles (cars, trucks, motorcycles, special vehicles and machinery) damaged in a traffic accident and not conforming to traffic regulations.Yes, the vehicle

which has visible body damage and is in need of repairing cannot be imported.3. The required annual re-registration of diplomatic-plated vehicles carries the same 5-year import restriction. Thus you should not plan to import a POV older than 5 years on the date of its arrival.Once the vehicle is imported into the country the registration can be extended annually even if the vehicle will be older on the date of departure of the employee. The employee also can sell the vehicle (older than 5 years) to another DIPLOMAT accredited in Turkmenistan.4. Factory-installed window tinting (50%) is allowed on the back window and rear-passenger seat windows only. After-market tinting is prohibited.Yes, the vehicle with tinted windshield and the front window glasses is not allowed to be imported. Only 50 % tinting of the rear passenger window glasses is allowed. After-market tinting is prohibited. 5. Vehicles of any age may be imported into the United Arab Emirates (UAE). Please note that all vehicles still must pass a vehicle inspection upon arrival regardless of age. The vehicle inspection consists of a check of safety features, e.g. ensuring that headlights, brakes, brake lights and turn signals are in operating order. Careful attention is also given to the appearance

of the body of the vehicle, which will be scrutinized for rust, dents and scratches. A vehicle will likely fail inspection if the body shows any sign of rust or other damage, including severe scratches. Although these repairs can be made at post, the employee will be required to obtain a permit from the Abu Dhabi Traffic Police Headquarters to enable a local repair shop to accept a vehicle for body work or painting. Window Tinting should not exceed 30%.nbsp;nbsp;The UAE law stipulates that any film or tinted glass allows less than 30% VLT (Visible Light Transmission) is illegal. That means tinting must be less than 30% and 70% light must passes through the windows. The vehicle must be left-hand drive. Pick-up truck type vehicles are not allowed to import as POV.

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

PERSONAL PROPERTY: **Please ensure this document is completely reviewed (sections 2-13) for UK prohibited, restricted and revenue items.**US Military Forces and civilian personnel on official duty in the UK are permitted duty free importation privileges for goods for personal use. The May 2015 version of the DD Form 1434 (United Kingdom Customs Declaration for the Importation of Personal Effects of the US Forces Civilian Personnel on duty in the UK) must be utilized only for those active duty and civilian personnel meeting the criteria, and a copy of the inventory must accompany each shipment for Customs purposes; shipments cannot be released for delivery until Customs procedures are complete. The DD Form 1434 has been extensively modified to include updated UK legislation concerning the importation of knives, weapons, goods subject to import duties taxes, and to address the increase in the import of prohibited restricted items by Service personnel. These changes are designed to protect members of the US. Forces by ensuring the declaration is understood, complete and accurate. The 2015 version of DD Form 1434 has 3 signature blocks; all must be signed.Be specific in item description within inventories; avoid generic entries such as knick-knacks, miscellaneous, stuff, souvenir, sports goods, plaque and pro-gear. Full Country Instructions should be reviewed for limits that may be applied, for example duty free vehicle limits shown in 8. Privately Owned Vehicles {POVs). Shipments for dependents (designated location moves, including British Nationals), retirees, separatees, and bluebark shipments are not permitted Visiting Forces duty free importation privileges. These members must review guidance on Transfer of Residence (ToR) Relief at https://www.gov.uk/guidance/transfer-of-residence-to-great-britain, and complete Transfer of Residence (ToR) Relief (ToR0l) process if eligible. Personnel should read through the contents which includes importing goods, pets and private motor vehicles. The application is required to be made PRIOR to shipping goods. The form can be found at https://www.gov.uk/guidance/application-for-transfer-of-residence-relief-tor1. Successful ToR applicants will receive a unique reference number (URN) from HMRC which their customs agent will need to complete the import process.Carriers are responsible for the customs transit documentation for all movements across international borders. Form 302 is NOT appropriate for transit to or from a personal property agent's premises, to include when entering a bonded warehouse.All prohibited and restricted items will be removed by HMRC/UKBF prior to delivery. Review appropriate section of Country Instructions (eg Consumables, Privately Owned Firearms – which includes knives and swords) prior to attempting to make any shipment. Seized goods are at serious risk of being destroyed. A member with a prohibited or restricted item in their shipment is in violation of UK law. PREPARATION AND DISTRIBUTION OF THE DD FORM 1434 (UNITED KINGDOM CUSTOMS DECLARATION FOR THE IMPORTATION OF PERSONAL EFFECTS OF THE US FORCES CIVILIAN PERSONNEL ON DUTY IN THE UK) Preparation: Before completing the DD Form 1434, member MUST read Country Instructions, ensuring any restricted, prohibited or revenue items are not shipped, or are declared if included in a shipment. Failure to declare any prohibited, restricted, non-restricted or revenue items on the DD Form 1434 is in violation of UK law. (a)The servicing Personal Property Office will provide the DD Form 1434 to the member and ensure an original and sufficient copies are prepared and provided to the carrier as outlined below. (b)The member's original signature must be in blue or black ink on each copy. Digital, reproduced or carbon copy signatures are strictly prohibited. Guidance on completion of the DD Form 1434: a. Block la - Enter member name only. The use of dependent name or any other person name, regardless whether a power of attorney is involved or not, is strictly prohibited, and will not be accepted.

(c)Block 5 Declarations -Ensure member reads all relevant areas within Country Instructions and declares any items within UK meaning of weapons, firearms, revenue items or other prohibited or restricted goods. (d)In unusual or emergency situations, if the member is not available to sign the DD Form 1434, the origin JPPSO PPSO PPPO must notify the destination PPPO the shipment is moving without the completed DD Form 1434 and request the member complete the form on

arrival.

3. CONSUMABLES

“No restrictions identified.”

a. ALCOHOLIC BEVERAGES

Alcoholic beverages are restricted items but may be shipped as part of the personal property shipments of the member during the initial phase of movement to the UK. Guidance to HMRC personnel for indicative limits of personal use are:15L beer10L spirits90L (120 bottles wine)If alcoholic beverages are included in personal property shipments they must be declared on the DD Form 1434 and an inventory be providing listing alcohol, name, country of origin, year, size of bottle, in the case of wine whether red/white etc., alcohol% and cost. The goods must be for the personal use of the entitled member, must not be sold, lent of gifted. Should HMRC not be satisfied personal use applies for all or some of the beverages, or a collection change ownership at any point then the excise duty and tax will become payable. Army Personal(U5330-l)Alcoholic Beverage Transportation Personally procured transportation and Government- arranged transportation of alcoholic beverages is not authorized unless the member provides a copy of the final destination state permit, paid invoice for the state taxes or a letter of exemption from the state Alcohol Beverage Control (ABC) Board at the time of counseling

b. CIGARETTES/TOBACCO PRODUCTS

Cigarettes and tobacco products are restricted items and should not be shipped. Cigarettes tobacco products included in a personal property shipment must be declared on the DD Form 1434. Members will be assessed duty and shipments will not be released until duty has been paid in full.

c. COSMETICS

“No restrictions identified.”

d. FOOD STUFFS AND MEATS

a.FOOD STUFFS AND MEATS1.Products containing meat including ham, bacon, sausage, pate, poultry, fish shellfish, eggs, milk and other products with a dairy content, honey, gelatin and pet food are prohibited items and cannot be shipped to the UK. This includes canned products.

2.Authorized foodstuffs must be placed into the number one container of personal property shipments destined to the UK and clearly identified on the personal property inventory. Generic, non-specific entries (foodstuffs, food etc., are not to be used). Shipment containing foodstuff of any type may be opened for inspection by UK Port Health Authorities which will delay delivery to the member. To prevent delays, recommend food items not be shipped with personal property destined to the UK. 3.Plants, parts thereof, and plant produce including trees and shrubs, potatoes and certain other vegetables, fruit, bulbs, and seeds are prohibited items that cannot be shipped into the UK.

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

Controlled drugs (which include: opium, heroin, morphine, cocaine, cannabis (marijuana), amphetamines and lysergic acid (LSD)) are prohibited items that cannot be shipped into the UK. Ensure any medicines included in personal property shipments are listed by name on inventory

4. ELECTRICAL EQUIPMENT

"No restrictions identified."

a. HOME COMPUTERS

"No restrictions identified."

b. TVs/VCRs

A . TVs/VCRs: 11! valid TV License is required if TV receiving equipment is used to watch or record television programs as they're being shown on TV. This includes a TV, computer, mobile phone, games console, digital box, DVD VHS recorder or any other device. Current cost can be found at http: www.tvlicensing.co.uk .

c. OTHER (i.e. COMPATIBILITY, ETC)

TVs/VCRs: Electrical appliances: Not all economy homes have the appropriate connections for washers, dryers, refrigerators and freezers. If you live in off-base housing, a transformer is required to convert the electric current from 240 volts to 110 volts. Electrical appliances such as toasters, electric frying pans, broilers or appliances relying on heating elements will operate on 50 cycle electrical current. This will cause some electrical appliances to operate slower and slightly warmer. Service life of these items may be reduced.

5. FURTNITURE, OVERSIZED

Anyone moving to the UK should seek the advice of their sponsor when determining suitable furniture for British homes. Most homes are small; large American size furniture may not fit into some rooms. Narrow staircases and passageways may prevent placement of the furniture into the appropriate rooms.

6. PETS/QUARANTINE

Updated 7 May 2025.Per: HQ AMC/A4TPU.K. - Pet information***Please refer to https://www.gov.uk/bring-pet-to-great-britain/print for the most up to date information. You can also receive more information from your local installation's veterinary clinic. Another resource is the United States Department of Agriculture's (USDA) website https://www.aphis.usda.gov/pet-travel/us-to-another-country-export/pet-travel-us-united-kingdom-great-britain-england-scotland.Limitations to consider before travel:It is against the law in the United Kingdom (UK) to possess Pit Bull Terrier, Japanese Tosa, Fila Brasileiro and the Dogo Argentino breeds. Extra-large bully dogs are banned in England and Wales. Crossbreeds of these dogs are also not allowed. One can apply for a Certificate of Exemption for your banned dog. For full and current information, view the Government of UK's "Banned Dogs" website at https://www.gov.uk/control-dog-public/banned-dogs. It is highly recommended that members do not import any crossbreed dog which may be included in the above description. All dog owners should review the UK's Government website regarding UK law on the control of dogs at

https://www.legislation.gov.uk/ukpga/1991/65/contents.Transportation Considerations:Pets can only enter the UK by plane as cargo using a pet shipper or they can be driven into country from the continent. Pets must be flown into an approved port. This will need to be coordinated through whichever commercial carrier is used. Please use https://www.gov.uk/bring-pet-to-great-britain/travel-routes-pets for more information. The Patriot Express is not an approved commercial airline that can be used to transport pets at this time. Service members must book a flight via a commercial airline to transport pets as cargo using a pet shipper. Check with TMO to make sure these airlines are approved. A full list of approved commercial airlines that transport pets in the hold of the plane can be found at https://www.gov.uk/government/publications/pet-travel-approved-air-sea-rail-and-charter-routes-for-the-movement-of-pets/approved-air-routes-for-pet-travel.There is a 4-month quarantine requirement for dogs and cats entering the UK if they do not meet the pet travel rules listed. This does not apply to stopovers that do not go through customs as long as the pet arrives and leaves within 28 hours and stays in a holding facility at the port or airport. Owners must book an authorized quarantine carrier to transport your cat or dog if it arrives and leaves from a different port or airport. All incurred costs are the pet owner's responsibility. NOTE: Department of Defense (DoD) members relocating to/from the UK are highly encouraged to visit their departing Transportation Office and Veterinary Clinic for any information they may need.Vaccination Requirements:1. Dogs- Valid rabies vaccination given no less than 21 days prior to arrival. Only a one-year rabies is accepted.2. Cats- Rabies. Only a one-year rabies is accepted.Additional Requirements:1. ISO compliant microchip (15-digit microchip). This must be placed prior to the rabies vaccine administration.2. A USDA APHIS-endorsed U.K. Health Certificate. An APHIS endorsed health certificate (APHIS Form 7001) must be completed within 10 days of travel. A U.S. Army veterinarian CAN endorse the UK Health Certificate in place of the USDA veterinarian. Current requirements at https://www.aphis.usda.gov/pet-travel/us-to-another-country-export/pet-travel-us-united-kingdom-great-britain-england-scotland. The completed health certificate MUST be endorsed by the United States Department of Agriculture (USDA) after the tapeworm treatment (dogs only) has been done. This should be documented on the UK health certificate by a veterinarian. The easiest way to get this done is to use a military veterinary treatment facility and if you are not near a military vet, then the forms will need to be sent to the USDA for certification via the USDA website above. This health certificate is only valid for 10 days.3. Signed non-commercial declaration located at https://www.gov.uk/government/publications/pet-travel-declaration-for-the-non-commercial-movement-of-animals.4. Pet passport only if PCSing to UK from EU (not needed if you have a health certificate).5. Tapeworm treatment (for dogs only).6. Use of a pet shipper to fly cargo.7. May require a FAVN (rabies titer blood test) if flying from a high-risk rabies country. Talk to your veterinarian. Must be submitted to an EU-approved laboratory and submitted 3 months prior to travel.End of Tour/ Return to CONUS:The U.K. is considered a low-risk rabies country. Follow CDC procedures at https://www.cdc.gov/importation/dogs/rabies-free-low-risk-countries.html

7. PRIVATELY OWNED FIREARMS (POF)

DEFINITION: Privately Owned Firearms including imitation and airsoft type and other weapon related items. A. WEAPONS RECOMMENDATION: It is strongly recommended that no firearms, parts of firearms, imitation or replica firearms, ammunition (live or inert) or other weapons are imported to the UK. B. 5. Individual trophies - includes -swords-knives-firearms-firearms parts are still considered weapons and could be prohibited or restricted for importCannon barrels and aircraft cannon barrels are prohibited items and should not be included in shipments to the UK.

POSSESSION AND LICENSING OF RIFLES SHOTGUNS 1. Importation or possession of handguns(pistols revolvers) is a criminal offense under British law. Only certain firearms may be permitted in the UK. The likelihood that local constabularies will license any firearm is extremely low. 2. All firearms (including BB guns, air weapons, etc) are subject to inspection on arrival. The member and carrier must ensure firearms are placed in the number one container for easy access by Customs/Border officials. They must also be properly identified on the DD Form 1434 (Section Sb). Failure to declare firearms on the DD Form 1434 is an offense punishable under the UCMJ.

8. PRIVATELY OWNED VEHICLES (POVs)

a. POVs (includes data on prohibited vehicles, colors, etc.)(1) Single or unaccompanied married members, US Forces Military, and civilian personnel, are allowed to import or purchase one (1) duty free vehicle, including mopeds, motorcycles and off-road bikes. Accompanied members with spouse are allowed to import or purchase two (2) duty free vehicles. (2) Only one vehicle may be shipped per active duty service member or DOD employee at Government expense. The importation allowance has no bearing on the one POV per active duty member shipping entitlements.

(3) Where importation allowance under HMRC Form 941 is exceeded, member may be eligible to apply for Transfer of Residence Relief for duty free import. Otherwise, members exceeding the importation allowance will be assessed a valuation duty by HMRC. The current duty is 25 percent of the current UK market value of the vehicle. This percentage is subject to change. Payment must be made prior to taking possession of the vehicle. (4) Motor vehicles (including mopeds and motorcycles) cannot be customs cleared until the member arrives on station and completes HMRC Form 941. This form is only available in the UK and is issued by the Security Police Pass and Registration Section (or similar agency) at each installation. Members with excess vehicles who wish to apply for Transfer of Residence Relief should commence application prior to arrival (https://www.gov.uk/guidance/transfer-of-residence-to-great-britain). (5) (5) Motorcycles and

mopeds shipped in household goods must be clearly identified on the DD Form 1434, and packed in a separate container to prevent the members entire shipment from being delayed while HMRC/UKBF locates and removes the motorcycle from the shipment. These are included in 1 and 2 above for the purpose of calculating the number of vehicle allowed. (6)Effective 30 June 2017. Frontal protection systems (e.g. Bull bars, push bars) on vehicles must be EU approved in order to ship to the UK. Approved equipment will bare an indelible stamped or engraved EU compliant marking in a visible location while mounted on the vehicle (Example: el 011471) a. Vehicles with non-EU approved frontal protection systems due to after-market modifications may not be shipped to the UK. b. All vehicles are subject to testing for safety validation prior to being permitted to be taxed and insured in the UK; please review information regarding lights in 3.b. below prior to arranging shipping but be aware many US-specification vehicles are successfully imported by members.c. Military or DOD civilian personnel and their dependents must possess a USAFE Driving Fuel Permit (USAFE Form 435). The permit is issued to those personnel possessing a valid US driving license, the host country license, another country license, or a permit issued by another military authority. See USAFE 51-712 and installation information/instructions regarding training requirements (local driving conditions). c. UK provisional license (learners permit) and UK operators license (drivers license) may be obtained, but the process is costly and the exams are generally regarded as one of the most difficult in the world. 2.d. To operate a motorcycle moped in the UK, all personnel (military, DOD civilian, and dependents) must ascertain Command and/or installation requirements, to include testing. 2. Required documents to pickup vehicles from the water port: a. Proof of UK insurance.b. USAFE Driving Fuel Permit (USAFE Form 435) (variations apply for Navy personnel and British/international license holders). c. DD Form 788.d. Extra setof keys. 3.Vehicle Registration and Testing: All vehicles must be registered with the appropriate security police pass and registration office within 72 hours after pickup from the port. a. Any vehicle 3-years-old or older must receive a test prior to base registration. Testing is more detailed than stateside inspections, more details can be found at https://www.gov.uk/getting-an-mot Repairs required to pass testing can be very expensive.

a.Most US vehiclesmust undergo major changes or additions to the vehicle lights, specifically the headlights, turn signals, white front park lights, and rear fog lights. The cost of the light conversion on some newer model POVS can be expensive or nearly impossible to convert. Recommend owners with newer model vehicles check with US vehicle dealership about the light conversion prior to shipping vehicle. c. Testing is mandatory and must be performed before a vehicle can be taxed

and licensed in the UK. The British Department of Transport will only accept original state title, US Government {DD Form430) or foreign Government titles as proof of ownership before the vehicle can be taxed and licensed in the UK.

d. INSURANCE AND SAFETY REQUIREMENTS

1. Operation and licensing requirements:a. Before a motor vehicle can be operated on UK highways each operator must be properly insured.b. Military or DOD civilian personnel and their dependents must possess a 3AF Driving Fuel Permit (3AF Form 435). The permit is issued to those personnel possessing a valid US driving license, the host country & and a poss license, another country and poss license, or a permit issued by another military authority (i.e., SF Form 46 or US Forces Japan) and after completion of a local driving conditions course.c. UK provisional license (learners permit) and UK operators license (drivers license) may be obtained, but the process is costly and the exams are generally regarded as the most difficult in the world. To operate a motorcycle moped in the UK, all personnel (military, DOD civilian, and dependents) must have an endorsement on their stateside drivers license reflecting they can operate a motorcycle (this statement covers mopeds). They must also attend course seven and satisfactorily complete a hands on driving test conducted by a certified ground safety instructor in the UK. Each installation commander may establish other requirements and testing. Personnel without a stateside motorcycle license or an endorsement may operate a motorcycle moped after satisfactorily completing a safety course in the UK. Dependents without a stateside license will have to obtain a United Kingdom provisional and then a United Kingdom operator's license.*NOTE: Navy personnel are not required to possess a 3AF Driving Fuel Permit (3AF Form 435), or attend safety course seven.2. Required documents to pickup vehicles from the water port:a. Proof of UK insurance.b. 3AF Driving Fuel Permit (3AF Form 435) (except Navy personnel and British international license holders).c. 9. SEXUALLY EXPLICIT/PORNOGRAPHIC MATERIAL

A. SEXUALLY EXPLICIT MATERIALS: Sexually Explicit Materials are prohibited items that cannot be shipped into the UK. For material to be considered sexually explicit and within the prohibition it must clearly show sex acts taking place {i.e. penetration or oral contact with the genitals must be clearly shown). Simulated scenes where the point of penetration etc. is not in camera view are not considered obscene. In more unusual areas, such as bondage or sado-masochism, key factors would be tying up in unnatural positions, the use of gags, and the depiction of violence in a sexual context{e.g., graphic torture andrape). *NOTE: The restrictions apply to all mediums, videotapes, magazines, cinematography films, computer disks, CD-ROM, laser disk, etc. B. MATERIAL DEPICTING VIOLENCE: This must be visually explicit to bring it within the prohibition. Shipments containing articles portraying excessive violence against humans and animals such as scenes of decapitation, excision of limbs, gouging of eyes, cannibalism, garroting, torture, and dog fighting may not be imported. In general terms, scenes of mutilation are considered to fall within the prohibition. In particular, graphic scenes of violence against women also fall within the scope. When considering this type of material, it is useful to compare scenes found in legally produced 18 rated UK videos.Comparisons should not be made with scenes in films shown at the movie theater. The criteria applied to films for movie theater presentation is not as strict as for video material where access by children cannot be effectively controlled. NOTE: The restrictions apply to all mediums, video tapes, magazines, cinematography films, computer disk, CD-ROM, Laser disk, etc.

10. STUFF WILD LIFE/ANIMALS AND PLANT RESTRICTIONS

A. WOOD: Wood with bark attached {including such wood in the form of carvings, rough furniture etc.) are restricted items and should not be shipped without consulting the appropriate UK agencyB. a. Personnel on the diplomatic list may import duty-free UB, HHG, and POV in accordance with weight regulations and in reasonable quantities for their own use at any time during their assignment to Uruguay. b. Shipments arriving before the member's arrival in country are held at the port of entry. Although the Government of Uruguay (GOU) will not grant final clearance until member is in the country and has been accredited with GOU, paperwork can be put in process before his/her arrival. The Foreign Ministry requires a copy of the packing list translated into Spanish. Therefore: (1) When possible, schedule all shipments to arrive on or shortly before the member's expected date of arrival in Uruguay. (2) All shipments are subject to customs inspection. Uruguay requires the original commercial bill of lading or the airway bill to initiate customs clearance. Mail original OBL/airway bill and legible copies of the packing lists/inventories to: American Embassy ATTN: GSO (Shipping Assistant) Unit 4514 APO AA 34035-4514 TMO may also use international courier (DHL, FEDEX, etc.). 7. PRIVATELY OWNED FIREARMS (POF)

a. Prior approval of the Chief of Mission and Chief, ODC are necessary. Submit a written or cabled request to the Ambassador and to the ODC through the Regional Security Office (RSO) including the make, model, type, caliber, gauge, and serial number. The RSO will forward the post's response by letter or cable. The importation process may not begin until the post's response has been received. Firearms may be transported in household effects but not mailed. All employees wishing to import weapons must demonstrate they are qualified in the use of each specific weapon to be imported and must be recertified at regular intervals. Uruguayan Government approval for the importation of privately-owned firearms and ammunition must also be obtained from the foreign and defense ministries. Permission to import firearms from the Foreign Ministry serves as registration. Members who have not received prior approval to ship firearms to Uruguay or those who have yet to receive permission from the Government of Uruguay, must deliver the weapons and the ammunition to the RSO for storage in the Embassy until such approvals are obtained. Personal firearms brought into the country must be shipped out at the end of the assignment. Personal firearms cannot be sold, presented as gifts, or traded to host or third-country nationals to include members of other diplomatic missions. However, such firearms may be sold or presented as gifts to other AMCIT members of this mission with the prior written approval of the Chief of Mission. b. Official firearms are defined as those weapons owned by the US Government of personally-owned firearms that are authorized for use by employees serving in security, law enforcement, military, or similar positions and required in the performance of their official duties. Personal firearms are those weapons owned by an employee and intended for sport, i.e., hunting and target shooting. Personnel are not authorized to carry firearms outside their residences/offices or personal status without prior written authorization of the Chief of Mission. c. 5. FURTNITURE, OVERSIZED

No restrictions identified.

6. PETS/QUARANTINE

All pets entering Venezuela require a health certificate issued by a veterinarian within the last 12 months certifying that the animal is free from infectious or contagious diseases, including rabies. Certificate must be accompanied by a letter from the US Department of Agriculture certifying that the person signing the health certificate is a veterinarian. A Venezuelan Consul must stamp and sign the certificate and letter. There is a $50 fee per pet for this service. Documents must accompany the pet when shipped. Pet owners should also check with the airlines to ensure US health certificates are current and meet country and airline requirements.There are presently no quarantine requirements for pets arriving in Venezuela.

7. PRIVATELY OWNED FIREARMS (POF)

Firearms authorized shipment in UB/HHG must be packed separately from other personal property in the shipment, and positioned in the container such that they are readily accessible for examination by Customs when required. We do not recommend routine importation of firearms unless specific use is anticipated. To import firearms into Venezuela, the Embassy must be notified as far in advance as possible. Prior approval by American Embassy, Regional Security Office (RSO), and Chief of Mission is required. Give full details of weapons to include owner's certificate showing when and where firearm(s) was purchased and intended use.Based on this information, the Embassy will apply for an import permit. If the permit is approved, the Embassy will arrange customs clearance. The following firearms qualify for importation:

a. HAND GUNS

Automatic pistols 6.35, 7.65 and revolvers 32 and 38.

b. RIFLES/SHOT GUNS

Smooth-bore shotguns, limited to not more than two (2) shots, 12-16-20-28 and 410 gauge and 22 caliber rifles.

c. TOY RELATED GUNS

No restrictions identified.

d. OTHER (i.e. AMMO, EXPLOSIVES, ETC)

No restrictions identified.

8. PRIVATELY OWNED VEHICLES (POVs)

Venezuelan government has decided to disallow any eight cylinder vehicles into the country.NOT ALLOWED TO IMPORT ANY ARMORED VEHICLE.NEED AUTHORIZATION TO IMPORT ANY VEHICLE FROM THE MINISTRY OF FOREIGN AFFAIRES.

a. POVs (includes data on prohibited vehicles, colors, etc.)

1. Effective April 2006, POVs five or more model years old may not be imported.2. Only one POV can be imported duty -free per three-year tour. The vehicle must arrive in country within the first six months of member's tour.3. Upon receipt of permanent change of station (PCS) orders specifying assignment to Venezuela, military personnel and DOD civilians must establish immediate contact with their new units of assignment in order to obtain written approval for shipment of their POV to Venezuela. Personnel being assigned/attached to USMILGP Venezuela should contact the CDR, or Transportation Officer, USMILGPVEN, APO AA 34037-0008. Personnel being assigned/attached to the US Defense Attache Office should contact the US Defense Attache Office, American Embassy, APO AA 34037 -0008. Member's request for importation of POV (message or letter format) must contain, as a minimum, the following information: make/model, year, serial number, body color, number of doors, engine size, and number of cylinders. All eight (8) cylinder engine vehicles are prohibited for import to Venezuela. Obtain written approval from the Embassy Regional Security Officer (RSO) prior to shipping 4x4 vehicles. 4. Port authorities will not accept a POV for shipment to Venezuela unless the service member or civilian involved presents, with the request for POV shipment, either a message or a letter from the GSO, American Embassy, Caracas, or (For military/DOD personnel) the USMILGP-VE CDR or Transportation Officer authorizing the shipment of the POV. This message or letter will be addressed to the member and should contain a precise list and complete description of the POV involved (to include all information in paragraph 8a(3) above). Address markings for all POVs are as follows: DO NOT CONSIGN TO ADDRESS ON ORDERS (CH) American AmbassadorAmerican EmbassyATTN: Embassy Customs & Shipping (Mariangelica Parma Customs and Shipping Inbound Assistant)Caracas, Venezuela,FOR: Name of Owner (i.e., SFC K.Bremer-USDAO). (CH)NOTE 1: It is very important that the FOR: line come at the end. Placing it at the beginning will ensure that the VE Authorities will treat as a personal and individual shipment and not an official one. NOTE 2: According to VE Law, the Embassy can clear all "DIRECT" shipments or in other words, all shipments consigned to the Embassy. 5. It is

important that the POV be shipped on/about the week of or week after the employee departs to Venezuela. Not before! The employee must be in country and become accredited through the Foreign Ministry before the POV can be cleared through Customs and the Port Authorities. Accreditation takes about two (2) weeks after the employee arrives at post. If the employee ships his/her vehicle and it arrives before the employee does or before he/she can become accredited, the POV will remain in port accumulating "fees" and storage charges. The Embassy recently had an instance where the "fees and charges" were in excess of $8,000. If the vehicle remains in port for more than 30 days it is considered abandoned and under VE law, the vehicle will be sold to recoup the "fees".6. To alleviate considerable customs clearing difficulties, the American Embassy requires the original negotiable copy of the ocean bill of lading (OBL) prior to arrival of POV at destination port. Mail original OBL to GSO, American Embassy, Caracas, Venezuela, APO AA 34037 - 0008. We recommend use of courier service to ensure documents arrive in a timely manner. If possible have the carrier's agent in Venezuela issue the OBL locally. 7. The original bill of lading must be sent to Embassy, preferably via FED EX or DHL. The APO, although normally a reliable means, has proven to be extremely slow. The Embassy cannot use copies to clear the vehicle. It is not accepted by the VE Authorities. Another reason for delay could cause the vehicle to be abandoned. Please use the following address: Embajada de Los Estados Unidos de AmericaATTN: Customs and Shipping Office (GSO)Calle F con Calle SuapureColinas de Valle ArribaCaracas Venezuela 1080All communications or documents for POVs only can be forwarded via USPS and APO to: American Embassy-GSOATTN: Customs and Shipping (POV)APO AA 34037

a. WEIGHT RESTRICTIONS

In accordance with governing regulations.

b. CONTAINER/CRATING REQUIREMENTS

No Restrictions Identified.

c. HARD LIFT AREA

No Restrictions Identified.

d. UNACCOMPANIED BAGGAGE

Please be careful when packing magnetized materials (including speakers of any size) in your UAB. Some posts may allow magnetized items in your UAB to Hanoi, but you cannot ship them out in your UAB from Hanoi per the airport security regulations from the Civil Aviation Administration of Vietnam (CAAV). They can be shipped in the HHE only. (CH USTC Pacific J9, 23SEP24, TF)

2. CUSTOMS CLEARANCE PROCEDURES, REQUIREMENTS, AND RESTRICTIONS

Importation of antiques or replicas, particularly of Asian Art are likely to present a problem upon departure from Vietnam even if the items are declared upon arrival. Cultural items such as books, tapes, CDs and videos will require special handling because of host government restrictions. They will trigger extra scrutiny if labeled as such, rather than as miscellaneous household items.

3. CONSUMABLES

1. Please refer to the JTR and JTR Supplement AP-CG-01, to determine the service member or employee eligibility for a consumable allowance and weight and if the destination Country and/or City is an Authorized Consumable Goods Allowance Location. 2. Authorized Consumable Goods Allowance Locations. The JTR Supplement AP-CG-01 identifies locations for DOD or DOS. Locations established by DoD apply to Service members only, locations established by both DoD and Department of State (DOS) apply to Service members and DoD civilian employees. 3. References: a. Military Service Member: JTR paragraph 052002-F and JTR Supplement AP-CG-01 for country and/or city locations.b. DOD Civilian Employees: JTR paragraph 054310 and JTR Supplement AP-CG-01 for country and/or city locations.(Changed by USTC J9-OH Pacific, 06AUG25, TF)

a. ALCOHOLIC BEVERAGES

Employees of diplomatic status are allowed to import up to 50 liters of wine/spirits per quarter and 200 liters of beer per quarter. It’s not allowable to combine the total amount of wine/spirits and beer in their whole tour to ship at once. Only sealed/unopened bottles of alcohol can be shipped and must be inventoried separately. The importation of alcohol and beer may slow down the processing of your shipment through Customs. There are Duty Free Shops where these goods can be purchased at reasonable prices after arrival at post.(CH USTC Pacific J9, 23SEP24, TF)

b. CIGARETTES/TOBACCO PRODUCTS

The Government of Vietnam restricts the importation of 20 cartons of cigarettes each quarter (1 carton has 10 packs, and each pack has 20 cigarettes) for those assigned to diplomatic duty. It’s not allowable to combine the total amount of cigarettes in their whole tour to ship at once. The importation cigarettes may slow down the processing of your shipment through Customs. (CH USTC Pacific J9, 23SEP24, TF)

c. COSMETICS

No restrictions identified.

d. FOOD STUFFS AND MEATS

Only unopened/sealed packages or containers of foods can be shipped. Only ship non-perishable food items (No fresh food). (CH USTC Pacific J9, 23SEP24, TF)

e. MEDICAL (NARCOTICS)/PHARMACEUTICAL PRODUCTS

Only pack a reasonable amount of medical / pharmaceutical products for personal use. (CH USTC Pacific J9, 23SEP24, TF)

4. ELECTRICAL EQUIPMENT

No Restrictions Identified.

a. HOME COMPUTERS

No restrictions. If you plan to utilize a Home Computer you may also want to procure a Uninterrupted Power Supply(UPS) to protect you equipment.

b. TVs/VCRs

The voltage in Vietnam is 220 volt, 50 cycles. Television uses Phase Alternate Lines(PAL). Star TV and CNN are available via satellite and antenna. An American TV or VCR with NTSC, 110 volt, 60 cycles will more than likely play, but will not receive local broadcasting. However, NTSC televisions can be modified locally to receive PAL. Most video cassettes available commercially are NTSC, however. Post therefore recommends multi-system televisions and VCRs.(CH 26-Feb-2016 SDDC-PAC RB)

c. OTHER (i.e. COMPATIBILITY, ETC)

No restrictions identified.

5. FURTNITURE, OVERSIZED

No restrictions identified.

6. PETS/QUARANTINE

The Government of Vietnam (GVN) permits one owner (single or family) to import up to two pets. These pets, however, must not be listed in the Red Book by CITES.REQUIRED DOCUMENTS:1. Copy of the employee's dip passport. 2. Health certificate:APHIS-7001 notarized by USDA if pets originally travel from USA. If importing pets directly from another country, use that country's official form or a letter on the letterhead of a licensed veterinarian. The certificate should be issued as close as possible to the date of travel, but not more than 14 days prior to travel indicate the following information: Name, Breed, Color, Age, Country of Origin, name of the employee as owner. The certificate should state that the pet is healthy and free of parasites.3. Rabies record: A rabies shot must be given at least 30 days and be valid upon pet arrival. It should also show the inoculations that the pet has been given including the type, manufacturer, and batch number if possible.4. Airway bill with the consignee as follows (if pets arrive as cargo):Employee full name (exactly as your dip passport)American Embassy7 Lang Ha, Ba Dinh, Ha NoiTel:+8424 3850 5000 x6394Email: HanoiCustomsAndShipping@state.gov5. Upon pet arrival, the original health certificate, rabies record and the owner's dip passport must be presented. If the examining officer agrees that the pet is healthy, a Vietnamese certificate of health for the pet will be issued and the pet will be released to the owner. If the examining officer questions the health of the animal, it will be held pending further examination.a. If pets travel as cargo, please DO NOT have them to arrive on the weekends as no Customs agent will be available to release the shipment.b. Above are the documents required by the GVN upon the pet's arrival at post. Remember to check with the Airlines about their own policies and whether there are any further documents needed for your pets.6. Pet travel is the sole responsibility of the employees. Employees can hire an expeditor on their own and pay out of pocket for the service.The Embassy's recommended pet expediting company is:HAV AviationHead Office: Room 303, ALS Cargo Terminal, Noi Bai International Airport, Soc Son, HanoiHotline: +84 943 448 898 (24/24h) | Hand Phone: +84 936

Vehicles with structural modifications resulting in changes to the original dimensions/specifications (such as wider tires, lift kits, winch attachments, etc.) and disassembled vehicles are forbidden to be imported.5. An automobile must meet all the GVN technical requirements in the attachment below.6. Required documents:a. One (01) original for the following documents: Certificate of Title, Certificate of Registration or Deregistration (for used vehicles), Bill of Sales (for new vehicles), and Shipping Invoice. They are required under the employee’s name and employees MUST hand carry to Post.b. One (01) copy for the following documents: Certificate of Quality and Certificate of EURO 5.7. If you decide to bring a POV into Vietnam, you must have at least 18 months validity on your Diplomatic ID card (from the date of issue by Ministry of Foreign Affairs). Diplomatic ID validity is based on length of tour or validity of diplomatic passport, whichever one is shorter. It is highly recommended to obtain your diplomatic passport validity throughout the entire duration of your tour in Vietnam. Please contact HanoiCustomsAndShipping@state.gov for more details.8. You are required to provide the following information: vehicle make, model, color, number of seats,

manufacturing date, country of manufacturing, current mileage, engine and frame number, VIN, engine cubic capacity (CCs or Liters), fuel type (gasoline or diesel) so that a determination can be made on the import eligibility of the vehicle.(CH USTC Pacific J9, 23SEP24, TF)
